**ACCUGRADE COMPACTION
MACHINE CONTROL & GUIDANCE - PEORIA, IL**Ship Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade GNSS Systems for the Caterpillar Compactor product family.

AccuGrade is a high technology earthmoving tool allowing operators to measure (in real-time) and document both soil compaction and fine grade accuracy without the use of traditional stakes or grade checkers. Using advanced GNSS technology, machine mounted components, and a GNSS base station; this state of the art system provides compaction information on an in-cab display. Operators improve their productivity by achieving the required compaction in fewer passes.

AccuGrade is designed for a wide range of earthmoving applications including highway construction and site development.

The Global Navigation Satellite System (GNSS) offers the ability to create complex 3-D designs. An Off-board local GNSS base station uses GNSS and Real Time Kinematic (RTK) technology to provide high accuracy in both the horizontal and vertical planes between the GNSS base station and the machines by transferring GNSS correction information over the entire work site (up to 10 km). Design plans are easily transferred to and from the machines via a PC compact flashcard.

This technology allows components to be easily added or removed. This "Plug and Play" capability allows the machine to be easily switched between technologies and for the components to be moved among AccuGrade Attachment Ready Option (ARO) equipped machines to suit the job requirements.

Glossary of Acronyms

ARO = Attachment Ready Option
CAN = Control Area Network
GNSS = Global Navigation Satellite System (GPS + GLONASS)
GPS = Global Positioning System
RPM = Revolutions Per Minute
RTK = Real Time Kinematic

Available only in USA, Canada, France, Germany, and Norway.

EAME ORDERS MUST BE MADE THROUGH ANTARES and NOT CMOPS.

EAME ORDERS ENTERED THROUGH CMOPS WILL NOT BE PROCESSED.

Australian and New Zealand dealers: Please use ANTARES/DBS to view the corresponding AUD prices that will be used for invoicing.

Invoicing will be handled by the Parts system and shipment will be sent to the dealer parts department. Please communicate to your parts department to expect both the invoice and shipment.

**ACCUGRADE EXCAVATOR CONTROL SYSTEM
MACHINE CONTROL & GUIDANCE - PEORIA, IL**Ship Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade Laser, GNSS, and UTS Control systems for the Caterpillar hydraulic excavator product family.

The AccuGrade Excavator System is a high technology earthmoving tool that allows increased accuracy without the use of traditional stakes or grade checkers.

AccuGrade HEX is an indicate only system consisting of both machine-mounted and off-board components. Together these components form a control system. Using Laser, GNSS or UTS technology, machine mounted components, and off-board systems, this state-of-the-art machine control system provides precise elevation information on an in-cab display to achieve accurate bucket tip positioning.

The AccuGrade Laser system offers simple set-up and operation. A tripod-mounted off-board laser transmitter emits a beam of laser light that rotates 360 degrees creating a grade reference over the work area. A digital laser receiver hard mounted on the excavator stick detects the laser beam and stores this elevation reference information. Integrated sensors on the front linkage calculate the kinematics and location of the bucket tip with respect to a bench mark and the laser reference and send real-time information to the operator. This information is displayed in the cab, indicating cut or fill requirements with respect to planar (flat, sloped, etc.) surfaces.

The AccuGrade GNSS system offers the ability to utilize guidance with respect to complex 3-D designs. An Off-board local GNSS base station uses GNSS RTK positioning data to provide high accuracy in both the horizontal and vertical planes between the GNSS base station and the machines by transferring GNSS correction information over the entire work site up to 10km / 6.2 miles.

AccuGrade UTS is another 3D earth moving system used to define positioning information on the excavator and is ideal for applications where line of site to the constellation of GNSS satellites is obstructed. The 3D position of the machine mounted prism is determined by using the Trimble UTS Construction Total Station. UTS uses active target technology to reliably lock onto and track the prism. UTS is perfect for dynamic applications as it features high update rates, low latency, distance measurement and synchronized angle capabilities. The 3D position of the target is combined with machine measurements and slope/angle sensor outputs to provide accurate bucket tip positions.

3D design plans are transferred to and from the machines via a PC compact flashcard or sent remotely via radio and the below mentioned wireless communication option key.

AccuGrade's immediate feedback eliminates overcutting or undercutting helping achieve complex design and precise slope and depth control in fewer cycles. The 3D system cut and fill values are computed by comparing the position of the bucket tip or cutting edge with the preloaded project design.

Attachment Ready Option (ARO)

An ARO allows the addition of an AccuGrade system by providing sensors, harnesses, mountings, etc. on the machine from the factory. Please consult the Machine Control and Guidance attachment section in the Excavator price lists for ARO ordering instructions. ARO's are only available as a Factory Installed option. If the excavator does not have a Factory Installed ARO, contact your dealer AccuGrade specialist or Caterpillar Technical Solution Representative(TSR) for possible field installed options.

Glossary of Acronyms

ARO = Attachment Ready Option
GNSS = Global Navigation Satellite System (GPS + GLONASS)
GPS = Global Positioning System
HEX = Hydraulic Excavator
PSC = Position Sensing Cylinder system (GPS + GLONASS)
RTK = Real Time Kinematic
UTS = Universal Tracking Sensor

MACHINE CONTROL AND GUIDANCE***LASER TRANSMITTER and TRIPOD***

To use and calibrate the AccuGrade laser grade control systems, an off-board laser transmitter and tripod are required. The tripod should be adjustable and capable of elevating the laser transmitter above the cab(s) of the AccuGrade equipped machines. The laser transmitter that must operate at a minimum of 600 RPM, is capable of working with multiple AccuGrade equipped machines at the same site.

Caterpillar recommends using one each of the following items that are available through your local SITECH/Trimble dealer.

GL722 Transmitter, case, and accessories
 Tripod Leg Set
 Elevating Base
 Base Adapter

GNSS BASE STATION and OFF-BOARD RADIO

A Caterpillar AccuGrade GNSS system requires and is designed to work specifically with a Trimble "off-board" radio network and base station matching the frequency of the Caterpillar on-board radio(s). Use of the Trimble SPS850/851 Extreme GNSS Base Station is recommended.

UTS TOTAL STATION for MT900 TARGET ASSEMBLY

The MT900C requires a Trimble Universal Total Station. Caterpillar recommends using the following items that are available through your local SITECH/Trimble dealer.

Trimble SPS930 Universal Total Station
 ACU with SCS900
 Power Supply (Battery/AC)

NOTE: The MT900 cannot use 450 or 900 MHZ radios

ACCUGRADE GRADE CONTROL SYSTEM MG MACHINE CONTROL & GUIDANCE - PEORIA, IL

Ship Weight
lbs

LIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade Cross slope, Sonic, Laser, GNSS, and UTS Control Systems for Caterpillar Motor Grader product family.

AccuGrade is a high technology tool that allows operators to fine grade with increased accuracy without the use of stakes or grade checkers. Using advanced Laser, GNSS, UTS, or ATS technology, AccuGrade provides precise elevation information on an in-cab display to achieve accurate blade positioning. By automatically controlling the lift and tilt of the blade, operators improve efficiency and get to grade faster and in fewer passes.

AccuGrade is designed for a wide range of applications requiring tight tolerances and high production rates. The Laser system is ideal for fine grading of roads requiring a precise crown as well as sites with flat, single, or dual slope surfaces, such as industrial, commercial, and residential applications while the GNSS, UTS, and systems are ideal for complex 3-D designs such as superelevated roadways.

The Cross Slope system allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road.

The Sonic system uses a blade mounted ultrasonic sensor to follow an existing surface, typically either a stringline or an existing curb. The blade elevation is controlled by the sonic sensor, while the cross slope maintains the desired crown of the road. This system is useful for new road construction or road rehabilitation.

The Laser system offers simple set-up and operation. A tripod-mounted off-board laser transmitter emits a beam of laser light that rotates 360 degrees creating a grade reference over the work area. A digital laser receiver mounted on a telescopic mast above the machine's cutting edge detects the laser beam. With the cutting edge placed at the finish elevation, the electric mast automatically positions the laser receiver within 1.5 mm of the center of the laser beam. As the blade moves above or below finish grade elevation, correction information is sent to the in-cab display that shows the blade's position relative to grade and indicates cut or fill requirements.

The Global Navigation Satellite System (GNSS) offers the ability to create complex 3-D designs. An Off-board local GNSS base station uses GNSS and Real Time Kinematic (RTK) technology to provide high accuracy in both the horizontal and vertical planes between the GNSS base station and the machines by transferring GNSS correction information over the entire work site (up to 10 km). Design plans are easily transferred to and from the machines via a PC compact flashcard.

UTS is a precise 3D earth moving system ideal for producing fine or finished grade surfaces. The 3D position of the machine mounted prism is determined by using the Trimble UTS Construction Total Station. UTS uses active target technology to reliably lock onto and track the prism. UTS is perfect for dynamic applications as it features high update rates, low latency, distance measurement and synchronized angle capabilities. The 3D position of the target is combined with machine measurements and cross slope component outputs to provide accurate blade tip positions. The cut and fill values are computed by comparing the position of the blade against the preloaded design.

LASER TRANSMITTER and TRIPOD

To use and calibrate the AccuGrade laser grade control systems, an off-board laser transmitter and tripod are required. The tripod should be adjustable and capable of elevating the laser transmitter above the cab(s) of the AccuGrade equipped machines. The laser transmitter that must operate at a minimum of 600 RPM, is capable of working with multiple AccuGrade equipped machines at the same site.

Caterpillar recommends using one each of the following items that are available through your local SITECH/Trimble dealer.

GL722 Transmitter, case, and accessories
 Tripod Leg Set
 Elevating Base
 Base Adapter

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	----------------------	--------------------	--------------------------

MACHINE CONTROL AND GUIDANCE (CONT.)***GNSS BASE STATION and OFF-BOARD RADIO***

A Caterpillar AccuGrade GNSS system requires and is designed to work specifically with a Trimble "off-board" radio network and base station matching the frequency of the Caterpillar on-board radio(s). Use of the Trimble SPS850/851 Extreme GNSS Base Station is recommended.

UTS TOTAL STATION for MT900 TARGET ASSEMBLY

The MT900C requires a Trimble Universal Total Station. Caterpillar recommends using the following items that are available through your local SITECH/Trimble dealer.

Trimble SPS930 Universal Total Station
ACU with SCS900
Power Supply (Battery/AC)

NOTE: The MT900 cannot use 450 or 900 MHZ radios

AccuGrade SOFTWARE ENABLED ATTACHMENT (SEA)

Consult machine sales model price pages to determine if the AccuGrade SEA is required. The AccuGrade SEA provides access to the Machine's Automatic Electro Hydraulic (EH) Control System. The SEA is Dealer installed only. Connection to the machine through the Caterpillar Electronic Technician (Dealer Version) is required.

NOTE: H and K series Motor Graders do not require an SEA.

NOTE: Refer to Information Release Memo (IRM) EES03-01 (PELJ0138) in the Electronic Sales Library for further explanation of SEAs. Select the Product Support tab and search for media number PELJ0138. Refer to REHS1238 for how to obtain a Factory Level Password. Contact FPS: Internet with Corporate Web Security (CWS) (<https://fps.cat.com/>).

SEAs cannot be ordered in either CMOPS or ANTARES. They can only be ordered using the Factory Password System (see instructions above).

**ACCUGRADE OFFICE SOFTWARE
MACHINE CONTROL & GUIDANCE - PEORIA, IL**Ship Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade Office imports 3D design data, converts data for use on AccuGrade GNSS/UTS equipped machines, validates the data and exports data to AccuGrade equipped machines either directly or via email using PC compact flashcards that are inserted into the AccuGrade display.

Creates new level and sloping surface designs as well as simple road designs.

Organizes design surfaces, linework, site maps, avoidance zones, display and machine configuration data files.

Includes a 3D terrain simulator and a display emulator to review designs prior to exporting the data to the machines.

The Wireless option allows:

- wireless data transfer to and from machines

- retrieval of display screen snapshots and diagnostic reports
- sending of text messages to AccuGrade GNSS/UTS equipped machines using Easy IP wireless site infrastructure

The Production software module provides productivity information for machines equipped with Caterpillar's CD700 Version 11.0 Display. Features include:

- Calculate and summarize earthwork volumes
- Displays an "as-built" cut and fill site map
- Ability to export earthwork data to spreadsheets and other formats for further analysis (.xls, .csv, .html, and .txt files)
- Wide specific country coordinate system support

The Compaction option permits viewing of machine compaction data including:

- compaction value measurements
- number of compactor passes
- compaction data detail for each cell
- filter compaction detail by compactor and date

MACHINE CONTROL AND GUIDANCE***WIRELESS EASY IP SITE INFRASTRUCTURE (order from Trimble Dealer)***

AccuGrade Office Wireless Option requires a Wireless Easy IP Site Infrastructure. This equipment must be ordered from the Trimble dealer. The off-board radios should match the frequencies of the Caterpillar on-board radio kit. Wireless Option CANNOT USE 450 MHZ On-Board radios. A Caterpillar supplied On-board radio kit is also required. A selection of on-board radio kits is listed in the radio section of the ACCUTTT1, ACCUMG1, ACCUCOM, ACCUWTS, and ACCUHEX price lists.

Caterpillar recommends consulting your local Trimble dealer to determine the site infrastructure requirements for the wireless option. The site infrastructure requirements may vary based on desired configuration.

PERSONAL COMPUTER MINIMUM REQUIREMENTS

Pentium IV 1.6 GHz or faster processor

512 MB RAM (1GB RAM for Microsoft^a Windows^a VISTA operating system)

Graphics card with 32 MB or more of video memory and Direct 3D acceleration support

Internal or External CD Drive

Approximately 5 GB spare disk space

One of the following operating systems:

Microsoft^a Windows^a 2000 (Service Pack 4 or later)

Microsoft^a Windows^a XP (Service Pack 2 or later)

Microsoft^a Windows^a VISTA

Internet Explorer 6 or later

Internal or External Compact Flash Card port to prepare data cards

Ethernet port is required for wireless sites

A serial port may be required to program the wireless Easy IP site infrastructure.

ACCUGRADE SKID STEER LOADER SYSTEM MACHINE CONTROL & GUIDANCE - PEORIA, IL

Ship Weight
lbs

LIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade Laser Grade Control System for the Caterpillar C-Series family of Skid-Steer, Multi-Terrain, and Compact Track Loaders.

The AccuGrade SSL System is a grade control system that regulates the Auxiliary Hydraulic of the machine. Designed to be used with the Level Best Para-Level laser grading box blade, AccuGrade SSL allows increased accuracy and productivity without the use of stakes or grade checkers.

AccuGrade SSL is a fully automated, single-laser control system consisting of a state-of-the-art laser-guided elevation sensor that provides precise elevation information to the machine's ECM to achieve accurate real-time blade positioning. The in-cab AMICS display shows vital system information to the operator and allows the operator to configure the system.

The AccuGrade SSL system offers simple set-up and operation. An off-board, tripod-mounted laser transmitter emits a beam of laser light that rotates 360 degrees creating a grade reference over the work area. The laser receiver mounted on the mast of the box blade detects the laser beam and stores this elevation reference information. This information is displayed in the cab, indicating cut or fill requirements with respect to planar (flat, sloped, etc.) surfaces. In automatic control mode, the system automatically positions the box blade to achieve the desired grade.

AccuGrade's immediate feedback eliminates overcutting or undercutting helping achieve complex design and precise slope and depth control in fewer cycles.

Glossary of Acronyms

AMICS = Advanced Machine Information Control System
CTL = Compact Track Loader
ECM = Electronic Control Module
GCR = Grade Control Ready
MTL = Multi-Terrain Loader
SSL = Skid-Steer Loader

NOTE: Only available in USA, Canada, and Australia.

English publications only available at this time.

Australian dealers: Please use ANTARES/DBS to view the corresponding AUD prices that will be used for invoicing.

Invoicing will be handled by the Parts system and shipment will be sent to the dealer parts department. Please communicate to your parts department to expect both the invoice and shipment.

MACHINE CONTROL AND GUIDANCE

Grade Control Ready

Starting in August 2010, every C-series machine is grade control ready and does not require an Update Harness.

Please refer to the serial number breaks below for machines that do not require the harness.

Model - Serial number

246C - JAY02116 and up
 256C - DWS01581 and up
 262C - MST03520 and up
 272C - RED02116 and up
 277C - JWF02334 and up
 279C - MBT01498 and up
 287C - MAS01955 and up
 289C - JMP01344 and up
 297C - GCP01657 and up
 299C - JSP01135 and up

All C-series SSL, MTL, & CTL machines with earlier serial numbers can be easily fitted with the update harnessing required to support the AccuGrade system. Please consult the machine price for the corresponding model for instructions on ordering the appropriate update harness.

Advanced Machine Information Control System (AMICS) Display

The AccuGrade SSL System requires the C-Series machines to have the AMICS display. For machines that do not have this display, a separate display kit is available from the machine price page.

For information on this product, inquire with your marketing representative.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	----------------------	--------------------	--------------------------

MACHINE CONTROL AND GUIDANCE (CONT.)***LASER TRANSMITTER and TRIPOD***

To use and calibrate the AccuGrade laser grade control systems, an off-board laser transmitter and tripod are required. The tripod should be adjustable and capable of elevating the laser transmitter above the cab(s) of the AccuGrade equipped machines. The laser transmitter that must operate at a minimum of 600 RPM, is capable of working with multiple AccuGrade equipped machines at the same site.

Caterpillar recommends using one each of the following items that are available through your local SITECH/Trimble dealer.

GL722 Transmitter, case, and accessories
 Tripod Leg Set
 Elevating Base
 Base Adapter

Box Blade

The AccuGrade Grade Control System for Skid-Steer Loaders has been designed and tested with a single-cylinder box blade. Caterpillar recommends using the Level Best Para-Level box blade to ensure the best and most accurate results are achieved when using the AccuGrade system. Please refer to the Skid Steer Loader Work Tool Price Page (WT-SSL) for details on ordering the recommended box blade for this system.

AccuGrade Software Enable Attachment (SEA)

The AccuGrade SEA enables the AccuGrade system to be operational on a machine with the AccuGrade hardware installed. The SEA is dealer installed only. Connection to the machine through the Caterpillar Electronic Technician (Dealer Version) is required. Once connected, select the configuration screen and AccuGrade SEA parameter. Set the parameter to "Installed" and record the screen information. The dealer will log onto the Caterpillar Factory Password (FPS) or call phone support to obtain the Factory Level Password. Enter the ET configuration information into FPS and record the password. Reconnect to ET and enter the password into the configuration screen.

NOTE: Refer to Information Release Memo (IRM) EES03-01 (PELJ0138) in the Electronic Sales Library for further explanation of SEA's. Select the Product Support tab and search for media number PELJ0138. Refer to REHS1238 for how to obtain a Factory Level Password. Contact FPS: Internet with Corporate Web Security (CWS) (<https://fps.cat.com/>).

**ACCUGRADE GRADE CONTROL SYSTEM TTT
MACHINE CONTROL & GUIDANCE - PEORIA, IL**Ship Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade Laser, GNSS, and UTS for the Track Type Tractor product family.

AccuGrade is a high technology tool that allows operators to fine grade with increased accuracy without using stakes or grade checkers. Using advanced Laser, GNSS, or UTS technology, AccuGrade provides precise elevation information on an in-cab display to achieve accurate blade positioning. By automatically controlling the lift and tilt of the blade, operators improve efficiency and get to grade faster and in fewer passes.

AccuGrade is designed for a wide range of applications requiring tight tolerances and high production rates. The Laser system is ideal for fine grading sites with flat, single, or dual slope surfaces such as industrial, commercial, and residential applications while the GNSS and UTS systems are ideal for complex 3-D designs such as superelevated roadways.

The Laser system offers simple set-up and operation. A tripod-mounted off-board laser transmitter emits a beam of laser light that rotates 360 degrees creating a grade reference over the work area. A digital laser receiver mounted on a telescopic mast above the machine's cutting edge detects the laser beam. With the cutting edge placed at the finish elevation, the electric mast automatically positions the laser receiver within 1.5 mm of the center of the laser beam. As the blade moves above or below finish grade elevation, correction information is sent to the in-cab display that shows the blade's position relative to grade and indicates cut or fill requirements.

The Global Navigation Satellite System (GNSS) offers the ability to create complex 3-D designs. An Off-board local GNSS base station uses GNSS and Real Time kinematic (RTK) technology to provide high accuracy in both the horizontal and vertical planes between the GNSS base station and the machines by transferring GNSS correction information over the entire work site (up to 10 km). Design plans are transferred to and from the machines via a PC compact flashcard.

UTS is a precise 3D earth moving system ideal for producing fine or finished grade surfaces. The 3D position of the machine mounted prism is determined by using the Trimble UTS Construction Total Station. UTS uses active target technology to reliably lock onto and track the prism. UTS is perfect for dynamic applications as it features high update rates, low latency, distance measurement and synchronized angle capabilities. The 3D position of the target is combined with machine measurements and cross slope component outputs to provide accurate blade tip positions. The cut and fill values are computed by comparing the position of the blade against the preloaded design.

AccuGrade's automatic blade control feature can precisely control the lift and/or tilt of the cutting edge. Based on correction signals, a dual hydraulic control valve automatically raises or lowers the blade to maintain its elevation for precise grade control and optimum productivity.

A machine mounted Controller Area Network (CAN) provides the communication network for all components which allows them to be easily added or removed depending on the application. This "Plug and Play" capability allows the machine to be easily switched between technologies and/or for the components to be switched between AccuGrade Ready Option (ARO) equipped machines to suit the job requirements.

Dealer Installed AccuGrade ARO kits are available for the D8T Tier 4 and support CB460 display. These kits require no cutting or breaking the hydraulic lines, only welding of the blade mast mounts.

The kit includes:

1. Mounting assembly and display adapter plate for the display/control box in the center dash console
2. Joystick with AccuGrade switches
3. AccuGrade ARO wiring harnesses
4. Electrical connectors for blade mounted receivers and sensors
5. Mounting bracket for data radio
6. Blade mast mounting plates for left and right mounts

A PM400 power module and related harnesses are NOT included but are required for electric masts for use with LASER or UTS systems. See the POWER MODULE section for ordering instructions.

Refer to REHS4640 for kit installation instructions.

MACHINE CONTROL AND GUIDANCE (CONT.)**POWER MODULE**

The power control group is required for machines that will utilize LASER or UTS systems. For scalability, Caterpillar recommends the addition of the power control group on tractors where the power module is not included in the AccuGrade ARO. Dealers should order the following items as needed. Order the PM400 power module and wiring harnesses as indicated below for your particular machine model.

The power module and harnesses are already included in the factory ARO and dealer installed ARO kits on the following models: D3K/K2, D4K/K2, D5K/K2, D6K, D6N (Tier 3), and D7E (Tier 4).

Contact SITECH dealer for ordering these harnesses.

ELECTRONICS and INFRASTRUCTURE

Contact SITECH/Trimble dealer to order displays, radios, receivers, base stations, and related hardware.

AccuGrade SOFTWARE ENABLED ATTACHMENT (SEA)

Consult machine sales model price pages to determine if the AccuGrade SEA is required. The AccuGrade SEA provides access to the machine's automatic Electro Hydraulic (EH) Control System. The SEA is dealer installed only. Connection to the machine through the Caterpillar Electronic Technician (Dealer Version) is required. Once connected, select the configuration screen and AccuGrade SEA parameter. Set the parameter to "Enabled" and record the screen information. The dealer will log onto the Caterpillar Factory Password (FPS) or call phone support to obtain the Factory Level Password. Enter the ET configuration information into FPS and record the password. Reconnect to ET and enter the password into the configuration screen.

NOTE: Refer to Information Release Memo (IRM) EES03-01 (PELJ0138) in the Electronic Sales Library for further explanation of SEA's. Select the Product Support tab and search for media number PELJ0138. Refer to REHS1238 for how to obtain a Factory Level Password. Contact FPS: Internet with Corporate Web Security (CWS) (<https://fps.cat.com/>).

SEA's cannot be ordered in either CMOPS or ANTARES. They can only be ordered using the Factory Password System (see instructions above).

AT FACTORY

Standard Equipment:

MACHINE CONTROL AND GUIDANCE

AccuGrade GNSS Control System for the Caterpillar Wheel Tractor Scraper product family.

AccuGrade is a high technology tool that allows operators to increase accuracy without the use of stakes or grade checkers. Using advanced GNSS technology, AccuGrade provides precise elevation information on an in-cab display.

The Global Navigation Satellite System (GNSS) offers the ability to create complex 3-D designs. An Off-board local GNSS base station uses GNSS and Real Time Kinematic (RTK) technology to provide high accuracy in both the horizontal and vertical planes between the GNSS base station and the machines by transferring GNSS correction information over the entire work site (up to 10 km). Design plans are transferred to and from the machines via a PC compact flashcard.

Glossary of Acronyms

ARO = Attachment Ready Option
GNSS = Global Navigation Satellite System (GPS + GLONASS)
GPS = Global Positioning System
WTS = Wheel Tractor Scraper

EAME ORDERS MUST BE MADE THROUGH ANTARES and NOT CMOPS**EAME ORDERS ENTERED THROUGH CMOPS WILL NOT BE PROCESSED.**

Australian and New Zealand dealers: Please use ANTARES/DBS to view the corresponding AUD prices that will be used for invoicing.

Invoicing will be handled by the Parts system and shipment will be sent to the dealer parts department. Please communicate to your parts department to expect both the invoice and shipment.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 Distribution Center Arrangement is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory: they are only valid to order machines from a Product Distribution Center (PDC).

LANE 1 NACD FINISH TO ORDER (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional TopCon non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional TopCon contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

AS3301C EXTEND-A-MAT SCREED - WITH REAR MOUNTED EXTENDERS

L	328-3586	SCREED, AS3301C EXTEND-A-MAT 7,850 Provides paving widths from 3.05 m (10') to 5.94 m (19'6"). Features extenders behind 10' (3.05 m) screed with vibration on all 18" deep screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: WIRING, VIBE SCREED,		\$78,420
L	277-9934	THICKNESS SCREW, CW 0 Two ACME LH threaded screws (1"-8 tpi) for control. Clockwise turn increases paving depth.		NC

AS3301C EXTENSION PACKAGES

P	327-9221	PACKAGE, PAVING WIDTH 24'2" 1,930 FOR USE WITH LANE 3 ONLY Paving Width - 24'2" Includes 3 pairs of 1' augers, two 2'4" screed extensions, pair of basic mainframe extensions, four 1' mainframe extensions, two auger bearing supports, two mainframe braces, one tube for front mounting support of reference ski, and one wrench.		\$22,940 NI

LANE SELECTION**(Must Select One)**

YOUR ORDER WILL BE LANE 2 UNLESS YOU SELECT A PACKAGE OR ATTACHMENT LISTED AS LANE 3 ONLY.

0P-9002	LANE 2 ORDER	0	NC
	Can only be ordered with Lane 2 factory arrangements		
0P-9003	LANE 3 ORDER	0	NC
	If you require a package or stand-alone attachment listed as Lane 3 select this option.		
0P-9004	LANE 4 ORDER	0	NC
	Custom Products Orders Only		

MUST SELECT MINIMUM ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must Select One)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	319-4492	NO PRODUCT LINK	0	NC
		FOR USE WITH LANE 3 ONLY		
L	327-9184	PRODUCT LINK, SATELLITE PL321	10	\$1,460 NET
		FOR USE WITH LANE 3 ONLY		
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition.		
		For use in areas with poor or no cellular coverage.		
L	341-0641	PRODUCT LINK, SATELLITE PL321	10	\$1,460 NET
		FOR USE WITH LANE 3 ONLY		
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition.		
		For use in areas with poor or no cellular coverage.		
		REQUIRES: HARD TOP CANOPY		
L	417-2615	PRODUCT LINK, CELLULAR PL421	9	\$470 NET
		FOR USE WITH LANE 3 ONLY		
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		
L	416-1451	PRODUCT LINK, CELLULAR PL522	11	\$1,025 NET
		FOR USE WITH LANE 3 ONLY		
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

OTHER ATTACHMENTS**TRUCK INTERFACE - LANE 3 ONLY**

L	327-9154	PUSH ROLLER, OSCILLATING	1,400 1,400	\$3,835 \$3,835 NI
		FOR USE WITH LANE 3 ONLY Light version for weight sensitive applications or where wide width paving is done only occasionally. FOR USE WITH: COUNTERWEIGHT, PUSH ROLLER		
L	344-1737	HITCH, HYD PREP, TRACTOR	30 0	\$1,355 \$1,355 NI
		FOR USE WITH LANE 3 ONLY Includes hydraulic valve and hoses to accept field installed truck hitch. FOR USE WITH: HITCH, HYDRAULIC TRUCK		
L	301-1468	HITCH, HYDRAULIC TRUCK	1,630 0	\$15,630 \$15,630 NI
		FOR USE WITH LANE 3 ONLY Includes truck hitch only (clamp arms with rollers) to hold truck to paver when unloading. Actuated from operator's console. REQUIRES: HITCH, HYD PREP, TRACTOR		

FRONT SUSPENSION - LANE 3 ONLY

L	327-9149	BOGIE SYSTEM, STANDARD	0	NC
		FOR USE WITH LANE 3 ONLY Front steering wheels mounted on oscillating bogies. No front wheel drive.		
L	327-9150	FRONT WHEEL ASSIST	0	\$19,740
		FOR USE WITH LANE 3 ONLY Provides hydrostatic drive of front two bogie wheels only.		
L	327-9151	FRONT WHEEL ASSIST, AWD	0	\$27,040
		FOR USE WITH LANE 3 ONLY Provides hydrosatic drive of all 4 bogie wheels for maximum traction.		

DRIVE TIRES - LANE 3 ONLY

L	124-3041	DRIVE TIRE, SAND RIB	0	\$-159
		FOR USE WITH LANE 3 ONLY Two Sand Rib tread tires. 18.00 x 25 tubeless, bias ply with 16 ply rating.		
L	277-7810	DRIVE TIRE, RADIAL	0	\$5,700
		FOR USE WITH LANE 3 ONLY Two 16.00 R25, radial, tubeless type with tread. Non-directional tire that provides higher traction.		

AUGER / FEEDER CONTROLS SENSORS - LANE 3 ONLY

P	198-8279	CONTROL, FEEDER, PADDLE	44	\$2,150 NI
		FOR USE WITH LANE 3 ONLY Includes two, proportional, contacting type, paddle sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AUGER / FEEDER CONTROLS SENSORS - LANE 3 ONLY (Cont.)**

P	294-0112	SENSOR, FEEDER, SONIC 20 FOR USE WITH LANE 3 ONLY Includes two, proportional, non-contacting type, sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. REQUIRES: AS3301C SCREED, also compatible with Weiler S2302		\$3,690 NI
P	301-0071	SENSOR, FEEDER, SONIC 0 Two, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers. REQUIRES: AS4252C SCREED		\$3,620 NI
P	278-3428	SENSOR, FEEDER, SONIC (4) 88 FOR USE WITH LANE 3 ONLY Includes four, proportional, non-contacting type, sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Augers and conveyors individually controlled for fast reaction. REQUIRES: AS4252C SCREED		\$7,240 NI

AUGER / MAINFRAME EXTENSIONS - LANE 3 ONLY

P	231-3532	EXTENSION, 6" AUGER, PAIR 0 FOR USE WITH LANE 3 ONLY For paving 10' to 14' wide. Includes a LH & RH 6" auger extension. For paving up to 3.66 m wide. Includes a pair of 152 mm auger extensions. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		\$910 NI
P	243-0329	KIT, 18" AUGER EXTENSION 474 FOR USE WITH LANE 3 ONLY Recommended if paving 14' TO 19'6" wide. Includes a pair of 6" and a pair of 1' auger extensions. Recommended if paving 3.66 to 4.27 m wide. Includes a pair 152 mm and a pair of 305 mm auger extensions. RECOMMENDED FOR USE WITH: REAR MOUNT SCREEDS w/o Wide Width Paving packages.		\$2,195 NI
P	241-9103	KIT, AUGER AND MAINFRAME EXT 1,025 FOR USE WITH LANE 3 ONLY Recommended if paving 14' to 18' wide. Includes a pair of 6" auger extensions, two pairs (4) of 1' auger extensions and a pair of foldable, hinged 2' mainframe extensions to facilitate frequent screed width changes. Recommended if paving 4.27 to 5.0 m wide. Includes a pair of 152 mm auger extensions, two pair (4) of 305 mm auger extensions and a pair of foldable, hinged 610 mm mainframe extensions to facilitate frequent screed width changes. RECOMMENDED FOR USE WITH: WEILER S2302 w/o Wide Width Paving packages.		\$4,790 NI

-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LIGHTING - LANE 3 ONLY**

P	327-9180	LIGHTS, WORKING 5 FOR USE WITH LANE 3 ONLY Four 24V halogen floodlamps. Two front and two rear facing.		\$690
P	327-9181	LIGHTS, ROADING 16 FOR USE WITH LANE 3 ONLY Includes 2 front headlamps with turn signals, 2 rear floodlamps, 2 rear turn signals with brake lamps and a license plate lamps.		\$1,095

HOPPER APRON CONTROL - LANE 3 ONLY

L	327-9155	APRON, MANUAL FOLD 0 FOR USE WITH LANE 3 ONLY Manual raise hopper apron for easy material clean-out. FOR MACHINE ORDERS MATCHING FACTORY STOCK MACHINES ONLY		NC
L	377-9244	APRON, MANUAL FOLD 174 FOR USE WITH LANE 3 ONLY Manual raise hopper apron with 60% shortened length for reduced material build up.		\$1,000
L	344-1735	APRON, HYDRAULIC FOLD 430 FOR USE WITH LANE 3 ONLY Hydraulically actuated hopper apron with bolt-in 'wings' helps contain material after truck dump and while raising hoppers.		\$5,860

HOPPER FLASHING - LANE 3 ONLY

L	327-9157	FLASHING, MANUAL FOLD 0 FOR USE WITH LANE 3 ONLY Heavy-duty black Tivar flashing to reduce material spillage from front of hopper. REQUIRES: APRON, MANUAL FOLD		NC
L	327-9158	FLASHING, HYDRAULIC FOLD 0 FOR USE WITH LANE 3 ONLY Same as above but for use with hydraulic folding apron. REQUIRES: APRON, HYDRAULIC FOLD		NC

DECEL PEDAL - LANE 3 ONLY

L	272-2384	COVER, NO DECEL PEDAL 0 FOR USE WITH LANE 3 ONLY No provision for decel pedals.		NC
L	276-0079	PEDALS, DECELERATOR 44 97 FOR USE WITH LANE 3 ONLY Two decelerator pedals, one for each operator station, that provide dynamic machine braking without having to decrease the propel speed setting.		\$1,625 \$1,625 NI

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**SCREED HYDRAULICS - LANE 3 ONLY**

L	327-9178	ADAPTER, VIBE SCREED 0 FOR USE WITH LANE 3 ONLY No provision for tamper system and includes step to access tractor from screed. FOR USE WITH: SCREED, AS3301C EXTEND-A-MAT; also works with Weiler S2302.		\$1,880
L	327-9179	ADAPTER, TAMP/VIBE SCREED 0 FOR USE WITH LANE 3 ONLY Provides hydraulics to operate the tamper system. Includes step to access tractor from screed. FOR USE WITH: SCREED, AS3301C EXTEND-A-MAT; or SCREED, AS4252C also works with Weiler S2302. REQUIRES: GENERATOR, 35 KW		\$3,750

OPERATOR ENVIROMENT - LANE 3 ONLY

L	327-9192	HARD TOP CANOPY 635 0 FOR USE WITH LANE 3 ONLY Canopy made of fiberglass provides the paver operator sun and rain protection. Raises or lowers hydraulically with a hand actuated pump.		\$8,870 \$8,870 NI
L	338-9459	WALKWAY, NO CANOPY 0 FOR USE WITH LANE 3 ONLY No fiberglass canopy installed. Rear walkway for no canopy.		\$1,050

GENERATOR SYSTEM - LANE 3 ONLY

L	327-9205	GENERATOR, 35 KW 740 FOR USE WITH LANE 3 ONLY Hydraulically-driven generator provides up to 35kW continuous A.C. electrical power at 240/120 volts at 60 Hz. Includes circuit breaker protection and internal electronic voltage regulation. High capacity provides long life and is virtually maintenance free. FOR USE WITH: ELECTRIC HEATED SCREED AND/OR AUXILIARY POWER SUPPLY PANELS		\$15,430
L	381-0373	COVER, NO GENERATOR 0 FOR USE WITH LANE 3 ONLY REQUIRES: ADAPTER, VIBE SCREED		NC

SCREED ADAPTERS - LANE 3 ONLY

L	347-7951	WIRING, VIBE SCREED 11 FOR USE WITH LANE 3 ONLY Provides 240V wiring from generator to rear of tractor. 4 Breaker Design, Ability to use 1 Outlet Panel. REQUIRES: ADAPTER, VIBE SCREED OR ADAPTER, TAMP/VIBE SCREED REQUIRES: GENERATOR, 35 KW CANNOT BE USED WITH: PANEL, POWER SUPPLY, AUX2		\$1,645
---	----------	---	--	----------------

L	347-7952	WIRING, TAMP/VIBE SCREED, 35KW 11 FOR USE WITH LANE 3 ONLY Provides 240V wiring from generator to rear of tractor. 6 Breaker Design, Ability to use 1 Outlet Panel. REQUIRES: ADAPTER, TAMPER/VIBE SCREED REQUIRES: GENERATOR, 35 KW		\$1,645
---	----------	--	--	----------------

VENTILATION SYSTEM - LANE 3 ONLY

L	327-9161	VENTILATION SYSTEM, NO CANOPY 287 FOR USE WITH LANE 3 ONLY Asphalt fumes extraction with hydraulically driven fan. Combined with engine exhaust into a single outlet stack. Required for U.S. market only.		\$7,580
L	371-9656	VENTILATION SYSTEM, CANOPY 287 FOR USE WITH LANE 3 ONLY Asphalt fumes extraction with hydraulically driven fan. Combined with engine exhaust into a single outlet stack. Required for U.S. market only REQUIRES: HARD TOP CANOPY		\$7,580

WASHDOWN SYSTEMS - LANE 3 ONLY

L	327-9167	COVER, NO WASHDOWN 0 FOR USE WITH LANE 3 ONLY No provision for washdown system.		NC
L	327-9164	PUMP, DIESEL 23 FOR USE WITH LANE 3 ONLY Provides diesel fuel supply for pressurized washdown system, taken directly from paver fuel tank. FOR USE WITH: WASHDOWN HOSE GROUPS		\$1,455
L	336-3565	TANK, WASHDOWN 85 0 FOR USE WITH LANE 3 ONLY 9.5 gallon tank with integral pump Intended for use with ecological cleaning fluids. FOR USE WITH: WASHDOWN HOSE GROUPS		\$2,810 \$2,810 NI

COMMISSIONING SUPPORT

NOTE: It is recommended that startup and commissioning of machines be included as part of the machine sale. The net charge covers a four day commissioning event. Trained personnel cover proper machine setup, basic maintenance, operation and application on a customer's jobsite. To request and schedule a machine commissioning event, dealers will need to contact the Caterpillar Paving Technical Training group by filling out the online request form.

OPERATOR ENVIRONMENT**OPERATOR ENVIRONMENT - LANE 3 ONLY**

P	187-6649	UMBRELLA, CAT 15 FOR USE WITH LANE 3 ONLY One umbrella to provide paver operator sun and rain protection. Measures 54" x 54" and is collapsible. Includes support shaft and mounting hardware.		\$169 NI
P	370-6314	WINDSHIELD, DUAL WINDOW 220 0 FOR USE WITH LANE 3 ONLY Provides a machine width folding windshield with adjustable wipers. REQUIRES: HARD TOP CANOPY AND VENTILATION SYSTEM		\$6,500 \$6,500 NI

OTHER ATTACHMENTS**OTHER TRACTOR ATTACHMENTS**

P	278-0358	HOSE, 30' WITH SPRAY WAND 37 FOR USE WITH LANE 3 ONLY Includes 30' hose, spray gun and quick-connect coupling. No reel. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$443 NI
P	278-0357	HOSE, REEL WITH WAND 50 50 Includes 30' hose on self-storing reel with spray gun mounted to handrail at rear of tractor. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$1,785 \$1,785 NI
P	273-9969	GUIDE, STEERING 33 FOR USE WITH LANE 3 ONLY Second, adjustable position steering guide with indicator chain.		\$635 NI
P	327-9188	INDICATOR, TOW POINT 6 0 FOR USE WITH LANE 3 ONLY Pair of tow point height gauges mounted on top of paver deck.		\$600 \$600 NI
P	327-9187	KIT, UPTIME 40 FOR USE WITH LANE 3 ONLY Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, relays, sensors, toggle switches, potentiometers, generator drive coupling, and relays for ESH temperature control panel.		\$1,965 NI
P	199-4206	EXTENSION, 1' AUGER LH 154 FOR USE WITH LANE 3 ONLY One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving Packages		\$715 NI
P	198-8287	EXTENSION, 1' AUGER RH 154 FOR USE WITH LANE 3 ONLY One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving Packages		\$715 NI

P	215-7553	EXTENSION, 0-2' MAINFRAME, PAIR 243 FOR USE WITH LANE 3 ONLY Consists of a pair of hinged mainframe extensions foldable from 0' to 2' to facilitate frequent screed width changes. Bolts to mainframe and can be raised or lowered with augers. Not intended to support mainframe brace. CANNOT BE USED WITH: SUPPORT, AUGER BEARING INCLUDED IN: Some Wide Width Paving Packages NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$1,195 NI
P	358-2337	EXTENSION, MAINFRAME, POWER 420 0 FOR USE WITH LANE 3 ONLY Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18") past mainframe. CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT, AUGER BEARING; EXTENSION, MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE		\$5,810 \$5,810 NI
P	393-2222	DEEP DEPTH THICKNESS KIT 86 FOR USE WITH LANE 3 ONLY Consist of two replacement Screed Lift Cylinders and two tow arm downward travel limiting blocks for paving deep depth that allow the screed to pave a thicker mat (up to 30cm). REQUIRES: AS4252C SCREED		\$2,140 NI

GRADE AND SLOPE CONTROLS

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: Electronic Controller for tow point modulation, one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3301C EXTEND-A-MAT		\$7,510 NI

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	362-8687	SENSOR, SLOPE 20 FOR USE WITH LANE 4 ONLY Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware and Slope Sensor harness. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM and AS4252C TAMPER BAR SCREED		\$2,670 NI
P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 FOR USE WITH LANE 3 ONLY Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI
P	279-2461	CONTROL, TOPCON 200 TopCon SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR USE WITH: SCREED, AS3301C EXTEND-A-MAT also works with Weiler S2302		\$17,010 NI
P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional TopCon non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional TopCon contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY**

Reference 'Optional Equipment for Asphalt Paving' QEDQ1244 for images and more details.

Each of the eight mobile grade reference divices listed below must be used in conjunction with a Grade & Slope control system.

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400	\$16,190 NI
		FOR USE WITH LANE 3 ONLY Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 8.5 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC	
P	257-6255	BEAM, SONIC AVERAGING 2,502	\$21,610 NI
		FOR USE WITH LANE 3 ONLY Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE	
P	109-5623	LEVELER, 30' OUTBOARD 2,187	\$7,610 NI
		FOR USE WITH LANE 3 ONLY 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY (Cont.)**

P	109-5622	LEVELER, 40' OUTBOARD 2,284 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.		\$7,820 NI
P	109-5624	LEVELER, INBOARD 1,702 FOR USE WITH LANE 3 ONLY 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$6,000 NI
P	109-5625	LEVELER, FORE N AFT 425 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI
P	109-5626	REFERENCE, MOBILE STRINGLINE 500 FOR USE WITH LANE 3 ONLY A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY (Cont.)**

P	109-5628	SKI, RIGID REFERENCE 30' 661 FOR USE WITH LANE 3 ONLY A 30' triangular truss rigid ski that runs directly outside of the tractor and the screed riding on the reference surface. It is towed by the paver and gets positioned midway on the paver by attaching to the front of the tractor at the push beam area and has a guide attachment on the screed that allows the ski to move vertically independent of the paver. The purpose of the rigid ski is to measure only the high spots in the reference surface and bridges the low spots that fall within the length of the ski. The resulting mat thickness is the thickness on top of the high spots. A grade sensor (not provided) can reference directly off ski or a string line mounted to the ski. Includes mounting hardware. Provides least amount of averaging compared to other grade references. Good for joint matching in highway applications. Not intended for use where optimal mat smoothness is desired or where rideability is specified.		\$3,645 NI
P	109-5627	SKI, RIGID REFERENCE 40' 882 FOR USE WITH LANE 3 ONLY SAME AS SKI, RIGID REFERENCE 30' above except for 40' triangular truss rigid ski. Capable of producing an even flatter and more level surface than the 30' rigid ski but is not as transportable.		\$4,120 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3301C EXTEND-A-MAT SCREED - WITH REAR MOUNTED EXTENDERS**

For optimal performance KIT, 457MM AUGER EXTENSION is recommended
if paving 14' - 19'6" wide.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland freight.

L	328-3586	SCREED, AS3301C EXTEND-A-MAT	7,850 7,850	\$78,420 \$78,420 NI
Provides paving widths from 3.05 m (10') to 5.94 m (19'6"). Features extenders behind 10' (3.05 m) screed with vibration on all 18" deep screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: WIRING, VIBE SCREED,				

AS3301C EXTEND-A-MAT SCREED MANDATORY ATTACHMENT SELECTION**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY****AS3301C THICKNESS CONTROL SCREWS**

L	277-9934	THICKNESS SCREW, CW	0	NC
Two ACME LH threaded screws (1"-8 tpi) for control. Clockwise turn increases paving depth.				
L	277-9935	THICKNESS SCREW, CCW	0	NC
FOR USE WITH LANE 3 ONLY Two ACME RH threaded screws (1"-8 tpi) for control. Clockwise turn increased paving depth.				

OTHER AS3301C SCREED ATTACHMENTS**AS3301C EXTENSIONS**

P	287-0328	EXTENSION, 1' SCREED ESH	183	\$4,055 NI
FOR USE WITH LANE 3 ONLY One 305mm (1ft) screed extension. Electrically heated. No vibration. ORDER QTY 2 IF EXTENSION NEEDED ON BOTH SIDES OF SCREED INCLUDED IN: 6.6m (21'6") Wide Width Paving package				

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3301C EXTEND-A-MAT SCREED - WITH REAR MOUNTED EXTENDERS (Cont.)**

P	287-0329	EXTENSION, 2'4" SCREED ESH 290 FOR USE WITH LANE 3 ONLY One 711mm (2'4") screed extension. Electrically heated. Includes vibration. ORDER QTY 2 IF EXTENSION NEEDED ON BOTH SIDES OF SCREED INCLUDED IN: 7.4m (24'2") Wide Width Paving package		\$5,140 NI
---	----------	---	--	-------------------

AS3301C EXTENSION PACKAGES

P	327-9208	PACKAGE, PAVING WIDTH 21'6" 1,730 FOR USE WITH LANE 3 ONLY Paving Width - 21'2" Includes pair of 6" augers, pair of 1' augers, two 1' screed extensions, two 2' foldable mainframe extensions, one tube for front mounting support of reference ski, and one wrench. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.		\$11,390 NI
P	327-9221	PACKAGE, PAVING WIDTH 24'2" 1,930 Paving Width - 24'2" Includes 3 pairs of 1' augers, two 2'4" screed extensions, pair of basic mainframe extensions, four 1' mainframe extensions, two auger bearing supports, two mainframe braces, one tube for front mounting support of reference ski, and one wrench. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.		\$22,940 NI

OTHER AS3301C ATTACHMENTS

P	283-5617	PACKAGE, CUT OFF SHOE 160 FOR USE WITH LANE 3 ONLY One 1' and one 2' plates to reduce paving width in 3" increments.		\$1,200 NI
P	448-9450	SCREED ENDGATE, HEATED 73 Contains 2 heater elements and 2 end gate shoes. Does not reduce heat up time on standard screed widths. Heater can not be used at the same time as mechanical extensions. Requires approximately 4 hours for installation.		\$2,325 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS4252C SCREED - WITH REAR MOUNT EXTENDERS - LANE 4 ONLY**

For optimal performance KIT, 457 MM, AUGER EXTENSIONS is recommended if paving 3.7 - 5.0 m (12'-16'5") wide.

Main screed plate and extenders are 315 mm (12") deep.

Screed plate thickness is 13 mm (0.5").

Available only with electric heat and power controls.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	351-0900	SCREED, AS4252C	3,000 0	\$84,400 \$84,400 NI
		FOR USE WITH LANE 4 ONLY Double extending screed with tamper bar and vibe. Provides paving widths from 2.55 to 5.0 m (8'5" to 16'5"). Includes basic endgates, electric heating elements with automatic regulators on all screed plates and tamper bars. LCD display for viewing tamp and vibe speeds, counterbalance pressure, and screed plate temperatures in both metric and SI units. Hydraulic quick coupling feature to facilitate wide width paving package installation and removal. REQUIRES: ADAPTER, TAMP/VIBE SCREED REQUIRES: WIRING, TAMP/VIBE SCREED, 35KW		

AS4252C SCREED ATTACHMENTS - LANE 4 ONLY**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY**

C	374-2433	AS4252C 3M CONVERSION KIT	617 617	\$11,290 \$11,290 NI
		FOR USE WITH LANE 4 ONLY AS4252 (2.5) Tamper Screed Conversion Kit 3.0 m to 5.5 m. Conversion Kit includes Two .25m extensions, Drop Arms, 2.5m Transv Beam Tamper bar system delivers and adjustable range up to 1700 rpm with a stroke of 4 mm (0.16"). 330 mm (13") vibratory screed plate system delivers an adjustable range up to 57 Hz (3,420 vpm).		

INSTRUCTIONS - PICTOGRAPH FILMS - LANE 4 ONLY

L	384-5474	FILM, WARNING	0	NC
		FOR USE WITH LANE 4 ONLY Picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada). Also includes slow moving vehicle sign.		
L	384-8177	FILM, STANDARD	0	NC
		FOR USE WITH LANE 4 ONLY Picto warning decals using symbols only as required for all non-North American countries and Quebec, Canada.		

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory

L	350-7917	SCREED ENDGATES, HEATED	40 0	\$1,120 \$1,120 NI
		FOR LANE 4 ONLY Electric heated endgates.		
L	353-5432	SCREED ENDGATES, FOLDING	400 0	\$6,190 \$6,190 NI
		FOR USE WITH LANE 4 ONLY Foldable endgates to allow narrowest transport width.		

AS4252C EXTENSIONS PACKAGES - LANE 4 ONLY

P	339-9631	PACKAGE, PAVING WIDTH 5.5M ESH	400	\$12,510 NI
		FOR USE WITH LANE 4 ONLY Includes two 250 mm screed extensions with electric heaters, two 152 mm augers, four 305 mm augers, and a pair of 610 mm foldable mainframe extensions. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.		
P	366-6675	PACKAGE, PAVING WIDTH 6.5M ESH	957	\$24,960 NI
		FOR USE WITH LANE 4 ONLY Includes two 750 mm screed extensions with electric heaters, two 152 mm augers, four 305 mm augers, and a pair of 610 mm foldable mainframe extensions. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.		
P	350-6036	PACKAGE, PAVING WIDTH 6.5M ESH	1,300	\$32,980 NI
		FOR USE WITH LANE 4 ONLY Includes two 750 mm screed extensions with electric heaters, four 305 mm augers, two 610 mm augers, pair of basic mainframe extensions, eight 305 mm mainframe extensions, two auger bearings supports, and pair of mainframe braces/supports. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.		
P	350-6037	PACKAGE, PAVING WIDTH 7.0M ESH	1,600	\$39,940 NI
		FOR USE WITH LANE 4 ONLY Includes two 250 mm and two 750 mm screed extensions with electric heaters, six 305 mm augers, two 610 mm augers, pair of basic mainframe extensions, six 305 mm mainframe extensions, two 610 mm mainframe extensions, two auger bearing supports, and pair of mainframe braces/supports. Note: Must remove POWER MAINFRAME EXTENSION from paver, if equipped, prior to installing this package.

Standard Equipment:

POWERTRAIN

Two Engine Choices Depending on Market:
Cat C-7.1 diesel, ACERT, 6-cylinder,
turbocharged engine 225 HP (168 kW)
EPA Tier 4i/EU stage IIIB emissions
Cat C-6.6 diesel, ACERT, 6-cylinder,
turbocharged engine 225 HP (168 kW)
EPA Tier III emissions
Air cleaner, dry-type dual element with
integral precleaner
Air-to-air after cooler (ATAAC)
Belt, automatic tensioner
Demand fan
Fuel filter / water separator
Fuel priming pump, electric
Ground level engine shutdown
Muffler, folding stack
Propel system - direct hydrostatic,
dual path drive, electronic control
Dual braking systems (service/parking)
Dual propel pump and motor system
Propel modes, Pave/Travel/Maneuver
Speed control system
Track Undercarriage, Mobil-Trac
Automatic track tensioning, hydraulic

ELECTRICAL

Alarm, back-up
Alternator, 105-amp
Batteries, two maintenance free,
1400 CCA each
Horn, forward warning
Starting and charging system, 24-volt
Product Link System (varies by market)
Remote jump start post

OPERATOR ENVIRONMENT

Advisor, electronic monitoring and
warning system
Automatic engine speed control
Dual, swing-out operator stations
Control and propel consoles, tilting
Cup holder
Ground speed indicator
Propel lever with speed control dial
Steering wheel
Toggle switches for control functions
Seats, vinyl, suspension
Armrest, flip-up
Seat belt, retractable, 3" (76 mm)
12 V aux power port
Hour meter
Instrumentation, LCD gauge display
Lockable vandalism guards
Platform handrails / guardrails

Power assist steering
Throttle control, high/low idle and
variable, electronic

APPLICATION SPECIFIC COMPONENTS

Adjustable height augers, hydraulic
Cast Ni-Hard steel, split segment,
16" (406 mm) diameter
Electronic auger/feeder control system
Gateless feeder system
Manual override
Reversible
Variable speed
Heavy-duty feeder flight bars, forged
steel, bushed roller chain
High-hardness, abrasion resistant drag
pans, replaceable
Hopper, 251 cu ft (7.1 cu m) capacity
with black Tivar flashing
Outboard feeder drives
Remote mounted bearing lube points

FLUIDS

Extended Life Coolant with protection
to -29F (-34C)

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Fuel tank with sediment drain,
84 gal (318 L)
Grouped lube points
Filters, hydraulic, grouped
Pressure test ports, hydraulic,
quick-connect
Screed counter balance
Screed lock pins
Sight gauges (engine coolant,
pump drive, air filter
restriction indicator)
Slow moving vehicle sign (for NACD)
S.O.S. sampling ports
Sound-suppression insulation kit
Steering guide (1)
Tool box
Tow point indicator scales, low mount
Vandalism protection caplocks

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 Distribution Center Arrangement is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

LANE 1 NACD FINISH TO ORDER (CONT.)**GRADE AND SLOPE CONTROLS**

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: Electronic Controller for tow point modulation, one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3301C EXTEND-A-MAT		\$7,510 NI
P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when BASE CAT G&S SYSTEM CONTROL is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,025 NI
P	357-8491	SENSOR, SLOPE, CAT 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$2,450 NI
P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	279-2461	CONTROL, TOPCON 200 TopCon SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/GRADE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR USE WITH: SCREED, AS3301C EXTEND-A-MAT OR AS4252C TAMPER BAR also works with Weiler S2302		\$17,010 NI

OTHER ATTACHMENTS (CONT.)**AUGER / FEEDER CONTROL SENSORS - LANE 3 ONLY (Cont.)**

P	301-0071	SENSOR, FEEDER, SONIC 0 Two, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers. REQUIRES: AS4252C SCREED		\$3,620 NI
P	278-3428	SENSOR, FEEDER, SONIC (4) 88 FOR USE WITH LANE 3 ONLY Includes four, proportional, non-contacting type, sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Augers and conveyors individually controlled for fast reaction. REQUIRES: AS4252C SCREED		\$7,240 NI

AUGER / MAINFRAME EXTENSIONS - LANE 3 ONLY

P	231-3532	EXTENSION, 6" AUGER, PAIR 0 FOR USE WITH LANE 3 ONLY For paving 10' to 14' wide. Includes a LH & RH 6" auger extension. For paving up to 3.66 m wide. Includes a pair of 152 mm auger extensions. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		\$910 NI
P	243-0329	KIT, 18" AUGER EXTENSION 474 FOR USE WITH LANE 3 ONLY Recommended if paving 14' TO 19'6" wide. Includes a pair of 6" and a pair of 1' auger extensions. Recommended if paving 3.66 to 4.27 m wide. Includes a pair 152 mm and a pair of 305 mm auger extensions. RECOMMENDED FOR USE WITH: REAR MOUNT SCREEDS w/o Wide Width Paving packages.		\$2,195 NI
P	241-9103	KIT, AUGER AND MAINFRAME EXT 1,025 FOR USE WITH LANE 3 ONLY Recommended if paving 14' to 18' wide. Includes a pair of 6" auger extensions, two pairs (4) of 1' auger extensions and a pair of foldable, hinged 2' mainframe extensions to facilitate frequent screed width changes. Recommended if paving 4.27 to 5.0 m wide. Includes a pair of 152 mm auger extensions, two pair (4) of 305 mm auger extensions and a pair of foldable, hinged 610 mm mainframe extensions to facilitate frequent screed width changes. RECOMMENDED FOR USE WITH: works with Weiler s2302. w/o Wide Width Paving packages.		\$4,790 NI

LIGHTING - LANE 3 ONLY

OPERATOR ENVIRONMENT**OPERATOR ENVIRONMENT - LANE 3 ONLY**

P	187-6649	UMBRELLA, CAT 15 FOR USE WITH LANE 3 ONLY One umbrella to provide paver operator sun and rain protection. Measures 54" x 54" and is collapsible. Includes support shaft and mounting hardware.		\$169 NI
P	370-6314	WINDSHIELD, DUAL WINDOW 220 0 FOR USE WITH LANE 3 ONLY Provides a machine width folding windshield with adjustable wipers. REQUIRES: HARD TOP CANOPY AND VENTILATION SYSTEM		\$6,500 \$6,500 NI

OTHER ATTACHMENTS**OTHER TRACTOR ATTACHMENTS**

P	278-0358	HOSE, 30' WITH SPRAY WAND 37 FOR USE WITH LANE 3 ONLY Includes 30' hose, spray gun and quick-connect coupling. No reel. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$443 NI
P	278-0357	HOSE, REEL WITH WAND 50 50 Includes 30' hose on self-storing reel with spray gun mounted to handrail at rear of tractor. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$1,785 \$1,785 NI
P	273-9969	GUIDE, STEERING 33 FOR USE WITH LANE 3 ONLY Second, adjustable position steering guide with indicator chain.		\$635 NI
P	327-9188	INDICATOR, TOW POINT 6 0 FOR USE WITH LANE 3 ONLY Pair of tow point height gauges mounted on top of paver deck.		\$600 \$600 NI
P	327-9187	KIT, UPTIME 40 FOR USE WITH LANE 3 ONLY Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, relays, sensors, toggle switches, potentiometers, generator drive coupling, and relays for ESH temperature control panel.		\$1,965 NI
L	327-9194	PLOW, TRACK 80 0 FOR USE WITH LANE 3 ONLY Ground scraper mounted in front of tracks that can be secured in raised position. Provides smoother operation and longer track life.		\$1,885 \$1,885 NI
P	199-4206	EXTENSION, 1' AUGER LH 154 FOR USE WITH LANE 3 ONLY One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving Packages		\$715 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OTHER TRACTOR ATTACHMENTS (Cont.)**

P	198-8287	EXTENSION, 1' AUGER RH 154 FOR USE WITH LANE 3 ONLY One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving Packages		\$715 NI
P	231-2043	EXTENSION, 2' AUGER LH 298 FOR USE WITH LANE 3 ONLY One 2' auger extension and mounting hardware. INCLUDED IN: Some Wide Width Paving Packages		\$1,235 NI
P	231-2042	EXTENSION, 2' AUGER RH 298 FOR USE WITH LANE 3 ONLY One 2' auger extension and mounting hardware. INCLUDED IN: Some Wide Width Paving Packages		\$1,235 NI
P	116-9509	SUPPORT, AUGER BEARING 165 FOR USE WITH LANE 3 ONLY One bracket/bearing to support end of auger. Mounted off of mainframe extension. FOR DUAL AUGER SUPPORT ORDER QTY 2. FOR USE WITH: MAINFRAME BRACE INCLUDED IN: Some Wide Width Paving Packages		\$1,645 NI
P	231-1956	BRACE, MAINFRAME 220 FOR USE WITH LANE 3 ONLY One brace to stabilize augers and mainframe extensions for wide width paving. FOR DUAL BRACING ORDER QTY 2. FOR USE WITH: 1' OR 2' MAINFRAME EXTENSIONS INCLUDED IN: Some Wide Width Paving Packages		\$985 NI
P	327-9195	EXTENSION, MAINFRAME - BASIC 200 FOR USE WITH LANE 3 ONLY Consists of a 1' pair of mainframe extensions and mounting hardware. Allows extensions to raise and lower automatically with auger height adjustment. FOR USE WITH: 1' AND 2' FIXED OR FOLDABLE MAINFRAME EXTENSIONS INCLUDED IN: Some Wide Width Paving Packages		\$3,340 NI
P	231-1982	EXTENSION, 1' MAINFRAME 44 FOR USE WITH LANE 3 ONLY One 1' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. INCLUDED IN: Some Wide Width Paving Packages NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$370 NI
P	231-1983	EXTENSION, 2' MAINFRAME 77 FOR USE WITH LANE 3 ONLY One 2' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. INCLUDED IN: Some Wide Width Paving Packages NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$590 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OTHER TRACTOR ATTACHMENTS (Cont.)**

P	215-7553	EXTENSION, 0-2' MAINFRAME, PAIR 243 FOR USE WITH LANE 3 ONLY Consists of a pair of hinged mainframe extensions foldable from 0' to 2' to facilitate frequent screed width changes. Bolts to mainframe and can be raised or lowered with augers. Not intended to support mainframe brace. CANNOT BE USED WITH: SUPPORT, AUGER BEARING INCLUDED IN: Some Wide Width Paving Packages NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$1,195 NI
P	358-2337	EXTENSION, MAINFRAME, POWER 420 0 FOR USE WITH LANE 3 ONLY Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18") past mainframe. CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT, AUGER BEARING; EXTENSION, MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE		\$5,810 \$5,810 NI
P	393-2222	DEEP DEPTH THICKNESS KIT 86 FOR USE WITH LANE 3 ONLY Consist of two replacement Screed Lift Cylinders and two tow arm downward travel limiting blocks for paving deep depth that allow the screed to pave a thicker mat (up to 30cm). REQUIRES: AS4252C SCREED		\$2,140 NI

GRADE AND SLOPE CONTROLS

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: Electronic Controller for tow point modulation, one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3301C EXTEND-A-MAT		\$7,510 NI
---	----------	--	--	-------------------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	337-9988	CONTROL, BASE CAT G&S SYSTEM 175 FOR USE WITH LANE 3 ONLY CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: Electronic Controller for tow point modulation, one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR Requires: work with Weiler S2302 CANNOT BE USED WITH: SCREED, AS3301C or AS4242C SCREED		\$7,360 NI
P	362-8413	CONTROL, BASE CAT G&S SYSTEM 0 FOR USE WITH LANE 3 ONLY Provides a dual unit CAT automatic screed control system. Allows two screed operators to monitor their side of the screed. Includes: Two CD620 control/display units with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: AS4252C TAMPER BAR SCREED		\$11,200 NI
P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when BASE CAT G&S SYSTEM CONTROL is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM; SCREED, AS3301C EXTEND-A-MAT also works with Weiler S2302.		\$4,025 NI
P	357-8491	SENSOR, SLOPE, CAT 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM; AS3301C EXTEND-A-MAT also works with Weiler S2302.		\$2,450 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	362-8687	SENSOR, SLOPE 20 FOR USE WITH LANE 4 ONLY Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware and Slope Sensor harness. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM and AS4252C TAMPER BAR SCREED		\$2,670 NI
P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 FOR USE WITH LANE 3 ONLY Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI
P	279-2461	CONTROL, TOPCON 200 TopCon SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR USE WITH: SCREED, AS3301C EXTEND-A-MAT or AS4252C TAMPER BAR also works with Weiler S2302.		\$17,010 NI
P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional TopCon non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional TopCon contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY**

Reference 'Optional Equipment for Asphalt Paving' QEDQ1244 for images and more details.

Each of the eight mobile grade reference divices listed below must be used in conjunction with a Grade & Slope control system.

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400	\$16,190 NI
		FOR USE WITH LANE 3 ONLY Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 8.5 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC	
P	257-6255	BEAM, SONIC AVERAGING 2,502	\$21,610 NI
		FOR USE WITH LANE 3 ONLY Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE	
P	109-5623	LEVELER, 30' OUTBOARD 2,187	\$7,610 NI
		FOR USE WITH LANE 3 ONLY 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY (Cont.)**

P	109-5622	LEVELER, 40' OUTBOARD 2,284 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.		\$7,820 NI
P	109-5624	LEVELER, INBOARD 1,702 FOR USE WITH LANE 3 ONLY 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$6,000 NI
P	109-5625	LEVELER, FORE N AFT 425 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI
P	109-5626	REFERENCE, MOBILE STRINGLINE 500 FOR USE WITH LANE 3 ONLY A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES - LANE 3 ONLY (Cont.)**

P	109-5628	SKI, RIGID REFERENCE 30' 661 FOR USE WITH LANE 3 ONLY A 30' triangular truss rigid ski that runs directly outside of the tractor and the screed riding on the reference surface. It is towed by the paver and gets positioned midway on the paver by attaching to the front of the tractor at the push beam area and has a guide attachment on the screed that allows the ski to move vertically independent of the paver. The purpose of the rigid ski is to measure only the high spots in the reference surface and bridges the low spots that fall within the length of the ski. The resulting mat thickness is the thickness on top of the high spots. A grade sensor (not provided) can reference directly off ski or a string line mounted to the ski. Includes mounting hardware. Provides least amount of averaging compared to other grade references. Good for joint matching in highway applications. Not intended for use where optimal mat smoothness is desired or where rideability is specified.		\$3,645 NI
P	109-5627	SKI, RIGID REFERENCE 40' 882 FOR USE WITH LANE 3 ONLY SAME AS SKI, RIGID REFERENCE 30' above except for 40' triangular truss rigid ski. Capable of producing an even flatter and more level surface than the 30' rigid ski but is not as transportable.		\$4,120 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3301C EXTEND-A-MAT SCREED -WITH REAR MOUNTED EXTENDERS**

For optimal performance KIT, 457MM AUGER EXTENSION is recommended
if paving 14' - 19'6" wide.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland freight.

L	328-3586	SCREED, AS3301C EXTEND-A-MAT	7,850 7,850	\$78,420 \$78,420 NI
Provides paving widths from 3.05 m (10') to 5.94 m (19'6"). Features extenders behind 10' (3.05 m) screed with vibration on all 18" deep screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: WIRING, VIBE SCREED				

AS3301C EXTEND-A-MAT SCREED MANDATORY ATTACHMENT SELECTION**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY****AS3301C THICKNESS CONTROL SCREWS**

L	277-9934	THICKNESS SCREW, CW	0	NC
Two ACME LH threaded screws (1"-8 tpi) for control. Clockwise turn increases paving depth.				
L	277-9935	THICKNESS SCREW, CCW	0	NC
FOR USE WITH LANE 3 ONLY Two ACME RH threaded screws (1"-8 tpi) for control. Clockwise turn increased paving depth.				

OTHER AS3301C SCREED ATTACHMENTS**AS3301C EXTENSIONS**

P	287-0328	EXTENSION, 1' SCREED ESH	183	\$4,055 NI
FOR USE WITH LANE 3 ONLY One 305mm (1ft) screed extension. Electrically heated. No vibration. ORDER QTY 2 IF EXTENSION NEEDED ON BOTH SIDES OF SCREED INCLUDED IN: 6.6m (21'6") Wide Width Paving package				

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

P	287-0329	EXTENSION, 2'4" SCREED ESH 290 One 711mm (2'4") screed extension. Electrically heated. Includes vibration. ORDER QTY 2 IF EXTENSION NEEDED ON BOTH SIDES OF SCREED INCLUDED IN: 7.4m (24'2") Wide Width Paving package		\$5,140 NI
---	----------	---	--	-------------------

AS3301C EXTENSION PACKAGES

P	327-9208	PACKAGE, PAVING WIDTH 21'6" 1,730 FOR USE WITH LANE 3 ONLY Paving Width - 21'2" Includes pair of 6" augers, pair of 1' augers, two 1' screed extensions, two 2' foldable mainframe extensions, one tube for front mounting support of reference ski, and one wrench. NOTE: Must remove Power Mainframe Extensions from paver, if equipped, prior to installing this package.		\$11,390 NI
P	327-9221	PACKAGE, PAVING WIDTH 24'2" 1,930 Paving Width - 24'2" Includes 3 pairs of 1' augers, two 2'4" screed extensions, pair of basic mainframe extensions, four 1' mainframe extensions, two auger bearing supports, two mainframe braces, one tube for front mounting support of reference ski, and one wrench. NOTE: Must remove Power Mainframe Extensions from paver, if equipped, prior to installing this package.		\$22,940 NI

OTHER AS3301C ATTACHMENTS

P	283-5617	PACKAGE, CUT OFF SHOE 160 FOR USE WITH LANE 3 ONLY One 1' and one 2' plates to reduce paving width in 3" increments.		\$1,200 NI
P	448-9450	SCREED ENDGATE, HEATED 73 Contains 2 heater elements and 2 end gate shoes. Does not reduce heat up time on standard screed widths. Heater can not be used at the same time as mechanical extensions. Requires approximately 4 hours for installation.		\$2,325 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS4252C SCREED - WITH REAR MOUNT EXTENDERS - LANE 4 ONLY**

For optimal performance KIT, 457 MM AUGER EXTENSIONS is recommended if paving 3.7 - 5.0 m (12'-16'5") wide.
Main screed plate and extenders are 315 mm (12") deep.
Screed plate thickness is 13 mm (0.5").
Available only with electric heat and power controls.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	351-0900	SCREED, AS4252C	3,000 0	\$84,400 \$84,400 NI
		FOR USE WITH LANE 4 ONLY Double extending screed with tamper bar and vibe. Provides paving widths from 2.55 to 5.0 m (8'5" to 16'5"). Includes basic endgates, electric heating elements with automatic regulators on all screed plates and tamper bars. LCD display for viewing tamp and vibe speeds, counterbalance pressure, and screed plate temperatures in both metric and SI units. Hydraulic quick coupling feature to facilitate wide width paving package installation and removal. REQUIRES: ADAPTER, TAMP/VIBE SCREED REQUIRES: WIRING, TAMP/VIBE SCREED, 35KW		

AS4252C SCREED ATTACHMENTS**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY**

C	374-2433	AS4252C 3M CONVERSION KIT	617 617	\$11,290 \$11,290 NI
		FOR USE WITH LANE 4 ONLY AS4252 (2.5) Tamper Screed Conversion Kit 3.0 m to 5.5 m. Conversion Kit includes Two .25m extensions, Drop Arms, 2.5m Transv Beam Tamper bar system delivers and adjustable range up to 1700 rpm with a stroke of 4 mm (0.16"). 330 mm (13") vibratory screed plate system delivers an adjustable range up to 57 Hz (3,420 vpm).		

INSTRUCTIONS - PICTOGRAPH FILMS - LANE 4 ONLY

L	384-5474	FILM, WARNING	0	NC
		FOR USE WITH LANE 4 ONLY Picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada). Also includes slow moving vehicle sign.		
L	384-8177	FILM, STANDARD	0	NC
		FOR USE WITH LANE 4 ONLY Picto warning decals using symbols only as required for all non-North American countries and Quebec, Canada.		

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory

AP255E ASPHALT PAVER
MINERBIO, ITALY

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

CAT C2.2, 4-cylinder, diesel natural aspirated engine, 34.1 kW (46HP)
EPA Tier IVa/EU stage IIIB certified
Air cleaner, dry-type dual element with integral precleaner
Fuel filter / water separator
Fuel priming pump, manual
Hydrostatic propel system
Positive brake
Propel modes, Pave/Travel
Speed control system
Single speed planetaries
Two-speed motors (2)
Muffler, bolted stainless steel stack
Steel Track undercarriage
Crawlers, rubber bonded shoes
Crawlers, rubber bonded shoes
Shock absorption system
Tensioning, via two grease pistons

ELECTRICAL

Alarm, back-up
Alternator, 65-amp
Battery, 12V, maintenance free, 750 CCA
Engine start switch with auto preheat
Floodlamp, halogen
Generator, belt driven, 12 kW - 240 VAC
Horn, forward warning
Starting and charging system, 12V
Beacon ready

OPERATOR ENVIRONMENT

Control Console
Propel lever with speed control dial
Screed control
Steering wheel
Toggle switches
Warning indicators
Hour meter
Lockable vandalism guards
Operator presence micro-switch
Platform, handrails/guardrails
Power assist steering
Throttle control, manual, variable

APPLICATION SPECIFIC COMPONENTS

Adjustable height augers, hydraulic
Cast Ni-hard steel, split segment, 260 mm (10.2 in) diameter
Electronic auger/feeder control system
Independent left and right auger control
Paddle sensor ready
Reversible augers and conveyor
Variable speed
Heavy-duty feeder flight bars
High-hardness, abrasion resistant drag pans, replaceable
Hopper, 3.1 cu.m. (110 cu.ft.) capacity with rubber belting flashing
Independent hopper wing control
Manual raise hopper apron
Outboard feeder drive
Remote mounted bearing lube points

FLUIDS

Extended Life Coolant with protection to -34c (29F)

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Ecological washdown tank and pump 17.2L (4.5 gal)
Fuel tank with sediment drain, 65L (17.2 gal)
Push rollers
Sight gauges (engine coolant, air filter restriction indicator)
Sound-suppression
Spray down hose
Steering guide (1)
Tow point indicator scales
Vandalism protection caplocks

ORDERING INSTRUCTIONS

Standard Equipment:

POWERTRAIN

CAT C4.4 ACERT, 4-cylinder, diesel,
turbocharged engine, 106 kW (142 HP)
Air cleaner, dry-type dual element with
integral precleaner
Air-to-air after cooler (ATAAC)
Belt, automatic tensioner
Demand fan
Fuel filter / water separator
Fuel priming pump, manual
Muffler, folding stack
Propel system - direct hydrostatic,
dual path drive, electronic control
Dual braking systems (service&parking)
Dual propel pump and motor system
Single speed planetary, 2-speed motor
Front wheels (4), solid rubber on
bogie axles
Planetary rear wheel drive
Propel modes, Pave/Travel/Maneuver
Speed control system

ELECTRICAL

Alarm, back-up
Alternator, 75-amp
Batteries, two maintenance free,
1000 CCA each
CAT ET diagnostic connector
Generator, belt drive, 25 kW
Horn, forward warning
Machine Security System wire-ready
Product Link System ready
Remote jump start post
Starting and charging system, 24-volt

OPERATOR ENVIRONMENT

Advisor, electronic monitoring and
warning system
Automatic engine speed control
Dual, swing-out operator stations
Control and propel consoles, tilting
Cup holder
Ground speed indicator
Propel lever with speed control dial
Steering wheel, spring return
Toggle switches for control functions
Seats, vinyl, suspension
Armrest, flip-up
Seat belt, retractable, 76mm (3")
12 aux power port
Hour meter
Instrumentation, LCD gauge display
Lockable vandalism guards
Platform handrails / guardrails
Power assist steering

Throttle control, high/low idle and
variable, electronic

APPLICATION SPECIFIC COMPONENTS

Adjustable height augers, hydraulic
Cast NI-Hard steel, split segment,
406 mm (16") diameter
Electronic auger/feeder control system
Gateless feeder system
Manual override
Reversible
Variable speed
Heavy-duty feeder flight bars, forged
steel, bushed roller chain
High-hardness, abrasion resistant drag
pans, replaceable
Hopper, 6.2 cu m (219 cu ft) capacity
with flashing
Outboard feeder drives
Remote mounted bearing lube points
Tool Height Extender

FLUIDS

Extended Life Coolant with protection
to -34C (-29F)

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Fuel tank with sediment drain,
190 L (50 gal)
Grouped lube points
Filters, hydraulic, grouped
Pressure test ports, hydraulic,
quick-connect
Screed counter balance
Screed lock pins
Sight gauges (engine coolant,
pump drive, air filter
restriction indicator)
S.O.S. sampling ports
Sound-suppression insulation kit
Steering guide (1)
Tow point indicator scales, lower
Vandalism protection caplocks

OPERATOR ENVIRONMENT (CONT.)**DECEL PEDAL**

L	276-0079	PEDALS, DECELERATOR 44 FOR USE WITH LANE 3 ONLY Two decelerator pedals, one for each operator station, that provide dynamic machine braking without having to decrease the propel speed setting.		\$1,625
L	272-2384	COVER, NO DECEL PEDAL 0 FOR USE WITH LANE 3 ONLY No Provision for Decel Pedals		NC

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must Select One)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	324-6845	PRODUCT LINK, SATELLITE PL321 9 FOR USE WITH LANE 3 ONLY Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		\$1,460 NET
L	319-4492	NO PRODUCT LINK 0 FOR USE WITH LANE 3 ONLY		NC
L	367-7917	PRODUCT LINK, SATELLITE PL321 10 FOR USE WITH LANE 3 ONLY Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage. REQUIRES: HARD TOP CANOPY		\$1,460 NET
L	417-2614	PRODUCT LINK, CELLULAR PL421 9 FOR USE WITH LANE 3 ONLY Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		\$470 NET
L	390-2795	PRODUCT LINK, CELLULAR PL522 9 FOR USE WITH LANE 3 ONLY Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		\$1,025 NET

OTHER ATTACHMENTS**TRUCK INTERFACE**

L	275-2449	PUSH ROLLER, OSCILLATING	1,400 0	\$4,405 \$4,405 NI
		FOR USE WITH LANE 3 ONLY Oscillating, ballasted push roller on a fore-aft adjustable pivot for centering truck and to assist steering during unloading. Includes scrapers to minimize material accumulation. CANNOT BE USED WITH: HITCH, HYDRAULIC TRUCK		
L	343-3001	HITCH, HYD PREP, TRACTOR	30 0	\$2,615 \$2,615 NI
		FOR USE WITH LANE 3 ONLY Includes hydraulic valve and hoses to accept truck hitch. Recommended if future field installed truck hitch is likely. FOR USE WITH: PUSH ROLLER, OSCILLATING HITCH, HYDRAULIC TRUCK		
L	301-1468	HITCH, HYDRAULIC TRUCK	1,630 0	\$15,630 \$15,630 NI
		FOR USE WITH LANE 3 ONLY Truck hitch (clamp arms with rollers) to hold truck to paver when unloading. Actuated from operator's console. Includes scrapers to minimize material accumulation. REQUIRES: HITCH, HYD PREP, TRACTOR		

FEEDER CONTROL SENSORS

P	198-8279	CONTROL, FEEDER, PADDLE	44	\$2,150 NI
		Two, proportional, contacting paddle sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers.		
P	294-0112	SENSOR, FEEDER, SONIC	20	\$3,690 NI
		Two, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers. REQUIRES: AS3251C SCREED, also compatible with Weiler S2252		
P	301-0071	SENSOR, FEEDER, SONIC	0	\$3,620 NI
		Two, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers. REQUIRES: AS4252C SCREED		
P	278-3428	SENSOR, FEEDER, SONIC (4)	88	\$7,240 NI
		Four, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers and conveyors. Individually controlled for fast reaction. REQUIRES: AS4252C SCREED		

AUGER EXTENSIONS

P	231-3532	EXTENSION, 6" AUGER, PAIR	0	\$910 NI
		For paving up to 3.66 m (12 ft) wide. Includes a LH & RH 152 mm (6 in) auger. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AUGER EXTENSIONS (Cont.)**

P	243-0329	KIT, 18" AUGER EXTENSION 474 Recommended if paving 3.66 m (12 ft) to 5.0 m (16 ft) wide. Includes a pair of 152 mm (6 in) augers and a pair of 305 mm (1') augers. RECOMMENDED FOR USE WITH: ALL SCREEDS w/o Wide Width Paving packages.		\$2,195 NI
---	----------	--	--	-------------------

COMMISSIONING SUPPORT

NOTE: It is recommended that startup and commissioning of machines be included as part of the machines sale. The net charge covers a four day commissioning event. Trained personnel cover proper machine setup, basic maintenance, operation and application on a customer's jobsite. To request and schedule a machine commissioning event, dealers will need to contact the Caterpillar Paving Technical Training group by filling out the online request form.

OTHER ATTACHMENTS (CONT.)**BALLAST PACKAGES**

P	356-4739	BALLAST, STEEL 551 0 FOR USE WITH LANE 3 ONLY Adds 250 kg (551 lb) of steel plates mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 5.0M ESH AS3251C SCREED AT BASE WIDTH UP TO 5.3M ONLY		\$1,495 \$1,495 NI
P	356-5146	BALLAST, STEEL, EXTRA 807 0 FOR USE WITH LANE 3 ONLY Adds 366 kg (807 lb) of steel plates mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 8.0M ESH		\$2,185 \$2,185 NI

OTHER TRACTOR ATTACHMENTS

P	327-4619	KIT, UPTIME 28 Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, fuses, relays, steering sensor, switches, potentiometer, generator drive belt, miniature lamps, and spray wand nozzle.		\$1,515 NI
L	350-1625	EXTENSION, MAINFRAME, POWER 420 0 FOR USE WITH LANE 3 ONLY Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. REQUIRES: AS3251C SCREED, also works with Weiler S2252 CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT, AUGER BEARING; EXTENSION, MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE		\$7,230 \$7,230 NI
P	393-2222	DEEP DEPTH THICKNESS KIT 86 FOR USE WITH LANE 3 ONLY Consist of two replacement Screed Lift Cylinders and two tow arm downward travel limiting blocks for paving deep depth that allow the screed to pave a thicker mat (up to 30cm). REQUIRES: AS4252C SCREED		\$2,140 NI

GRADE AND SLOPE CONTROLS**CAT SYSTEM**

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3251C EXTEND-A-MAT		\$7,510 NI
P	337-9988	CONTROL, BASE CAT G&S SYSTEM 175 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed. wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR Requiress: works with Weiler S2252 CANNOT BE USED WITH: AS3251C SCREED, or AS4252C SCREED		\$7,360 NI
P	362-8413	CONTROL, BASE CAT G&S SYSTEM 0 Provides a dual unit CAT automatic screed control system. Allows two screed operators to monitor their side of the screed. Includes: Two CD620 control/display units with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: AS4252C TAMPER BAR SCREED		\$11,200 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when Base CAT G&S System Control is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM, SCREED, AS3251C EXTEND-A-MAT OR also works with Weiler S2252		\$4,025 NI
P	357-8491	SENSOR, SLOPE, CAT 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM; SCREED, AS3251C EXTEND-A-MAT or also works with Weiler S2252		\$2,450 NI
P	362-8687	SENSOR, SLOPE 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware and Slope Sensor harness. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM; AS4252C TAMPER BAR SCREED		\$2,670 NI
P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI

TOPCON SYSTEM

P	279-2461	CONTROL, TOPCON 200 TSD SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/GRADE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR USE WITH: SCREED, AS3251C EXTEND-A-MAT For use with: also works with Weiler S2252		\$17,010 NI
---	----------	---	--	--------------------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

LEVELING DEVICES

NOTE: Reference 'Optional Equipment for Asphalt Paving' QEDQ1244
for images and more details.

**Each of the following mobile grade reference devices listed below
must be used in conjunction with a Grade & Slope control system.**

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400 Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 9.1 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC		\$16,190 NI
P	257-6255	BEAM, SONIC AVERAGING 2,502 Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE		\$21,610 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5623	LEVELER, 30' OUTBOARD 2,187 FOR USE WITH LANE 3 ONLY 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.	2,187	\$7,610 NI
P	109-5622	LEVELER, 40' OUTBOARD 2,284 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.	2,284	\$7,820 NI
P	109-5624	LEVELER, INBOARD 1,702 FOR USE WITH LANE 3 ONLY 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.	1,702	\$6,000 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5625	LEVELER, FORE'N AFT 425 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI
P	109-5626	REFERENCE, MOBILE STRINGLINE 500 FOR USE WITH LANE 3 ONLY A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3251C SCREED - WITH REAR MOUNT EXTENDERS**

For optimal performance KIT, 457MM AUGER EXTENSION is recommended if paving 3.7-4.7 m (12'-15'6") wide. Main screed plate and extenders are 457 mm (18") deep. Screed plate thickness is 13 mm (0.5"). Available only with electric heat and power controls.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	276-4539	SCREED, AS3251C EXTEND-A-MAT	6,450	\$81,630
			6,450	\$81,630 NI
		Provides paving widths from 2.4 to 4.7 m (8'to 15'6"). Features 1.1 m (3'9") extenders mounted behind main screed plate with heat and vibration on all screed plates End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature to the selected setting. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: VIBE ADAPTER + WIRING-V Or TAMP/VIBE ADAPTER + WIRING-V		

AS3251C SCREED MANDATORY ATTACHMENT SELECTION**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY****AS3251C THICKNESS CONTROL SCREWS**

L	277-9934	THICKNESS SCREW, CW	0	NC
		Two ACME LH threaded screws (8 tpi). Clockwise turn increases paving depth. Provides lower turning effort and finer control than coarse screw but will have slower response.		
L	287-0326	THICKNESS SCREW, COARSE CW	0	\$499
		Two ACME LH threaded screws (4 tpi). Clockwise turn increases paving depth. Provides faster response because it takes half the number of turns compared to fine screw but has higher turning effort.		
L	277-9935	THICKNESS SCREW, CCW	0	NC
		Same as THICKNESS SCREW, FINE CW but provides RH, counter clockwise operation instead.		
L	287-0327	THICKNESS SCREW, COARSE CCW	0	\$499
		Same as THICKNESS SCREW, COARSE CW but provides RH, counter clockwise operation instead.

**AP555E TRACK ASPHALT PAVER
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 ACERT, 4-cylinder, diesel,
turbocharged engine, 106 kW (142 HP)
Air cleaner, dry-type dual element with
integral precleaner
Air-to-air after cooler (ATAAC)
Belt, automatic tensioner
Demand fan
Fuel filter / water separator
Fuel priming pump, manual
Muffler, folding stack
Propel system - direct hydrostatic,
dual path drive, electronic control
Dual braking systems (service&parking)
Dual propel pump and motor system
Single speed planetary, 2-speed motor
Propel modes, Pave/Travel/Maneuver
Speed control system
Track Undercarriage, Mobil-Trac System
Automatic track tensioning, hydraulic
Belts, rubber, 406 mm (16 in) wide
Bogies, with rubber coated steel wheels

ELECTRICAL

Alarm, back-up
Alternator, 75-amp
Batteries, two maintenance free,
1000 CCA each
CAT ET diagnostic connector
Generator, belt drive, 25 kW, A/C
Horn, forward warning
Machine Security System ready
Product Link System
Remote jump start post
Starting and charging system, 24-volt

OPERATOR ENVIRONMENT

Advisor, electronic monitoring and
warning system
Automatic engine speed control
Dual, swing-out operator stations
Control and propel consoles, tilting
Cup holder
Ground speed indicator
Propel lever with speed control dial
Steering wheel, spring return
Toggle switches for control functions
Seat, vinyl, suspension
Armrests, flip-up
Seat belt, retractable, 76 mm (3 in)
12 V aux power port
Hour meter
Instrumentation, LCD gauge display
Lockable vandalism guards
Platform handrails / guardrails

Power assist steering
Throttle control, high/low idle and
variable, electronic

APPLICATION SPECIFIC COMPONENTS

Adjustable height augers, hydraulic
Cast NI-Hard steel, split segment,
406 mm (16 in) diameter
Electronic auger/feeder control system
Gateless feeder system
Manual override
Reversible
Variable speed
Heavy-duty feeder flight bars, forged
steel, bushed roller chain
High-hardness, abrasion resistant drag
pans, replaceable
Hopper, 6.2 cu m (219 cu ft) capacity
with flashing
Outboard feeder drives
Remote mounted bearing lube points
Tool Height Extender

FLUIDS

Extended Lift Coolant with protection
to -34C (-29F)

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Fuel tank with sediment drain,
190 L (50 gal)
Grouped lube points
Filters, hydraulic, grouped
Pressure test ports, hydraulic,
quick-connect
Screed counter balance
Screed lock pins
Sight gauges (engine coolant,
pump drive, air filter
restriction indicator)
S.O.S. sampling ports
Sound-suppression insulation kit
Steering guide (1)
Tow point indicator scales, lower
Vandalism protection caplocks

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 Distribution Center Arrangement is not available.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 Configuration is not available.

385-8518 AP555E CONFIGURATION A 30,032 \$319,470

Includes: eco tank and hose reel, mobil-trac rubber smooth belts, PL321 product link, oscillating non-ballast push roller, friction steering, working lights, hydraulic folding apron, vibe adapter and wiring-V, ventilation system, decelerator pedals, and mainframe power extension.

321-2414 AP555E MTS ASPHALT PAVER
385-2724 ENGINE, NACD
354-8219 ECO TANK + HOSE REEL
321-2429 TRACK, MTS, SMOOTH
324-6845 PRODUCT LINK, PL321
301-7385 PUSH ROLLER, OSC, NON-BALLAST
343-7125 STEERING, FRICTION
288-6925 LIGHTS, WORKING
354-8216 APRON, HYDRAULIC FOLD
354-8231 VIBE ADAPTER + WIRING-V
329-8222 CANOPY, NONE
321-2436 VENTILATION SYSTEM
276-0079 PEDALS, DECELERATOR
350-1625 EXTENSION, MAINFRAME, POWER

To be complete, your machine order must at least contain:

- Lane 2 factory arrangement configuration from above
- 0P-9002 Lane 2 Order
- 1 Auger Extension
- 1 Decal Package
- Associated 0P Packing numbers
- Year of Manufacture Plate (Brazil only)
- 1 Feeder Control Sensor
- Commissioning Support

LANE SELECTION**(MUST SELECT ONE)**

YOUR ORDER WILL BE LANE 2 UNLESS YOU SELECT A PACKAGE OR ATTACHMENT LISTED AS LANE 3 ONLY.

0P-9002	LANE 2 ORDER	0	NC
	Can only be ordered with Lane 2 factory arrangements.		
0P-9003	LANE 3 ORDER	0	NC
	If you require a package or stand-alone attachment listed as Lane 3 select this option.		

MUST SELECT ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION

PERFORMANCE PACKAGES**HOPPER APRON CONTROL & FLASHING PACKAGES**

L	354-8220	APRON, MANUAL FOLD	0	NC
		FOR USE WITH LANE 3 ONLY		
		INCLUDES:		
		- MANUAL FOLDING HOPPER APRON		
		Manual raise hopper apron for easy material clean-out.		
		- HOPPER FLASHING		
		Heavy-duty black Tivar flashing to reduce material spillage from front of hopper.		
L	354-8216	APRON, HYDRAULIC FOLD	430	\$6,150
		FOR USE WITH LANE 3 ONLY		
		INCLUDES:		
		- HYDRAULIC FOLDING HOPPER APRON		
		Hydraulically actuated hopper apron with bolt-in 'wings' helps contain material after truck dump and while raising hoppers.		
		- HOPPER FLASHING		
		Heavy-duty black Tivar flashing to reduce material spillage from front of hopper.		

WASH DOWN SYSTEM PACKAGES

L	354-8229	DIESEL PUMP + SPRAYWAND.	60	\$1,135
		FOR USE WITH LANE 3 ONLY		
		INCLUDES:		
		- DIESEL PUMP		
		Provides diesel fuel supply for pressurized washdown system, taken directly from paver fuel tank.		
		- SPRAY WAND		
		Includes 9 m (30 ft) hose, spray wand and quick-connect coupling.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory

PERFORMANCE PACKAGES (CONT.)**WASH DOWN SYSTEM PACKAGES (Cont.)**

L	354-8230	DIESEL PUMP + HOSE REEL 73 FOR USE WITH LANE 3 ONLY INCLUDES: - DIESEL PUMP Provides diesel fuel supply for pressurized washdown systems, taken directly from paver fuel tank. - HOSE REEL WITH WAND Includes 9 m (30 ft) hose on self-storing reel with spray wand mounted to handrail at rear of tractor.		\$2,420
L	354-8218	ECO TANK + SPRAY WAND 224 FOR USE WITH LANE 3 ONLY INCLUDES: - ECOLOGICAL WASHDOWN TANK 38 L (10 gal) tank with integral pump mounted below deck on RH side. Intended for use with ecological cleaning fluids. - SPRAY WAND Includes 9 m (30 ft) hose, spray wand and quick-connect coupling.		\$2,780
L	354-8219	ECO TANK + HOSE REEL 237 FOR USE WITH LANE 3 ONLY INCLUDES: - ECOLOGICAL WASHDOWN TANK 38 L (10 gal) tank with integral pump mounted below deck on RH side. Intended for use with ecological cleaning fluids. - HOSE REEL WITH WAND Includes 9 m (30 ft) hose on self-storing reel with spray wand mounted to handrail at rear of tractor.		\$4,085

SCREED INTERFACE PACKAGES

L	354-8231	VIBE ADAPTER + WIRING-V 32 FOR USE WITH LANE 3 ONLY INCLUDES: - VIBRATORY SCREED HYD ADAPTER Provides hydraulics for vibe-only screeds. No provision for tamper system. - ELECTRIC SCREED HEAT WIRING Provides 240V wiring from generator to rear of tractor. REQUIRES: AS3251C SCREED, also works with Weiler S2252		\$1,935
L	354-8232	TAMP/VIBE ADAPTER + WIRING-V 97 FOR USE WITH LANE 3 ONLY INCLUDES: - TAMPING/VIBRATORY SCREED HYD ADAPTER Provides hydraulics for vibe system plus pump, valve and hoses for tamper system. - ELECTRIC SCREED HEAT WIRING Provides 240V wiring from generator to rear of tractor. REQUIRES: AS3251C SCREED, also works with Weiler S2252 NOTE: Serves as a hyd prep group for future AS4252C installation.		\$3,865

P	278-3428	SENSOR, FEEDER, SONIC (4) 88 Four, proportional, non-contacting sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed. Located at end of augers and conveyors. Individually controlled for fast reaction. REQUIRES: AS4252C SCREED, AS4251C SCREED		\$7,240 NI

AUGER EXTENSIONS

P	231-3532	EXTENSION, 6" AUGER, PAIR 0 For paving up to 3.66 m (12 ft) wide. Includes a LH & RH 152 mm (6 in) auger. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		\$910 NI
P	243-0329	KIT, 18" AUGER EXTENSION 474 Recommended if paving 3.66 m (12 ft) to 5.0 m (16 ft) wide. Includes a pair of 152 mm (6 in) augers and a pair of 305 mm (1 ft) augers. RECOMMENDED FOR USE WITH: ALL SCREEDS w/o Wide Width Paving packages.		\$2,195 NI

STEERING CONTROL

L	347-1851	STEERING, SPRING RETURN 0 FOR USE WITH LANE 3 ONLY Conventional type, spring return controlled steering wheels.		NC
L	343-7125	STEERING, FRICTION 10 FOR USE WITH LANE 3 ONLY Elect adjustable feel controlled steering wheel selectable by operator. Steering wheel stays in desired position.		\$4,095

COMMISSIONING SUPPORT

NOTE: It is recommended that startup and commissioning of machines be included as part of the machine sale. The net charge covers a four day commissioning event. Trained personnel cover proper machine setup, basic maintenance, operation and application on a customer's jobsite. To request and schedule a machine commissioning event, dealers will need to contact the Caterpillar Paving Technical Training group by filling out the online request form.

OTHER ATTACHMENTS (CONT.)**BALLAST PACKAGES**

P	301-7387	COUNTERWEIGHT, PUSH ROLLER	1,179 0	\$1,470 \$1,470 NI
		FOR USE WITH LANE 3 ONLY One 242 kg (534 lb) solid steel shaft for use inside push roller tube to increase front end weight for wide width paving. REQUIRES: PUSH ROLLER, OSC, NON-BALLAST		
P	316-1658	BALLAST, STEEL	816 816	\$2,250 \$2,250 NI
		FOR USE WITH LANE 3 ONLY Adds 370 kg (816 lb) of steel (plates and push roller counterweight) mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4251C SCREED AT BASIC 5.0M PAVING WIDTH ONLY FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 5.5M ESH		
P	356-5096	BALLAST, STEEL, EXTRA	1,087 0	\$3,000 \$3,000 NI
		FOR USE WITH LANE 3 ONLY Adds 493 kg (1087 lb) of steel (plates and push roller counterweight) mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 6.5M ESH		
P	356-5097	BALLAST, STEEL, EXTRA	1,343 1,343	\$3,700 \$3,700 NI
		FOR USE WITH LANE 3 ONLY Adds 609 kg (1343 lb) of steel (plate and push roller counterweight) mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4251C SCREED AT 5.5M OR 6.5M PAVING WIDTHS FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 8.0M ESH		
P	316-1659	BALLAST, STEEL	287 287	\$815 \$815 NI
		FOR USE WITH LANE 3 ONLY Adds 125 kg (276 lb) of steel plates mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 5.5M ESH		
P	356-4739	BALLAST, STEEL	551 0	\$1,495 \$1,495 NI
		FOR USE WITH LANE 3 ONLY Adds 250 kg (551 lb) of steel plates mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 6.5M ESH ROAD HOMOLOGATION, ITALY or TUV		
P	356-5146	BALLAST, STEEL, EXTRA	807 0	\$2,185 \$2,185 NI
		FOR USE WITH LANE 3 ONLY Adds 366 kg (807 lb) of steel plates mounted to front end for improved tractive effort and stability for wide width paving. FOR USE WITH: AS4252C SCREED PACKAGE, PAVING WIDTH 8.0M ESH		

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OTHER TRACTOR ATTACHMENTS**

P	327-4619	KIT, UPTIME 28 Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, fuses, relays, steering sensor, switches, potentiometer, generator drive belt, miniature lamps, and spray wand nozzle.		\$1,515 NI
L	263-6006	PLOW, TRACK 176 0 FOR USE WITH LANE 3 ONLY Ground scraper mounted in front of tracks that can be secured in raised position. Provides smoother operation and longer track life.		\$2,015 \$2,015 NI
L	350-1625	EXTENSION, MAINFRAME, POWER 420 0 FOR USE WITH LANE 3 ONLY Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. REQUIRES: AS3251C SCREED or also works with Weiler S2252 CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT AUGER BEARING EXTENSION MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE		\$7,230 \$7,230 NI
P	393-2222	DEEP DEPTH THICKNESS KIT 86 FOR USE WITH LANE 3 ONLY Consist of two replacement Screed Lift Cylinders and two tow arm downward travel limiting blocks for paving deep depth that allow the screed to pave a thicker mat (up to 30cm). REQUIRES: AS4252C SCREED		\$2,140 NI

GRADE AND SLOPE CONTROLS**CAT SYSTEM**

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3251C EXTEND-A-MAT		\$7,510 NI
---	----------	--	--	-------------------

OTHER ATTACHMENTS (CONT.)

GRADE AND SLOPE CONTROLS (Cont.)

P	337-9988	CONTROL, BASE CAT G&S SYSTEM 175 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed. wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR Requires: works with Weiler S2252 CANNOT BE USED WITH: AS3251C SCREED, AS4251C SCREED or AS4252C SCREED		\$7,360 NI
P	362-8413	CONTROL, BASE CAT G&S SYSTEM 0 Provides a dual unit CAT automatic screed control system. Allows two screed operators to monitor their side of the screed. Includes: Two CD620 control/display units with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: AS4252C TAMPER BAR SCREED		\$11,200 NI
P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when Base CAT G&S System Control is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM; SCREED, AS3251C EXTEND-A-MAT OR SCREED, also works with Weiler S2252		\$4,025 NI
P	357-8491	SENSOR, SLOPE, CAT 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM; SCREED, AS3251C EXTEND-A-MAT also works with Weiler S2252		\$2,450 NI
P	362-8687	SENSOR, SLOPE 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware and Slope Sensor harness. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM; AS4252C TAMPER BAR SCREED		\$2,670 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI

TOPCON SYSTEM

P	279-2461	CONTROL, TOPCON 200 TSD SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR USE WITH: SCREED, AS3251CEXTEND-A-MAT or AS4252C TAMPER BAR SCREED, also works with Weiler S2252		\$17,010 NI
P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

LEVELING DEVICES

NOTE: Reference 'Optional Equipment for Asphalt Paving' QEDQ1244 for images and more details.

Each of the following mobile grade reference devices listed below must be used in conjunction with a Grade & Slope control system.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400 Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 9.1 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC		\$16,190 NI
P	257-6255	BEAM, SONIC AVERAGING 2,502 Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE		\$21,610 NI
P	109-5623	LEVELER, 30' OUTBOARD 2,187 FOR USE WITH LANE 3 ONLY 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.		\$7,610 NI
P	109-5622	LEVELER, 40' OUTBOARD 2,284 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.		\$7,820 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5624	LEVELER, INBOARD 1,702 FOR USE WITH LANE 3 ONLY 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$6,000 NI
P	109-5625	LEVELER, FORE'N AFT 425 FOR USE WITH LANE 3 ONLY SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI
P	109-5626	REFERENCE, MOBILE STRINGLINE 500 FOR USE WITH LANE 3 ONLY A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory
-----	------------	---------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3251C SCREED - WITH REAR MOUNT EXTENDERS**

For optimal performance KIT, 457MM AUGER EXTENSION is recommended if paving 3.7 - 4.7 m (12'-15'6") wide. Main screed plate and extenders are 457 mm (18") deep. Screed plate thickness is 13 mm (0.5"). Available only with electric heat and power controls.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	276-4539	SCREED, AS3251C EXTEND-A-MAT	6,450	\$81,630
			6,450	\$81,630 NI
		Provides paving widths from 2.4 to 4.7 m (8' to 15'6"). Features 1.1 m (3'9") extenders mounted behind main screed plate with heat and vibration on all screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature to the selected setting. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: VIBE ADAPTER + WIRING-V Or TAMP/VIBE ADAPTER + WIRING-V		

AS3251C SCREED MANDATORY ATTACHMENTS SELECTION**MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY****AS3251C THICKNESS CONTROL SCREWS**

L	277-9934	THICKNESS SCREW, CW	0	NC
		Two ACME LH threaded screws (8 tpi). Clockwise turn increases paving depth. Provides lower turning effort and finer control than coarse screw but will have slower response.		
L	287-0326	THICKNESS SCREW, COARSE CW	0	\$499
		Two ACME LH threaded screws (4 tpi). Clockwise turn increases paving depth. Provides faster response because it takes half the number of turns compared to fine screw but has higher turning effort.		
L	277-9935	THICKNESS SCREW, CCW	0	NC
		Same as THICKNESS SCREW, FINE CW but provides RH, counter clockwise operation instead.		
L	287-0327	THICKNESS SCREW, COARSE CCW	0	\$499
		Same as THICKNESS SCREW, COARSE CW but provides RH, counter clockwise operation instead.

AP600D ASPHALT PAVER
MINNEAPOLIS, MN

Ship Weight
lbs

List Price
At Factory

Standard Equipment:

ELECTRICAL

Alarm, back-up
Alternator, 80-amp
Batteries, two maintenance free,
1000 CCA each
CAT ET diagnostic connector
Horn, forward warning
Machine Security System wire-ready
Product Link Ready
Remote jump start post
Starting and charging system, 24-volt

MATERIAL FEEDERS

Adjustable height augers, hydraulic
Cast Ni-Hard steel, split segment,
16" (406 mm) diameter
Electronic auger/feeder control system
Gateless feeder system
Independent L/R side ratio control
Manual override
Reversible
Variable speed
Heavy-duty feeder flight bars, forged
steel, bushed roller chain
High-hardness, abrasion resistant drag
pans, replaceable
Hopper 230 cu ft (6.5 cu m) capacity
with black Tivar flashing
Outboard feeder drives
Remote mounted bearing lube points

OPERATOR ENVIRONMENT

Advisor, electronic monitoring and
warning system
Automatic engine speed control
Dual, swing-out operator stations
Control and propel consoles, tilting
Cup holder
Ground speed indicator
Propel lever with speed control dial
Steering wheel
Toggle switches for control functions
Seats, vinyl, suspension
Armrests, flip-up
Seat belt, retractable, 3" (76 mm)
12 V aux power port
Hour meter
Instrumentation, LCD gauge display
Lockable vandalism guards
Platform handrails / guardrails
Power assist steering
Throttle control, high/low idle and
variable, electronic

POWERTRAIN

CAT C6.6 ACERT, 6-cylinder, diesel,
turbocharged engine, 174 HP (129 kW)
Air cleaner, dry-type dual element with
integral precleaner
Air-to-Air after cooler (ATAAC)
Belt, automatic tensioner
Demand fan
Fuel filter / water separator
Fuel priming pump, electric
Ground level engine shutdown
Muffler, folding stack
Propel system - direct hydrostatic,
dual path drive, electronic control
Dual braking systems (service/parking)
Dual propel pump and motor system
Front wheels (4), solid rubber on
bogie axles
Planetary rear wheel drive
Propel modes, Pave/Travel/Maneuver
Speed control system

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Fuel tank with sediment drain,
77 gal (291 L)
Grouped lube points
Filters, hydraulic, grouped
Pressure test ports, hydraulic,
quick-connect
Screed counter balance
Sight gauges (engine coolant,
pump drive, air filter
restriction indicator)
Slow moving vehicle sign
S.O.S. sampling ports
Sound-suppression insulation kit
Steering guide (1)
Tow point indicator scales
Vandalism protection caplocks

ANTIFREEZE

Extended Life Coolant with protection
to -29F (-34C)

MUST SELECT ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION

ELECTRONICS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	311-6865	PRODUCT LINK, SATELLITE PL321 9 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		\$1,460 NET
L	319-4492	NO PRODUCT LINK 0		NC
L	374-0583	PRODUCT LINK, SATELLITE PL321 10 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage. REQUIRES: HARD TOP CANOPY		\$1,460 NET
L	416-2254	PRODUCT LINK, CELLULAR PL421 5 Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		\$470 NET
L	389-9070	PRODUCT LINK, CELLULAR PL522 10 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization and condition. Cellular technology provides capabilities for frequent data transmission.		\$1,431

POWERTRAIN***ENGINE***

L	385-2725	ENGINE, NACD ONLY 0 Includes: emissions information label EPA/ARB Tier 4 Interim AB&T Certified Engine. (Tier 3 credit-using engine)		NC
---	----------	--	--	-----------

OTHER ATTACHMENTS**TRUCK INTERFACE**

L	275-2449	PUSH ROLLER, OSCILLATING	1,400 0	\$4,405 \$4,405 NI
		Push rollers on a fore-aft adjustable pivot for centering truck and to assist steering during unloading. Includes scrapers to prevent material build-up. CANNOT BE USED WITH: HITCH, HYDRAULIC TRUCK		
L	308-0518	HITCH, HYD PREP, TRACTOR	30 0	\$2,615 \$2,615 NI
		Includes hydraulic valve and hoses to accept field installed truck hitch. INCLUDED IN: HITCH, HYDRAULIC TRUCK,		
L	308-0517	HITCH, HYDRAULIC TRUCK	1,600 0	\$15,630 \$15,630 NI
		Includes hydraulic valve and hoses plus truck hitch (clamp arms with rollers) to hold truck to paver when unloading. Actuated from operator's console. CANNOT BE USED WITH: HITCH, HYD PREP, TRACTOR		

FRONT SUSPENSION

L	311-9347	BOGIE SYSTEM, STANDARD	0	NC
		Front solid rubber steering wheels (13" wide x 22" diameter) mounted on oscillating bogies. No front wheel drive		
L	295-5505	FRONT WHEEL ASSIST	0	\$23,660
		Provides hydrostatic drive of front two bogie wheels only.		
L	312-8767	FRONT WHEEL ASSIST, AWD	0	\$29,510
		Provides hydrostatic drive of all 4 bogie wheels for maximum traction.		

DRIVE TIRES

Due to worldwide tire shortage, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice but we reserve the right to propose you alternate tires. Any proposed change will be reviewed with the dealer prior to machine shipment. The machine will ship only with the dealer acceptance of the proposed alternative tire.

L	294-2879	DRIVE TIRE, SAND RIB	0	\$520
		Qty 2, 16.00 R24, E-7, 12 ply rating. Continental, bias ply, tubeless. Non-directional tire provides good traction for majority of applications and creates less disturbance of sub-base while maneuvering.		
L	294-2878	DRIVE TIRE, XGC RADIAL	0	\$5,850
		Qty 2, 16.00 (445/95) R25, E-2, 2 star rating, radial, tubeless. Bridgestone VHS non-directional tire with aggressive tread provides increased traction.

-----	------------	-----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AUGER/FEEDER CONTROL SENSORS**

P	198-8279	CONTROL, FEEDER, PADDLE 44 Includes two, proportional, contacting type, paddle sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed.		\$2,150 NI
P	294-0112	SENSOR, FEEDER, SONIC 20 Includes two, proportional, non-contacting type, sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed.		\$3,690 NI

AUGER/MAINFRAME EXTENSIONS

P	231-3532	EXTENSION, 6" AUGER, PAIR 0 For paving 8' to 12' wide. Includes a LH & RH 6" auger extension. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		\$910 NI
P	243-0329	KIT, 18" AUGER EXTENSION 474 Recommended if paving 12' to 15'6" wide. Includes a pair of 6" and a pair of 1' auger extensions. RECOMMENDED FOR USE WITH: REAR MOUNT SCREEDS w/o Wide Width Paving packages.		\$2,195 NI
P	241-9103	KIT, AUGER AND MAINFRAME EXT 1,025 Recommended if paving 12' to 14'5" wide. Includes a pair of 6" auger extensions, two pairs (4) of 1' auger extensions and a pair of foldable, hinged 2' mainframe extensions to facilitate frequent screed width changes. RECOMMENDED FOR USE WITH: FRONT MOUNT SCREEDS w/o Wide Width Paving packages.		\$4,790 NI

GENERATOR SYSTEM

L	270-6762	GENERATOR, DRIVE, HYD 1,334 Industrial - single phase, hydraulically-driven generator mounted below deck provides up to 25 kW continuous A.C.power (240/120 V) at fixed frequency. Includes circuit breaker protection and internal electronic voltage regulation. Full power operation at 1275 engine rpm and above produces a constant 60 Hz for frequency dependent lights and tools. FOR USE WITH: ELECTRIC HEATED SCREEDS AND/OR AUXILIARY POWER SUPPLY PANEL		\$13,050
---	----------	--	--	-----------------

HOPPER APRON CONTROL

L	273-1160	APRON, MANUAL FOLD 0 Manual raise hopper apron for easy material clean-out.		NC
L	278-8234	APRON, HYDRAULIC FOLD, ST 948 Hydraulically actuated hopper apron with bolt-in 'wings' helps contain material after truck dump and while raising hoppers.		\$6,270

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
OTHER ATTACHMENTS (CONT.)				
HOPPER FLASHING				
L	346-1708	FLASHING, MANUAL FOLD 0 Heavy-duty black Tivar flashing to reduce material spillage from front of hopper. REQUIRES: APRON, MANUAL FOLD		NC
L	346-1706	FLASHING, HYDRAULIC FOLD 0 Same as above but for use with hydraulic folding apron. REQUIRES: APRON, HYDRAULIC FOLD		NC
DECEL PEDAL				
L	272-2384	COVER, NO DECEL PEDAL 0 No provision for decel pedals.		NC
L	276-0079	PEDALS, DECELERATOR 44 Two decelerator pedals, one for each operator station, that provide dynamic machine braking without having to decrease the propel speed setting.		\$1,625
VENTILATION SYSTEM				
L	270-6764	COVER. 0 No provision for ventilation system.		NC
L	270-6763	VENTILATION SYSTEM 529 Asphalt fumes extraction with hydraulically driven fan. Combined with engine exhaust into a single outlet stack. Required for U.S. market only.		\$8,520
WASHDOWN SYSTEMS				
L	201-7654	COVER, NO WASHDOWN 0 No provision for washdown system.		NC
L	270-6875	PUMP, DIESEL 23 Provides diesel fuel supply for pressurized washdown system, taken directly from paver fuel tank. FOR USE WITH: WASHDOWN HOSE GROUPS		\$725
L	297-2512	TANK, WASHDOWN 85 0 10 gallon tank with integral pump mounted below deck on LH side. Intended for use with ecological cleaning fluids. FOR USE WITH: WASHDOWN HOSE GROUPS		\$2,420 \$2,420 NI
OPERATOR ENVIRONMENT				
L	370-0100	HARD TOP CANOPY 591 561 Canopy made of fiberglass provides the paver operator sun and rain protection. Raises or lowers hydraulically with a hand actuated pump.		\$5,500 \$5,500 NI
L	370-9151	WALKWAY, NO CANOPY 0 No fiberglass canopy installed.		NC

OTHER ATTACHMENTS (CONT.)**SERVICE INSTRUCTIONS**

L	290-2117	INSTRUCTIONS, NORTH AMERICAN 0 Picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada).		NC
L	290-2118	INSTRUCTIONS, INTERNATIONAL 0 Picto warning decals using symbols only as required for all non-North American countries and Quebec, Canada.		NC

COMMISSIONING SUPPORT

NOTE: It is recommended that startup and commissioning of machines be included as part of the machine sale. The net charge covers a four day commissioning event. Trained personnel cover proper machine setup, basic maintenance, operation and application on a customer's jobsite. To request and schedule a machine commissioning event, dealers will need to contact the Caterpillar Paving Technical Training group by filling out the online request form.
URL: <https://dealer.cat.com/PavingOnDemand>

ELECTRICAL				
P	198-8284	LIGHT, HAZARD 30 Rotating amber beacon light mounted on a 3' mast with coil cord and connector.		\$700 NI
L	363-3401	LIGHTING READY, CANOPY 5 Wiring installed in hard top fiberglass canopy to accept high intensity lights. REQUIRES: HARD TOP CANOPY		\$321
P	361-2724	HID LIGHTS, CANOPY 15 15 High intensity lights for night paving operations. REQUIRES: HARD TOP CANOPY REQUIRES: LIGHTING READY, CANOPY		\$1,500 \$1,500 NI
P	363-7444	LIGHT, HAZARD, CANOPY 15 Rotating amber beacon light mounted on hard top canopy with coil cord and connector. REQUIRES: HARD TOP CANOPY REQUIRES: LIGHTING READY, CANOPY		\$321 NI
L	283-4417	PANEL, POWER SUPPLY, AUX 52 Electrical distribution panel with a total output of 8 kW, protected by a 35 amp circuit breaker at the generator, provides power for ex-factory installed lighting and customer work tools. Lockable control panel includes four 120 V (2x2) GFCI receptacles protected by two 15 amp circuit breakers and two 240 V receptacles each protected by 20 amp circuit breakers. REQUIRES: GENERATOR, DRIVE, HYD		\$4,070
OPERATOR ENVIRONMENT				
P	187-6649	UMBRELLA, CAT 15 One umbrella to provide paver operator sun and rain protection. Measures 54" x 54" and is collapsible. Includes support shaft and mounting hardware.		\$169 NI
P	370-2572	WINDSHIELD 198 0 FOR USE WITH LANE 3 ONLY Provides a machine width folding windshield with adjustable wipers. REQUIRES: HARD TOP CANOPY		\$4,545 \$4,545 NI
OTHER TRACTOR ATTACHMENTS				
P	273-9969	GUIDE, STEERING 33 Second, adjustable position steering guide with indicator chain.		\$635 NI
P	306-6518	INDICATOR, TOW POINT 6 Pair of tow point height gauges mounted on top of paver deck.		\$920
P	278-0358	HOSE, 30' WITH SPRAY WAND 37 Includes 30' hose, spray gun and quick-connect coupling. No reel. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$443 NI
P	278-0357	HOSE, REEL WITH WAND 50 50 Includes 30' hose on self-storing reel with spray gun mounted to handrail at rear of tractor. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$1,785 \$1,785 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OTHER TRACTOR ATTACHMENTS (Cont.)**

P	306-5155	KIT, UPTIME 66 Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, relays, sensors, toggle switches, potentiometers, generator drive coupling, and relays for ESH temperature control panel.		\$1,720 NI
P	199-4206	EXTENSION, 1' AUGER LH 154 One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving packages		\$715 NI
P	198-8287	EXTENSION, 1' AUGER RH 154 One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving packages		\$715 NI
P	231-2043	EXTENSION, 2' AUGER LH 298 One 2' auger extension and mounting hardware.		\$1,235 NI
P	231-2042	EXTENSION, 2' AUGER RH 298 One 2' auger extension and mounting hardware.		\$1,235 NI
P	116-9509	SUPPORT, AUGER BEARING 165 One bracket/bearing to support end of auger. Mounted off of mainframe extension. FOR DUAL AUGER SUPPORT ORDER QTY 2. FOR USE WITH: MAINFRAME BRACE INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$1,645 NI
P	231-1956	BRACE, MAINFRAME 220 One brace to stabilize augers and mainframe extensions for wide width paving. FOR DUAL BRACING ORDER QTY 2. FOR USE WITH: 1' OR 2' MAINFRAME EXTENSIONS INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$985 NI
P	282-8500	EXTENSION, MAINFRAME - BASIC 441 Consists of a 1' pair of mainframe extensions and mounting hardware. Allows extensions to raise and lower automatically with auger height adjustment. FOR USE WITH: 1' AND 2' FIXED OR FOLDABLE MAINFRAME EXTENSIONS INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$3,405 NI
P	231-1982	EXTENSION, 1' MAINFRAME 44 One 1' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. INCLUDED IN: AS3251C 20'2" Wide Width Paving package NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$370 NI
P	231-1983	EXTENSION, 2' MAINFRAME 77 One 2' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$590 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)***OTHER TRACTOR ATTACHMENTS (Cont.)***

P	215-7553	EXTENSION, 0-2' MAINFRAME, PAIR 243 Consists of a pair of hinged mainframe extensions foldable from 0' to 2' to facilitate frequent screed width changes. Bolts to mainframe and can be raised or lowered with augers. Not intended to support mainframe brace. CANNOT BE USED WITH: SUPPORT, AUGER BEARING INCLUDED IN: AS3251C 17'6" Wide Width Paving package NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$1,195 NI
P	355-8491	EXTENSION, MAINFRAME, POWER 420 Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT AUGER BEARING; EXTENSION MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE Effective with serial number TFZ00319 & down.		\$7,230 NI
P	417-7850	MAINFRAME, POWER EXTENSION 420 Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. REQUIRES: AS3251C SCREED, also works with Weiler S2252 CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT AUGER BEARING; EXTENSION MAINFRAME BASIC, ANY WIDE WIDTH PAVING PACKAGE. Effective with serial number TFZ00320 & up.	420 420	\$7,230 \$7,230 NI

GRADE AND SLOPE CONTROLS

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensor. Brackets for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3251C EXTEND-A-MAT		\$7,510 NI
---	----------	--	--	-------------------

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	337-9988	CONTROL, BASE CAT G&S SYSTEM 175 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed. wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR Requires: works with Weiler S2252 CANNOT BE USED WITH: SCREED, AS3251C		\$7,360 NI
P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when BASE CAT G&S SYSTEM CONTROL is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,025 NI
P	348-3783	SENSOR, SLOPE 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$2,495 NI
P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	279-2461	CONTROL, TOPCON 200 TSD SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS		\$17,010 NI
P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

LEVELING DEVICES

NOTE: Reference 'Optional Equipment for Asphalt Paving' QEDQ1244 for images and more details.

Each of the following mobile grade reference devices listed below must be used in conjunction with a Grade & Slope control system.

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400 Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 9.1 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC		\$16,190 NI
P	257-6255	BEAM, SONIC AVERAGING 2,502 Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE		\$21,610 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5623	LEVELER, 30' OUTBOARD 2,187 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.		\$7,610 NI
P	109-5622	LEVELER, 40' OUTBOARD 2,284 SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.		\$7,820 NI
P	109-5624	LEVELER, INBOARD 1,702 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$6,000 NI
P	109-5625	LEVELER, FORE'N AFT 425 SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5626	REFERENCE, MOBILE STRINGLINE 500 A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI
P	109-5628	SKI, RIGID REFERENCE 30' 661 A 30' triangular truss rigid ski that runs directly outside of the tractor and the screed riding on the reference surface. It is towed by the paver and gets positioned midway on the paver by attaching to the front of the tractor at the push beam area and has a guide attachment on the screed that allows the ski to move vertically independent of the paver. The purpose of the rigid ski is to measure only the high spots in the reference surface and bridges the low spots that fall within the length of the ski. The resulting mat thickness is the thickness on top of the high spots. A grade sensor (not provided) can reference directly off ski or a string line mounted to the ski. Includes mounting hardware. Provides least amount of averaging compared to other grade references. Good for joint matching in highway applications. Not intended for use where optimal mat smoothness is desired or where rideability is specified.		\$3,645 NI
P	109-5627	SKI, RIGID REFERENCE 40' 882 SAME AS SKI, RIGID REFERENCE 30' above except for 40' triangular truss rigid ski. Capable of producing an even flatter and more level surface than the 30' rigid ski but is not as transportable.		\$4,120 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3251C EXTEND-A-MAT SCREED - WITH REAR MOUNT EXTENDERS**

For optimal performance KIT, 18" AUGER EXTENSION is recommended if paving 12' - 15'6" wide.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	276-4539	SCREED, AS3251C EXTEND-A-MAT	6,450 6,450	\$81,630 \$81,630 NI
Provides paving widths from 8' to 15'6". Features 3'9" extenders behind main 8' screed with vibration on all 18" deep screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: GENERATOR (from Tractor section)				

AS3251C EXTEND-A-MAT SCREED MANDATORY ATTACHMENT SELECTION

MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY

AS3251C THICKNESS CONTROL SCREWS

L	277-9934	THICKNESS SCREW, CW	0	NC
Two acme LH threaded screws (1"-8 tpi) for fine control. Clockwise turn increases paving depth. Lower turning effort than coarse screws.				
L	277-9935	THICKNESS SCREW, CCW	0	NC
Same as above but RH, counter clockwise operation instead.				
L	287-0326	THICKNESS SCREW, COARSE CW	0	\$499
Two acme, LH threaded screws (1"-4 tpi). Clockwise operation. Requires half the turning rotation compared to fine screws.				
L	287-0327	THICKNESS SCREW, COARSE CCW	0	\$499
Same as above but RH, counter clockwise operation instead.

AP655D ASPHALT PAVER
MINNEAPOLIS, MN

Ship Weight
lbs

List Price
At Factory

Standard Equipment:

ELECTRICAL

Alarm, back-up
Alternator, 80-amp
Batteries, two maintenance free,
1000 CCA each
CAT ET diagnostic connector
Horn, forward warning
Machine Security System wire-ready
Product Link Ready
Remote jump start post
Starting and charging system, 24-volt

MATERIAL FEEDERS

Adjustable height augers, hydraulic
Cast Ni-Hard steel, split segment,
16" (406 mm) diameter
Electronic auger/feeder control system
Gateless feeder system
Independent L/R side ratio control
Manual override
Reversible
Variable speed
Heavy-duty feeder flight bars, forged
steel, bushed roller chain
High-hardness, abrasion resistant drag
pans, replaceable
Hopper 230 cu ft (6.5 cu m) capacity
with black Tivar flashing
Outboard feeder drives
Remote mounted bearing lube points

OPERATOR ENVIRONMENT

Advisor, electronic monitoring and
warning system
Automatic engine speed control
Dual, swing-out operator stations
Control and propel consoles, tilting
Cup holder
Ground speed indicator
Propel lever with speed control dial
Steering wheel
Toggle switches for control functions
Seats, vinyl, suspension
Armrests, flip-up
Seat belt, retractable, 3" (76 mm)
12 V aux power port
Hour meter
Instrumentation, LCD gauge display
Lockable vandalism guards
Platform handrails / guardrails
Power assist steering
Throttle control, high/low idle and
variable, electronic

POWERTRAIN

CAT C6.6 ACERT, 6-cylinder, diesel,
turbocharged engine, 174 HP (129 kW)
Air cleaner, dry-type dual element with
integral precleaner
Air-to-Air after cooler (ATAAC)
Belt, automatic tensioner
Demand fan
Fuel filter / water separator
Fuel priming pump, electric
Ground level engine shutdown
Muffler, folding stack
Propel system - direct hydrostatic,
dual path drive, electronic control
Dual braking systems (service/parking)
Dual propel pump and motor system
Propel modes, Pave/Travel/Maneuver
Speed control system
Track undercarriage, Mobil-Trac
or steel track
Automatic track tensioning, hydraulic

OTHER STANDARD EQUIPMENT

Doors, service access, hinged, locking
Fuel tank with sediment drain,
77 gal (291 L)
Grouped lube points
Filters, hydraulic, grouped
Pressure test ports, hydraulic,
quick-connect
Screed counter balance
Sight gauges (engine coolant,
pump drive, air filter
restriction indicator)
Slow moving vehicle sign
S.O.S. sampling ports
Sound-suppression insulation kit
Steering guide (1)
Tow point indicator scales
Vandalism protection caplocks

ANTIFREEZE

Extended Life Coolant with protection
to -29F (-34C)

AP655D ASPHALT PAVER MINNEAPOLIS, MN		Ship Weight lbs	List Price At Factory
262-4100	AP655D MTS ASPHALT PAVER 33,110 Mobil-trac System. Fully bogied undercarriage with rubber coated steel mid-wheels. Two-speed planetaries and single speed motors. Must select rubber belt from Mandatory Attachment section.		\$295,830
262-4110	AP655D ST ASPHALT PAVER 33,110 Steel Track. 120" long fitted with 5" X 14" rubber track pads. Bogie rollers with special rear quad roller ride on Cat D3 sealed type track rail with split master link. Single speed planetaries and two-speed motors.		\$287,250

OTHER ATTACHMENTS (CONT.)**AUGER/FEEDER CONTROL SENSORS**

P	198-8279	CONTROL, FEEDER, PADDLE 44 Includes two, proportional, contacting type, paddle sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed.		\$2,150 NI
P	294-0112	SENSOR, FEEDER, SONIC 20 Includes two, proportional, non-contacting type, sonic sensors that automatically actuate the feeders to maintain a preset amount of material ahead of the screed.		\$3,690 NI

AUGER/MAINFRAME EXTENSIONS

P	231-3532	EXTENSION, 6" AUGER, PAIR 0 For paving 8' to 12' wide. Includes a LH & RH 6" auger extension. FOR USE WITH: ALL SCREEDS AND ALSO FOR TRACTORS ORDERED WITHOUT A SCREED TO MEET MINIMUM PAVING REQUIREMENT FOR MOST APPLICATIONS.		\$910 NI
P	243-0329	KIT, 18" AUGER EXTENSION 474 Recommended if paving 12' to 15'6" wide. Includes a pair of 6" and a pair of 1' auger extensions. RECOMMENDED FOR USE WITH: REAR MOUNT SCREEDS w/o Wide Width Paving packages.		\$2,195 NI
P	241-9103	KIT, AUGER AND MAINFRAME EXT 1,025 Recommended if paving 12' to 14'5" wide. Includes a pair of 6" auger extensions, two pairs (4) of 1' auger extensions and a pair of foldable, hinged 2' mainframe extensions to facilitate frequent screed width changes. RECOMMENDED FOR USE WITH: FRONT MOUNT SCREEDS w/o Wide Width Paving packages.		\$4,790 NI

GENERATOR SYSTEM

L	270-6762	GENERATOR, DRIVE, HYD 1,334 Industrial - single phase, hydraulically-driven generator mounted below deck provides up to 25 kW continuous A.C.power (240/120 V) at fixed frequency. Includes circuit breaker protection and internal electronic voltage regulation. Full power operation at 1275 engine rpm and above produces a constant 60 Hz for frequency dependent lights and tools. FOR USE WITH: ELECTRIC HEATED SCREEDS AND/OR AUXILIARY POWER SUPPLY PANEL		\$13,050
---	----------	--	--	-----------------

HOPPER APRON CONTROL

L	273-1160	APRON, MANUAL FOLD 0 Manual raise hopper apron for easy material clean-out.		NC
L	272-2320	APRON, HYDRAULIC FOLD, MTS 948 Hydraulically actuated hopper apron with bolt-in 'wings' helps contain material after truck dump and while raising hoppers. REQUIRES: MOBIL-TRAC ASPHALT PAVER		\$6,270
L	278-8234	APRON, HYDRAULIC FOLD, ST 948 Same as above but for use with ST instead. REQUIRES: STEEL TRACK ASPHALT PAVER		\$6,270

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**HOPPER FLASHING**

L	346-1708	FLASHING, MANUAL FOLD 0 Heavy-duty black Tivar flashing to reduce material spillage from front of hopper. REQUIRES: APRON, MANUAL FOLD		NC
L	346-1706	FLASHING, HYDRAULIC FOLD 0 Same as above but for use with hydraulic folding apron. REQUIRES: APRON, HYDRAULIC FOLD		NC

DECEL PEDAL

L	272-2384	COVER, NO DECEL PEDAL 0 No provision for decel pedals.		NC
L	276-0079	PEDALS, DECELERATOR 44 Two decelerator pedals, one for each operator station, that provide dynamic machine braking without having to decrease the propel speed setting.		\$1,625

STEERING CONTROL

L	347-1851	STEERING, SPRING RETURN 0 Conventional type, spring return controlled steering wheels.		NC
L	391-1266	STEERING, FRICTION 10 Elect adjustable feel controlled steering wheel selectable by operator. Steering wheel stays in desired position.		\$4,095

VENTILATION SYSTEM

L	270-6764	COVER 0 No provision for ventilation system.		NC
L	270-6763	VENTILATION SYSTEM 529 Asphalt fumes extraction with hydraulically driven fan. Combined with engine exhaust into a single outlet stack. Required for U.S. market only.		\$8,520

WASHDOWN SYSTEMS

L	201-7654	COVER, NO WASHDOWN 0 No provision for washdown system.		NC
L	270-6875	PUMP, DIESEL 23 Provides diesel fuel supply for pressurized washdown system, taken directly from paver fuel tank. FOR USE WITH: WASHDOWN HOSE GROUPS		\$725
L	270-4461	TANK, WASHDOWN 187 0 10 gallon tank with integral pump mounted below deck on LH side. Intended for use with ecological cleaning fluids. FOR USE WITH: WASHDOWN HOSE GROUPS		\$2,380 \$2,380 NI

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OPERATOR ENVIRONMENT**

L	370-0100	HARD TOP CANOPY	591 561	\$5,500 \$5,500 NI
		Canopy made of fiberglass provides the paver operator sun and rain protection. Raises or lowers hydraulically with a hand actuated pump.		
L	370-9151	WALKWAY, NO CANOPY	0	NC
		No fiberglass canopy installed.		

SERVICE INSTRUCTIONS

L	286-9968	INSTRUCTIONS, NORTH AMERICAN	0	NC
		Picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada).		
L	290-2116	INSTRUCTIONS, INTERNATIONAL	0	NC
		Picto warning decals using symbols only as required for all non-North American countries and Quebec, Canada.		

COMMISSIONING SUPPORT

NOTE: It is recommended that startup and commissioning of machines be included as part of the machine sale. The net charge covers a four day commissioning event. Trained personnel cover proper machine setup, basic maintenance, operation and application on a customers's jobsite. To request and schedule a machine commissioning event, dealers will need to contact the Caterpillar Paving Technical Training group by filling out the online request form.
URL: <https://dealer.cat.com/PavingOnDemand>

	0P-2586	COMMISSIONING, NEEDED	0 0	\$6,120 NET \$6,120 NI NET
		Commissioning, Needed, trained personnel are required to properly commission the machine.		
	0P-2587	COMMISSIONING, NOT NEEDED	0	NC
		Commissioning, Not Needed, dealer personnel are available to properly commission the machine.

P	278-0358	HOSE, 30' WITH SPRAY WAND 37 Includes 30' hose, spray gun and quick-connect coupling. No reel. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$443 NI
P	278-0357	HOSE, REEL WITH WAND 50 50 Includes 30' hose on self-storing reel with spray gun mounted to handrail at rear of tractor. REQUIRES: PUMP, DIESEL OR TANK, WASHDOWN		\$1,785 \$1,785 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**OTHER TRACTOR ATTACHMENTS (Cont.)**

P	306-5155	KIT, UPTIME 66 Consists of critical spare parts to ensure maximum machine uptime. Items come packed in a lockable tool box and each part is clearly identified. Kit includes: O-ring seals, circuit breakers, relays, sensors, toggle switches, potentiometers, generator drive coupling, and relays for ESH temperature control panel.		\$1,720 NI
L	263-6006	PLOW, TRACK 176 0 Ground scraper mounted in front of tracks that can be secured in raised position. Provides smoother operation and longer track life.		\$2,015 \$2,015 NI
P	199-4206	EXTENSION, 1' AUGER LH 154 One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving packages		\$715 NI
P	198-8287	EXTENSION, 1' AUGER RH 154 One 1' auger extension and mounting hardware. INCLUDED IN: ALL Wide Width Paving packages		\$715 NI
P	231-2043	EXTENSION, 2' AUGER LH 298 One 2' auger extension and mounting hardware.		\$1,235 NI
P	231-2042	EXTENSION, 2' AUGER RH 298 One 2' auger extension and mounting hardware.		\$1,235 NI
P	116-9509	SUPPORT, AUGER BEARING 165 One bracket/bearing to support end of auger. Mounted off of mainframe extension. FOR DUAL AUGER SUPPORT ORDER QTY 2. FOR USE WITH: MAINFRAME BRACE INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$1,645 NI
P	231-1956	BRACE, MAINFRAME 220 One brace to stabilize augers and mainframe extensions for wide width paving. FOR DUAL BRACING ORDER QTY 2. FOR USE WITH: 1' OR 2' MAINFRAME EXTENSIONS INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$985 NI
P	282-8500	EXTENSION, MAINFRAME - BASIC 441 Consists of a 1' pair of mainframe extensions and mounting hardware. Allows extensions to raise and lower automatically with auger height adjustment. FOR USE WITH: 1' AND 2' FIXED OR FOLDABLE MAINFRAME EXTENSIONS INCLUDED IN: AS3251C 20'2" Wide Width Paving package		\$3,405 NI
P	231-1982	EXTENSION, 1' MAINFRAME 44 One 1' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. INCLUDED IN: AS3251C 20'2" Wide Width Paving package NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$370 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)***OTHER TRACTOR ATTACHMENTS (Cont.)***

P	231-1983	EXTENSION, 2' MAINFRAME 77 One 2' fixed mainframe extension and mounting hardware. FOR DUAL MAINFRAME EXTENSIONS ORDER QTY 2. NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$590 NI
P	215-7553	EXTENSION, 0-2' MAINFRAME, PAIR 243 Consists of a pair of hinged mainframe extensions foldable from 0' to 2' to facilitate frequent screed width changes. Bolts to mainframe and can be raised or lowered with augers. Not intended to support mainframe brace. CANNOT BE USED WITH: SUPPORT, AUGER BEARING INCLUDED IN: AS3251C 17'6" Wide Width Paving package NOTE: Must have EXTENSION, MAINFRAME BASIC if mainframe extensions are required to move automatically with auger height adjustment.		\$1,195 NI
P	355-8490	EXTENSION, MAINFRAME, POWER 0 Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT AUGER BEARING; EXTENSION MAINFRAME BASIC; ANY WIDE WIDTH PAVING PACKAGE Effective with serial number for AP655D Steel Track MAT00208 & down and AP655D Mobil-Trac GNZ00490 and down.		\$7,230 NI
P	417-7850	MAINFRAME, POWER EXTENSION 420 Pair of hydraulically powered mainframe extensions to direct material delivery to endgate and facilitate frequent screed width changes. Extends 0.46 m (18 in) past mainframe. REQUIRES: AS3251C SCREED, also works with Weiler S2252 CANNOT BE USED WITH: CONTROL, FEEDER, PADDLE; SUPPORT AUGER BEARING; EXTENSION MAINFRAME BASIC, ANY WIDE WIDTH PAVING PACKAGE. Effective with serial number AP655D Steel Track MAT00209 & up and AP655D Mobil-Trac GNZ00491 & up.	420 420	\$7,230 \$7,230 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS**

P	330-6083	CONTROL, BASE CAT G&S SYSTEM 160 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed, wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensor. Brackets for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: SCREED, AS3251C EXTEND-A-MAT		\$7,510 NI
P	337-9988	CONTROL, BASE CAT G&S SYSTEM 175 CAT automatic screed control system with a single easy-to-use split-screen display allowing one screed operator to monitor both sides of the screed. The system can be used with a combination of sonic and contact sensors, slope sensor and averaging beam. Includes: one CD620 control/display unit with integral lockable enclosure located on LH side of screed. wiring harness, storage case that holds two displays, padlock, two screed support brackets and two tow arm support brackets for LH and RH mounting of grade sensors. Bracket for mounting display to RH side is also included to accommodate customer preference. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR Requires: works with Weiler S2252 CANNOT BE USED WITH: AS3251C SCREED		\$7,360 NI
P	348-3782	CONTROL, ADD-ON CAT G&S SYSTEM 30 Provides a dual unit CAT automatic screed control system when BASE CAT G&S SYSTEM CONTROL is selected first. Allows two screed operators to monitor their side of the screed. Includes one CD620 control/display unit with integral lockable enclosure located on other side of screed, wiring harness, and padlock. Displays can be configured for single or split-screen modes. FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR AND SLOPE SENSOR REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,025 NI
P	348-3783	SENSOR, SLOPE 20 Includes one slope sensor located on transverse beam at rear of tractor with mounting hardware. Connects to main CAT G&S wiring harness. REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$2,495 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**GRADE AND SLOPE CONTROLS (Cont.)**

P	330-6084	SENSOR, GRADE, SONIC, CAT 50 Contact-free tracing of ground or stringline with self-averaging to minimize effect of short surface irregularities and objects. Includes one sonic tracer consisting of five maintenance-free ceramic sensors with automatic temperature compensation, coily cable, sensor pole, two support arms and mounting hardware. Unit is 28 cm (11 in) long. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$4,355 NI
P	330-6085	SENSOR, GRADE, MECHANICAL, CAT 50 Mechanically traces the ground or stringline. Includes one proportional contacting mechanical sensor with one wand and one riding shoe attachment, coily cable, sensor pole, two support arms and mounting hardware. FOR GRADE/GRADE OPERATION ORDER QTY 2 REQUIRES: CONTROL, BASE CAT G&S SYSTEM		\$3,045 NI
P	279-2461	CONTROL, TOPCON 200 TSD SYSTEM 5 automatic grade and slope control system including two screed mounted control units, slope sensor, cables, mounting hardware and storage case. MUST SELECT TYPE AND QUANTITY OF GRADE SENSORS ('TRACKERS') FOR GRADE/SLOPE OPERATION MUST HAVE ONE GRADE SENSOR FOR GRADE/GRADE OPERATION MUST HAVE TWO GRADE SENSORS		\$17,010 NI
P	282-8520	CONTROL, TSD SONIC TYPE 66 Includes one proportional non-contacting sonic type tracker, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$4,260 NI
P	298-0642	CONTROL, WAND TYPE, TSD 77 Includes one proportional contacting type tracker with one wand and one riding shoe attachment, electrical control cable and mounting hardware. FOR DUAL GRADE CONTROL OPERATION ORDER QTY 2 NOTE: Must have TOPCON CONTROL		\$3,125 NI

LEVELING DEVICES

NOTE: Reference 'Optional Equipment for Asphalt Paving' QEDQ1244 for images and more details.

Each of the nine mobile grade reference devices listed below must be used in conjunction with a Grade & Slope control system.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	332-9203	BEAM, SONIC AVERAGING, CAT G&S 400 Non-contacting beam utilizing three sonic tracers for enhanced averaging capability. System smoothes out any unevenness of the reference surface by calculating an average value over the entire length of the beam. 9.1 m (30 ft) total beam length of four sections with both ends that fold for adjustability and ease of transport. Includes: two sonic tracers (assumes customer already has one or if not an additional sonic tracer must be selected), wiring harness, two support arms, two tow arm support brackets, mounting hardware. REQUIRES: CONTROL, BASE CAT G&S SYSTEM (1) SENSOR, GRADE, SONIC		\$16,190 NI
P	257-6255	BEAM, SONIC AVERAGING 2,502 Includes one 24' long sonic averaging beam, three TOPCON sonic grade sensors with temperature bails, one storage case, wire harness kit and mounting hardware. The beam consists of 4 individual beams linked together which mounts to paver tow arm. Sonic trackers get attached to each sub-beam. This non-contacting device can be used inboard or outboard. Easy to transport with paver. Ideal for large parking lots and city streets. NOTE: Must have the following items for this to function properly. CONTROL, TOPCON and one CONTROL, TSD SONIC TYPE		\$21,610 NI
P	109-5623	LEVELER, 30' OUTBOARD 2,187 30' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that runs along the outside of the tractor and the screed. Utilizes a combination of beams and shoes that pivot on pins to provide the optimum reference for grade controls. Two sub-beams with two shoes each attach to both the front and rear of the main beam. A string line runs along the top of the beam from front to rear. The whole unit is to be positioned mid way along the paver and the grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. The leveler gets pulled by the paver and increases the sensing length. It averages the high and low points in the reference surface to maximize the self-leveling characteristics of the paver. Includes mounting hardware. Best for smoothness and rideability. Good for joint matching. Primarily for highways and paving jobs with long pulls due to difficulty in maneuvering.		\$7,610 NI
P	109-5622	LEVELER, 40' OUTBOARD 2,284 SAME AS LEVELER, 30' OUTBOARD above except for 40' long multi-pad aluminum beam. Capable of producing an even flatter and more level surface than the 30' leveler but is not as transportable.		\$7,820 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5624	LEVELER, INBOARD 1,702 12' long multi-pad aluminum beam (measured from front to rear-most pivot pin) that mounts ahead and inboard of the screed. Two sub-beams with two shoes each that pivot on pins attach to the main beam. This leveler gets pulled by the paver. A traveling string line is attached to the screed and the main beam of the inboard leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the reference surface undulations and the string line, attached to the screed, will react if the pre-set mat thickness drifts up or down. Includes mounting hardware. Good for highway, city and state road applications. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$6,000 NI
P	109-5625	LEVELER, FORE'N AFT 425 SAME AS LEVELER, INBOARD above except that a towed shoe attaches to the screed and rides on the mat. This shoe pivots and is allowed to float on top of the finished mat. A string line gets stretched between the front inboard and aft leveler. A grade sensor (not provided) mounts on the tow arm and senses the midpoint of the string. During paving the front leveler will average out the high and low points of the reference surface while the aft leveler responds to height changes in the mat behind the screed. Includes mounting hardware. Best for highways and paving jobs with long pulls. Not as effective as an outboard leveler. Used when outboard referencing is not practical due to width restrictions.		\$7,470 NI
P	109-5626	REFERENCE, MOBILE STRINGLINE 500 A two section arrangement of beams and shoes that mount outboard of the tractor and screed. An 8' front section with two shoes that pivot on pins gets attached to the front push beam and is towed by the paver. A 4' rear section with two shoes that pivot on pins attaches to the screed end gate. The arrangement is semi-independent from the paver. A string line is stretched between the beams and the grade sensor (not provided) mounts to the tow arm and senses off the midpoint of the string which provides an average of the reference surface and the mat thickness. Includes mounting hardware. Good for highway applications and ideal for areas w/o shoulders such as county roads. Provides good accuracy and rideability. Not as effective as an outboard leveler.		\$6,090 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**LEVELING DEVICES (Cont.)**

P	109-5628	SKI, RIGID REFERENCE 30' 661 A 30' triangular truss rigid ski that runs directly outside of the tractor and the screed riding on the reference surface. It is towed by the paver and gets positioned midway on the paver by attaching to the front of the tractor at the push beam area and has a guide attachment on the screed that allows the ski to move vertically independent of the paver. The purpose of the rigid ski is to measure only the high spots in the reference surface and bridges the low spots that fall within the length of the ski. The resulting mat thickness is the thickness on top of the high spots. A grade sensor (not provided) can reference directly off ski or a string line mounted to the ski. Includes mounting hardware. Provides least amount of averaging compared to other grade references. Good for joint matching in highway applications. Not intended for use where optimal mat smoothness is desired or where rideability is specified.		\$3,645 NI
P	109-5627	SKI, RIGID REFERENCE 40' 882 SAME AS SKI, RIGID REFERENCE 30' above except for 40' triangular truss rigid ski. Capable of producing an even flatter and more level surface than the 30' rigid ski but is not as transportable.		\$4,120 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**AS3251C EXTEND-A-MAT SCREED - WITH REAR MOUNT EXTENDERS**

For optimal performance KIT, 18" AUGER EXTENSION is recommended if paving 12' - 15'6" wide.

If ordering a screed on a MISC ORDER must select 0P-4594 Inland Freight.

L	276-4539	SCREED, AS3251C EXTEND-A-MAT	6,450 6,450	\$81,630 \$81,630 NI
Provides paving widths from 8' to 15'6". Features 3'9" extenders behind main 8' screed with vibration on all 18" deep screed plates. End gates and control consoles mounted on each extender. Includes electric, multi-zone heating elements on all screed plates. Control panel includes three temperature settings to accommodate different mixes. Controller automatically regulates the screed plate temperature. Includes power controls for main screed crown, extender height, and extender slope adjustments. REQUIRES: GENERATOR (from Tractor section)				

AS3251C EXTEND-A-MAT SCREED MANDATORY ATTACHMENT SELECTION

MUST SELECT ONE ITEM FROM THE FOLLOWING CATEGORY

AS3251C THICKNESS CONTROL SCREWS

L	277-9934	THICKNESS SCREW, CW	0	NC
Two acme LH threaded screws (1"-8 tpi) for fine control. Clockwise turn increases paving depth. Lower turning effort than coarse screws.				
L	277-9935	THICKNESS SCREW, CCW	0	NC
Same as above but RH, counter clockwise operation instead.				
L	287-0326	THICKNESS SCREW, COARSE CW	0	\$499
Two acme, LH threaded screws (1"-4 tpi). Clockwise operation. Requires half the turning rotation compared to fine screws.				
L	287-0327	THICKNESS SCREW, COARSE CCW	0	\$499
Same as above but RH, counter clockwise operation instead.				

OTHER AS3251C SCREED ATTACHMENTS

MAY SELECT ONE OR MORE ITEMS

AS3251C EXTENSIONS

P	287-0328	EXTENSION, 1' SCREED ESH	183	\$4,055 NI
One 1' screed extension. Electrically heated. No vibration. ORDER QTY 2 IF EXTENSION NEEDED ON BOTH SIDES OF SCREED INCLUDED IN: 17'6" Wide Width Paving package				

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory

Standard Equipment:

POWERTRAIN

Kohler KDW1003 3 cylinder diesel engine
16.38 kw/22.5 hp
Hydrostatic transmission
Service and parking brakes
Drum drive motors in series
Muffler
Hydraulic oil, standard

Quick connect hydraulic pressure ports
O-ring face seal couplings
Tow hook
Auxiliary battery positive terminal

ELECTRICAL

Engine start switch with auto preheat
Warning horn
40 amp alternator
12-volt electrical system
Maintenance free 48 AH battery, 650 CCA
Beacon ready
Battery disconnect switch

OPERATOR ENVIRONMENT

Gauge: Hourmeter
Operator warning system indicators:
-Parking brake engaged
-High engine coolant temperature
-Low electrical system voltage
-Low fuel level
-Air filter restriction
-Engine preheat
-Vibration on
Lockable instrument panel vandalism
guard
Manual control lever
Seat with:
-Fore and aft adjustment
-Retractable seat belt - 51 mm (2 inch)
Platform handrails and guardrails
Steering wheel spinner
12-volt power point

DRUMS

Tow smooth drums:
-900mm/35.4 inch wide x 560 mm/22 inch
diameter
-1000mm/39 inch wide x 560 mm/22 inch
diameter
Pressurized drum watering system with
100L/26.4 gal tank - 8 flow setting
2 retractable, spring-loaded self-
adjusting scrapers per drum
Water spray, pressurized

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hydraulic tank level
23 L (6.1 gal) fuel capacity
2 transport tie-down and 4 lift points

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "General" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

396-1699	CB14B UTILITY COMPACTOR DCA-1 3,166 Available to ADSD-N from MPLS PDC INCLUDES: 389-3800 CB14B UTILITY COMPACTOR 394-6173 DRUM, SMOOTH, 900mm/35.4 inch 392-9219 ALARM BACK UP 393-9300 CAP, FUEL 392-9177 LIGHTS, WORKING 392-9183 SEAT, SUSPENSION, SAFETY SWITCH 395-1848 INSTRUCTIONS, NORTH AMERICAN	\$31,920
396-1700	CB14B UTILITY COMPACTOR DCA-2 3,056 Available to ADSD-N from MPLS PDC INCLUDES: 389-3800 CB14B UTILITY COMPACTOR 394-6171 DRUM, SMOOTH, 1000mm/39.3 inch 392-9219 ALARM BACK UP 393-9300 CAP, FUEL 392-9177 LIGHTS, WORKING 392-9183 SEAT, SUSPENSION, SAFETY SWITCH 395-1848 INSTRUCTIONS, NORTH AMERICAN	\$35,160

To be complete your Lane 1 machine order must at least contain:
 Distribution Center Arrangement (DCA)
 0P9001 Lane selection
 Lane 1 mandatory attachments if applicable
 Operation and Maintenance Manuals (except from MPLS PDC)
 Associated 0P/0G numbers

lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Hydrostatic transmission
Service and parking brakes

Caterpillar O-ring face-seals couplings
Product link ready

ELECTRICAL

Engine start switch with auto preheat
Backup alarm and warning horn
65-ampere alternator
12-volt electric starting
Maintenance free 70 AH battery, 880 amp
Light roading and working

OPERATOR ENVIRONMENT

Gauges: LCD display with fuel level,
hour meter and engine coolant
temperature
Operator warning system indicators :
Parking brake engaged
Hydraulic oil temperature high
Engine coolant temperature high
Electrical system voltage low
Engine oil pressure low
Vibration activated
Engine preheat
Lockable, vandalism guard for instrument
panel.
Travel control, single lever
Seat with :
Fore and aft adjustment
Draining capability
Retractable seat belt 50.8mm/2inch
Central and Side handrail for easy and
safe access to the machine
Steering wheel spinner
12-volt power points

DRUMS

Two smooth drums : 1000mm/39.4 inch
wide x 720mm/28.3 inch diameter
Selection of front drum, rear drum or
both drum vibration
Pressurized drum watering system with :
Continuous or intermittent modes
Water tank with low level sensor
2 x retractable, spring-loaded, self
adjusting scrapers per drum

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hyd. tank level
Air restriction indicator
Fuel tank
4 transport tie-down and 4 lift points
6 Quick connect hyd. pressure test ports
+ 1 SOS port

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

432-8404	CB22B UTILITY COMPACTOR DCA-1 5,013 Available from the Baltimore Production Center INCLUDES: 364-2263 CB22B UTILITY COMPACTOR Double drum vibratory compactor with 1000mm / 39.4inch drum width 364-2272 ENGINE T4F 364-2273 PROPEL, STANDARD 364-2282 HYDRAULIC OIL, STANDARD 364-2277 SEAT, WITH SAFETY SWITCH 364-2279 SUPPORT, SLIDING FOR SEAT 364-2287 ROPS, FOLDABLE 364-2297 SWITCH, BATTERY DISCONNECT 432-8451 TRAVEL CONTROL, COVER GP	\$46,790
-----------------	--	-----------------

LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 3 Configuration is not available

364-2263	CB22B VIBRATORY COMPACTOR 3,730 Double drum vibratory compactor with 1000mm / 39inch drum width.	\$43,610

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your marketing representative with questions.

P	432-6961	PRODUCT LINK, CELLULAR PL421 7		\$475 NET
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		
		FOR USE WITH: LANE 3 ONLY

CB24B VIBRATORY ASPHALT COMPACTOR
RANTIGNY, FRANCE

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Hydrostatic transmission
Service and parking brakes

Caterpillar O-ring face-seals couplings
Product link ready

ELECTRICAL

Engine start switch with auto preheat
Backup alarm and warning horn
65-ampere alternator
12-volt electric starting
Maintenance free 70 AH battery, 880 amp
Light roading and working

OPERATOR ENVIRONMENT

Gauges: LCD display with fuel level,
hour meter and engine coolant
temperature
Operator warning system indicators :
Parking brake engaged
Hydraulic oil temperature high
Engine coolant temperature high
Electrical system voltage low
Engine oil pressure low
Vibration activated
Engine preheat
Lockable, vandalism guard for instrument
panel.
Travel control, single lever
Seat with :
Fore and aft adjustment
Draining capability
Retractable seat belt 50.8mm/2inch
Central & Side handrail for easy and
safe access to the machine
Steering wheel spinner
12-volt power points

DRUMS

Two smooth drums : 1200mm/47.2 inch
wide x 720mm/28.3 inch diameter
Selection of front drum, rear drum or
both drum vibration
Pressurized drum watering system with :
Continuous or intermittent modes
Water tank with low level sensor
2 x retractable, spring-loaded, self
adjusting scrapers per drum

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hyd. tank level
Air restriction indicator
Fuel tank
4 transport tie-down and 4 lift points
6 Quick connect hyd. pressure test ports
+ 1 SOS port

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

432-8407	CB24B UTILITY COMPACTOR DCA-1 5,311	\$54,390
	Available from the Baltimore Production Center	
	INCLUDES:	
	364-2303 CB24B UTILITY COMPACTOR	
	Double drum vibratory compactor with 1200mm / 47.2inch drum width	
	364-2272 ENGINE T4F	
	364-2313 PROPEL, STANDARD	
	364-2282 HYDRAULIC OIL, STANDARD	
	364-2277 SEAT, WITH SAFETY SWITCH	
	364-2279 SUPPORT, SLIDING FOR SEAT	
	364-2287 ROPS, FOLDABLE	
	364-2297 SWITCH, BATTERY DISCONNECT	
	432-8451 TRAVEL CONTROL, COVER GP	

LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 3 Configuration is not available

364-2303	CB24B UTILITY COMPACTOR 4,120	\$51,210
	Double drum vibratory compactor with 1200mm / 47inch drum width.

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your marketing representative with questions.

P	432-6961	PRODUCT LINK, CELLULAR PL421 7		\$475 NET
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission. FOR USE WITH: LANE 3 ONLY

Standard Equipment:

DRUM

Two smooth drums : 1300mm / 51.2 inch
wide x 700mm / 27.6 inch diameter
Front or both drum vibration
control.
Pressurized drum watering system with :
- Continuous or intermittent modes
- 150L / 39.7gal water tank

ELECTRICAL

Engine start switch with auto preheat
Backup alarm and warning horn
65-ampere alternator
12-volt electric starting
Maintenance free 52 AH battery, 650 amp

OPERATOR ENVIRONMENT

Gauges : Fuel level & Hourmeter
Operator warning system indicators :
-Parking brake engaged
-Hydraulic oil temperature high
-Engine coolant temperature high
-Electrical system voltage low
-Engine oil pressure low
-Vibration activated
-Engine preheat

Lockable, vandalism guard for instrument
panel.
Hydraulic control level.
2 Platform handrails / 2 guardrails
Steering wheel spinner
Seat with :
-Fore and aft adjustment
-Draining capability
-Wide retractable seat belt 76.2mm/3inch
-Armrest and wrist rest
12-volt power point

POWERTRAIN

Caterpillar C1.5 NA 3-cyl diesel engine
24.4 kW / 32.7 HP gross power
Hysdrostatic transmission
Service and parking brakes

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hyd. tank level.
Air restriction indicator
56L (14.8 gal.) fuel tank capacity
4 transport tie-down and 4 lift points
6 Quick connect hyd. pressure test ports
+ 1 SOS port
Caterpillar O-ring face-seals couplings

431-5092	CB32 UTILITY COMPACTOR 0	\$51,770
	Double drum vibratory compactor with 1300mm / 51 inch drum width.

OPERATOR ENVIRONMENT
TECHNOLOGY PRODUCTS
OPERATION AND MAINTENANCE MANUAL
PICTOGRAPH FILMS
ASSOCIATED PACKING NUMBERS

POWERTRAIN**ENGINE-LANE 3 ONLY**

L 367-6580 ENGINE T4F 1,116 NC
Meets US EPA Tier 4 Final emissions.
FOR USE WITH: LANE 3 ONLY

HYDRAULICS**PROPEL SELECTION-LANE 3 ONLY**

L 367-6590 PROPEL, STANDARD 293 NC

FOR USE WITH: CB34B UTILITY COMPACTOR
LANE 3 ONLY

L 367-6610 PROPEL, STANDARD XW 0 NC

FOR USE WITH: CB34BXW UTILITY COMPACTOR
LANE 3 ONLY

L 367-6600 CONTROL, TRACTION 328 \$1,715

Flow divider between front and rear drum for improved traction &
minimized drum spinning
FOR USE WITH: CB34B UTILITY COMPACTOR
LANE 3 ONLY

L 367-6615 CONTROL, TRACTION XW 0 \$1,715

Flow divider between front and rear drum for improved traction &
minimized drum spinning
FOR USE WITH: CB34BXW UTILITY COMPACTOR
LANE 3 ONLY

OIL SELECTION-LANE 3 ONLY

L 367-6636 OIL, HYDR, FACTORY FILLED 139 NC

Cat standard hydraulic oil.
FOR USE WITH: LANE 3 ONLY

L 367-6637 OIL, BIO HYDR, FACTORY FILLED 143 \$1,355

This Hydraulic Environmental Ester Synthetic oil is recommended
for hydraulic system when environmental compliance is required
or desired. Factory filled.
FOR USE WITH: LANE 3 ONLY

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your marketing representative with questions.

P	432-6961	PRODUCT LINK, CELLULAR PL421 7		\$475 NET
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		
		FOR USE WITH: LANE 3 ONLY

CB34Q VIBRATORY ASPHALT COMPACTOR
RANTIGNY, FRANCE

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Caterpillar C2.2-4 cyl diesel engine
34.1 kW / 45.7 HP gross power
Hysdrostatic transmission
Service and parking brakes

ELECTRICAL

Engine start switch with auto preheat
Backup alarm and warning horn
65-ampere alternator
12-volt electric starting
Maintenance free 100 AH battery, 750 amp

OPERATOR ENVIRONMENT

Gauges : Fuel level & Hourmeter
Operator warning system indicators :
-Parking brake engaged
-Hydraulic oil temperature high
-Engine coolant temperature high
-Electrical system voltage low
-Engine oil pressure low
-Vibration activated
-Engine preheat
Lockable, vandalism guard for instrument panel.
Hydraulic control level.
Seat with :
-Lateral sliding adjustment
-Fore and aft adjustment
-Draining capability
-Wide retractable seat belt 76.2mm/3inch
-Armrest and wrist rest
2 platform handrails / 2 guardrails
Steering wheel spinner
12-volt power point

DRUMS

Two smooth drums : 1300mm / 51.2 inch wide x 800mm / 31.5 inch diameter (CB34 ONLY).
Two smooth drums : 1400mm / 55.1 inch wide x 800mm / 31.5 inch diameter (CB34 XW ONLY).
Front, both or rear drum vibration control with timer delay on vib to improve power management on slopes.
4 retractable, spring-loaded, self adjusting scrapers.
Pressurized drum watering system with :
- continuous or intermittent modes
- 300L / 79.2gal water tank
- sight gauge for water tank level.

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hyd. tank level.
Air restriction indicator
57L (15gal.) fuel tank capacity
4 transport tie-down and 4 lift points
Quick connect hyd. pressure test ports
Caterpillar O-ring face-seals coupling

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 Configuration is not available:

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from factory; they are only valid to order machines from a Product Distribution Center (PDC)

431-1169	CB34 UTILITY COMPACTOR DCA-1 0 431-1162 CB34 VIBRATORY COMPACTOR Double drum vibratory compactor with 1300mm/51inch drum width. 431-9015 ENGINE, EPA FLEXIBILITY 278-1669 COOLING, HIGH AMBIENT 255-4121 ROPS, FOLDABLE 309-7283 MATS, COCOA 255-4103 LIGHTS, ROADING AND WORKING 262-5720 SWITCH, SUSPENSION SEAT 263-8130 SWITCH, BATTERY DISCONNECT	\$66,420

Standard Equipment:

DRUM

Smooth drum - 59" (1500 mm) wide x
43" (1100 mm) diameter
Five amplitudes with single vibrate
frequency
Front and Rear self adjusting scraper
blades
Pod-style eccentric weight housing
Automatic vibration start-up and
shut-off
50/50 Articulation

ELECTRICAL

12-volt electric starting
80-ampere alternator
Maintenance free battery - 950 CCA
Halogen working lights - bumper mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link wire-ready

OPERATOR ENVIRONMENT

Isolated ROPS/FOPS structure
Platform handrails / guardrails
Four heavy-duty isolation mounts
Power steering
Adjustable, suspension, vinyl seat
3" (76 mm) wide retractable seat belt
Adjustable, padded arm rest for propel
lever operation
Indicator light package with audible
warning alarm for: hydraulic oil
pressure, hydraulic oil temperature,
engine oil pressure, engine coolant
temperature and glow plugs
Alternator charge indicator light
Fuel level and water level gauge
Service hour meter
Lockable, vandalism guard for instrument
panel
Adjustable, tilt-steering column/instru-
ment panel
Sliding, rotating seat
Automatic speed control
Vibe tachometer
Speedometer

POWERTRAIN

CAT 3054C diesel engine with glow plug
start aid (83 HP / 62 kW, four
cylinder)
Dual element air cleaner
Fuel filter / water separator
Two-speed throttle switch
Dual braking systems (service & parking)
Hydrostatic transmission

OTHER STANDARD EQUIPMENT

Locking fiberglass engine enclosure
Sealed for life hitch bearing
Sight gauges: coolant level, hydraulic
tank level, and air restriction
indicator
Hydraulic tank cap lock
Articulated frame with safety lock
Transport tie-down and lift points
35 gal (132 L) fuel tank capacity
211 gal (800 L) water tank capacity
Water spray system - single tank and
triple water filtration system,
7 nozzles per drum, constant and
intermittent spray settings
Quick connect hydraulic pressure test
ports
SOS ports: engine, hydraulic and coolant
Reflector Group

ANTIFREEZE

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

Standard Equipment:

POWERTRAIN

Cat C3.4 ACERT Engine
(101 HP / 75 kW, four-cylinder turbo-
charged)
Cyclonic Air cleaner
Water separator
Ultra clean fuel filter with integrated
electric prime pump
ECO mode throttle system
Dual braking systems (service & parking)
Two-speed hydrostatic transmission

ELECTRICAL

12-volt electric starting
120 ampere alternator
Maintenance free battery - 1000 CCA
Halogen working lights - bumper mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Cat Engine and Vehicle ECM's - ET
compatible
Product Link ready

OPERATOR ENVIRONMENT

Isolated ROPS/FOPS structure
Platform handrails / guardrails
Four heavy-duty isolation mounts
Power steering
Adjustable, suspension, vinyl seat
76 mm (3") wide retractable seat belt
Adjustable, tilt-steering column/
instrument panel
Indicator light package with audible
warning alarm for:
-hydraulic oil pressure
-hydraulic oil temperature
-engine oil pressure
-engine coolant temperature
-glow plugs
-service fault indicator
Fuel level gauge
Water level gauge
Service hour meter
Lockable, vandalism guard for instrument
panel
Sliding, rotating seat
Automatic speed control
Auto-vibe with adjustable on/off control
Vibe tachometer
Speedometer

DRUMS

Smooth Solid drum
1500 mm (59") wide x 1100 mm (43")
diameter

Two amplitudes with two vibe frequencies
Front and Rear self adjusting scraper
blades
Pod-style eccentric weight housing

FLUIDS

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sealed for life hitch bearings
Sight gauges:
-hydraulic tank level
-air restriction indicator
Cap lock for hydraulic tank
Articulated frame with safety lock
Transport tie-down and lift points
55 gal (208 L) fuel tank capacity
197 gal (745 L) water tank capacity
Quick connect hydraulic pressure test
ports

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

389-0653	CB44B VIB COMPACTOR DCA-2 17,196	\$142,400
	Available to ADSD-N from the MPLS PDC	
	INCLUDES:

temperature, glow plugs, and service
fault indicator.
Fuel level gauge
Water level gauge
Service hour meter
Automatic speed control
Auto-vibe with adjustable on/off control
Vibe tachometer
Speedometer

COOLING

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

DRUMS

Smooth drum
2000 mm(78") wide x 1300 mm (51")
diameter
5 Amplitudes with single vibe frequency
Front & Rear self adjusting scraper
blades
Pod-style eccentric weight housing

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sealed-for-life hitch bearings
Sight gauges: hydraulic tank Level, and
air restriction Indicator
Cap lock for hydraulic tank
Articulated frame with safety lock
Transport tie-down and lift points
50 gal (191 L) fuel tank capacity
291 gal (1100 L) water tank capacity
Quick-connect hydraulic pressure test
ports
SOS ports: engine, hydraulic and
coolant

ORDERING INSTRUCTIONS

For an explanation of a Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

385-6871	CB54 VIBRATORY COMPACTOR DCA-1 25,838	\$182,580
	Available to ADSD-N from MPLS PDC	
	INCLUDES:	
	275-5072 CB54 VIBRATORY COMPACTOR	
	329-4697 DRUM, EXTRA WIDE	
	281-9267 SYSTEM, VERSA-VIBE (XW)	
	281-9248 PLATFORM, ROPS/FOPS	
	319-4492 NO PRODUCT LINK	
	287-8381 HITCH	
	300-2654 LIGHTS, WORKING

If no reference number is listed, Lane 3 configuration
is not available.

275-5072	CB54 VIBRATORY COMPACTOR	23,370	\$160,220
0P-1779	CB54 MISC MATL MINNEAPOLIS	0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.		

To be complete, your Lane 2/3 machine order must at least contain:

- Base Machine
- 0P-9002 Lane 2 order or 0P-9003 Lane 3 order
- Powertrain
- Hydraulics
- Lighting
- Operator Station
- Product Link Communications
- Hitch
- Oil
- Decal Packages
- Associated 0P packaging number

NOTE: We recommend and strongly encourage any Misc. Matl. order ship loose item, less than \$500 list price, be ordered through Morton parts distribution system.

Standard Equipment:

POWERTRAIN

Cat C4.4 ACERT Engine
(131 HP / 98 kW, four-cylinder turbo-
charged)
Cyclonic Air cleaner
Water separator
Ultra clean fuel filter with integrated
electric prime pump
ECO mode throttle system
Dual braking systems (service & parking)
Two-speed hydrostatic transmission

ELECTRICAL

12-volt electric starting
120 ampere alternator
Maintenance free battery - 1000 CCA
Halogen working lights - bumper mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Cat Engine and Vehicle ECM's - ET
compatible
Product Link ready

OPERATOR ENVIRONMENT

Isolated ROPS/FOPS structure
Platform handrails / guardrails
Four heavy-duty isolation mounts
Power steering
Adjustable, suspension, vinyl seat
76 mm (3") wide retractable seat belt
Adjustable, tilt-steering column/
instrument panel
Indicator light package with audible
warning alarm for:
-hydraulic oil pressure
-hydraulic oil temperature
-engine oil pressure
-engine coolant temperature
-glow plugs
-service fault indicator
Fuel level gauge
Water level gauge
Service hour meter
Lockable, vandalism guard for instrument
panel
Sliding, rotating seat
Automatic speed control
Auto-vibe with adjustable on/off control
Vibe tachometer
Speedometer

DRUMS

Smooth Solid drum
1700 mm (67") wide x 1200 mm (47")
diameter

Two amplitudes with two vibe frequencies
Front and Rear self adjusting scraper
blades
Pod-style eccentric weight housing

FLUIDS

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sealed for life hitch bearings
Sight gauges:
-hydraulic tank level
-air restriction indicator
Cap lock for hydraulic tank
Articulated frame with safety lock
Transport tie-down and lift points
55 gal (208 L) fuel tank capacity
220 gal (835 L) water tank capacity
Quick connect hydraulic pressure test
ports
SOS ports:
-engine oil

ORDERING INSTRUCTIONS

For an explanation of a Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

385-6871	CB54 VIBRATORY COMPACTOR DCA-1 25,838 Available to ADSD-N from Baltimore PDC. 281-6460	CB64 VIBRATORY COMPACTOR	27,600	\$214,140
-----------------	---------------------------------------	--------	------------------

0P-1780	CB64 MISC MATL MINNEAPOLIS	0	NC
----------------	---	---	-----------

Use this as the top level reference number when ordering miscellaneous
material without ordering a machine.

To be complete, your Lane 2/3 machine order must at least contain:

- Base Machine
- 0P-9002 Lane 2 order or 0P-9003 Lane 3 order
- Powertrain
- Hydraulic
- Lights
- Operator Station
- Product Link Communications
- Hitch
- Oil
- Decal Packages
- Associated 0P numbers

NOTE: We recommend and strongly encourage any Misc. Matl. order ship
loose item, less than \$500 list price, be ordered through Morton
parts distribution system.

CB54 VIBRATORY COMPACTOR (RANTIGNY)
RANTIGNY, FRANCE

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Cat C4.4 ACERT Engine
(137HP /102kW, four cylinder
turbo-charged)
Cyclonic air cleaner
Water separator
Ultra clean fuel filter with integrated
electric prime pump
Two-speed electric throttle switch
Dual braking systems (service & parking)
Two-speed hydrostatic transmission

ELECTRICAL

12-volt electric starting
80-ampere alternator
Maintenance free battery - 950 CCA
Halogen working lights - bumper mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Cat Engine and Vehicle ECM's -
ET compatible

OPERATOR ENVIRONMENT

Isolated ROPS/FOPS structure
Platform handrails / guardrails
Four heavy-duty isolation mounts
Power steering
Adjustable suspension, vinyl seat
3" (76mm) wide retractable seat belt
Adjustable tilt-steering column/instru-
ment panel
Sliding, rotating seat
Lockable, vandalism guard for
instrument panel
Indicator light package with audible
warning alarm for: hydraulic oil
pressure, hydraulic oil temperature,
engine oil pressure, engine coolant
temperature, glow plugs, and service
fault indicator.
Fuel level gauge
Water level gauge
Service hour meter
Automatic speed control
Auto-vibe with adjustable on/off control
Vibe tachometer
Speedometer
Externally mounted rear view mirrors,
quantity of 4

COOLING

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

DRUMS

Smooth drum - 84" (2130 mm) wide x 51"
(1300 mm) diameter
5 Amplitudes with single vibe frequency
Front & Rear self adjusting scraper
blades
Pod-style eccentric weight housing

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sealed-for-life hitch bearings
Sight gauges: hydraulic tank Level, and
air restriction indicator
Cap lock for hydraulic tank
Articulated frame with safety lock
Transport tie-down and lift points
50 gal (191 L) fuel tank capacity
291 gal (1100 L) water tank capacity
Quick-connect hydraulic pressure test
ports
SOS ports: engine, hydraulic and
coolant

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability of order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

Standard Equipment:

DRUM

One smooth drum : 1200mm / 47.2 inch
wide x 700mm / 27.6 inch diameter
Front drum vibration
control.
Pressurized drum watering system with :
- Continuous or intermittent modes
- 150L / 39.7gal water tank

ELECTRICAL

Engine start switch with auto preheat
Backup alarm and warning horn
65-ampere alternator
12-volt electric starting
Maintenance free 52 AH battery, 650 amp

OPERATOR ENVIRONMENT

Gauges : Fuel level & Hourmeter
Operator warning system indicators :
-Parking brake engaged
-Hydraulic oil temperature high
-Engine coolant temperature high
-Electrical system voltage low
-Engine oil pressure low
-Vibration activated
-Engine preheat

Lockable, vandalism guard for instrument
panel.
Hydraulic control level.
2 Platform handrails / 2 guardrails
Steering wheel spinner
Seat with :
-Fore and aft adjustment
-Draining capability
-Wide retractable seat belt 76.2mm/3inch
-Armrest and wrist rest
12-volt power point

POWERTRAIN

Caterpillar C1.5 NA 3-cyl diesel engine
24.4 kW / 32.7 HP gross power
Hysdrostatic transmission
Service and parking brakes

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sight gauge for hyd. tank level.
Air restriction indicator
56L (14.8 gal.) fuel tank capacity
4 transport tie-down and 4 lift points
6 Quick connect hyd. pressure test ports
+ 1 SOS port
Caterpillar O-ring face-seals couplings

TIRES, RIMS, & WHEELS

Four 9.5/65-15 smooth tires
Pressurized emulsion watering system
with 90/26.3gal tank

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 3 Configuration is not available

364-2323	CC24B VIBRATORY COMPACTOR 3,536 Combi vibratory compactor with 1200mm / 47.2 inch in front drum width at front and 4 tires at rear	\$51,780
0G-0295	CC24B MISC MATERIAL CMR S.A. 0 Use this as the top level reference number when ordering miscellaneous material for CC24B without ordering a machine.	NC
NOTE: We recommend and strongly encourage any Misc. Matl. Order ship loose item, less than \$500 list price, be ordered through parts distribution system.

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your marketing representative with questions.

P	432-6961	PRODUCT LINK, CELLULAR PL421 7		\$475 NET

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the price list.

You must order your machine Lane 1, Lane 2 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order a machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE 2/ LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/ Lane 3 configuration is not available.

**CD54B VIBRATORY ASPHALT COMPACTOR
RANTIGNY, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Cat C3.4 ACERT Engine
(101 HP / 75 kW, three-cylinder turbo-
charged)
Cyclonic Air cleaner
Water separator
Ultra clean fuel filter with integrated
electric prime pump
ECO mode throttle system
Dual braking systems (service & parking)
Two-speed hydrostatic transmission

ELECTRICAL

12-volt electric starting
120 ampere alternator
Maintenance free battery - 1000 CCA
Halogen working lights - bumper mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Cat Engine and Vehicle ECMs - ET
compatible
Product Link ready

OPERATOR ENVIRONMENT

Isolated ROPS/FOPS structure
Platform handrails / guardrails
Four heavy-duty isolation mounts
Power steering
Adjustable, suspension, vinyl seat
76 mm (3") wide retractable seat belt
Adjustable, tilt-steering column/
instrument panel
Indicator light package with audible
warning alarm for:
-hydraulic oil pressure
-hydraulic oil temperature
-engine oil pressure
-engine coolant temperature
-glow plugs
-service fault indicator
Fuel level gauge
Water level gauge
Service hour meter
Lockable, vandalism guard for
instrument panel
Sliding, rotating seat
Automatic speed control
Auto-vibe with adjustable on/off control
Vibe tachometer
Speedometer

DRUMS

Smooth Solid drum
1700 mm (67") wide x 1200 mm (44")
diameter

Two amplitudes with two vibe frequencies
Front and Rear self adjusting scraper
blades
Pod-style eccentric weight housing

FLUIDS

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

OTHER STANDARD EQUIPMENT

Locking engine enclosure
Sealed for life hitch bearings
Sight gauges:
-hydraulic tank level
-air restriction indicator
Cap lock for hydraulic tank
Articulated frame with safety lock
Transport tie-down and lift points
50 gal (191 L) fuel tank capacity
198 gal (750 L) water tank capacity
Quick connect hydraulic pressure test
ports

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the price list.

You must order your machine Lane 1, Lane 2 or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order a machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

389-0656	CD54B VIB COMPACTOR DCA-2 21,715	\$190,960
	Available to ADSD-N from the MPLS PDC	
	Includes:	
	341-8677 CD54B VIBRATORY COMPACTOR	
	343-9120 ENGINE, TIER 4I, STAGE 3B	
	341-8799 DRUM, SPLIT	
	341-8777 SYSTEM, 2 AMP, 2 FREQ, EC	
	344-0430 STD MACHINE	
	344-0505 OIL, HYDR, FACTORY FILLED	
	341-8746 PLATFORM, ROPS/FOPS	
	356-0924 ROTATION, FULL	
	343-6129 SEAT, STD VINYL	
	341-8828 LIGHTS, ROADING AND WORKING	
	319-4492 NO PRODUCT LINK	
	351-3443 LIGHT, ROTATING BEACON	
	361-2243LIGHTS, HALOGEN, ROPS	
	343-8303 MATS, WATER DISTRIBUTION	
	351-3428 FREEZE PROTECTION, ROPS/FOPS	

LANE 2/ LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/ Lane 3 configuration is not available.

341-8677	CD54B VIBRATORY COMPACTOR 4,568	\$147,230

PACKING

POWERTRAIN**ENGINE**

L	442-6156	ENGINE, CERTIFIED TIER 4	0	NC
		FOR USE WITH LANE 3 ONLY		
		INCLUDES: emissions information label EPA/ARB Tier 4		
		AB&T Certified Engine. (Tier 3 credit-using engine)		

AXLE

L	395-3133	AXLE, STANDARD	0	NC
		FOR USE WITH LANE 3 ONLY		
		Includes: Non-EC Compliant rear axle without second/redundant parking brake.		
L	418-8709	AXLE, BRAKE, WITHOUT PUMP	280	\$2,040
		FOR USE WITH LANE 3 ONLY		
		Includes: EC Compliant rear axle brake.		
L	418-8708	AXLE, BRAKE, RELEASE PUMP	287	\$2,500
		FOR USE WITH LANE 3 ONLY		
		Includes: EC Compliant rear axle brake.		

HYDRAULICS**HYDRAULIC OIL**

L	304-2146	OIL, HYDR, FACTORY FILLED	0	NC
		FOR USE WITH LANE 3 ONLY		
		Cat standard hydraulic oil.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory

HYDRAULICS (CONT.)**HYDRAULIC OIL (Cont.)**

L	304-2147	OIL, BIO HYDR., FACTORY FILLED 0 FOR USE WITH LANE 3 ONLY This Hydraulic Environmental Ester Synthetic oil is recommended for hydraulic system when environmental compliance is required or desired. Factory filled.		\$4,355
---	----------	---	--	----------------

OPERATOR ENVIRONMENT**OPERATOR STATIONS**

L	304-2151	PLATFORM, ROPS/FOPS - STANDARD 82 FOR USE WITH LANE 3 ONLY Includes: Two front-facing and two rear-facing working lights, rear-view mirror, handrails, vandalism guard, and 12-volt power point. Vinyl suspension seat with fold-up adjustable armrests and retractable seat belt. Adjustable seat height, weight, back tilt, fore/aft and lumbar. CAN NOT BE USED WITH EC PACKAGE		\$5,500
L	370-4498	PLATFORM, ROPS/FOPS - DELUXE 84 FOR USE WITH LANE 3 ONLY Includes: Two front-facing and two rear-facing working lights, rear-view mirror, handrails, vandalism guard and 12-volt power point. Vinyl suspension seat rotates 20 degrees to the left with fold-up adjustable armrests and retractable seat belt. Adjustable seat height, weight, back tilt, fore/aft lumbar. Manually operated hydraulic jack to raise and lower the operator platform. CAN NOT BE USED WITH EC PACKAGE		\$6,770
L	356-6057	CAB, ROPS/FOPS - BASIC 589 FOR USE WITH LANE 3 ONLY Includes: Heater & defroster, wet-arm wipers/washers (front and rear), two front-facing and two rear-facing working lights, external rear-view mirrors and sun visor. Cab is radio ready, including antenna, speakers, hardware, wiring, voltage converter and 12-volt power point. Radio is NOT supplied. Cloth suspension seat with fold-up adjustable armrests and retractable seat belt. Adjustable seat height, weight, back tilt, fore/aft and lumbar.		\$16,660
L	304-2153	CAB, ROPS/FOPS - STANDARD 1,299 FOR USE WITH LANE 3 ONLY Includes: Air conditioner, heater & defroster, wet-arm wipers/ washers (front and rear), two front-facing and two rear-facing working lights, external rear-view mirrors, sun visor, cab lift cylinder. Cab is Radio Ready, including antenna, speakers hardware, wiring, voltage converter and 12-volt power point. Radio NOT supplied. Cloth suspension seat with fold-up adjustable armrests and retractable seat belt. Adjustable seat height, weight, back tilt, fore/aft and lumbar.		\$26,650

**CP54B VIBRATORY COMPACTOR
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection to -37C (-35F)

DRUMS

Padfoot drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Adjustable frt and rear steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
-engine
-hydraulic
-coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

CP54BLRC VIBRATORY COMPACTORA
MINNEAPOLIS, MN

Ship Weight
lbs

List Price
At Factory

Standard Equipment:

POWERTRAIN

CAT turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
- hydraulic oil temperature gauge
- engine oil pressure gauge
- engine coolant temperature gauge
- alternator charge
- fuel level gauge
- service hour meter
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended Life Coolant with freeze protection to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Adjustable front and rear steel scrapers

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
- coolant level
- hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
- engine
- hydraulic
- coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE 2/ LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/ Lane 3 configuration is not available.

LANE 3 ONLY FACTORY ARRANGEMENTS

If no reference number is listed, Lane 3 configuration is not available.

374-9712	CP54B VIBRATORY COMPACTOR 18,000	\$170,680
	Top level arrangement. Must order attachments from mandatory section. May order attachments from optional section	
0P-2781	CP54BLRC MISC MATL 0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.	

NOTE: We recommend and strongly encourage any Misc. Matl. order ship loose item, less than \$500 list price, be ordered through Morton parts distribution system.

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

LANE SELECTION

(Must Select One)

YOUR ORDER WILL BE LANE 2 UNLESS YOU SELECT A PACKAGE OR ATTACHMENT LISTED AS LANE 3 ONLY.

0P-9002	LANE 2 ORDER	0	NC
0P-9003	LANE 3 ORDER	0	NC

MUST SELECT ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION

NOTE: Your order must include one selection from every chapter of the following mandatory attachments.

POWERTRAIN
HYDRAULICS

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

LANE 2/3 FACTORY ARRANGEMENTS

If no reference number is listed, Lane 2/Lane 3 configuration is not available.

347-9525	CP68B VIBRATORY COMPACTOR 26,900	\$210,340
	Top level arrangement. Must order attachments from mandatory section. May order attachments from optional section.	
0P-2578	CP68B MISC MATL 0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must Select One)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	319-4492	NO PRODUCT LINK 0	NC
		FOR USE WITH LANE 3 ONLY	
L	355-0624	PRODUCT LINK, SATELLITE PL321 9	\$1,460 NET
		FOR USE WITH LANE 3 ONLY	
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition.	
		For use in areas with poor or no cellular coverage.	
		REQUIRES: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER	
L	433-1468	PRODUCT LINK, CELLULAR PL421 9	\$470 NET
		FOR USE WITH LANE 3 ONLY	
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.	
		REQUIRES: CAB, ROPS/FOPS WITH AC or CAB, ROPS/FOPS WITH HEATER	

CAT COMPACTION CONTROL

Compaction Monitoring sensors to detect changes in soil stiffness which is an excellent indicator of load bearing strength and provides the operator with real time compaction information on the machine display.

L	364-8297	NO COMPACTION SENSOR 0	NC
		FOR USE WITH LANE 3 ONLY	
		No Sensors.	
L	364-8298	SENSOR, DRIVE POWER 5	\$3,640
		FOR USE WITH LANE 3 ONLY	
		Proprietary Caterpillar technology that directly measures soil stiffness via material deflection (rolling resistance).	
		INCLUDES: SENSOR, SLOPE	

TIRES, RIMS, AND WHEELS

L	216-0591	TIRES, TRACTION, 12PR 935	\$4,325
		FOR USE WITH LANE 3 ONLY	
		12-ply traction (lug tread) tires and rims with liquid ballast.	
		Typically for use with padfoot style drum.	

DRUMS**VIBRATORY SYSTEMS**

L	355-3547	FREQUENCY, FIXED 0	NC
		FOR USE WITH LANE 3 ONLY	
		Single 31.9 Hz (1914 vpm) frequency with high and low amplitude.	

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

DRUMS (CONT.)**VIBRATORY SYSTEMS (Cont.)**

L	367-4216	FREQUENCY, VARIABLE 0 FOR USE WITH LANE 3 ONLY Frequency dial that electronically controls the displacement of the vibratory pump. Frequency range from 23.3-31.9 Hz (1400-1914 vpm).		\$2,270
---	----------	--	--	----------------

PAD SHAPE

L	347-9690	PAD, ROUND 0 FOR USE WITH LANE 3 ONLY Involute-style pad that works well on 10-18" lifts. Each pad is 5" tall with a surface area of 13.9 square inches.		NC
L	360-0508	PAD, SQUARE 70 FOR USE WITH LANE 3 ONLY Square-style pad that works well on lifts less than 10". Each pad is 3.9" tall with a surface area of 21.7 square inches.		NC

LEVELING BLADE

L	357-6261	NO BLADE 0 FOR USE WITH LANE 3 ONLY		NC
L	357-6259	BLADE, LEVELING 1,438 FOR USE WITH LANE 3 ONLY		\$13,750

INSTRUCTIONS

L	373-1530	INSTRUCTIONS, N AMER, CAB 0 FOR USE WITH LANE 3 ONLY ANSI picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada). REQUIRES: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		NC
---	----------	--	--	-----------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	List Price At Factory

**CP74B VIBRATORY COMPACTOR
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection to -37C (-35F)

DRUMS

Padfoot drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Adjustable frt and rear steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
-engine
-hydraulic
-coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE 2/3 FACTORY ARRANGEMENTS

If no reference number is listed, Lane 2/Lane 3 configuration is not available.

347-9529	CP74B VIBRATORY COMPACTOR 30,600	\$236,020
	Top level arrangement. Must order attachments from mandatory section. May order attachments from optional section.	
0P-2580	CP74B MISC MATL 0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.

**CP76 VIBRATORY COMPACTOR
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

DRUM

Padfoot drum
84" (2134 mm) wide x 60.4 (1534 mm) diameter
Dual amplitude with single frequency
Adjustable front and rear steel scrapers
Dual, pod-style eccentric weight housings

ELECTRICAL

24-volt starting and charging system
80-ampere alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready

OPERATOR ENVIRONMENT

ROPS/FOPS canopy
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, suspension seat
3" (76mm) wide retractable seat belt
Adjustable, padded wrist rest for propel lever operation
Rear-view mirror
Indicator light package with audible warning alarm for: hydraulic oil pressure, hydraulic oil temperature, engine oil pressure, engine coolant temperature, engine inlet air temperature and alternator charge
Fuel level gauge
Service hour meter
Lockable, vandalism guard for instrument panel

POWERTRAIN

CAT C6.6 diesel engine with glow-plug heater (174 HP/130kW, six-cylinder, turbo-charged)
Dual element air cleaner
Fuel filter/water separator/electronic priming pump
Two-speed throttle switch
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearing
Sight Gauges: coolant level, hydraulic oil level and air restriction indicator
Hydraulic tank locking cover
Articulated frame with safety lock
Transport tie-down and lift points
91 gal (345 L) fuel tank with lockable cover
Quick connect hydraulic pressure test ports
SOS ports: engine, hydraulic and coolant

ANTIFREEZE

Premixed 50% concentration of Extended Life Coolant with freeze protection to -37C (-35F)

DRUM

COMPACTION SYSTEMS

L	299-6186	FREQUENCY, SINGLE 0	NC
		Single 31.9 Hz (1914 vpm) frequency with high and low amplitude.	
L	299-6189	FREQUENCY, VARIABLE 0	\$2,670
		Frequency dial that electronically controls the displacement of the vibratory pump. Frequency range from 23.3-31.9 Hz (1400-1914 vpm).	
		Does not include GAUGE, VIBRATIONS PER MINUTE.	

DRUM/LEVELING BLADES

L	262-4906	DRUM, PADFOOT 0	NC
		Includes drum, front and rear scrapers, and bumper.	

PAD STYLE

L	161-2358	PAD, ROUND 0	NC
		Involute-style pad that works well on 10-18" lifts. Each pad is 5" tall with a surface area of 13.9 square inches.	
L	301-5332	PAD, SQUARE 0	\$5,230
		Square-style pad that works well on lifts less than 10". Each pad is 3.9" tall with a surface area of 21.7 square inches.	

ELECTRONICS

PRODUCT LINK (Must Select One)

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

Standard Equipment:

POWERTRAIN

Cat C4.4 four cylinder, turbo-charged
diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator
Two-speed throttle switch
Dual propel pumps - 1 for drum and
1 for tires
Dual braking systems (service &
parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system
80-ampere alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Cat Data link
Product Link Ready

OPERATOR ENVIRONMENT

Open platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, suspension seat
Retractable seat belt
Adjustable, padded arm rest for
propel lever operation
Rear-view mirror
Indicator light package with audible
warning alarm for:
-hydraulic oil pressure
-hydraulic oil temperature
-engine oil pressure
-engine coolant temperature
-engine inlet air temperature
-alternator charge
-fuel level gauge
-service hour meter
Lockable, vandalism guard for instrument
panel
12-volt power point

COOLING

Premixed 50% concentration of Extended
Life Coolant with freeze protection
to -37C (-35F)

DRUMS

Smooth drum 66" (1676 mm) wide x 48"
(1225 mm)
diameter
Dual amplitude with single frequency
Front adjustable steel scraper
Dual, pod-style eccentric weight
 housings

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
-air restriction indicator
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Quick connect hydraulic pressure
test ports
SOS ports:
-engine
-hydraulic
-coolant
Fuel tank with lockable cap

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

395-1041	CS44 VIB COMPACTOR DCA-1 14,689 Available to ADSD-N from the MPLS PDC INCLUDES: N American engine, standard ROPS/FOPS platform, flotation 6PR tires, single frequency, smooth drum, steel scraper, and factory filled hydraulic oil. NO OTHER OPTIONAL ATTACHMENTS SELECTION MAY BE ADDED TO THIS CONFIGURATION 304-2000 CS44 VIBRATORY COMPACTOR 385-1719 ENGINE, NACD ONLY 395-3133 AXLE, STANDARD 304-2146 OIL, HYDR, FACTORY FILLED 304-2151 PLATFORM, ROPS/FOPS - STANDARD 319-4492 NO PRODUCT LINK 186-2340 TIRES, FLOTATION, 6PR 304-1996 DRUM, SMOOTH 304-2070 FREQUENCY, SINGLE 105-7620 SCRAPER, STEEL, FRONT	\$141,570
----------	--	------------------

LANE 2/LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, Lane 2 configuration is not available.

To be complete, your Lane 1/2 machine order must at least contain:

- Lane 1 or Lane 2
- the lane selection 0P-9001 Lane 1 order or 0P-9002 Lane 2 order
- associated 0P packaging

LANE 3 ONLY FACTORY ARRANGEMENTS

If no reference number is listed, Lane 3 configuration is not available.

DRUMS (CONT.)**COMPACTION SYSTEMS (Cont.)**

L	304-2080	FREQUENCY, VARIABLE 90 FOR USE WITH LANE 3 ONLY Includes: Frequency dial that electronically controls the displacement of the vibratory pump. Frequency range from 23.3-31.9 Hz (1400-1914 vpm).		\$3,040
---	----------	---	--	----------------

SCRAPERS

L	105-7620	SCRAPER, STEEL 110 FOR USE WITH LANE 3 ONLY Includes: Steel, V-shaped, non-contacting scraper blade at the front of the smooth drum. CANNOT BE USED WITH: DRUM, PADFOOT SHELL KIT DRUM, PADFOOT SHELL & BLADE		NC
L	332-1044	SCRAPER, STEEL, SHELL KIT 110 FOR USE WITH LANE 3 ONLY Includes: Steel scraper teeth and scraper blades mounted at the front of the drum for use with padfoot drum shell kit. CANNOT BE USED WITH: DRUM, SMOOTH		NC
L	191-0691	SCRAPER, POLYURETHANE 315 FOR USE WITH LANE 3 ONLY Includes: Two flexible, contacting scraper blades at the front and rear of the smooth drum. CANNOT BE USED WITH: DRUM, PADFOOT SHELL KIT DRUM, PADFOOT SHELL & BLADE		\$2,275
L	246-5795	SCRAPER, STEEL, FRONT + REAR 505 FOR USE WITH LANE 3 ONLY Includes: Steel, V-shaped, non-contacting scraper blade at the front and rear of the smooth drum. CANNOT BE USED WITH: DRUM, PADFOOT SHELL KIT DRUM, PADFOOT SHELL & BLADE		\$1,680

INSTRUCTIONS**DECAL PACKAGES**

L	304-2144	INSTRUCTIONS, NORTH AMERICAN 0 ANSI picto warning decals using symbols plus the word "WARNING" as required for North America (except Quebec, Canada).		NC

OPERATOR ENVIRONMENT

P	107-4643	MIRRORS, REARVIEW, INTERNAL 10 FOR USE WITH LANE 3 ONLY Includes: Two rear-view mirrors mounted inside the cab. REQUIRES: CAB, ROPS/FOPS WITH A/C		\$199
---	----------	---	--	--------------

TECHNOLOGY PRODUCTS**MEASUREMENT SYSTEMS**

P	304-2150	GAUGE, VIBRATIONS PER MINUTE 9 FOR USE WITH LANE 3 ONLY Recommended to be used with FREQUENCY, VARIABLE for vsual indication of vibrations per minute. CANNOT BE USED WITH: COMPACTION METER, VOLKEL ACD		\$525
L	352-3057	COMPACTION METER, VOLKEL ACD 7 FOR USE WITH LANE 3 ONLY Includes: Volkkel ACD gauge, the ASC sensor (Accelerometer = Processor) and the electrical harness. Simple compaction measurement that provides the operator in real time the compaction level, the vibratory frequency and an indicator light alerting operator when machine is decoupling. CANNOT BE USED WITH: NON CAB EQUIPPED MACHINES; DRUM PADFOOT SHELL KIT; DRUM PADFOOT SHELL & BLADE; ITALIAN ROAD HOMOLOGATION; GAUGE VIBRATION PER MINUTE		\$6,450

FIELD INSTALLED ATTACHMENTS

The following field attachments can be ordered
through Machine Order as a miscellaneous order.

	332-1045	DRUM, PADFOOT SHELL KIT 1,225 FOR USE WITH LANE 3 ONLY Includes: Two-piece padded drum shell and universal bumper with integral scraper blades/teeth for field installation. Converts smooth drum to padfoot style drum.		\$15,620 NI
	332-1046	DRUM, PADFOOT SHELL + BLADE 1,775 FOR USE WITH LANE 3 ONLY Includes: Two-piece padded drum shell, leveling blade and universal bumper with integral scraper blades/teeth for field installation. Converts smooth drum to padfoot style drum.		\$25,810 NI
	395-3791	HOMOLOGATION, ITALIAN ROAD 0 FOR USE WITH LANE 3 ONLY Includes: Dealer installed CE Compliance Package, front and rear turning signals, front mounted roading lights, beacon and rear mounted cerification plate for IRH compliance. REQUIRES: AXLE, BRAKE, RELEASE PUMP		\$2,825 NI

At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
-engine
-hydraulic
-coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

TECHNOLOGY PRODUCTS**CAT COMPACTION CONTROL**

This is a factory designed and integrated SBAS accuracy level pass count and mapping system which requires no off-board infrastructure. For a higher accuracy solution, order the slope sensor below (for accelerometer sensor system) and consult your Dealer Technology Representative to order the necessary basestation, data radio and higher accuracy option key for a RTK solution.

L	375-1609	MAPPING, GPS, STD DISP, ROPS 40 FOR USE WITH LANE 3 ONLY Includes CB450 Display (4.3 in/10.9 cm), MS952 antenna/receiver. REQUIRES: SENSOR, DRIVE POWER or SENSOR, ACCELEROMETER; PLATFORM, ROPS/FOPS		\$19,560
L	375-1612	MAPPING, GPS, LRG DISP, ROPS 45 FOR USE WITH LANE 3 ONLY Includes CB460 Display (7.0 in/17.8 cm), MS952 antenna/receiver. REQUIRES: SENSOR, DRIVE POWER or SENSOR, ACCELEROMETER; PLATFORM ROPS/FOPS		\$23,090
L	375-1604	MAPPING, GPS, STD DISP, CAB 40 FOR USE WITH LANE 3 ONLY Includes CB450 Display (4.3 in/10.9 cm), MS952 antenna/receiver. REQUIRES: SENSOR, DRIVE POWER or SENSOR, ACCELEROMETER; CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		\$19,560
L	375-1607	MAPPING, GPS, LRG DISP, CAB 45 FOR USE WITH LANE 3 ONLY Includes CB460 Display (7.0 in/17.8 cm), MS952 antenna/receiver. REQUIRES: SENSOR, DRIVE POWER or SENSOR, ACCELEROMETER; CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		\$23,090
P	355-9380	SENSOR, ANGLE, HIGH-ACCURACY 12 0 FOR USE WITH LANE 3 ONLY INCLUDES: Continental slope sensor REQUIRES: SENSOR, ACCELEROMETER; MAPPING, STD DISP, ROPS; or MAPPING, LRG DISP, ROPS; or MAPPING CONTROL, STD DISP, CAB; or MAPPING, LRG DISP, CAB		\$437 \$398 NI

OTHER ATTACHMENTS**GUARDS**

P	355-2660	GUARD, TRANSMISSION 44 0 FOR USE WITH LANE 2 AND LANE 3 Provides protection for the rear axle, hydraulic drive motor and hose fittings. Required for European Union.		\$1,050 \$950 NI
P	355-2667	PLATE GROUP CERTIFICATION 0 FOR USE WITH LANE 3 ONLY Required for European Union. REQUIRES: AXLE, WITH BRAKES; GUARD, TRANSMISSION; CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		\$31

CS54BLRC VIBRATORY COMPACTORA
MINNEAPOLIS, MN

Ship Weight
lbs

List Price
At Factory

Standard Equipment:

POWERTRAIN

CAT turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
- hydraulic oil temperature gauge
- engine oil pressure gauge
- engine coolant temperature gauge
- alternator charge
- fuel level gauge
- service hour meter
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended Life Coolant with freeze protection to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
- coolant level
- hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
- engine
- hydraulic
- coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE 2/ LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/ Lane 3 configuration is not available.

LANE 3 ONLY FACTORY ARRANGEMENTS

If no reference number is listed, Lane 3 configuration is not available.

374-9711	CS54B VIBRATORY COMPACTOR 16,612	\$139,900
	Top level arrangement. Must order attachments from mandatory section. May order attachments from optional section	
0P-2780	CS54BLRC MISC MATL 0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.	

NOTE: We recommend and strongly encourage any Misc. Matl. order ship loose item, less than \$500 list price, be ordered through Morton parts distribution system.

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

LANE SELECTION

(Must Select One)

YOUR ORDER WILL BE LANE 2 UNLESS YOU SELECT A PACKAGE OR ATTACHMENT LISTED AS LANE 3 ONLY.

0P-9002	LANE 2 ORDER	0	NC
0P-9003	LANE 3 ORDER	0	NC

MUST SELECT ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION

NOTE: Your order must include one selection from every chapter of the following mandatory attachments.

POWERTRAIN
HYDRAULICS
OPERATOR ENVIRONMENT
TECHNOLOGY PRODUCTS
TIRES, RIMS, & WHEELS

TECHNOLOGY PRODUCTS (CONT.)**CAT COMPACTION CONTROL**

Compaction Monitoring sensors to detect changes in soil stiffness which is an excellent indicator of load bearing strength and provides the operator with real time compaction information on the machine display.

L	364-8294	NO COMPACTION SENSOR 0 FOR USE WITH LANE 3 ONLY No Sensors.		NC
L	379-8258	SENSOR, DRIVE POWER 5 FOR USE WITH LANE 3 ONLY Proprietary Caterpillar technology that directly measures soil stiffness via material deflection (rolling resistance). REQUIRES: CAB, ROPS/FOPS with AC; SEAT, CLOTH, DELUXE & LCD INCLUDES: SENSOR, ANGLE, HIGH-ACCURACY		\$3,500
L	422-4426	SENSOR, DRIVE POWER, PLATFORM 5 FOR USE WITH LANE 3 ONLY Proprietary Caterpillar technology that directly measures soil stiffness via material deflection (rolling resistance). REQUIRES: PLATFORM, OPEN or PLATFORM, OPEN & STEEL CANOPY or PLATFORM, ROPS/FOPS; SEAT, VINYL & LCD INCLUDES: SENSORS, ANGLE, HIGH-ACCURACY		\$3,500
L	379-8259	SENSOR, ACCELEROMETER 15 FOR USE WITH LANE 3 ONLY Traditional soil stiffness measurement providing CMV values resulting from vibration energy imparted to the soil. REQUIRES: CAB, ROPS/FOPS WITH AC; SEAT, CLOTH, DELUXE & LCD CANNOT BE USE WITH: SHELL KIT, OVAL, PADFOOT or SHELL KIT, SQUARE, PADFOOT		\$5,700
L	422-4427	SENSOR, ACCELEROMTR, PLATFORM 15 FOR USE WITH LANE 3 ONLY Traditional soil stiffness measurement providing CMV values resulting from vibration energy imparted to the soil. REQUIRES: PLATFORM, OPEN or PLATFORM OPEN & STEEL CANOPY or PLATFORM, ROPS/FOPS; SEAT, VINYL & LCD CANNOT BE USED WITH: SHELL KIT, OVAL, PADFOOT or SHELL KIT, SQUARE, PADFOOT		\$5,700

TIRES, RIMS, AND WHEELS

L	203-4717	TIRES, FLOTATION, 8PR 935 FOR USE WITH LANE 3 ONLY 8-ply flotation (diamond tread) tires and rims with liquid ballast.		\$2,370
L	203-4718	TIRES, TRACTION, 8PR 935 FOR USE WITH LANE 3 ONLY 8-ply traction (lug tread) tires and rims with liquid ballast. Typically for use with padfoot style drum.		\$3,165

84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
-engine
-hydraulic
-coolant
Universal bumper

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge,
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports
SOS ports:
-engine
-hydraulic
-coolant

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

386-5507	CS68B VIB COMPACTOR DCA-1 31,572 Available to ADSD-N from the MPLS PDC INCLUDES: 347-9523 CS68B VIBRATORY COMPACTOR 347-9583 ENGINE, TIER 4 CERTIFIED 362-4940 OIL, HYDR, FACTORY FILLED 350-5822 CAB, ROPS/FOPS WITH A/C 356-1227 SEAT, CLOTH 387-1801 BELT, SEAT, 3" 319-4492 NO PRODUCT LINK 364-8297 NO COMPACTION SENSOR 175-0050 TIRES, FLOTATION, 8PR 355-3547 FREQUENCY, FIXED 360-0501 SCRAPER, STEEL, FRONT 357-6261 NO BLADE 355-3056 LIGHTS, UPGRADED 107-4643 MIRROR, REARVIEW, INTERNAL	\$214,280
-----------------	--	------------------

LANE 2/3 FACTORY ARRANGEMENTS

If no reference number is listed, Lane 2 configuration is not available.

To be complete, your machine order must at least contain:

- Lane 2 Factory Arrangement
- 0P-9002 Lane 2 selection
- 1 Instructions
- Associated 0P packing number

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	319-4492	NO PRODUCT LINK 0	NC
		FOR USE WITH LANE 3 ONLY	
L	355-0624	PRODUCT LINK, SATELLITE PL321 9	\$1,460 NET
		FOR USE WITH LANE 3 ONLY	
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition.	
		For use in areas with poor or no cellular coverage.	
		REQUIRES: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER	
L	433-1468	PRODUCT LINK, CELLULAR PL421 9	\$470 NET
		FOR USE WITH LANE 3 ONLY	
		Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.	
		REQUIRES: CAB, ROPS/FOPS WITH AC or CAB, ROPS/FOPS WITH HEATER	

CAT COMPACTION CONTROL

Compaction Monitoring sensors to detect changes in soil stiffness which is an excellent indicator of load bearing strength and provides the operator with real time compaction information on the machine display.

L	364-8297	NO COMPACTION SENSOR 0	NC
		FOR USE WITH LANE 3 ONLY	
		No Sensors.	
L	364-8298	SENSOR, DRIVE POWER 5	\$3,640
		FOR USE WITH LANE 3 ONLY	
		Proprietary Caterpillar technology that directly measures soil stiffness via material deflection (rolling resistance).	
		INCLUDES: SENSOR, SLOPE	
L	364-8300	SENSOR, ACCELEROMETER 15	\$5,930
		FOR USE WITH LANE 3 ONLY	
		Traditional soil stiffness measurement providing CMV values resulting from vibration energy imparted to the soil.	
		CANNOT BE USED WITH: KIT, PADFOOT SHELL, OVAL or SHELL KIT, SQUARE, PADFOOT	

TIRES, RIMS, AND WHEELS

L	203-4717	TIRES, FLOTATION, 8PR 935	\$2,370
		FOR USE WITH LANE 3 ONLY	
		8-ply flotation (diamond tread) tires and rims with liquid ballast.

**CS74B VIBRATORY COMPACTOR
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic priming pump and water indicator
Three-speed throttle switch including ECOMODE
Dual propel pumps - 1 for drum and 1 for tires
Dual braking systems (service & parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system alternator
(2) Maintenance free batteries - 750 CCA
Halogen working lights - canopy mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for propel lever operation
On-board display with audible warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge,
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm) diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test ports

**CS78B VIBRATORY COMPACTOR
MINNEAPOLIS, MN**Ship Weight
lbsList Price
At Factory

Standard Equipment:

POWERTRAIN

CAT C4.4 four cylinder, turbo-charged
diesel engine with glow-plug heater
Dual element air cleaner
Fuel filter/water separator/electronic
priming pump and water indicator
Three-speed throttle switch including
ECOMODE
Dual propel pumps - 1 for drum and
1 for tires
Dual braking systems (service &
parking, drum only)
Two-speed hydrostatic transmission
Limited slip differential

ELECTRICAL

24-volt starting and charging system
alternator
(2) Maintenance free batteries -
750 CCA
Halogen working lights - canopy mounted
(2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready
Beacon Ready

OPERATOR ENVIRONMENT

ROPS/FOPS platform
Four heavy-duty isolation mounts
Platform handrails/guardrails
Power steering
Adjustable tilt-steering column
Adjustable, rotating suspension seat
Retractable seat belt
Adjustable, padded arm rest for
propel lever operation
On-board display with audible
warning alarm and interface for:
-hydraulic oil temperature gauge,
-engine oil pressure gauge,
-engine coolant temperature gauge,
-alternator charge,
-fuel level gauge,
-service hour meter,
-engine RPM
-ground speed, vibrate speed
-fuel rate gauge
-engine load gauge
-basic compaction measurement
Lockable, vandalism guard for
on-board display
12-volt power point

COOLING

Premixed 50% concentration of Extended

Life Coolant with freeze protection
to -37C (-35F)

DRUMS

Smooth drum
84" (2134 mm) wide x 60.4" (1534 mm)
diameter
Dual amplitude with single frequency
Dual, pod-style eccentric weight
housings
Front adjustable steel scraper

OTHER STANDARD EQUIPMENT

Locking composite engine enclosure
Sealed-for-life hitch bearings
Sight gauges:
-coolant level
-hydraulic oil level
Hydraulic tank locking cap
Articulated frame with safety lock
Transport tie-down and lift points
Fuel tank with lockable cap
Quick connect hydraulic pressure test
ports
SOS ports:
-engine
-hydraulic
-coolant

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)

If no reference number is listed, Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

386-5511	CS78B VIB COMPACTOR DCA-1 38,450 Available to ADSD-N from the MPLS PDC INCLUDES: 347-9535 CS78B VIBRATORY COMPACTOR 347-9584 ENGINE, TIER 4 CERTIFIED 362-4940 OIL, HYDR, FACTORY FILLED 362-8900 CAB, ROPS/FOPS WITH A/C 356-1227 SEAT, CLOTH 387-1801 BELT, SEAT, 3" 319-4492 NO PRODUCT LINK 364-8297 NO COMPACTION SENSOR 216-0261 TIRES, FLOTATION, 12PR 351-8911 FREQUENCY, FIXED 360-0513 SCRAPER, STEEL, FRONT 355-3056 LIGHTS, UPGRADED 107-4643 MIRROR, REARVIEW, INTERNAL	\$272,930

		FOR USE WITH LANE 3 ONLY Pull-down sunshade for rear window, reduces heat and glare. REQUIRES: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		
P	107-4641	SUN VISOR, FRONT	2 0	\$74 \$74 NI
		FOR USE WITH LANE 3 ONLY REQUIRES: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER		

TECHNOLOGY PRODUCTS**CAT COMPACTION CONTROL**

This is a factory designed and integrated SBAS accuracy level pass count and mapping system which requires no off-board infrastructure. For a higher accuracy solution, order the slope sensor below (for accelerometer sensor system) and consult your Dealer Technology Representative to order the necessary basestation, data radio and higher accuracy option key for a RTK solution.

L	375-1604	MAPPING, GPS, STD DISP, CAB	40	\$19,560
		FOR USE WITH LANE 3 ONLY Includes CB450 Display (4.3 in/10.9 cm), MS952 antenna/receiver. REQUIRES: SENSOR, DRIVE POWER or SENSOR, ACCELEROMETER: CAB, ROPS/FOPS WITH A/C or CAB, ROPS/FOPS WITH HEATER

Standard Equipment:

POWERTRAIN

Cat C3.4B ACERT Engine
 T4i/Stage 3B 100 HP/75 kW, four-
 cylinder turbo-charged
 Dual element cyclonic air cleaner
 Fuel filter / water separator
 Ultra clean fuel filter with integrated
 prime pump
 Two-speed throttle switch
 Dual braking systems (service & parking)
 Continuously variable hydrostatic
 transmission with seamless shifting
 Direct "high" drive - no chains

test ports
 SOS ports:
 - engine
 - hydraulic
 - coolant
 Coco mats
 Remote drains for all fluids

ELECTRICAL

12-volt electric starting
 55 - amp alternator
 One CAT Maintenance Free Batteries
 Rooding lights - turn signals and low
 beam forward facing lights
 Rear backup light and stop indication
 lamps
 Halogen working lights - bumper mounted
 (2 front-facing and 2 rear-facing)
 Backup alarm and forward warning horn
 Product Link Ready

OPERATOR ENVIRONMENT

Gage Package
 ROPS
 Fixed, non-suspension seat with
 - Oversized RH arm rest
 - 3" wide belt
 Vandalism protection
 Power assisted steering

FLUIDS

Premixed 50% concentration of Extended
 Life Coolant with freeze protection
 to -37C (-35F)

OTHER STANDARD EQUIPMENT

Locking fiberglass engine enclosure
 All wheel oscillation - front and rear
 Front wheel vertical equalizing
 suspension
 Gravity water system with distribution
 bars over front and rear tires and
 individual retractable steel tire
 scraper
 Manual brake release
 Nine 8:50/90 x 15 6-ply bias tires
 Transport tie-down and lift points
 104 gal (394L) water tank capacity
 Quick connect hydraulic pressure

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the price list.

You must order your machine Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA'S)
If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC).

LANE SELECTION**(Must Select One)**

YOUR ORDER WILL BE LANE 2 UNLESS YOU SELECT A PACKAGE OR ATTACHMENT LISTED AS LANE 3 ONLY.

0P-9003	LANE 3 ORDER	0	NC
0P-9004	LANE 4 ORDER	0	NC
	Custom Products Orders Only		

MUST SELECT ONE ITEM FROM EACH CATEGORY FOUND IN THE MANDATORY ATTACHMENT SECTION**POWERTRAIN**

YOU MUST SELECT THE ENGINE AND ONE OPTION FROM BOTH THE GAGE PACKAGE AND TRACTION PACKAGE CATEGORIES UNDER THE MACHINE TYPE.

ENGINE

L	369-5770	ENGINE, TIER 4I, STAGE 3B	0	NC
		FOR USE WITH LANE 3 ONLY		

MACHINE TYPE

YOU MUST SELECT A GAGE PACKAGE AND TRACTION PACKAGE FROM EITHER MACHINE TYPE.

STANDARD MACHINE

Specifications: Up to 28,535 lb operating weight. Requires field installed sand and water. Maximum operating speed 11 mph (17.5 kph).

Requires: GAGE, BASIC, STD or SPEEDOMETER, STD
NO TRACTION CONTROL, STD or TRACTION CONTROL, STD

GAGE PACKAGE

L	241-9416	GAGE, BASIC, STD	0	NC
		FOR USE WITH LANE 3 ONLY		
		Includes gages for engine oil pressure, engine coolant temperature, hydraulic oil pressure and hour meter.		
L	374-7954	SPEEDOMETER, STD	2	\$1,290
		FOR USE WITH LANE 3 ONLY		
		Includes Basic Gage package plus ground speed indicator.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

POWERTRAIN (CONT.)**TRACTION PACKAGE**

L	373-2522	NO TRACTION CONTROL, STD FOR USE WITH LANE 3 ONLY	0	NC
L	373-2523	TRACTION CONTROL, STD FOR USE WITH LANE 3 ONLY On-demand traction control system consisting of foot control switch, hydraulic circuitry and flow divider.	121	\$2,680

HEAVYWIEGHT MACHINE

Specifications: Up to 38,080 lb operating weight. Requires factory
BALLAST, STEEL and field installed sand and
water. Maximum operating speed 11 mph (17.5 kph).

Requires: GAGE, BASIC, HW or SPEEDOMETER, HW
NO TRACTION CONTROL, HW or TRACTION CONTROL, HW
BALLAST, STEEL
REQUIRES: 0P-4592 Inland Freight

CAN NOT BE USED with 0P-4594 Inland Freight

HW GAGE PACKAGE

L	252-2458	GAGE, BASIC, HW FOR USE WITH LANE 3 ONLY Includes gages for engine oil pressure, engine coolant temperature, hydraulic oil pressure and hour meter.	0	NC
L	374-7955	SPEEDOMETER, HW FOR USE WITH LANE 3 ONLY Includes Basic Gage package plus ground speed indicator.	2	\$1,290

HW TRACTION PACKAGE

L	373-2524	NO TRACTION CONTROL, HW FOR USE WITH LANE 3 ONLY REQUIRES: BALLAST, STEEL	0	\$7,200
L	373-2525	TRACTION CONTROL, HW FOR USE WITH LANE 3 ONLY On-demand traction control system consisting of foot control switch, hydraulic circuitry and flow divider. REQUIRES: BALLAST, STEEL	121	\$9,890

OPERATOR ENVIRONMENT**OPERATOR STATION**

L	187-3886	OPERATOR STATION, FIXED FOR USE WITH LANE 3 ONLY	0	NC
L	243-3552	OPERATOR STATION, ROTATING FOR USE WITH LANE 3 ONLY Operator station rotates to 3 positions.	175	\$1,325

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

OPERATOR ENVIRONMENT (CONT.)**SEAT SELECTION**

L	104-1863	SEAT, NON SUSPENSION 0 FOR USE WITH LANE 3 ONLY Vinyl, fixed suspension seat.		NC
L	221-4045	SEAT, SUSPENSION 81 FOR USE WITH LANE 3 ONLY Includes mechanical suspension with vertical and weight adjustments plus arm rests.		\$1,470

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must Select One)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the cost of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	369-5765	PRODUCT LINK, SATELLITE PL321 4 FOR USE WITH LANE 3 ONLY Satellite Product Link uses a satellite network for transmission of asset information including location, utilization, and condition. For use in areas with poor or no cellular coverage.		\$1,475 NET
L	319-4492	NO PRODUCT LINK 0 FOR USE WITH LANE 3 ONLY		NC
L	442-7944	PRODUCT LINK, CELLULAR PL421 9 FOR USE WITH LANE 3 ONLY Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		\$470 NET

TIRES, RIMS, AND WHEELS**WHEELS - 9 WHEEL SYSTEM**

L	374-5350	TIRES, 9, 6PLY BIAS 0 FOR USE WITH LANE 3 ONLY Smooth 7.5R15 C1 tread type bias tire. CANNOT BE USED WITH: HEAVYWEIGHT MACHINE		\$370
L	374-5351	TIRES, 9, 12PLY BIAS 2,396 FOR USE WITH LANE 3 ONLY Smooth 7.5R15 C1 tread type bias tire.		\$3,120
L	374-5353	TIRES, 9, 14PLY BIAS 2,396 FOR USE WITH LANE 3 ONLY Heavy duty smooth 7.5R15 C1 tread type bias tire. Primarily used for soil, harsh mix or thick lift asphalt applications.		\$3,395
L	374-5352	TIRES, 9, 12PLY RAD, MICHELIN 1,799 FOR USE WITH LANE 3 ONLY Smooth 7.5R15 C1 tread type RADIAL tire.		\$5,310

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Cat C4.4 ACERT Engine
(T4i/Stage 3B 131 HP / 98 kW, four-cylinder turbo-charged)
(T3/Stage 3A 130 HP / 96.5 kW, four-cylinder turbo-charged)
Dual element cyclonic air cleaner
Fuel filter / water separator
Ultra clean fuel filter with integrated prime pump
Fuel reducing, automotive style, variable speed engine control
Automatic idle shutdown
Dual braking system (service & parking)
Continuously variable hydrostatic transmission with seamless shifting
3 Speed ranges
Auto speed control (ASC) for lower noise and fuel consumption

suspension
Single pump, triple filtration
pressurized water system
Dedicated system for each tire
Intermittent adjustable spray on/off time
Water Capacity
Self adjusting, retractable, nylon tire scraping system
Manual brake release
Lockable fuel fill
Transport tie-down and lift points
High ambient capable (49 deg C)

ELECTRICAL

24-volt electric starting
100 - amp alternator
Two CAT Maintenance Free Batteries
Roading lights - turn signals and low beam forward facing lights
Rear backup light and stop indication lamps
Halogen working lights - bumper mounted (2 front-facing and 2 rear-facing)
Backup alarm and forward warning horn
Product Link Ready

OPERATOR ENVIRONMENT

Side to side sliding and plus/minus 90 degree rotating operator station
Machine and operating functions are integrated into 4" LCD display
Fore/Aft adjustable suspension seat
Oversized RH arm rest
3" wide belt
Vandalism protection
Power assisted steering
Tilt able steering column
Rubber floor mat

FLUIDS

Premixed 50% concentration of Extended Life Coolant with freeze protection to -37C (-35F)

OTHER STANDARD EQUIPMENT

Locking fiberglass engine enclosure
All wheel oscillation - front and rear
Front wheel vertical equalizing

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the price list.

You must order your machine Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order a machine from the factory, they are only valid to order machines from a Product Distribution Center (PDC)

LANE 2/ LANE 3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/ Lane 3 configuration is not available.

L	359-7796	INFLATION GROUP 772		\$8,390
		FOR USE WITH LANE 3 ONLY		
		Automatic or manual air on the run system for tire inflation.		
		REQUIRES: CONTROL, PREMIUM		
P	359-7794	SKIRT, TIRE 0		\$4,330
			403	\$4,330 NI
		FOR USE WITH LANE 3 ONLY		
		Provides wind protection to tires to retain heat.		
L	359-7790	SPRAY, EMULSION 55		\$1,960
		FOR USE WITH LANE 3 ONLY		
		Provides emulsion tank, electric pump, and spray nozzles for		
		each tire AND the standard water spray system.		
		REQUIRES: CONTROL, PREMIUM		
L	364-6772	EDGE CUTTER 518		\$12,580
			0	\$12,580 NI
		FOR USE WITH LANE 3 ONLY		
		Devise for cutting and compacting material.		
		REQUIRES: CONTROL, PREMIUM		
P	364-6763	MIRRORS, EXTERNAL 33		\$417
			0	\$417 NI
		FOR USE WITH LANE 3 ONLY		
		Includes 4 external rear-view adjustable mirrors.		
P	388-7112	COCOA MAT W/SCRAPER 44		\$1,750
			0	\$1,750 NI
		FOR USE WITH LANE 3 ONLY		
		Additional tire scraper complete with cocoa mat for water retention.		
P	359-7795	BALLAST, MODULAR 14,330		\$19,260
			14,330	\$19,260 NI
		FOR USE WITH LANE 3 ONLY		
		Modular steel adds 6.5T of weight to machine.		
		Select to achieve 2.5T per tire load with water.		
L	364-5884	BALLAST, INTERNAL 9,480		\$14,520
		FOR USE WITH LANE 3 ONLY		
		Steel ballast adding 4.3T of weight to machine.		
		Select to achieve 2T per tire load with water.		
L	393-7382	BALLAST, INTERNAL, MAX 3,748		\$5,810
		FOR USE WITH LANE 3 ONLY		
		Steel ballast adding 1.7T of weight to machine.		
		Used to achieve 27T max machine weight when		
		combined with Ballast, Modular and wet sand.		
		REQUIRES: BALLAST, INTERNAL		

DOCUMENTATION**CERTIFICATES**

P	0P-4990	CERTIFICATE OF ORIGIN 0		\$165

Standard Equipment:

ELECTRICAL

Alternator, 120 Amp, heavy duty brushless
Alarm, backup
Horn, electric
Batteries, heavy duty, maintenance free,
750 CCA.
Diagnostic connector
Starter electric 12V

OPERATOR ENVIRONMENT

ROPS/FOPS Canopy
Seat, air suspended, cloth or vinyl
Seatbelt, retractable 3" (76mm)
Foot Pads, dash
Electronic Monitoring System
with gauge for:
engine coolant temperature,
hydraulic oil temperature and
fuel level.
Travel speed limiter, electronic
Engine RPM and gear display
Hour meter, electronic
Engine air cleaner service indicator,
electronic
Water-in-fuel indicator, electronic
Throttle switch, rotary
Controls, seat mounted, fore/aft
adjustment
Armrests, adjustable
Mirror, rearview, inside
Single pedal combining deceleration and
braking functions
Independent forward/reverse speed
settings
Powerport, 12 volt
Coat hook
Storage compartment
Cup holder
Floor mat, rubber, heavy duty

POWERTRAIN

Caterpillar C4.4 ACERT diesel engine
turbocharged
Aluminum bar plate cooling system
(radiator, powertrain)
Air cleaner with precleaner, automatic
dust ejection and under-hood intake
Dual path, closed-loop, hydrostatic
transmission
Fuel priming pump
Fuel/water separator
Muffler, under hood

UNDERCARRIAGE

Salt undercarriage (41 - section)

6 roller track frame
Track rollers, lifetime lubricated
Carrier rollers
Track adjusters, hydraulic
Guards, Front/Rear guiding

OTHER STANDARD EQUIPMENT

C - Frame, variable pitch link,
hydraulic cylinders and lines
Engine enclosures
Front pull device
Rigid drawbar
Ecology drains (engine, powertrain and
implement oil, and engine coolant)
Scheduled oil sampling ports (engine,
powertrain implement oil)
Vandalism protection
Heavy Duty crankcase guard

HYDRAULICS

3 valve
Load sensing hydraulics
Single lever, three function control
Hydraulic pump and oil

ANTIFREEZE

Extended life coolant (-37C)

MACHINE CONTROL AND GUIDANCE**ACCUGRADE INSTALLATION****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1) Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3) The purchase of a AccuGrade Software Enabled Attachment (SEA) premium configuration is required for those configurations requiring automatic blade control and must be ordered separately and additional to the machine and the AccuGrade Electronics Kit.
- (4) Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits, AccuGrade SEA and site infrastructure.

CUSTOM PRODUCTS (CONT.)***TWO WAY DOZER TRACTOR ARRANGEMENT***

NOTE: CONTACT BCP-STTT PRODUCT GROUP FOR AVAILABILITY AND PRICE
Provides machine modifications for shiphold applications

- 354-0375 INSTALLATION, TWO WAY DOZER
For Use With: D3K XL
Includes: Hydraulic lines, control valve,
rear guard with lifting eyes
- 316-1515 BLADE, TWO WAY DOZER
For Use With: D3K XL
Includes: Lifting eyes
Requires: 329-0049 Installation, Two Way Dozer
- 312-7514 TRACK, 16" (405MM) MS, SALT, CENTER PUNCH
Requires: 244-7448 Undercarriage, SALT
- 315-1998 SEGMENT, SPROCKET, NOTCHED
- 320-2250 GAGE, FUEL
- 319-2759 GUARD, ALTERNATOR
- 362-6281 ELEC CONNECTER PROTECT(COMMON)ON
- 362-6282 ELEC CONNECTER PROTECT(CAB)
For use with CAB
- 362-6283 ELEC CONNECTER PROTECT(OROPS)
For use with Canopy
- 362-6285 ELEC CONNECTER PROTECT(LIGHT)
For use with 269-7696 Light, 4
- 316-9414 TANK, FUEL SUPPLEMENTAL

Standard Equipment:

POWERTRAIN

Caterpillar C4.4 ACERT diesel engine
turbocharged, EPA Tier 4 Interim and
EU Stage IIIB Certified Engine with
Aftertreatment
Aftercooler, Air to Air (ATAAC)
Aluminum bar plate cooling system
(radiator, powertrain)
Air cleaner with precleaner, automatic
dust ejection and under-hood intake
Dual path, closed-loop, hydrostatic
transmission
Electric Fuel priming pump
Fuel/water separator
Traction Control

UNDERCARRIAGE

Salt undercarriage (41 - section)
6 roller track frame
Track rollers, lifetime lubricated
Carrier rollers
Track adjusters, hydraulic
Guards, Front/Rear guiding

HYDRAULICS

3 valve
Load sensing hydraulics
Single lever, three function control
Hydraulic pump and oil
Stable Blade control

ELECTRICAL

Alternator, 120 Amp, heavy duty brushless
Alarm, backup
Horn, electric
Batteries, heavy duty, maintenance free,
750 CCA.
Diagnostic connector
Starter electric 12V

OPERATOR ENVIRONMENT

ROPS/FOPS Canopy
Seat, air suspended, cloth or vinyl
Seatbelt, retractable 3" (76mm)
Foot pads, dash
Electronic Monitoring System
with gauge for:
engine coolant temperature,
hydraulic oil temperature and
fuel level.
Travel speed limiter, electronic
Engine RPM and gear display
Hour meter, electronic
Engine air cleaner service indicator,
electronic

Water-in-fuel indicator, electronic
Throttle switch, rotary
Eco mode
Controls, seat mounted, fore/aft
adjustment
Armrests, adjustable
Mirror, rearview, inside
Single pedal combining deceleration and
braking functions
Independent forward/reverse speed
settings
Powerport, 12 volt
Coat hook
Storage compartment
Cup holder
Floor mat, rubber, heavy duty

FLUIDS

Antifreeze, Extended life coolant (-37C)

OTHER STANDARD EQUIPMENT

C - Frame, variable pitch link,
hydraulic cylinders and lines
Engine enclosures
Front pull device
Rigid drawbar
Ecology drains (engine, powertrain and
implement oil, and engine coolant)
Scheduled oil sampling ports (engine,
powertrain implement oil)
Vandalism protection
Heavy duty crankcase guard
Product Link Ready

TECHNOLOGY PRODUCTS**ACCUGRADE INSTALLATION FOR MACHINE CONTROL AND GUIDANCE SYSTEM****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1) Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3) Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits and site infrastructure.

Select One

MACHINE CONTROL AND GUIDANCE**ACCUGRADE INSTALLATION****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1) Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3) Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits, AccuGrade SEA and site infrastructure.

TECHNOLOGY PRODUCTS**ACCUGRADE INSTALLATION FOR MACHINE CONTROL AND GUIDANCE SYSTEM****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1)Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2)An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3)Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits and site infrastructure.

Standard Equipment:

ELECTRICAL

Alternator, 120 Amp, heavy duty brushless
Alarm, backup
Horn, electric
Batteries, heavy duty, maintenance free,
900 CCA.
Diagnostic connector
Starter electric 12V

OPERATOR ENVIRONMENT

ROPS/FOPS Canopy
Seat, air suspended, cloth or vinyl
Seatbelt, retractable 3" (76mm)
Foot pads, dash
Electronic Monitoring System
with gauge for:
engine coolant temperature,
hydraulic oil temperature and
fuel level.
Travel speed limiter, electronic
Engine RPM and gear display
Hour meter, electronic
Engine air cleaner service indicator,
electronic
Water-in-fuel indicator, electronic
Throttle switch, rotary
Controls, seat mounted, fore/aft
adjustment
Armrests, adjustable
Mirror, rearview, inside
Single pedal combining deceleration and
braking functions
Independent forward/reverse speed
settings
Powerport, 12 volt
Coat hook
Storage compartment
Cup holder
Floor mat, rubber, heavy duty

POWERTRAIN

Caterpillar C4.4 ACERT diesel engine
turbocharged
Aluminum bar plate cooling system
(radiator, powertrain)
Air cleaner with precleaner, automatic
dust ejection and under-hood intake
Dual path, closed-loop, hydrostatic
transmission
Fuel priming pump
Fuel/water separator
Muffler, under hood

UNDERCARRIAGE

Salt undercarriage (40 - section)

7 roller track frame
Track rollers, lifetime lubricated
Carrier rollers
Track adjusters, hydraulic
Guards, Front/Rear guiding

OTHER STANDARD EQUIPMENT

C - Frame, variable pitch link,
hydraulic cylinders and lines
Engine enclosures
Front pull device
Rigid drawbar
Ecology drains (engine, powertrain and
implement oil, and engine coolant)
Scheduled oil sampling ports (engine,
powertrain implement oil)
Vandalism protection
Heavy duty crankcase guard

HYDRAULICS

3 valve
Load sensing hydraulics
Single lever, three function control
Hydraulic pump and oil

ANTIFREEZE

Extended life coolant (-37C)

MACHINE CONTROL AND GUIDANCE**ACCUGRADE INSTALLATION****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1) Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3) Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits, AccuGrade SEA and site infrastructure.

Select One

L	296-5756	INSTALLATION, ACCUGRADE READY 35 The machine is AccuGrade ready if this reference is ordered. Includes blade joystick with 3 buttons, and all the items necessary for AccuGrade installation. FOR USE WITH: Blade, AccuGrade Cab		\$5,640

Standard Equipment:

POWERTRAIN

Caterpillar C4.4 ACERT diesel engine
turbocharged, EPA Tier 4 Interim and
EU Stage IIIB Certified Engine with
Aftertreatment
Aftercooler, Air to Air (ATAAC)
Aluminum bar plate cooling system
(radiator, powertrain)
Air cleaner with precleaner, automatic
dust ejection and under-hood intake
Dual path, closed-loop, hydrostatic
transmission
Electric Fuel priming pump
Fuel/water separator
Traction Control

UNDERCARRIAGE

Salt undercarriage (40 - section)
7 roller track frame
Track rollers, lifetime lubricated
Carrier rollers
Track adjusters, hydraulic
Guards, Front/Rear guiding

HYDRAULICS

3 valve
Load sensing hydraulics
Single lever, three function control
Hydraulic pump and oil
Stable Blade control

ELECTRICAL

Alternator, 120 Amp, heavy duty brushless
Alarm, backup
Horn, electric
Batteries, heavy duty , maintenance free,
900 CCA.
Diagnostic connector
Starter electric 12V

OPERATOR ENVIRONMENT

ROPS/FOPS Canopy
Seat, air suspended, cloth or vinyl
Seatbelt, retractable 3" (76mm)
Foot pads, dash
Electronic Monitoring System
with gauge for:
engine coolant temperature,
hydraulic oil temperature and
fuel level.
Travel speed limiter, electronic
Engine RPM and gear display
Hour meter, electronic
Engine air cleaner service indicator,
electronic

Water-in-fuel indicator, electronic
Throttle switch, rotary
Eco mode
Controls, seat mounted, fore/aft
adjustment
Armrests, adjustable
Mirror, rearview , inside
Single pedal combining deceleration and
braking functions
Independent forward/reverse speed
settings
Powerport, 12 volt
Coat hook
Storage compartment
Cup holder
Floor mat, rubber, heavy duty

FLUIDS

Antifreeze, Extended life coolant (-37C)

OTHER STANDARD EQUIPMENT

C - Frame, variable pitch link,
hydraulic cylinders and lines
Engine enclosures
Front pull device
Rigid drawbar
Ecology drains (engine, powertrain and
implement oil, and engine coolant)
Scheduled oil sampling ports (engine,
powertrain implement oil)
Vandalism protection
Heavy duty crankcase guard

TECHNOLOGY PRODUCTS**ACCUGRADE INSTALLATION FOR MACHINE CONTROL AND GUIDANCE SYSTEM****ACCUGRADE GRADE CONTROL SYSTEM ORDERING**

- (1) Ordering INSTALLATION, ACCUGRADE READY (ARO) allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.
- (2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.
- (3) Site infrastructure is also necessary to operate the AccuGrade system. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits and site infrastructure.

Select One

L	347-2693	INSTALLATION, ACCUGRADE READY 29	\$5,850
		The machine is AccuGrade ready if this reference is ordered. Includes blade joystick with Mechanical pitch link, and all items necessary for AccuGrade installation. FOR USE WITH: Blade, AccuGrade	
L	347-2695	INSTALLATION, ACCUGRADE, P PITCH 55	\$8,840

PRICE LIST INTENDED USAGE

Highly Regulated Countries + Turkey
+ Israel + French overseas
departments and territories :
D6K2 (stage IIIB) lane 1/2/3 orders.

Lesser Regulated Countries :
Do not use this price list.

POWERTRAIN

Caterpillar C6.6 ACERT diesel engine
turbocharged
U.S. EPA/ARB Tier4 Interim engine and
EU Stage IIIB Certified Engine
with Aftertreatment
Aluminum bar plate cooling system
(radiator, powertrain, aftercooler)
Hydraulic demand fan
Air cleaner with precleaner, automatic
dust ejection and under-hood intake
Dual path, electronic control,
closed-loop hydrostatic transmission
Fuel priming pump, electric
Fuel / water separator
Tank, fuel, standard
Glowplug starting aid

UNDERCARRIAGE

SystemOne Undercarriage
Center tread idler, sprocketed, lifetime
lubricated
Track rollers, lifetime lubricated
Carrier rollers
Track adjusters, hydraulic
Sprocket rim segments, replaceable
Guards, end track guiding

HYDRAULICS

3 valve electro-hydraulics
Load sensing hydraulics
Single lever, three function control
HYDO Advanced 10

ELECTRICAL

Alternator, 115 Amp, heavy duty brush type
Alarm, backup
Horn, electric
Batteries, heavy duty, high output,
maintenance free, 900 CCA.
Diagnostic connector
Starter electric 24V
Halogen lights, four forward facing,
roof mounted ; two rearward facing,
integrated in A/C unit.

Converter, 12V, 10 Amp

OPERATOR ENVIRONMENT

ROPS/FOPS Cab, pressurized, sound
suppressed with tinted glass, sliding
side windows and air conditioning.
Seat, air suspended, cloth or vinyl
Seatbelt, retractable 3" (76 mm)
Foot pads, dash
Electronic Monitoring System
with gauge for :
engine coolant temperature,
engine oil level
hydraulic oil temperature and
fuel level.
Travel speed limiter, electronic
Engine RPM and gear display
Hour meter, electronic
Engine air cleaner service indicator,
electronic
Water-in-fuel indicator, electronic
Throttle switch, rotary
Controls, seat mounted, electro-
hydraulic with fore/aft adjustment
Armrests, adjustable
Mirror, rearview, inside
12V Radio Ready
Single pedal combining deceleration and
braking functions
Independent forward/reverse speed
settings
Powerport, one 12 volt
Coat hook
Storage compartment, cup holder
Floor mat, rubber, heavy duty
Windshield washers and wipers, front
and rear
Auxiliary mirror, rear attachment

FLUIDS

Extended life coolant (-37C)

OTHER STANDARD EQUIPMENT

C-frame, variable pitch link, hydraulic
cylinder and lines
Engine enclosures
Hinged radiator grill
Swing-out radiator fan
Front pull device
Rigid drawbar
Vandalism protection
Ecology drains (engine, powertrain and
implement oil, and engine coolant)
Scheduled oil sampling ports (engine,
powertrain implement oil and engine

ORDERING INSTRUCTIONS

You must order your machine from Lane 1, Lane 2 or Lane 3.
The Lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 2 or Lane 3 orders must include selections from the MANDATORY sections, and may be completed with OPTIONAL features.

For further explanations of Lane Strategy and ordering instructions please refer to the sales model "General" posted in the web price list.

AccuGrade control**ACCUGRADE CONTROL SYSTEM ORDERING**

- (1) Ordering **INSTALLATION, ACCUGRADE READY (ARO)** allows the machine to be equipped with an **AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit**.
- (2) An **AccuGrade Electronics Kit (GNSS, Laser, or UTS)** must be ordered separately and additional to the machine.
- (3) The purchase of a **AccuGrade Software Enabled Attachment (SEA)** premium configuration is required for those configurations requiring automatic blade control and must be ordered separately and additional to the machine and the **AccuGrade Electronics Kit**.
- (4) Site infrastructure is also necessary to operate the **AccuGrade** system. For example, **GNSS** systems require a **GNSS base station**. **Laser** systems require a **laser transmitter**. **UTS** requires a **Universal Total Station**.

Please consult the **ACCUTTT1** price list for ordering instructions for electronics kits, **AccuGrade SEA** and site infrastructure.

POWERTRAIN

C6.6 Caterpillar ACERT diesel engine
EPA/ARB Tier 4 Interim engine and
EU Stage IIIB
Certified Engine with Aftertreatment
and Common Rail fuel system
ADEM A5 Electronic Control
Module, and a air-to-air aftercooling
Single poly-vee belt with auto belt
tensioner
Glowplug starting aid
3000 meter altitude operation
capability w/o de-rating
Engine driven, viscous clutch fan
Aluminium bar plate cooling system
(radiator, powertrain, aftercooler)
Steel tube-fin differential steer oil
cooler
Air cleaner with integrated pre-cleaner,
dust ejector and under hood
air intake
Electrical lift/priming pump
Engine decelerating function (toggle
switch & pedal engine speed control)
3 speed planetary, powershift
transmission with torque converter
System MVP: Multiple speed functionality
providing 5 discrete ground speed
selections and electronic control
enhancements for the transmission/
engine system
Controlled throttle shifting with
automatic load compensation
Automatic down-shift and kick-down
transmission control
Programmable/selectable Bi-Directional
shifting
Differential steering
Engine Idle Shutdown
Auto Engine Speed Control

UNDERCARRIAGE

SystemOne Undercarriage

Center tread idler
Lifetime lubricated track rollers
(7 XL & 8 LGP) and idlers
Carrier rollers
Tracks 40 section-610mm (24")
Extreme Service (ES) for XL
Tracks 46 section-840mm (33")
Moderate Service (MS) for LGP
Hydraulic track adjusters
Center Track Guiding guard(LGP only)

HYDRAULICS

Three valve-hydraulics for VPAT dozer
Load sensing hydraulics

ELECTRICAL

Horn
Back-up alarm
12V converter, 10A
Diagnostic connector
950CCA class 31 batteries
Integrated lights (4 front, 2 rear)
105 AMP HD brushless alternator
(24 volt)
24V electric starter

OPERATOR ENVIRONMENT

ROPS/FOPS Cab
Integrated A/C with automatic
temperature control
Seat, air suspension, cloth for cab
Seat belt, retractable 76 mm (3 inch)
Adjustable armrests
Foot rests for slope work
Five gauge cluster (engine coolant,
transmission oil, hydraulic oil, fuel
level, and engine RPM display/gear
display)
Electronically programmable gear
selector
Electronic engine air cleaner service
indicator
Electronic water-in-fuel sensor service
indicator
Electro-hydraulic implement and
differential steering controls
Product Link ready GSM or Satellite
One 12V power ports
Intermittent wiper
12V radio ready (plug and play)
Storage compartment
Cup holder
Coat Hook
Rear view mirror

FLUIDS

Antifreeze coolant (-37 degrees Celsius/
-34.6 degrees Fahrenheit).
Extended life coolant
CAT HYDO Advanced 10 hydraulic fluid

OTHER STANDARD EQUIPMENT

C-Frame, cylinders (VPAT) and lines
Extended service intervals (500 hrs
engine, 1000 hrs powertrain)
Crankcase guard
Ecology drains (engine oil, engine
coolant, powertrain case, hydraulic)
Adjustable pitch link (VPAT)
Engine Enclosures, perforated
Scheduled Oil Sampling ports (engine,
powertrain, hydraulics and engine
coolant)
Coolant sampling port
Centralized remote mounted pressure taps
Implement oil filter
Front pull device
Hinged radiator louvered grill
Lockable engine enclosures
Rigid drawbar

-----	------------	----------------------	--------------------	---------------------------

UNDERCARRIAGE

SystemOne can be used in most of the HD sealed and lubricated applications.

Center tread idlers now run on the bushings instead of the links, eliminating link scalloping, substantially increasing links life, O&O costs are significantly reduced by elimination of bushing turns and increased components wear life.

Due to the potential increase in undercarriage life resulting from SystemOne, Extreme Service (ES) shoes should be considered for applications that are anticipated to be shoe-life limited in order to match shoe life with link life.

Customers should carefully select between SystemOne and Heavy Duty undercarriage based on expected application. For attachment guiding / guarding (for SystemOne and Heavy Duty configurations), see the Track Guiding Guard Arrangements section.

It is recommended the machines use Heavy Duty undercarriage in high debris packing applications.

XL Undercarriage

L	384-7400	UNDERCARRIAGE, XL SYSTEMONE	6,834	NC

TECHNOLOGY PRODUCTS (CONT.)***Accugrade Control*****ACCUGRADE CONTROL SYSTEM ORDERING**

(1) Ordering **INSTALLATION**, ARO allows the machine to be equipped with an AccuGrade GNSS (GPS and GLONASS satellite constellations), Laser or UTS Grade Control System Electronics Kit.

(2) An AccuGrade Electronics Kit (GNSS, Laser, or UTS) must be ordered separately and additional to the machine.

(3) The purchase of a AccuGrade Software Enabled Attachment (SEA) premium configuration is required for those configurations requiring automatic blade control and must be ordered separately and additional to the machine and the AccuGrade Electronics Kit.

(4) Site infrastructure is also necessary to operate the AccuGrade System. For example, GNSS systems require a GNSS base station. Laser systems require a laser transmitter. UTS requires a Universal Total Station.

Please consult the ACCUTTT1 price list for ordering instructions for electronics kits, AccuGrade SEA and site infrastructure.

L	370-1934	NO ARO INSTALLATION, SU 18 FOR USE IN LANE 3 ONLY The machine is NOT AccuGrade ready if this reference is ordered. REQUIRES: Bulldozer Pkg SU CANNOT BE USED WITH: Forestry Protection Pkg Waste Handling Pkg		NC

POWERTRAIN (CONT.)**FINAL DRIVE ARRANGEMENTS (Must Select One) (Cont.)****XL VPAT FINAL DRIVES**

L	378-3833	FINAL DRIVE, XL VPAT 0		NC
		Includes two basic final drives.		
		CANNOT BE USED WITH: Waste handling arrangement		

ENGINE ARRANGEMENT (Must Select One)

All Engines are C9.3 ACERT Diesel Engines EPA/ARB Tier 4 Interim and EU Stage IIIB Certified with Aftertreatment.

L	378-3881	ENGINE, BASIC 0		NC
L	378-3883	ENGINE, THERMAL SHIELD 0		\$10,300
		FOR USE IN LANE 3 ONLY		
		Provides heat resistant covering for the machine exhaust system,		
		Clean Emissions Module and turbo.		
		For use in high debris applications.		
		Included in: Waste Handling Arrangement		

ENGINE AIR PRECLEANERS (Must Select One)

L	378-3889	PRECLEANER, BASIC 0		NC
L	378-3891	PRECLEANER, TURBINE W/SCREEN 0		\$1,680
		FOR USE IN LANE 3 ONLY		
		Includes screen. OPTIMAX dual-stage precleaner powered by		
		engine's intake and exhaust air flows. For use in heavy debris		
		applications may improve filter life.		
		Included in: Waste Handling Arrangement		

OIL CHANGE SYSTEM (Must Select One)

L	378-3899	OIL DRAIN, BASIC 0		NC
L	378-3901	OIL CHANGE, HIGH SPEED 0		\$825
		For fast engine & powertrain oil change. Provides the capability to		
		change engine & powertrain oil using Wiggins connectors.

UNDERCARRIAGE

Customers should carefully select between SystemOne and Heavy Duty undercarriage based on expected application. Please refer to the Undercarriage Selection and Application Guide.

SystemOne Undercarriage is recommended for use in applications where moderate to high abrasive underfoot conditions exist.

Due to the potential increase in undercarriage life resulting from SystemOne, Extreme Service (ES) shoes should be considered for applications that are anticipated to be shoe-life limited in order to match shoe life with link life.

Track guide guards provide improved protection to track, roller and end guides. Partial guide guards are recommended in applications with sideslopes greater than 4:1 but less than 2:1 and/or applications with objects between 1" and 3" in size. Full length guide guards are recommended for applications with sideslopes greater than 2:1, and/or applications with objects exceeding 3" in size.

Based on the Undercarriage Application Guide, some applications will require quad-track. To fulfill this need, a quad-track attachment is available that provides track shoes pre-drilled for installation of the additional track link assembly at the dealership or customer location.

XL UNDERCARRIAGE ARRANGEMENTS (Must Select One)

L	378-3769	UNDERCARRIAGE, S1, PART GUIDE 0	NC

OPERATOR ENVIRONMENT**OPERATOR STATION (Must Select One)**

L	378-3910	CAB 0 Includes cloth air suspension seat.		NC
L	378-3913	CAB, 40 PSI, GLASS 0 FOR USE IN LANE 3 ONLY Provides glass for cab designed to withstand external pressures of up to 40 PSI.		\$35,050
L	378-3914	CAB, ENHANCED, DUAL PANE GLASS 0 FOR USE IN LANE 3 ONLY Enhanced cab provides higher cab pressurization for improved cab air quality in dusty applications. Includes a power precleaner & dual pane glass and high efficiency filter which reduces system maintenance intervals. Required by: Waste handling arrangement.		\$5,810
L	378-3911	CANOPY, NO SWEEPS 0 FOR USE IN LANE 3 ONLY Provides open-air operator station with ROPS/FOPS canopy. Includes vinyl suspension seat. CANNOT BE USED WITH: SWEEPS or Waste Handling Arrangement		\$-3,915
L	378-3912	CANOPY, SWEEPS READY 0 FOR USE IN LANE 3 ONLY Provides open-air operator station with ROPS/FOPS canopy. Includes vinyl suspension seat. REQUIRES: SWEEPS CANNOT BE USED WITH: Waste Handling Arrangement		\$-3,915

AIR CONDITIONING (Must Select One)

L	378-7887	AIR CONDITIONER, ROPS 0 Provides ROPS mounted air conditioning condenser core and fans. Prevents early plugging of air conditioning condenser core in debris laden environments such as waste handling sites. Mounts to rear of ROPS, does not increase machine shipping height. Included in: Waste Handling Arrangement RECOMMENDED FOR HIGH AMBIENT APPLICATIONS		\$3,545
L	378-7886	AIR CONDITIONER, UNDERHOOD 0 FOR USE IN LANE 3 ONLY		NC
L	378-7888	NO AIR CONDITIONER, CANOPY 0 FOR USE IN LANE 3 ONLY		NC

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	----------------------	--------------------	--------------------------

OPERATOR ENVIRONMENT (CONT.)**CONSOLE COVER (Must Select One)**

L	378-3765	COVER, CONSOLE, NO REAR 0		NC
		FOR USE WITH: No Rear Hydraulics		
L	378-3766	COVER, CONSOLE, RIPPER 0		NC
		FOR USE WITH: Ripper hydraulics		
L	378-3767	COVER, CONSOLE, WINCH & RIPPER 0		NC
		FOR USE WITH: Winch or winch/ripper hydraulics		
L	378-3876	NO CONSOLE COVER 0		NC
		FOR USE IN LANE 3 ONLY		
		FOR USE WITH: Canopy and any hydraulics		

TECHNOLOGY PRODUCTS**MACHINE CONTROL OPTIONS (Must Select One)**

The standard D6T tractor contains internal wiring basic dash mounting structure for AccuGrade installation.

To complete the requirement for AccuGrade ready machines, you must order the AccuGrade Ready attachment. AccuGrade Blade mounts are standard on all VPAT blades. For Non-VPAT machines, ARO blades are required.

L	378-3843	NON-ACCUGRADE. 0		NC
L	378-3865	NON-ACCUGRADE, VPAT 0		NC
L	430-4589	ACCUGRADE, UNDERHOOD AC 0		\$5,350
		Includes brackets and hardware for the complete installation of the AccuGrade system components including the PM400 module.		
		Supports blade-mounted dual GPS receivers for fully automated blade control.		
		Must be ordered detached.		
		FOR USE WITH: Air Conditioner, Underhood and ARO Blade		
L	430-4590	ACCUGRADE, VPAT, UNDERHOOD AC 0		\$5,350
		Includes brackets and hardware for the complete installation of the AccuGrade system components including the PM400 module.		
		Supports blade-mounted dual GPS receivers for fully automated blade control.		
		Must be ordered detached.		
		FOR USE WITH: Air Conditioner, Underhood and ARO Blade.		
L	416-7431	ACCUGRADE READY, A/C 0		\$5,350
		Includes brackets and hardware for the complete installation of the AccuGrade system components including the PM400 module.		
		Supports blade-mounted dual GPS receivers for fully automated blade control.		
		Must be ordered detached.		
		FOR USE WITH: Air Conditioner, ROPS and ARO Blade.

TECHNOLOGY PRODUCTS (CONT.)**MACHINE CONTROL OPTIONS (Must Select One) (Cont.)**

L	416-7432	ACCUGRADE READY, A/C, VPAT 0		\$5,350
		Includes brackets and hardware for the complete installation of the AccuGrade system components including the PM400 module. Supports blade-mounted dual GPS receivers for fully automated blade control. Must be ordered detached. FOR USE WITH: Air Conditioner, ROPS and ARO Blade.		

PRODUCT LINK (Must Select One)

NOTE: Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	331-0023	PRODUCT LINK, CELLULAR PL522 0		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		
L	354-0704	PRODUCT LINK, SATELLITE PL321 7		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization, and condition. For use in areas with poor or no cellular coverage.		

SAFETY AND SECURITY**BACK-UP ALARM (Must Select One)**

L	378-3908	ALARM, BACKUP 0		NC
		Back-up alarm mounted to the bottom face of the fuel tank. CANNOT BE USED WITH: Strikerbar box		
L	378-3909	ALARM, BACKUP, GUARDED 0		\$237
		Back-up alarm mounted to the rear face of the fuel tank guard and guarded with metal plates and wire mesh guarding. REQUIRES: Fuel tank guard FOR USE WITH: Strikerbar box		

FUEL SYSTEMS**FUEL FILL SYSTEMS (Must Select One)**

L	333-3473	FUEL TANK, BASIC 0		NC
L	378-7900	FUEL SYSTEMS, FAST FILL 0		\$1,715
		This fast fuel system is designed to be compatible with the 4C-6716 fuel fill nozzle system. It may or may not be compatible with other fuel fill nozzle systems.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT FACTORY

GUARDS**ENGINE ENCLOSURES (Must Select One)**

L	324-5977	ENCLOSURE, ENGINE, BASIC	0	NC
L	378-7892	ENCLOSURE, ENGINE, DUCTED ALT FOR USE IN LANE 3 ONLY Included in: Waste Handling Arrangement FOR USE WITH: Ducted alternator	0	NC

BOTTOMS GUARDS (Must Select One)

L	218-1836	GUARD, BOTTOM Includes eyelet for attaching a clevis.	0	NC
L	378-7899	GUARD, BOTTOM, SEALED, HD Includes Heavy Duty and Sealed Bottom Guards. Included in: Waste Handling Arrangement REQUIRES: Hitch, Front or Towing Device, Pull-Hook	0	\$1,965

REAR SCREEN (Must Select One)

L	378-7945	NO REAR SCREEN	0	NC
L	378-7924	SCREEN, REAR Provides a protective screen covering the rear cab window. REQUIRES: lights, sweeps or lights, rear screen	0	\$1,230
L	378-7923	SCREEN, REAR, CANOPY Provides a protective screen covering the rear operator station.	0	\$1,230

OTHER ATTACHMENTS**FENDER GROUP (Must Select One)**

L	378-3837	FENDER, BASIC	0	NC
L	378-3839	FENDER, SEALED Includes seal group for use in high debris applications. REQUIRES: Guard, fuel tank	0	\$1,490
L	378-3840	FENDER, BASIC, VPAT	0	NC
L	378-3842	FENDER, SEALED, VPAT Includes seal group for use in high debris applications. REQUIRES: Guard, fuel tank	0	\$1,490

REAR ATTACHMENTS (Must Select One)

NOTE: RIPPER SHANKS MUST BE ORDERED SEPERATELY

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	----------------------	--------------------	--------------------------

OTHER ATTACHMENTS (CONT.)**REAR ATTACHMENTS (Must Select One) (Cont.)**

L	378-3836	6 RIPPER, MULTI-SHANK 0 No. 6 ripper, parallelogram. Can accomodate 3 teeth (not included). Rear mounted. Note: This ripper is not intended for normal ripping applications when installed on the LGP. It is intended for scarifying hard soil only when used with the LGP. REQUIRES: Hydraulics, Ripper or Hydraulics, Winch/Rip and tooth, ripper		\$21,680
L	371-0953	PA56 WINCH PACKAGE, STD SPEED 2,717 Electronically controlled, PTO driven. Powershift standard speed gears with freespool. Bare drum line speed 78' to 122' per minute. Capacity rating 89,800 lbs maximum Utilizes 1 inch diameter cable (not included). REQUIRES: Controls, Winch or Controls, Winch/Rip and Rear Screen.		\$47,150
L	371-0954	PA56 WINCH PACKAGE, SLOW SPEED 2,717 Electronically controlled, PTO driven. Powershift low speed gears with freespool. Bare drum line speed 35' to 55' per minute. Capacity rating 89,800 lbs maximum line pull. Utilizes 1 inch diameter cable (not included). REQUIRES: Controls, Winch or Controls, Winch/Rip and Rear Screen.		\$48,310
L	7G-8975	DRAWBAR, RIGID SHORT 236 FOR USE WITH: XL, XW and XL VPAT configurations		\$1,365
L	3W-6866	DRAWBAR, RIGID LONG 256		\$1,365
L	381-7850	NO REAR ATTACHMENT 0 This allows the selection of No Rear Attachment, however, the minimum of a drawbar as a retrieval device is recommended.		NC
L	256-6020	STRIKER BAR, REAR BOX 2,350 FOR USE IN LANE 3 ONLY Includes drawbar and storage area. Mounts to rear of machine and helps protect fenders and other sheet metal from debris carried by track. REQUIRED: Additional counterweights (minimum of 2) if ordered with waste undercarriage arrangement. FOR USE WITH: XL, XW and XL VPAT configurations		\$13,300
L	265-5211	STRIKER BAR, REAR BOX 2,180 FOR USE IN LANE 3 ONLY Includes drawbar and storage area. Mounts to rear of machine and helps protect fenders and other sheet metal from debris carried by track. REQUIRED: Additional counterweights (minumum of 2) if ordered with waste undercarriage arrangement. FOR USE WITH: XW VPAT, LGP and LGP VPAT configurations		\$13,380

GRAB HANDLES (Must Select One)

L	378-7895	HANDLES, BASIC 0 FOR USE WITH: XL, XW and LGP machines CANNOT BE USED WITH: Sweeps		NC
L	378-7896	HANDLES, HEAVY DUTY 0 Increased strength grab irons to resist damage caused by debris in landfill or other severe applications. FOR USE WITH: XL, XW and LGP machines CANNOT BE USED WITH: Sweeps		\$890

Blade dismounted for shipment. Recommended: 2 additional counterweight slabs when ordered with a counterweight. REQUIRES: Either a rear mounted counterweight, a ripper or a winch. FOR USE WITH: XW VPAT or LGP VPAT Machines		\$43,290
---	----------	---	--	-----------------

BULLDOZER LIFT CYLINDERS - For XL and XW machines

Non-VPAT bulldozer installation packages do NOT include a blade.
The Bulldozer and blade should be ordered not installed.
Bulldozers and blades are available on miscellaneous orders.

L	325-9756	CYLINDER, LIFT WITH LINES - RH 230		\$3,600
L	325-9752	CYLINDER, LIFT WITH LINES - LH 230		\$3,600

6SU XL BULLDOZER INSTALLATION PACKAGES

L	378-7903	6SU XL BULLDOZER 0 INCLUDES: Push arms, trunnions, tilt cylinder lines and tilt cylinder.		\$13,020 NI
L	378-7904	6SU XL BULLDOZER, GUARDED 0 Provides sleeves to protect cylinder lines in harsh applications. Includes push arms, trunnions, tilt cylinder lines and tilt cylinder.		\$13,950 NI

6SU XL BLADES

L	334-1748	BLADE, 6SU XL 0 Includes finish dozing cutting edges and end bits.		\$10,680 NI
L	369-3285	BLADE, 6SU XL ARO 0 Includes finish dozing cutting edges, end bits and left, right and center accugrade mounts.		\$11,010 NI
L	334-1714	BLADE, 6SU XL LANDFILL 0 FOR USE IN LANE 3 ONLY Includes TRASH RACK. Includes finish dozing cutting edges and end bits. Blade capacity for 6SU is 11.2m ³ /14.3 yd ³ . Increases dozing capacity on machines when working in lighter materials such as in landfills. Must be retrofitted with mounting plates when ordered with the Accugrade Ready, AC. See Special Instruction REHS7213 for information on retrofitting the mounting plates. Not compatible with sweeps.		\$14,870 NI

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

OPERATOR ENVIRONMENT (CONT.)***CAB SEATS (Must Select One)***

L	375-0188	SEAT, CLOTH, AIR SUSPENSION 0	NC
		Includes cloth seat with air suspension.	
L	375-0214	SEAT, CLOTH, HEATED, AIR SUSP 0	\$535
		Air suspension seat that also includes a heating element within the seat cushion to provide warmth when operating in cold environments.	

VISIBILITY ARRANGEMENTS (Must Select One)

L	322-5577	VISIBILITY AR, BASIC 0	NC
		Provides a rearview mirror mounted in the top, center Area inside the cab. Does not meet EU visibility requirements.	
L	375-0213	VISIBILITY AR, SINGLE CAMERA 0	\$3,980
		The camera system can be used to enhance the operator's visibility of his surroundings or to provide a better view of his work tool. This replaces the rearview mirror. Required by EU dealers	

REAR WINDOWS (Must Select One)

L	375-0196	WINDOW, REAR, SOLID 0	NC
L	375-0217	WINDOW, REAR SLIDING 0	\$1,070

TECHNOLOGY PRODUCTS***MACHINE CONTROL (Must Select One)***

The standard D7E tractor contains all of the basic dash mounting structures for both AccuGrade and CAES installations.

L	377-0113	CONTROL BASIC, SINGLE TILT 0	NC
		FOR USE WITH: Hydraulics, single tilt	
L	377-0114	CONTROL BASIC, DUAL TILT 0	\$3,350
		FOR USE WITH: Hydraulics, dual tilt	
L	377-0112	INSTALLATION, ACCUGRADE READY 0	\$5,450
		Compatible with Hydraulics, single tilt AND Hydraulics, dual tilt. Includes wiring harness with connectors for control box, data radio, and blade mounted sensors; mounting brackets for control box/display and data radio; implement joystick with Accugrade switches and pitch control (dual tilt only) and PM 400 power module to support blade mounted GPS, LASER, and UTS Accugrade systems for fully automated blade control. NOTE: D7E U/SU/S blades include left and right mast mount brackets only, factory installed. Single GPS, LASER and UTS systems ALSO REQUIRE center mast bracket. Order either 325-1502 (STD) OR 325-1503 (LGP) to have center bracket factory installed on D7E U/SU/S blades. FOR USE WITH: Basic or Stockpile Arrangements CANNOT BE USED WITH: 7A Bulldozer

TECHNOLOGY PRODUCTS (CONT.)***PRODUCT LINK (Must Select One)***

NOTE: Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	386-4214	PRODUCT LINK, SATELLITE PL321 0	NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization, and condition. For use in areas with poor or no cellular coverage.	
L	386-4213	PRODUCT LINK, CELLULAR PL522 0	NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.	

FUEL SYSTEMS***FUEL TANKS (Must Select One)***

L	381-7852	FUEL TANK 0	NC
		Tank with 109 gallon (408 liter) capacity.	
L	381-7851	TANK, FUEL, HIGH CAPACITY 0	\$1,010
		FOR USE IN LANE 3 ONLY Tank with 122 gallon (463 liter) capacity. Not recommended for machines with multi-shank rippers.	
L	381-7835	TANK, FUEL, WASTE HANDLING 0	NC
		FOR USE IN LANE 3 ONLY Tank with 109 gallon (408 liter) capacity. Included in Waste Handling and Stockpile Arrangements CANNOT BE USED WITH: Basic Arrangement	

FUEL HEATER (Must Select One)

L	334-7807	FUEL GROUP, STANDARD 0	NC
L	377-0094	FUEL GROUP, HEATER 0	\$1,790
		FOR USE IN LANE 3 ONLY For cold weather applications. Prevents fuel filter waxing/restriction and extends the life of the fuel system components. Warms the fuel from the fuel tank to the primary fuel filter/water separator. Does not use engine coolant as the heat source.	

FUEL SYSTEM (Must Select One)

L	386-1425	FUEL FILL, BASIC 0	NC
L	377-0149	FUEL SYSTEM, FAST FILL 0	\$2,885
		This fast fuel system is designed to be compatible with the 4C-6716 fuel fill nozzle system. It may or may not be compatible with other fuel fill nozzle systems. It is recommended that Dealers determine what fill systems are used by their customers.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions, please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your LANE 1 machine order must at least contain:

- 1) The Distribution Center Arrangement (DCA)
- 2) Lane 1 Mandatory Attachments:
 - Lane 1 Order
 - YOM plate(if applicable)
 - Packing
- 3) Lane 1 Finish to Order Attachments:
 - Bulldozer Package / Blade (except ADSD-N dealers)
 - Manuals/ Certificates

NOTE: All ADSD-N Dealers must order D8T Bulldozer and Blade from The East Peoria Pricelist as miscellaneous orders. See the East Peoria D8T Pricelist for the complete listing of D8T Bulldozer and Blade.

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane 1 Indicator and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

EAST PEORIA, ILLINOIS**Ship Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

POWERTRAIN

C15 ACERT diesel engine with EUI
(Electronic Unit Injection)
EPA/ARB Tier 4 Interim and EU Stage
IIIB Certified Engine with
aftertreatment
24-volt electric start
High performance single
plane cooling system
Aftercooler, air-to-air (ATAAC)
Air filter, with electronic service
indicator
Coolant, extended life
Fan, suction, hydraulically driven
Fuel priming pump, electric
Sound attenuated exhaust system
Parking brake, electronic
Precleaner, strata-tube dust ejector
Prescreener
Shift management
Automatic directional and downshift
Controlled-throttle, load-compensated
Enhanced Autoshift
Starting aid, automatic ether
Torque divider
Transmission, electronically-controlled
powershift, 3F/3R speed
Four planet, double-reduction
planetary final drives
Transmission control module, electronic
Turbocharger
Water separator

UNDERCARRIAGE

Rollers and idlers, lifetime lubricated
Sprocket rim segments, replaceable
Suspension-type undercarriage
8-roller tubular track roller frame
(Carrier roller ready)
Track adjusters, hydraulic
Track guide
24 inch (610 mm) PPR moderate service
grouser with sealed and lubricated
track (44 section)
Two-piece master links

HYDRAULICS

Hydraulics, independent steering and
work tool pumps
Hydraulics, electronically controlled,
load-sensing dozer lift and tilt
Electronically enabled quick drop valve

STARTERS, BATTERIES, & ALTERNATORS

Alternator, 150 amp

Batteries, heavy duty
Starting receptacle, auxiliary

ELECTRICAL

Alarm, back-up
Converter, 24V to 12V
Diagnostic connector
Horn, forward warning

OPERATOR ENVIRONMENT

Rops mounted air conditioner
Armrest, adjustable
Advisor operator interface
Electronic monitoring system
Diagnostic service information
Operator preferences
Cab, ROPS/FOPS, sound suppressed
Deactivation switch, hydraulic controls
Access\ egress lighting
with shutdown timer
Decelerator pedal
Governor switch, electronic
Heater and ventilation
Mirror, rearview
Radio-ready
Provision for wire passage in/out of cab
Interior LED courtesy lights
Seat, cloth, air-suspension
Seatbelt, retractable
Steering control, direction and speed
control thumb switches with recall
button
Wipers, two speed

OTHER STANDARD EQUIPMENT

CD ROM Parts Book
Engine enclosures
Equalizer bar, pinned
Front pull device
Guards, bottom hinged
HVAC box - corrosive resistant
Mounting, lift cylinders
Oil cooler, hydraulic
Product link ready
S.O.S. sampling ports
Steering, electronically controlled
power differential
Vandalism protection for fluid
compartments
Engine compartment service light
Six lights package

LIST PRICE
AT FACTORY

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

Please see the D8T BR Price List for existing stock of D8T in the Galveston Product Distribution Center sourced from Piracicaba, Brazil.

LANE 2 / LANE 3 FACTORY ARRANGEMENTS

379-0250	D8T TRACTOR - 3	0	\$708,710
0P-2292	D8T LANE 1 FTO - EAST PEORIA	0	NC
	Use as the top level reference number when ordering LANE 1 Bulldozer Attachments from the East Peoria PDC.		
0P-0787	D8T MISC MATL EAST PEORIA	0	NC
	Use this top level reference number when ordering miscellaneous material without ordering a machine.		

Please refer to the WT-TTT price list for additional not-installed work tools.

-----	------------	----------------------	--------------------	--------------------------

UNDERCARRIAGE (CONT.)***UNDERCARRIAGE ARRANGEMENTS (Must Select One)***

Customers should carefully select between Suspended Positive Pin Retention, Suspended SystemOne or Non-Suspended Positive Pin Retention undercarriage arrangement based on expected application. Please refer to the Undercarriage Selection and Application Guide.

SystemOne Undercarriage is recommended for use in moderate to high abrasion and low to moderate impact applications.

Due to the potential increase in undercarriage life resulting from SystemOne, Extreme Service (ES) or Super Extreme Service (SES) shoes should be considered for applications that are anticipated to be shoe-life limited in order to match shoe life with link life.

Non-Suspended undercarriage is recommended for use in low impact applications with extremely wet abrasive underfoot conditions, such as wet sand, where bogie and bogie pin wear is a concern and where the ride advantages of Suspended Undercarriage is not required.

UNDERCARRIAGE ARRANGEMENTS (Must Select One)**SUSPENDED, POSITIVE PIN RETENTION ARRANGEMENT**

L	379-0276	UNDERCARRIAGE, SUSPENDED BASIC	0	NC
		FOR USE WITH: PPR track		
L	379-0277	UNDERCARRIAGE, PPR, GUARDED	0	\$4,460
		FOR USE IN LANE 3 ONLY		
		Includes idler seal guard, pivot shaft seal guard and provisions for mounting front striker bars.		
		Required by: Waste Handling Arrangement		
		FOR USE WITH: PPR track		
L	379-0278	UNDERCARRIAGE, PPR, ARCTIC	0	\$1,085
		FOR USE IN LANE 3 ONLY		
		Includes Cold Weather Idlers, Rollers and Bogie Pins.		
		FOR USE WITH: PPR track		

SUSPENDED, SYSTEMONE ARRANGEMENT

L	379-0282	UNDERCARRIAGE, S1, CTI	0	\$30,480
		SystemOne undercarriage components. For use in applications where low to moderate impact and moderate to high abrasive underfoot conditions exist and longer undercarriage life is desired.		
		FOR USE WITH: SystemOne track group		
L	379-0283	UNDERCARRIAGE, S1, CONV IDLER	0	\$30,480
		FOR USE IN LANE 3 ONLY		
		SystemOne undercarriage components. For applications where low to moderate impact and moderate to high abrasive underfoot conditions exist, where soil packing is a concern and longer track, bushing and sprocket wear life is desired.		
		FOR USE WITH: SystemOne track group

TECHNOLOGY PRODUCTS**MACHINE CONTROL (Must Select One)**

The standard D8T tractor contains all of the basic dash mounting structure for both AccuGrade and CAES installations.

L	379-0268	CONTROL, BASIC, SINGLE TILT 0	NC
		FOR USE WITH: Single tilt hydraulics	
L	379-0269	CONTROL, BASIC, DUAL TILT 0	\$1,030
		FOR USE WITH: Dual tilt hydraulics	
L	379-0271	ACCUGRADE READY, SINGLE TILT 0	\$5,560
		Includes brackets and hardware for the complete installation of the plug and play AccuGrade system components. Supports both blade-mounted dual GPS receiver systems or cab-mounted GPS receiver systems. Includes brackets for grade control masts on the left and right side of the blade. Must be ordered detached.	
		FOR USE WITH: Single Tilt Hydraulics	
L	379-0272	ACCUGRADE READY, DUAL TILT 0	\$5,560
		Includes brackets and hardware for the complete installation of the plug and play AccuGrade system components. Supports both blade-mounted dual GPS receiver systems or cab-mounted GPS receiver systems. Includes brackets for grade control masts on the left and right side of the blade. Must be ordered detached.	
		FOR USE WITH: Dual Tilt Hydraulics	
L	442-1008	CAT GRADE CONTROL 0	\$47,390
		Cat Grade Control is a chassis mounted, automatic, integrated blade positioning system that moves blade mounted components to the top of the cab and eliminates the need for a receiver/antennae, masts and cables. It includes a CB460 Accugrade display, factory enabled SEA and dual roof mounted GNSS receivers. To be functional, it will require an "off-board" radio network and GPS base station, and on-board data radios (Reference the ACCUTT1 Price List for ordering instructions and pricing.) Must be ordered detached.	
		Includes: Autocarry/Auto ripper control and Auto-Blade Assist	
		Recommended: Dual tilt (Dual tilt is required to use Auto-Blade Assist)	
		REQUIRES: Cylinder Lift, Cat Grade Control	

PRODUCT LINK (Must Select One)

NOTE: Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	334-3576	PRODUCT LINK, SATELLITE PL321 0	NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization, and condition. For use in areas with poor or no cellular coverage.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

To be complete, your LANE 1 machine order must at least contain:

- 1) The Distribution Center Arrangement (DCA)
- 2) Lane 1 Mandatory Attachments:
- 3) Lane 1 Finish to Order Attachments:

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane 1 Indicator and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

If no reference number is listed, a Lane 1 configuration is not available.

LANE 2 / LANE 3 FACTORY ARRANGEMENTS

379-0250	D8T TRACTOR - 3	0	\$708,710
----------	-----------------------	---	-----------

0P-2811	MISCL. SHIPPING MATERIAL	0	NC
---------	--------------------------------	---	----

Use this top level reference when ordering miscellaneous material without ordering a machine.

Rear counterweight is strongly recommended for optimum tractor balance aif ripper or winch is not ordered.

Rigid drawbar is required if ripper, winch or rear counterweight is not ordered on this machine.

Please refer to the WT-TTT price list for additional not-installed work tools.

L	386-7001	WASTE HANDLING ARRANGEMENT 0 \$5,910 FOR USE IN LANE 3 ONLY Basic Waste Handling Arrangement Includes chassis guards, heavy duty handles, high debris seal group, and remote disconnect Required attachments: 379-0261 OR 379-0263 ENGINE, THERMAL SHIELD 384-4604 OR 384-4608 FINAL DRIVE, GUARDED 379-0277 OR 379-0281 UNDERCARRIAGE, SUSPEND or NON SUSPEND, GUARDED 437-7240 PRECLEANER, WITH SCREEN 384-4447 ALTERNATOR, 150AMP, DUCTED 384-6494 OR 385-0263 LIGHTS, PREMIUM WITH OR WITHOUT SCREEN 350-0217 RADIATOR, 6.35 FPI, DEBRIS 386-7008 OR 383-8241 BOTTOM GUARDS, SEALED 339-3077 GUARD, FUEL TANK 380-2386 OR 380-2387 FAN, REVERSING, SINGLE OR DUAL TILT 385-2600, 385-2601, 385-2596 OR 385-2597 GUARDED DOZER INSTALLATION 386-7007 OPERATOR AR, QUICK OPENING Recommended Options: 382-9560 CAB, ENHANCED, CLEAN 379-0265 HYDRAULICS, RIPPER 209-5100 STRIKER BAR BOX OR 379-0236 MS RIPPER W/ STRIKER BARS 241-3811 OR 265-6970 FRONT STRIKER BARS 384-8833 LIGHT, WARNING STROBE TRAPEZOIDAL, PPR TRACK LANDFILL BLADE		
L	386-7004	STOCKPILE ARRANGEMENT 0 \$15,390 FOR USE IN LANE 3 ONLY Stockpile Arrangement Includes: High debris seal group, perforated hood with raised solid cover, cooling package blast grid and quick opening radiator grill. Required attachments: 379-0261 OR 379-0263 ENGINE, THERMAL SHIELD 437-7240 PRECLEANER, WITH SCREEN 384-4447 ALTERNATOR, 150AMP, DUCTED 384-6494 OR 385-0263 LIGHTS, PREMIUM, WITH OR WITHOUT SCREEN 350-0217 RADIATOR, 6.35 FPI, DEBRIS 383-8242 BOTTOM GUARDS, PARTIAL 386-0488 OR 386-0489 FAN, REVERSING, SINGLE OR DUAL TILT 386-7007 OPERATOR AR, QUICK OPENING 385-4730, 385-4731 OR 385-4713 CARRIER ROLLERS Recommended options: 217-3648 COUNTERWEIGHT, REAR 382-9560 CAB, ENHANCED, CLEAN OR 382-9561 CAB, ENHANCED, CLEAN, 40 386-0489 DUAL TILT, REVERSING FAN TRAPEZOIDAL, PPR TRACK WOODCHIP OR COAL BLADE FROM CAT WORK TOOLS		

POWERTRAIN***RADIATOR ARRANGEMENT (Must Select One)***

L	350-0216	RADIATOR, 8.5 FPI 0 NC High performance aluminum bar plate radiator with 8.5 fins per inch spacing		
---	----------	---	--	--

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

POWERTRAIN (CONT.)***RADIATOR ARRANGEMENT (Must Select One) (Cont.)***

L	350-0217	RADIATOR, 6.35 FPI, DEBRIS 0 FOR USE WITH LANE 3 ONLY High performance aluminum bar plate radiator with 6.35 fins per inch spacing for use in high debris applications. REQUIRED BY: Waste Arrangement, Stockpile Arrangement and REQUIRES: reversing fan.		\$2,240
---	----------	--	--	----------------

FINAL DRIVE ARRANGEMENTS (Must Select One)

L	384-4602	FINAL DRIVE, STANDARD 0 Includes two standard final drives.		NC
L	384-4606	FINAL DRIVE, LGP 0 FOR USE IN LANE 3 ONLY Includes two LGP final drives.		NC
L	384-4604	FINAL DRIVE, STANDARD, GUARDED 0 FOR USE IN LANE 3 ONLY Includes two final drives with double kevlar final drive seal guards for applications where protection from abrasive or winding material is needed. Also includes cast clamshell guards that protect the seal from damage due to winding material. FOR USE WITH: Waste handling arrangement		\$15,500
L	384-4603	FINAL DRIVE, STANDARD, ARCTIC 0 FOR USE IN LANE 3 ONLY Includes two standard final drives with low temperature final drive seals designed to optimize performance in cold weather applications.		\$6,380
L	384-4608	FINAL DRIVE, LGP, GUARDED 0 FOR USE IN LANE 3 ONLY Includes two LGP final drives designed to optimize performance in waste handling applications. Includes clamshell guards. FOR USE WITH: Waste Handling Arrangement LGP Arrangement		\$15,500

ENGINE ARRANGEMENT (Must Select One)

All Engines are C15 ACERT diesel engines with EUI (Electronic Unit
EUI (Electronic Unit Injection), EPA/ARB Tier 4 Interim
and EU Stage IIIB Certified with Aftertreatment

L	379-0260	ENGINE, BASIC 0		NC
L	379-0261	ENGINE, THERMAL SHIELD 0 FOR USE IN LANE 3 ONLY FOR USE WITH: Waste handling and stockpile arrangements.		\$12,510

ENGINE AIR PRECLEANERS (Must Select One)

L	384-4450	PRECLEANER, STANDARD 0		NC
---	----------	-------------------------------------	--	-----------

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

POWERTRAIN (CONT.)**ENGINE AIR PRECLEANERS (Must Select One) (Cont.)**

L	437-7240	PRECLEANER, WITH SCREEN 0 FOR USE IN LANE 3 ONLY Includes screen. For use in heavy debris applications. May improve filter life.		\$1,300
---	----------	---	--	---------

BRAKE ARRANGEMENT (Must Select One)

L	384-4605	BRAKES, BASIC 0		NC
L	385-1123	BRAKES, EXTREME SERVICE 190 FOR USE IN LANE 3 ONLY		\$1,815

OIL CHANGE SYSTEM (Must Select One)

L	380-2384	OIL DRAIN, STANDARD 0		NC
L	388-1705	OIL CHANGE SYSTEM, HIGH SPEED 0		\$820

UNDERCARRIAGE**GAUGE ARRANGEMENTS (Must Select One)**

L	386-1802	FRAME, STANDARD 0 Provides standard gauge D8T compatible with 24", 26" or 28" track.		NC
L	385-8664	FRAME, LGP 0 FOR USE IN LANE 3 ONLY Provides wide gauge D8T compatible with 38" mm track. Enables the machine to achieve 8.1 psi when equipped with a rigid drawbar, 8.6 psi when equipped with winch. FOR USE WITH: LGP Attachments CANNOT BE USED WITH: Ripper or SystemOne Undercarriage		\$20,440
L	390-9840	FRAME, POWERED BOTTOM GRD 0 FOR USE IN LANE 3 ONLY Provides standard gauge D8T compatible with 24", 26" or 28" track. FOR USE WITH: Bottom guards, sealed and powered CANNOT BE USED WITH: Stockpile arrangement		NC
L	390-9841	FRAME, LGP, POWERED BOTTOM GRD 0 FOR USE IN LANE 3 ONLY Provides wide gauge D8T compatible with 38" mm track. Enables the machine to achieve 8.1 psi when equipped with a rigid drawbar, 8.6 psi when equipped with winch. FOR USE WITH: Bottom guards, sealed and powered and LGP arrangements CANNOT BE USED WITH: Ripper, systemone, or stockpile arrangement		\$20,440

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------------	--------------------	---------------------------

UNDERCARRIAGE (CONT.)***UNDERCARRIAGE ARRANGEMENTS (Must Select One)***

Customers should carefully select between Suspended Positive Pin Retention, Suspended SystemOne or Non-Suspended Positive Pin Retention undercarriage arrangement based on expected application. Please refer to the Undercarriage Selection and Application Guide.

SystemOne Undercarriage is recommended for use in moderate to high abrasion and low to moderate impact applications.

Due to the potential increase in undercarriage life resulting from SystemOne, Extreme Service (ES) or Super Extreme Service (SES) shoes should be considered for applications that are anticipated to be shoe-life limited in order to match shoe life with link life.

Non-Suspended undercarriage is recommended for use in low impact applications with extremely wet abrasive underfoot conditions, such as wet sand, where bogie and bogie pin wear is a concern and where the ride advantages of Suspended Undercarriage is not required.

UNDERCARRIAGE ARRANGEMENTS (Must Select One)**SUSPENDED, POSITIVE PIN RETENTION ARRANGEMENT**

L	379-0276	UNDERCARRIAGE, SUSPENDED BASIC 0	NC
		CANNOT BE USED WITH: Waste Handling Arrangement	
		FOR USE WITH: PPR track	
L	379-0277	UNDERCARRIAGE, PPR, GUARDED 0	\$4,460
		FOR USE IN LANE 3 ONLY	
		Includes Guarded Idler, pivot shaft seal guard and provisions for mounting front striker bars.	
		Required by: Waste Handling Arrangement	
		FOR USE WITH: PPR track	
L	379-0278	UNDERCARRIAGE, PPR, ARCTIC 0	\$1,085
		CANNOT BE USED WITH: Waste Handling Arrangement	
		FOR USE IN LANE 3 ONLY	
		Includes Cold Weather Idlers, Rollers and Bogie Pins.	
		FOR USE WITH: PPR track	

SUSPENDED, SYSTEM ONE ARRANGEMENT

L	379-0282	UNDERCARRIAGE, S1, CTI 0	\$30,480
		SystemOne undercarriage components. For use in applications where low to moderate impact and moderate to high abrasive underfoot conditions exist and longer undercarriage life is desired.	
		FOR USE WITH: SystemOne track group	

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

UNDERCARRIAGE (CONT.)**UNDERCARRIAGE ARRANGEMENTS (Must Select One) (Cont.)**

L	379-0283	UNDERCARRIAGE, S1, CONV IDLER 0 FOR USE IN LANE 3 ONLY SystemOne undercarriage components. For applications where low to moderate impact and moderate to high abrasive underfoot conditions exist, where soil packing is a concern and longer track, bushing and sprocket wear life is desired. FOR USE WITH: SystemOne track group CANNOT BE USED WITH: Waste Handling Arrangement		\$30,480
L	379-0284	UNDERCARRIAGE, S1, CTI, ARCTIC 0 FOR USE IN LANE 3 ONLY SystemOne undercarriage components. For use in applications where low to moderate impact and moderate to high abrasive underfoot conditions exist and longer undercarriage life is desired. Includes Cold Weather Idlers and Rollers and Bogie Pins. Requires: SystemOne track group		\$31,570

NON-SUSPENDED POSITIVE PIN RETENTION ARRANGEMENT

L	379-0279	UNDERCARRIAGE, PPR, NON-SUSP 0 FOR USE IN LANE 3 ONLY Non-Suspended Undercarriage. For use in low impact applications with extremely wet abrasive underfoot conditions such as wet sand. FOR USE WITH: PPR Track and No Carrier Rollers CANNOT BE USED WITH: Waste Handling Arrangement		NC
L	379-0280	UNDERCARRIAGE, PPR, NON-SUSP 0 FOR USE IN LANE 3 ONLY Non-Suspended Undercarriage. For use in low impact applications with extremely wet abrasive underfoot conditions such as wet sand. FOR USE WITH: PPR Track and Carrier Rollers CANNOT BE USED WITH: Stockpile Arrangement, Waste Handling Arrangement		NC
L	379-0281	UNDERCARRIAGE, NON-SUS, GUARDED 0 FOR USE IN LANE 3 ONLY Non-Suspended Undercarriage. Includes guarded idler, guarded pivot shaft seal and provisions for mounting striker bars. For use in heavy debris applications such as waste. Includes provisions for mounting front striker bars. REQUIRED BY: Waste Arrangement FOR USE WITH: PPR Track and No Carrier Rollers CANNOT BE USED WITH: Stockpile Arrangement		\$4,460

PPR TRACK ARRANGMENTS (Must Select One)

HYDRAULICS (CONT.)***DOZER TILT AND FAN HYDRAULICS (Must Select One) (Cont.)***

L	386-0488	FAN, SINGLE TILT, REVERSE STOCK 0 FOR USE IN LANE 3 ONLY Auto reversing fan is controlled to change direction automatically to purge debris from radiator and enclosures. Switch in cab provides manual override control. REQUIRES: Radiator Debris, Fan Debris Guard and Stockpile Arrangement FOR USE WITH: Stockpile arrangement		\$3,855
L	386-0489	FAN, DUAL TILT, REVERSING, STOCK 0 FOR USE IN LANE 3 ONLY Auto reversing fan is controlled to change direction automatically to purge debris from radiator and enclosures. Switch in cab provides manual override control. REQUIRES: Radiator Debris, Fan Debris Guard and Stockpile Arrangement FOR USE WITH: Stockpile arrangement		\$9,160

REAR ATTACHMENT HYDRAULICS (Must Select One)

L	379-0264	NO REAR HYDRAULICS 0		NC
L	379-0265	HYDRAULICS, RIPPER 0 Includes, lines, ripper control valve and manifold.		\$4,880
L	379-0266	HYDRAULICS, WINCH 0 FOR USE IN LANE 3 ONLY Includes hydraulics and controls necessary to control the PA140VS winch.		\$10,130
L	379-0267	HYDRAULIC IMPLEMENT TOWING AR 0 FOR USE IN LANE 3 ONLY Provides three function rear hydraulics that allows the tractor to work with various hydraulically controlled towed such as a towed scraper. Includes quick disconnects for three guards for quick disconnects and hydraulic lines and controls. CANNOT BE USED WITH: Guard, fuel tank, or any rear attachment other than drawbar.		\$18,900

STARTERS, BATTERIES, & ALTERNATORS***BATTERIES (Must Select One)***

L	384-8305	BATTERIES, HEAVY DUTY 0 Maintenance free batteries (1000 CCA)		NC
L	386-3191	BATTERIES, ARCTIC 0 Provides batteries for -50F (-45C) applications.		\$347

ALTERNATORS (Must Select One)

L	384-4446	ALTERNATOR, 150AMP 0		NC
L	384-4447	ALTERNATOR, 150AMP, DUCTED 0 FOR USE IN LANE 3 ONLY		\$464

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

STARTERS, BATTERIES, & ALTERNATORS (CONT.)**STARTING AIDS- ENGINE HEATERS (Must Select One)**

L	385-0235	HEATER, ENGINE COOLANT (120V) 0 Provides a jacket water electrical heater to warm the engine. 120 volt external power source required.		NC
---	----------	---	--	----

ELECTRICAL**LIGHTING GROUPS (Must Select One)**

L	385-4754	LIGHTS, BASIC 0 Provides 6 halogen work lamps (2 on SIDE of dozer lift cylinders facing forward, 2 on ROPS facing forward, and 2 on fuel tank facing rearward). CANNOT BE USED WITH: Sweeps or Screen, rear		NC
L	384-6494	LIGHTS, PREMIUM 0 Provides 3 high-intensity discharge work lamps (2 on ROPS facing forward and 1 on fuel tank facing rearward) and 7 halogen work lamps (4 on TOP of dozer lift cylinders facing forward, 2 on ROPS facing rearward, 1 on fuel tank facing rearward). Designed to meet most shipping height requirements. Required BY Waste handling arrangements. CANNOT BE USED WITH: Sweeps or Screen, rear		\$1,590
L	385-0263	LIGHTS, PREMIUM, REAR SCREEN 0 Provides 3 high-intensity discharge work lamps (2 on ROPS facing forward and 1 on fuel tank facing rearward) and 7 halogen work lamps (4 on TOP of dozer lift cylinders facing forward, 2 on ROPS facing rearward, 1 on fuel tank facing rearward). Designed to meet most shipping height requirements. Required BY Waste handling arrangements. REQUIRES: Screen, rear CANNOT BE USED WITH: Sweeps		\$1,590
L	384-8314	LIGHTS, SWEEPS 0 FOR USE IN LANE 3 ONLY Provides 8 halogen work lamps (4 at the front of the sweeps facing forward, 2 near the ROPS facing forward, and 2 on the fuel tank facing rearward). REQUIRES: Sweeps CANNOT BE USED WITH: Screen, rear		\$680
L	385-0931	LIGHTS, SWEEPS, REAR SCREEN 0 FOR USE IN LANE 3 ONLY Provides 8 halogen work lamps (4 at the front of the sweeps facing forward, 2 near the ROPS facing forward, and 2 on the fuel tank facing rearward). REQUIRES: Sweeps and Screen, rear		\$680

OPERATOR ENVIRONMENT**CAB GLASS AND PRECLEANER OPTIONS (Must Select One)**

L	382-9559	CAB, SINGLE PANE GLASS 0 Includes a basic cab air precleaner, single pane solid rear window and slider side windows.		NC
---	----------	--	--	----

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OPERATOR ENVIRONMENT (CONT.)**CAB GLASS AND PRECLEANER OPTIONS (Must Select One) (Cont.)**

L	382-9560	CAB, ENHANCED DUAL PANE GLASS 0 FOR USE IN LANE 3 ONLY Includes solid dual pane windows. Provides higher cab pressurization for improved cab air quality in dusty applications. Includes a powered precleaner and high efficiency filter.		\$6,080
L	382-9561	CAB, ENHANCED, 40 PSI 0 FOR USE IN LANE 3 ONLY Includes solid windows to withstand external pressures up to 40 PSI. Provides higher cab pressurization for improved cab air quality in dusty applications. Includes a powered precleaner and high efficiency filter. For use in applications such as coal stockpiles.		\$32,970

CAB SEAT OPTIONS (Must Select One)

L	341-8561	SEAT, CLOTH, AIR SUSPENSION 0 Includes cloth seat with air suspension.		NC
L	374-7176	SEAT, HEATED & VENTILATED 0 Includes heated and ventilated cloth seat with air suspension.		\$1,950

CAB PLATFORM OPTIONS (Must Select One)

L	382-5438	OPERATORS AR, STANDARD 0 Standard operator controls and platform.		NC
L	386-7007	OPERATORS AR, QUICK OPENING 0 FOR USE IN LANE 3 ONLY Standard operator controls and platform with quick opening floor plates. Required with Waste and Stockpile arrangements		\$600

VISIBILITY ARRANGEMENT OPTIONS (Must Select One)

L	327-3492	VISIBILITY AR, BASIC 0 Provides a rearview mirror mounted to the top right area inside the cab. Includes mirror in the cab.		NC
L	379-0285	VISIBILITY AR, SINGLE CAMERA 0 Includes camera system and 3 mirrors (1 on each lift cylinder and 1 in the cab). to enhance the operators visibility of his surroundings. Includes a 7" color display mounted in the cab and a 115 degree camera mounted on the rear of the ROPS. Required by EU dealers.		\$4,560

TECHNOLOGY PRODUCTS**MACHINE CONTROL (Must Select One)**

Grade Control Ready. The standard D8T tractor contains all of the basic dash mounting structure for both AccuGrade and CAES installations.

-----	------------	----------------------	--------------------	---------------------------

TECHNOLOGY PRODUCTS (CONT.)**MACHINE CONTROL (Must Select One) (Cont.)**

L	379-0268	CONTROL, BASIC, SINGLE TILT 0 FOR USE WITH: Single tilt hydraulics		NC
L	379-0269	CONTROL, BASIC, DUAL TILT 0 FOR USE WITH: Dual tilt hydraulics		\$1,030
L	379-0271	ACCUGRADE READY, SINGLE TILT 0 Includes brackets and hardware for the complete installation of the plug and play AccuGrade system components. Supports both blade-mounted dual GPS receiver systems or cab-mounted GPS receiver systems. Includes brackets for grade control masts on the left and right side of the blade. Mast brackets will ship not installed. FOR USE WITH: Single Tilt Hydraulics		\$5,560
L	379-0272	ACCUGRADE READY, DUAL TILT 0 Includes brackets and hardware for the complete installation of the plug and play AccuGrade system components. Supports both blade-mounted dual GPS receiver systems or cab-mounted GPS receiver systems. Includes brackets for grade control masts on the left and right side of the blade. Mast brackets will ship not installed. FOR USE IN LANE 3 ONLY FOR USE WITH: Dual Tilt Hydraulics Please order this attachment as DETACHED		\$5,560

VIMS AND PRODUCT LINK (Must Select One)

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	334-3576	PRODUCT LINK, SATELLITE PL321 0 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage		NC
L	351-2351	PRODUCT LINK, CELLULAR PL522 0 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

FUEL SYSTEMS**FUEL FILL SYSTEM (Must Select One)**

L	387-2892	FUEL SYSTEM, STANDARD 0		NC
---	----------	--------------------------------------	--	----

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

FUEL SYSTEMS (CONT.)***FUEL FILL SYSTEM (Must Select One) (Cont.)***

L	380-2383	FUEL SYSTEM, FAST FILL 0 This fast fuel system is designed to be compatible with the 4C-6716 fuel fill nozzle system. It may or may not be compatible with other fuel fill nozzle systems.		\$2,255
---	----------	--	--	----------------

GUARDS***BOTTOM GUARDS (Must Select One)***

L	217-3603	BOTTOM GUARDS, STANDARD 0 Includes full set of 3 standard belly guards.		NC
L	383-8241	BOTTOM GUARDS, SEALED 0 FOR USE IN LANE 3 ONLY Includes Heavy Duty and Sealed Bottom Guards. FOR USE WITH: Waste Handling Arrangements		\$1,140
L	386-7008	BOTTOM GUARDS,SEALED & POWERED 0 FOR USE IN LANE 3 ONLY Includes Heavy Duty and Sealed Bottom Guards with electric lifting and lowering of the three bottom guards. REQUIRES: Standard or LGP frame, powered bottom grd FOR USE WITH: Waste Handling Arrangements		\$9,480
L	383-8242	BOTTOM GUARDS, PARTIAL 0 FOR USE IN LANE 3 ONLY Contains only the front bottom guard. REQUIRES: Stockpile Arrangement		\$-955
L	386-5923	BOTTOM GUARDS, FRONT CTWT 0 FOR USE IN LANE 3 ONLY Includes Heavy Duty and Sealed Bottom Guards and front counterweight.		\$14,520

Standard Equipment:

POWERTRAIN

Aftercooler, air-to-air
 Air filter, with precleaner
 Aluminum bar plate cooling system
 C18 with ACERT Technology
 24-volt electric start
 Controlled throttle shifting
 Coolant, extended life
 Directional shift management
 Engine idle shutdown timer
 Ether starting aid, automatic
 Fast fuel system
 Fuel priming pump, electric
 High speed oil change system,
 engine and powertrain
 Muffler
 Parking brake, electronic
 Prescreener
 Separator, water/fuel
 Three planet, double-reduction planetary
 final drives
 Torque converter
 Transmission, electronic control (ECPC),
 (3F/3R speeds)

UNDERCARRIAGE

Rollers and idlers, lifetime lubricated
 Sprocket rim segments, replaceable
 Suspension-type undercarriage
 Eight-roller tubular track roller frame
 Track adjusters, hydraulic
 Track guides
 Two-piece master link

ELECTRICAL

Alternator, 95-amp
 Back-up alarm
 Batteries (2), 12-volt, 200 amp-hour
 Converter, 12-volt, 10-amp and 20 amp
 Diagnostic connector
 Horn, forward warning
 Light, engine compartment
 Lighting system, Halogen
 Starting receptacle

OPERATOR ENVIRONMENT

Advisor-electronic monitoring system
 Air conditioner and heater
 Armrest, adjustable
 Cab, FOPS
 Deactivation switch, hydraulic controls
 Decelerator pedal
 Governor switch, electronic
 Hydraulic system, electronically
 controlled for bulldozer and

ripper control
 Mirror, rearview
 MP3/IPOD ready
 Radio ready, entertainment
 ROPS, rollbar
 Seat belt, retractable 76 mm (3 in)
 Wipers, intermittent low and high speeds

SAFETY AND SECURITY

Fender guard rails
 Heavy duty steps and handles
 Operator presence detection

OTHER STANDARD EQUIPMENT

CD ROM Parts Book
 Ecology drains
 Fluid sampling ports
 Grade Control Ready
 Ground level service center
 Vandalism protection (8 caplocks)

AT FACTORY

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

LANE 2 / LANE 3 FACTORY ARRANGEMENTS

363-3685	D9T TRACTOR, US 0	\$952,340
	For US Dealers Includes US EPA compliant engine and necessary attachments for sale into the US.	
0P-0799	D9T, MISC MATL, EAST PEORIA 0	NC
	Use this top level reference when ordering miscellaneous material without ordering a machine.	

Each machine will be shipped with a Parts Book on CD ROM. The CD will be shipped with the other D9T literature. If a paper copy is desired, please order through the dealer parts department.

TECHNOLOGY PRODUCTS (CONT.)***MACHINE CONTROL (Must Select One) (Cont.)***

For additional Dealer installed technology products please refer to the following publications within the Global Sales Library:

AEXQ0566 - Cat MineStar
 PEDJ0116 - Cat Fleet
 PEDJ0114 - Cat Health
 AEXQ0571 - Cat Terrain
 PEHJ0294 - AccuGrade Data Sheet

Pricing for Dealer installed technology products may be found in the following price lists:

MINESTAR - Cat MineStar Fleet and Health
 TERAOF - Terrain Office Software
 TERAGRADE - Terrain for Grading
 ACCUTTT1 - Accugrade

VIMS AND PRODUCT LINK (Must Select One)

NOTE: Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	369-3804	VIMS & CELL PROD LINK, 523 0	NC
		This single attachment supports activation of VIMS 3G and/or cellular Product Link. VIMS 3G provides historical trends, histograms, events and more through a wired connection for off-board analysis in applications including VIMS PC.	
		Cellular Product Link uses GSM cellular networks to transmit location, utilization, and condition information to Product Link's remote monitoring web interface. Cellular technology provides capabilities for frequent data transmission.	
		Not recommended for MineStar sites.	
L	369-3805	VIMS & SAT PROD LINK, PL321VSR 0	NC
		This single attachment supports activation of VIMS 3G and/or satellite Product Link. VIMS 3G provides historical trends, histograms, events and more through a wired connection for off-board analysis in applications including VIMS PC.	
		Satellite Product Link uses a satellite network to transmit location, utilization, and condition information to Product Link's remote monitoring web interface. For use in areas with poor or no cellular coverage.	

FUEL SYSTEMS***Fuel Lines (Must Select One)***

L	378-6880	FUEL LINES, STANDARD 0	NC
		Standard fuel lines without fuel heater.

AT FACTORY

Standard Equipment:

POWERTRAIN

Aftercooler, air-to-air
 Air filter, with precleaner
 Aluminum bar plate cooling system
 C18 with ACERT Technology
 24-volt electric start
 Controlled throttle shifting
 Coolant, extended life
 Directional shift management
 Engine idle shutdown timer
 Ether starting aid, automatic
 Fast fuel system
 Fuel priming pump, electric
 High speed oil change system,
 engine and powertrain
 Muffler
 Parking brake, electronic
 Parking brake, electronic
 Prescreener
 Separator, water/fuel
 Three planet, double-reduction planetary
 final drives
 Torque converter
 Transmission, electronic control (ECPC),
 (3F/3R speeds)

UNDERCARRIAGE

Rollers and idlers, lifetime lubricated
 Sprocket rim segments, replaceable
 Suspension-type undercarriage
 8-roller tubular track roller frame
 (Carrier roller ready)
 Track adjuster, hydraulic
 Track guides
 Two-piece master link

ELECTRICAL

Alternator, 150-amp
 Back-up alarm
 Batteries (2), 12-volt, 200 amp-hour
 Converter, 12-volt, 10-amp and 20 amp
 Diagnostic connector
 Horn, forward warning
 Light, engine compartment
 Lighting system, Halogen (Eight)
 Starting receptacle

OPERATOR ENVIRONMENT

Air conditioner, ROPS mounted
 Armrest, adjustable
 Cab, FOPS
 Deactivation switch, hydraulic controls
 Decelerator pedal
 Differential Steer, Power Turn
 Governor switch, electronic

Heater
 Hydraulic system, electronically
 controlled for bulldozer and
 ripper control
 Information Display
 Mirror, rearview
 MP3/IPOD ready
 Radio ready, entertainment
 ROPS, rollbar
 Wipers, intermittent low and high speeds

SAFETY AND SECURITY

Fender guard rails
 Operator not present detection
 Seatbelt, retractable, 3" (76mm)
 Seatbelt warning system
 Slope and side-slope monitor
 Steps, heavy-duty and handles

OTHER STANDARD EQUIPMENT

Auto-blade assist ready (for dual tilt)
 CD ROM parts book
 Ecology drains
 Engine enclosure
 Equalizer Bar Pins, Greased
 Fluid sampling ports
 Grade control ready
 Ground level service center
 Mounting, Lift Cylinders
 Product link ready
 Ripper hydraulics
 VIMS 3G
 Vandalism protection
 Work positioning points

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

If no reference number is listed, a Lane 1 configuration is not available.

LANE 2 / LANE 3 FACTORY ARRANGEMENTS

363-4395	D9T TRACTOR, US 0 Includes necessary attachments for sale into the US.	\$999,950
0P-0799	D9T, MISC MATL, EAST PEORIA 0 Use this top level reference when ordering miscellaneous material without ordering a machine.	NC

Each machine will be shipped with a Parts Book on CD ROM. The CD will be shipped with the other D9T literature. If a paper copy is desired, please order through the dealer parts department.

VIMS AND PRODUCT LINK (Must Select One)

NOTE: Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	450-3050	VIMS & CELL PROD LINK, 523 0 This single attachment supports activation of VIMS 3G and/or cellular Product Link. VIMS 3G provides historical trends, histograms, events and more through a wired connection for off-board analysis in applications including VIMS PC. Cellular Product Link uses GSM cellular networks to transmit location, utilization, and condition information to Product Link's remote monitoring web interface. Cellular technology provides capabilities for frequent data transmission. Not recommended for MineStar sites.		NC

Standard Equipment:

POWERTRAIN

Cat C4.4 Electronic Diesel Engine
 -Tier 3, Stage IIIa Emissions Compliant
 -Turbocharged
 Electric fuel pump
 SOS port, Engine oil
 SOS port, Transmission oil
 Hydrostatic transmission
 Single lever transmission control
 Lubed for life driveshaft
 Standard differentials
 Brakes, service
 - enclosed, wet-disc full hydraulic
 Brakes, parking
 - mechanical on drive-line
 Muffler
 Radiator, serviceable core
 Air cleaner, Radial seal
 Glow plug starting aid
 Suction Fan

HYDRAULICS

Automatic Lift kickouts
 Hydraulic steering
 Hydraulics, 3 Valve, High Flow (NACD)
 Hydraulics, 2 Valve, 1 Lever (EAME)
 Hydraulic diagnostic connectors
 SOS port, hydraulic oil

ELECTRICAL

80-ampere alternator
 Back-up alarm (USA/ Canada only), this item is optional for other countries
 Two 900 CCA maintenance free batteries
 Halogen flood lights (front & rear)
 Directional Signals (front & rear)
 24 volt direct electric starting
 Ignition key start/stop switch
 Switch, battery disconnect
 Horn, front warning

OPERATOR ENVIRONMENT

ROPS/FOPS cab, pressurized and sound suppressed
 Hydraulic control lever lockout
 Pilot hydraulic implement controls
 Gauges
 - Engine coolant temperature
 - Hydraulic oil temperature
 - Fuel level
 - Battery Voltage
 - Digital Hour meter
 Operator warning system indicators:
 - Primary steering malfunction
 - Brake charge pressure low

- Engine Oil pressure low
 - Park brake applied
 - Electrical system voltage low
 - Hystat oil filter bypass
 Interior light
 Door, fixed glass
 Seat
 - Fabric or Vinyl
 - adjustable height, backrest, armrest
 - Seat belt, retractable
 Heater/defroster
 Electric horn, steering wheel mounted
 Wiper/washer Front(intermittent)
 Wiper/washer Rear
 Tinted front glass
 Adjustable steering column
 Rear window defrost
 Rearview mirrors, outside(2)
 Cigar lighter
 Storage box with Cup holder
 Ground level door release
 Internal and External Auxiliary power sockets

FLUIDS

ANTIFREEZE
 Extended life coolant antifreeze
 Protected to -36C (-33F)

OTHER STANDARD EQUIPMENT

Parallel lift loader linkage with sealed pins
 Fenders, front and rear
 Engine enclosure - lockable
 Recovery hitch
 Vandalism protection - locked service points
 Automatic bucket/fork positioner
 Hydraulic oil cooler, tilttable
 Counterweight
 Pressure test points
 Radiator expansion bottle

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model 'GENERAL' posted in the web price lists.

You must order your machine from Lane 1, Lane 2 or Lane 3.

Your lane selection will determine the range of additional attachments you may order and the service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

TO COMPLETE A LANE 1 ORDER

your order must at least contain

- 1: Distribution Center Arrangement (DCA) See choices above.
- 2: 0P-9001 Lane 1 Order
- 3: Selection from each section of the 'LANE 1 MANDATORY' section
- 4: Packing references

		Heater/Front defroster		
L	367-5969	HEATER AND AIR CONDITIONER	0	\$4,430
		Heater/Front defroster and air conditioner.		

TIRES, RIMS, AND WHEELS

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to propose alternate tires. Any proposed change will be reviewed with the dealer prior to machine shipment. The machine will ship only with the dealer acceptance of the proposed alternative tire.

TIRES WITH ONE PIECE RIMS (QUANTITY = 4)

P	385-5820	TIRES, 15.5-25 12PR L2	1,439	\$-2,085
		Goodyear Product Code #123-894-458		
		SGL D/L-2A (Sure Grip Loader)		
		Nylon bias, tubeless, directional and self cleaning tread for floatation and traction.		
		Width over tire measurement = 2220mm (87")		
P	385-5821	TIRES, 17.5-25 12PR L2	1,511	\$-137
		Goodyear Product Code #123-897-458		
		SGL D/L-2A (Sure Grip Loader)		
		Nylon bias, directional tread, and self cleaning for traction in soft soil.		
		Width over tire measurement = 2275mm (90")		
P	385-5822	TIRES, 17.5-R25 XTLA * L2	1,789	\$1,220
		Michelin Product Code #04118		
		Radial, non-directional tread for traction.		
		Cut and impact resistant.		
		Width over tire measurement = 2300mm (91")		
P	385-5823	TIRES, 17.5-R25 XHA * L3	2,123	\$3,040
		Michelin Product Code #35052		
		Radial, wide lug, non-directional tread for lateral traction. Heavy shoulder and protected sidewall for heavy duty applications.		
		Width over tire measurement = 2290mm (90")		

TIRES WITH THREE PIECE RIMS (QUANTITY = 4)

P	385-5826	TIRES, 17.5-R25 * L2,3 PC RIM	2,090	\$5,000
		Michelin Product Code #04118		
		Radial, non-directional tread for traction and long/even tread wear in General applications.		
		Cut and impact resistant.		
		Width over tire measurement = 2300mm (91")

GUARDS**HYDRAULIC GUARDS**

Required when ordering a Canopy.

CANNOT BE USED WITH: 367-5885 Cab or 367-5886 Cab

NOTE: When ordering Third and Fourth valve, you MUST order
Third and Fourth Hose Guards.

L	116-4804	GUARD, HOSE	2	NC
		FOR USE WITH: 241-9259 HYDRAULICS, 3 VALVE,HIGH FLOW		
L	120-6857	GUARD, HOSE	2	NC
		FOR USE WITH: 241-9261 HYDRAULICS, 4 VALVE		

OTHER ATTACHMENTS**FENDERS**

L	107-4705	FENDERS, STANDARD	0	NC
		Provides standard front fenders.		
L	111-3750	FENDERS, ROADING	105	\$1,095
		Provides additional rear tire coverage. Recommended for roading applications.		

ENGINE ENCLOSURE

L	372-0389	ENCLOSURE, STANDARD	0	NC
		Provides standard hood with no additional sound suppression.		
L	372-0390	ENCLOSURE, SOUND SUPPRESSION	0	\$1,755
		Provides hood with additional sound suppression materials and sound suppressed grill. Required by: EU Dealers		

SOUND LEVEL LABELSNOTE: Required ONLY for machines to be sold in E.U. countries and with
enclosed cab.

L	216-4266	LABELS, SOUND (102 DB).	0	NC
		Includes operator and spectator sound level labels for use with		

NOTE: Required for CE Certification

DRAIN VALVES

L	239-2228	VALVE, DRAIN, STANDARD	0	NC
		Provides standard fuel and hydraulic drain plugs.		
L	239-2229	VALVE, DRAIN, ECOLOGY	1	\$91
		Provides Ecology drain tube for fuel and hydraulic tanks.

**M313D HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Engine:
Altitude capability: 3000m/9842 ft
Automatic engine speed control
Automatic starting aid
Power mode selector (economy and standard)

UNDERCARRIAGE

Creeper speed
Four wheel drive
Full hydraulic steering with emergency capability
Heavy-duty axles with advanced disc brake system and travel motor with adjustable braking force
Oscillating front axle, lockable, with remote greasing point
Steps, wide, left and right
Toolbox
Two-piece drive shaft
Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
Heavy lift mode
Oil cooler
Separate swing pump
Stick regeneration circuit
Variable displacement, load sensing hydraulic system
Adjustable Hydraulic Sensitivity

ELECTRICAL

Alternator, 75 Ampere
Lights:
Boom working light
Cab Interior
Roading lights (two front, two rear)
Halogen rear lights
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with 2006/42/EC and tested according ISO 12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel

wiper and washer
Coat hook
Floor mat, washable, with storage compartment
Instrument panel and gauges with full color graphical display
Interior lighting
Joysticks, pilot operated
Left side console, tiltable, with lock-out for all controls
Literature compartment behind seat
Literature holder in right hand cab panel
Mobile phone holder
Mounting provisions for radio and speakers
Parking brake
Positive filtered ventilation, variable speed
Power supply, 12V-7A
Rear window, emergency exit
Skylight
Sliding door windows
Steering column, tiltable
Storage compartment suitable for a lunch box
Sunshade for windshield and skylight

OTHER STANDARD EQUIPMENT

Automatic swing brake
Capability to add auxiliary hydraulic circuits
Caterpillar Datalink and Electronic Technician capability
Caterpillar Product Link ready
Door locks and cab locks with Caterpillar one-key security system
SOS quick sampling valves for engine oil, hydraulic oil and coolant

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)
If no reference number is listed a Lane 1 configuration is not available.

EU configs need to be combined with the following sections out of the mandatory sections:

- 0P9001 has to be selected
- Export packing
- Travel & Cooling Package
- Product link
- Security Systeme Machine (MSS)

These configs can be combined with the following sections out of the Finish to order sections:

- Certificate of conformity
- Preparation
- Alarm

LRC configs need to be combined with the following sections out of the mandatory sections:

- 0P9001 has to be selected
- Travel cooling Package
- Export Packing
- Bucket/tips
- Certificate of origin

LANE 2 / LANE 3 - FACTORY ARRANGEMENTS

427-9787 **M313D WHEEL EXCAVATOR** 0 **\$154,380**

CONSISTS OF:

- 3905044 M313D WHEEL EXCAVATOR
- 4262616 ENGINE TIER 3 / STAGE IIIA
- EU: EU Stage IIIA Flexibility Engine
- ADSD-N: EPA/ARB Flexibility Engine and
- Other territories : Non-current Tier3 or Stage IIIA emissions

FOR MISCELLANEOUS ORDERS, PLEASE USE :

0G-4166 **M313D MISC MATL GRENOBLE** 0 **NC**

CWTS quick couplers and buckets cannot be ordered with a MISC MATERIAL order at Grenoble.
Please order them directly at CWTS!

Must order HIGH PRESSURE AUXILIARY HYDRAULIC CIRCUIT STICK LINES to complete auxiliary circuit.

L	393-2061	LINES, 1PC INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$3,525
L	393-2062	LINES, VA INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$3,885
L	393-2063	LINES, OFFSET INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,325

SMART BOOM & RIDE CONTROL

INCLUDES: Boom lowering control device, and overload warning device, which signals a hydraulic overload with an acoustical warning in the cab.

The device Smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick in force.

The boom float attachment eases operations and increases operator comfort.

The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading.

SELECT ONE:**ARRANGEMENTS INCLUDING RIDE CONTROL**

L	393-2071	RIDE CONTROL, VA 0 Improves operator comfort by reducing machine bouncing when travelling NOTE: Smartboom not included. INCLUDES: Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom CANNOT BE USED WITH: Industrial Stick No stick		\$5,300

UNDERCARRIAGE (CONT.)***TIRES (Cont.)***

P	265-9260	TIRES, MITAS 10.00-20 DUAL 1,858 MITAS NB38, BIAS (DIAGONAL/CROSS PLY), PR16. Corresponding Spacer Rings: 60mm/2.36inch		\$1,030
P	253-1629	TIRES, NOKIAN 10.00-20 DUAL 1,858 NOKIAN ARMOR GARD, BIAS (DIAGONAL/CROSS PLY), PR16. Corresponding Spacer Rings: 60mm/2.36inch		\$13,910

DUAL TIRES (spacer rings to be ordered separately) LANE 3 ONLY

P	253-1630	TIRES,SOLID RUB.10.00-20 DUAL 3,719 FOR USE IN LANE 3 ONLY SOLID RUBBER Requires 20 kph travel speed Corresponding Spacer Rings: 68mm/2.67inch FOR USE WITH: LANE 3 ONLY		\$14,740
P	265-9270	TIRES, MITAS 11.00-20 DUAL 1,984 FOR USE IN LANE 3 ONLY MITAS NB38, BIAS (DIAGONAL/CROSS PLY), PR16. Corresponding Spacer Rings: 68mm/2.67inch FOR USE WITH: LANE 3 ONLY		\$2,205

SINGLE TIRES

P	304-9736	TIRES,MICH.18R19.5 XF SINGLE 1,349 MICHELIN XF, RADIAL Radial tire (single) with aggressive directional tread designed to deliver exceptional traction and performance.		\$6,480
---	----------	--	--	----------------

HYDRAULICS**SELECT ONE:*****NO AUXILIARY HYDRAULIC CONTROLS LANE 3 ONLY***

L	299-9227	NO CONTROL, MEDIUM PRESSURE 0 Mandatory if no auxiliary circuit is required. FOR USE WITH: 1PC Boom or VA Boom FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: Industrial stick Offset boom Quick coupler control Boom lines including Aux.High Pressure Circuit		NC
---	----------	---	--	-----------

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**MEDIUM PRESSURE AUXILIARY HYDRAULIC CONTROLS**

Must order boom and stick lines and couplings to
complete auxiliary circuit

L	431-6551	CONTROL, MEDIUM PRESS. FUNCTION 0		\$1,250
		Provides auxiliary medium pressure control circuit actuated with slider switch on left joystick REQUIRES: Boom and Stick Lines Groups FOR USE WITH: 1PC Boom and VA Boom CANNOT BE USED WITH: Offset Boom Boom lines including Aux.High Pressure Circuit		

HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS LANE 3 ONLY

Must order Stick Lines and Couplings
to complete auxiliary circuit

L	392-9599	CONTROL, HAMMER ONLY 0		\$2,595
		Provides auxiliary high pressure control circuit for one way tools such as hammers or compactors REQUIRES: Boom and Stick Lines Groups FOR USE WITH: 1PC Boom and VA Boom Boom lines including Aux.High Pressure Circuit Lane 3 only CANNOT BE USED WITH: Industrial stick, Offset boom, Quick coupler control		

COMBINED AUXILIARY HYDRAULIC CONTROLS

Must order boom and stick lines and couplings to
complete auxiliary circuit

L	392-9592	CTRL, COMBINED AUXILIARY 0		\$6,220
		Provides medium pressure control circuit and high pressure Toolcontrol circuit for operation of rotating/tilting, one/two way tools REQUIRES: Boom and Stick Lines Groups FOR USE WITH: 1PC Boom and VA Boom Boom lines including Aux.High Pressure Circuit CANNOT BE USED WITH: Industrial stick		
L	392-9593	CTRL, COMB. AUX. W/JOYST 0		\$8,280
		Provides medium pressure control circuit and high pressure Toolcontrol circuit for operation of rotating/tilting, one/two way tools INCLUDES: Control, Joystick Steering FOR USE WITH: 1PC Boom and VA Boom Boom lines including Aux.High Pressure Circuit CANNOT BE USED WITH: Industrial stick		

COMBINED AUXILIARY HYDRAULIC CONTROLS LANE 3 ONLY

Must order boom and stick lines and couplings to
complete auxiliary circuit

L	393-2070	CTRL, COMB. AUX. OFFSET 0		\$4,960
		REQUIRES: Boom and Stick Lines Groups FOR USE WITH: Offset Boom Boom lines including Aux.High Pressure Circuit LANE 3 ONLY		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet management effectiveness.

Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink™. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and productivity. Productivity plans require Payload information.

L	377-1853	PRODUCT LINK PL321SR 0	NC
		Using GPS technology	
		FOR USE WITH: Engine Tier 3 / EU stage III A	
L	375-0494	PRODUCT LINK PL522 0	NC
		Using GSM technology	
		FOR USE WITH: Engine Tier 3 / EU stage III A	
		Engine EU stage IIIA Compliant	
L	319-4492	NO PRODUCT LINK 0	NC
		For countries where Product Link is not certified for use,	
		Please contact your Cat marketing contact with questions.	
		FOR USE WITH: NO PRODUCT LINK Dealers	

OTHER ATTACHMENTS**HOODS****SELECT ONE:**

L	390-5087	HOOD, ENGINE 0	NC
		FOR USE WITH: ENGINE TIER 3 / STAGE IIIA	

COUNTERWEIGHT**SELECT ONE:**

L	267-1716	COUNTERWEIGHT, 6393 LBS 6,393	NC
		Standard Counterweight	
L	267-1717	COUNTERWEIGHT, 7575 LBS 7,275	\$1,480
		Heavy Counterweight	
		Recommended for use with: Offset boom and Blade only Undercarriage arrangements

SPECIAL ARRANGEMENTS***Special arrangement :ENGINE AFTERTREATMENT (AT)***

CONTROL, AT is Required with EU Stage IIIB emission package.

PATTERN CHANGER

L	254-0493	PATTERN CHANGER, HAND CONTROL 7		\$905
		Mechanical valve behind the cab, to change the boom control from the right to the left joystick and the stick control from the left to the right joystick and vice versa.		

CUSTOM PAINT

C	262-4657	DECALS, DETACHED 0		NC
		This arrangement provides CAT decals, nomenclature decals and red stripe on uppercarriage and front implements shipped loose inside the cab of the machine.		
		FOR USE WITH: LANE 3 ONLY		

UNDERCARRIAGE***UNDERCARRIAGE ATTACHMENTS***

P	365-7700	TRAVEL RESTRAINT, PIN-ON 0		\$755
			0	\$755 NI
		Provides clamping point or resting point for worktool.		
		FOR USE WITH: P4: UC Out. front/ Blade rear		
		P5: UC Out. front/ Out rear		
		P2: UC Blade rear		

SPACER RINGS

L	8U-6723	SPACER RINGS 247		\$495
		Provides one set of 60 mm/2.36 inch spacer rings mounted in between the dual tires, closing the space in order to keep dirt out		
		FOR USE WITH: Nokian 10.00-20		
		Mitas 10.00-20		
		CANNOT BE USED WITH: Single Tires		
L	8U-6725	SPACER RINGS 256		\$495
		Provides one set of 68 mm/2.67 inch spacer rings mounted in between the dual tires, closing the space in order to keep dirt out		
		FOR USE WITH: Solid Rubber 10.00-20		
		Mitas 11.00-20		
		CANNOT BE USED WITH: Single Tires		

FENDERS

P	291-6482	FENDERS, FRONT AND REAR 110		\$2,395
			110	\$2,395 NI
		One set of four fenders		

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

LINE GROUPS***MEDIUM PRESSURE AUXILIARY HYDRAULIC CIRCUIT BOOM LINES***

NOTE: Must also order MEDIUM PRESSURE
AUXILIARY HYDRAULIC STICK LINES to
complete auxiliary circuit.

MEDIUM PRESSURE FUNCTION LINES ONLY

L	254-2587	LINES, MPF 1PC BOOM	20	\$312
		CANNOT BE USED WITH: Lines ,MPF & QC, 1PC Boom		
L	254-2590	LINES, MPF VA BOOM	22	\$486
		CANNOT BE USED WITH: Lines ,MPF & QC, VA Boom		
L	254-2625	LINES, MPF OFFSET BOOM	18	\$990
		CANNOT BE USED WITH: Lines ,MPF & QC, Offset Boom		

MEDIUM PRESSURE FUNCTION & QUICK COUPLER CONTROL LINES

L	389-8835	LINES, MPF & QC, 1PC BOOM	0	\$745
		FOR USE WITH: CONTROL, QUICK COUPLER		
L	391-9665	LINES, MPF & QC, VA BOOM	0	\$950
		FOR USE WITH: CONTROL, QUICK COUPLER		
L	390-3689	LINES, MPF & QC, OFFSET BOOM	0	\$1,675
		FOR USE WITH: CONTROL, QUICK COUPLER		

MEDIUM PRESSURE AUXILIARY HYDRAULIC CIRCUIT STICK LINES**MEDIUM PRESSURE FUNCTION LINES ONLY**

NOTE: Must also order COUPLING, MPF to
complete auxiliary circuit.

L	254-2601	LINES, MPF, 6'7" STICK	13	\$510
		CANNOT BE USED WITH: Lines ,MPF & QC, Stick 2.0/ 6'7"		
L	254-2602	LINES, MPF, 7'7" STICK	15	\$545
		CANNOT BE USED WITH: Lines ,MPF & QC, Stick 2.3/ 7'7"

TECHNOLOGY PRODUCTS**MACHINE SECURITY SYSTEM**

L	290-8448	SECURITY SYSTEM, MACHINE 2 Advanced, programmable system to manage access to machine. Requires special Machine Security System keys. Machine shipped with system inactive but with two of these keys already programmed into system. Requires Caterpillar Service Tool Electronic Technician (ET) to activate and to program system for additional keys. Additional keys available through Parts Distribution.		NC
L	0P-2529	MACH.SECU.SYST.INSTALLATION 0 REQUIRES: Machine Security System & NON-EU dealers CANNOT BE USED WITH: EU dealers		\$1,200

GUARDS**LANE 3 ONLY**

L	370-5500	GUARD, FALLING OBJECTS 0 FOR USE IN LANE 3 ONLY Includes guards front, roof and lights working front/rear cab. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: GUARD, VANDALISM		\$4,635 NI
L	188-4940	GUARD, VANDALISM 55 FOR USE IN LANE 3 ONLY Foldable protection for the front windshield, stored on top of left undercarriage toolbox. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: Guard, Falling Objects	55	\$620 \$620 NI

OTHER ATTACHMENTS**LINE GROUPS COUPLINGS****COUPLING'S DIVERTER VALVES**

A coupling DV is required to complete
the diverter valve lines if machine is
equipped with a stick including Bucket Linkage

P	392-3970	COUPLING, STANDARD DV 0 CVV type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING, QUICK DISC DV		NC
P	392-3968	COUPLING, QUICK DISC DV 0 CVC type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING STANDARD DV		\$242

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OTHER ATTACHMENTS (CONT.)**LINE GROUPS COUPLINGS (Cont.)****COUPLING'S MEDIUM PRESSURE CIRCUIT**

A coupling medium pressure is required to complete the medium pressure circuit if the stick is equipped with Medium Pressure Function Lines

P	392-2938	COUPLING, STANDARD MPF 0 CVC type couplings FOR USE WITH: stick lines medium pressure(grapple rotate,bucket tilt) CANNOT BE USED WITH: COUPLING QUICK DISC MPF		NC
P	392-2932	COUPLING, QUICK DISC MPF 0 CVC type couplings FOR USE WITH: Stick lines medium pressure(grapple rotate,Bucket tilt) CANNOT BE USED WITH: COUPLING STANDARD MPF		\$335
P	176-6765	COUPLING, QUICK DISC MPF DC 2 Provides adapters (CVC type coupling to internal thread M22 x 1.5) for stick lines medium pressure, side (bucket tilt) FOR USE WITH: COUPLING, QUICK DISC MPF		\$328

COUPLING'S INDUSTRIAL STICK

A coupling IND Stick is required to complete the medium pressure circuit if the machine is equipped with Industrial Stick

P	416-7694	COUPLING, STANDARD, IND STICK 0 CVC type couplings FOR USE WITH: INDUSTRIAL / DROP NOSE STICK CANNOT BE USED WITH: COUPLING, QUICK DISC, IND STICK		NC
P	416-7693	COUPLING, QUICK DISC IND STICK 0 CVC type couplings FOR USE WITH: INDUSTRIAL / DROP NOSE STICK CANNOT BE USED WITH: COUPLING,STANDARD, IND STICK		\$335

COUPLING'S TOOL/HAMMER

A coupling Tool/Hammer is required to complete the high pressure auxiliary hydraulic circuit if the machine is equipped with High Pressure Auxiliary Circuit Stick Lines .

P	391-2641	COUPLING, TOOL/HAMMER, SWISS 0 Roflex coupling REQUIRES: Road Homologation Switzerland FOR USE WITH: Stick lines HPF/HAMMER CANNOT BE USED WITH: COUPLING,TOOL/HAMMER		NC
---	----------	--	--	----

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OTHER ATTACHMENTS (CONT.)**LINE GROUPS COUPLINGS (Cont.)**

P	391-2634	COUPLING, TOOL/HAMMER 0		NC
		SAE flange		
		FOR USE WITH: Stick lines HPF/HAMMER		
		CANNOT BE USED WITH: COUPLING, TOOL/HAMMER, SWISS		

QUICK COUPLERS**CAT QUICK COUPLER HYDRAULIC CIRCUIT**

Provides necessary hydraulics for usage with CWTS dedicated quick couplers.
Must order control, boom lines and stick lines to complete auxiliary circuit.

L	340-0259	CONTROL, QUICK COUPLER 0		\$1,290
		CANNOT BE USED WITH: No Control,Medium Pressure		

BUCKETS**BUCKET RETENTION PINS**

L	123-4968	PIN, BUCKET, ADJ 68		\$354
			68	\$354 NI
L	228-6195	PIN, BUCKET, TDP 66		\$323
			66	\$323 NI

EXCAVATION BUCKETS (Pin-on Buckets)

They cannot be ordered with MISC Material Order.

Dealers in NACD and LACD can place miscellaneous bucket orders by consulting Cat Work Tools at 1-800- 255-2372 for bucket options, availability and appropriate ordering instructions.

Cat Work Tools inventories similar buckets that can be interchanged with the buckets provided by the factory in Europe.

Buckets include welded-on tooth adapters and adjuster.

The buckets do not include tips.

Please order required quantity of tips.

The buckets require either PIN, BUCKET/ADJ or PIN, BUCKET, TDP

L	385-5646	BUCKET-GD, 35" 0.69 CYD 915		\$4,157
			915	\$4,157 NI
		REQUIRES: 5 tips J250		
		Pin-on, includes adjuster		
L	385-5648	BUCKET-GD, 43" 0.89 CYD 1,038		\$4,583
			1,038	\$4,583 NI
		REQUIRES: 6 tips J250		
		Pin-on, includes adjuster

FIELD INSTALLED ATTACHMENTS (CONT.)**MISCELLANEOUS NOT INSTALLED ATTACHMENTS (Cont.)**

L	364-2411	OUTRIGGERS, FRONT, WELD-ON KIT 0		\$15,450 NI
		OUTRIGGERS, FRONT, WELD-ON KIT One set of two outriggers for front weld-on installation. Please note that below kit is not compatible with current production M313D machines (prefix K3D).		

This KIT for FIELD INSTALLATION is only suitable for M313D machines (prefix W3H) with a serial number greater than W3H05008, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1743) including Undercarriage Frame 341-9124). It is not compatible with any other undercarriage package or frame. The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers. The welding of the structural parts must be performed by a certified welder.

KIT for FIELD INSTALLATION machine prefix K3D.

L	436-0388	KIT, ENGINE EMISSIONS PACKAGE 0		\$17,500 NI NET
---	----------	--	--	----------------------------

Includes an emission package to reduce engine emissions to a level similar as required by EU Stage IIIB regulations. This emission package includes a DPF and a SCR system, which requires the usage of Diesel Exhaust Fluid (DEF). The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the emission package. This kit is only suitable for M313D machines with prefix K3D

KIT for FIELD INSTALLATION machine prefix J3A.

L	444-4998	KIT, ENGINE EMISSIONS PACKAGE 0		\$18,300 NI NET

**M315D HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Engine:
Altitude capability: 3000m/9842 ft
Automatic engine speed control
Automatic starting aid
Power mode selector (economy and standard)

UNDERCARRIAGE

Creeper speed
Four wheel drive
Full hydraulic steering with emergency capability
Heavy-duty axles with advanced disc brake system and travel motor with adjustable braking force
Oscillating front axle, lockable, with remote greasing point
Steps, wide, left and right
Toolbox
Two-piece drive shaft
Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
Heavy lift mode
Oil cooler
Separate swing pump
Stick regeneration circuit
Variable displacement, load sensing hydraulic system
Adjustable Hydraulic Sensitivity

ELECTRICAL

Alternator, 75 Ampere
Lights:
Boom working light
Cab Interior
Roading lights (two front, two rear)
Halogen rear lights
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with 2006/42/EC and tested according ISO 12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel

wiper and washer
Coat hook
Floor mat, washable, with storage compartment
Instrument panel and gauges with full color graphical display
Interior lighting
Joysticks, pilot operated
Left side console, tiltable, with lock-out for all controls
Literature compartment behind seat
Literature holder in right hand cab panel
Mobile phone holder
Mounting provisions for radio and speakers
Parking brake
Positive filtered ventilation, variable speed
Power supply, 12V-7A
Rear window, emergency exit
Skylight
Sliding door windows
Steering column, tiltable
Storage compartment suitable for a lunch box
Sunshade for windshield and skylight

OTHER STANDARD EQUIPMENT

Automatic swing brake
Capability to add auxiliary hydraulic circuits
Caterpillar Datalink and Electronic Technician capability
Caterpillar Product Link ready
Door locks and cab locks with Caterpillar one-key security system
SOS quick sampling valves for engine oil, hydraulic oil and coolant

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)
If no reference number is listed a Lane 1 configuration is not available.

EU configs need to be combined with the following sections out of the mandatory sections:

-0P9001 has to be selected

-Export packing

-Travel & Cooling Package

-Product link

-Security Systeme Machine (MSS)

These configs can be combined with the following sections out of the Finish to order sections:

-Certificate of conformity

-Preparation

-Alarm

LRC configs need to be combined with the following sections out of the mandatory sections:

-0P9001 has to be selected

-Travel cooling Package High Ambient 30 kph or 34 Kph

-Export Packing

-Product link PL522

-Bucket/tips

-Certificate of origin

-Check valve, standard

-Quick Coupler for DCA11 only

STICKS WITHOUT BUCKET LINKAGE

C	419-5460	STICK, INDUSTRIAL, 10" 2' 0 Drop nose stick for material handling applications. INCLUDES: High pressure sticklines, operated by bucket circuit at right joystick, for tool open/close function. Auxiliary medium pressure stick lines for tool rotation. REQUIRES: Medium pressure boomlines and Control, Medium Pressure function and coupling, MH stick. FOR USE WITH: LANE 3 ONLY Boom Arrangement Without Autolube CANNOT BE USED WITH: Offset boom	0 \$8,330 \$8,330 NI	
L	354-7345	NO STICK 0 Mandatory if no stick is ordered FOR USE WITH: Boom Arrangement Without Autolube CANNOT BE USED WITH: Offset boom		\$62

BOOM LINES WITHOUT AUX. HIGH PRESSURE CIRCUIT

NOTE: BOOM LINES WITHOUT AUX. HIGH
PRESSURE CIRCUIT cannot be used if
machine is equipped with any auxiliary high
pressure circuit (TOOL CONTROL or
HAMMER CONTROL).

SELECT ONE:

L	394-8178	LINES, 1PC INCL. SLCV 0 INCLUDES: Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift.		\$2,575
L	394-8180	LINES, VA INCL. SLCV 0 INCLUDES: Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift.		\$2,575

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

BOOMS, STICKS AND LINKAGES (CONT.)***BOOM LINES INCLUDING AUX. HIGH PRESSURE CIRCUIT***

NOTE: BOOM LINES INCLUDING AUX. HIGH PRESSURE CIRCUIT need to be selected if machine is equipped with an auxiliary high pressure circuit (TOOL CONTROL or HAMMER CONTROL).
Must order HIGH PRESSURE AUXILIARY HYDRAULIC CIRCUIT STICK LINES to complete auxiliary circuit.

L	393-2066	LINES, 1PC INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$3,670
L	393-2067	LINES, VA INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,030
L	393-2068	LINES, OFFSET INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,410

SMART BOOM & RIDE CONTROL

INCLUDES: Boom lowering control device, and overload warning device, which signals a hydraulic overload with an acoustical warning in the cab.

The device Smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick in force.

The boom float attachment eases operations and increases operator comfort.

The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading.

SELECT ONE:**ARRANGEMENTS INCLUDING RIDE CONTROL**

L	393-2077	RIDE CONTROL, VA 0 Improves operator comfort by reducing machine bouncing when travelling NOTE: Smartboom not included. INCLUDES: Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom CANNOT BE USED WITH: Industrial Stick No stick		\$5,300
---	----------	--	--	----------------

L	416-9657	CAB DELUXE 0		\$3,095
		CONSISTS OF:		
		-Seat includes vertical air suspension (low-frequency), horizontal suspension, automatic height & weight adjustment, active climate system (two step heating & cooling), premium microfibre seat fabric, pneumatic lumbar support, seat cushion length and angle adjustment and adjustable dampening.		
		-Travel speed lock		
		-Radio AM/FM 12V		

WINDSHIELDS**SELECT ONE:**

L	383-4064	WINDSHIELD, 1-PC, HIGH RESIST 0		\$2,710
		Fixed, one piece, high impact resistant, 10mm/0.4inch laminated glass windshield and glass side and rear windows		
L	383-4066	WINDSHIELD, 70/30 SPLIT 0		\$2,625
		Openable, 70/30 split, laminated glass windshield lower window 4mm/0.16inch, upper window 7mm/0.28inch, glass side and rear windows		
		INCLUDES: Rain protector, Cab front		

WIPERS**SELECT ONE**

L	361-3462	WIPER, WINDSHIELD, 1-PC 0		NC
		FOR USE WITH: 1-PC Windshield		
L	361-3463	WIPER, WINDSHIELD, 70/30 0		NC
		FOR USE WITH: 70/30 Windshield		

SEAT-BELTS**SELECT ONE**

L	205-6210	BELT, SEAT 2" 2		NC
		Retractable seat belt		
L	8Y-4031	BELT, SEAT 3" 2		\$60
		Static seat belt		

MIRRORS**SELECT ONE:**

L	333-0120	MIRROR, VA/MH BOOM 11		NC
		One mirror located on left side of the cab, two mirrors located on the right side of the machine		
		REQUIRES: For VA Boom and Offset Boom

CONTROLLERS**SELECT ONE**

L	337-5820	CONTROLLER, ELECTRONIC 0 Attachment Controller Controls and activates electrical functions of hydraulic components		NC
L	337-5818	CONTROLLER, ELECTRONIC XL 0 Attachment Controller Controls and activates electrical functions of hydraulic components FOR USE WITH: Joystick Steering Offset Boom Ride control		NC

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet management effectiveness.

Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink™. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and productivity. Productivity plans require Payload information.

INSTRUCTIONS**SELECT ONE:****MACHINE DECALS (PCTO)**

P	253-2259	DECALS, NORTH AMERICA (ANSI) 0	NC
---	----------	---	----

This package includes picto decals as required for North America

The word "WARNING" is on picto decals for ANSI

PACKING**EXPORT PACKING****SELECT ONE:**

0G-9240	COMPLETE STORAGE PROTECTION 0	\$361 NET
---------	--	-----------

Includes CILIX and foam protection on all cylinders
Machines from the factory have been sprayed with Fluid Film TM.
This product is added for corrosion protection while shipping
and for extended storage periods. This product will need to be power
washed with soapy water prior to shipment to the customer.
Cilix AND foam protection on all cylinders are also included
in this storage protection procedure.
Recommended for: Sea and all type of long distance shipment

FIELD INSTALLED ATTACHMENTS***MISCELLANEOUS NOT INSTALLED ATTACHMENTS***

This attachment cannot be ordered with a machine, but only as a MISC order using OG-4167.

Please contact Product Group if further technical details are required.

L	364-2412	OUTRIGGERS, FRONT, WELD-ON KIT	0	\$15,450 NI
---	----------	--------------------------------------	---	-------------

OUTRIGGERS, FRONT, WELD-ON KIT

One set of two outriggers for front weld-on installation.

Please note that below kit is not compatible with current production M315D machines (prefix K5E).

This KIT for FIELD INSTALLATION is only suitable for M315D machines (prefix W5M) with a serial number greater than W5M05005, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1744) including Undercarriage Frame 341-9129). It is not compatible with any other undercarriage package or frame.

The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

The welding of the structural parts must be performed by a certified welder.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**MISCELLANEOUS NOT INSTALLED ATTACHMENTS (Cont.)**

L	418-6331	KIT,WASTE HANDLING PACKAGE HCR 0		\$8,600 NI
		Includes a reversible fan, which automatically reverses the airflow after a set interval. The interval is manually adjustable between 5 and 60 minutes, through the monitor menu. To prevent clogging of the radiator, the engine hood has special dense wire mesh. Also included are two cyclone filters on top of the right front hood, providing clean, filtered air to the engine air filter, the air-to-air after cooler and the air conditioner condenser. Not for use in ambient temperature above 43°C/110°F With Waste Handling Package installed, engine will derate when travelling in high ambient temperatures above 38°C/100°F This might affect travel performance. CANNOT BE USED WITH: STANDARD AMBIENT COOLING PACKAGE BOOM;ONE PIECE		

Please contact Product Group if further technical details are required.

KIT for FIELD INSTALLATION machine prefix K5E.

L	436-0389	KIT, ENGINE EMISSIONS PACKAGE 0		\$17,500 NI NET
		Includes an emission package to reduce engine emissions to a level similar as required by EU Stage IIIB regulations. This emission package includes a DPF and a SCR system, which requires the usage of Diesel Exhaust Fluid (DEF). The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the emission package. This kit is only suitable for M315D machines with prefix K5E.		

This kit is only suitable for M315D machines with prefix J5B.

L	444-4999	KIT, ENGINE EMISSIONS PACKAGE 0		\$18,300 NI NET
		Includes an emission package to reduce engine emissions to a level similar as required by EU Stage IIIB regulations. This emission package includes a DPF and a SCR system, which requires the usage of Diesel Exhaust Fluid (DEF). The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the emission package. This kit is only suitable for M315D machines with prefix J5B.

LANE 1 NACD MANDATORY ATTACHMENTS**LANE SELECTION****SELECT ONE**

0P-9001	LANE 1 ORDER	0	NC
	Order from Product Distribution Center (PDC)		

EXPORT PACKING

Machines from the factory have been sprayed with Fluid Film TM. This product is added for corrosion protection while shipping and for extended storage periods. As machines shipped from a PDC will be cleaned and washed before leaving, the Fluid Film TM will already be washed off the machine when arriving at a customer.

SELECT ONE

0G-9240	COMPLETE STORAGE PROTECTION	0	\$361 NET
	Includes CILIX and foam protection on all cylinders		
	Recommended for: Sea and all type of long distance shipment		

PRODUCT LINK COMMUNICATIONS**SELECT ONE**

L	359-4774	PRODUCT LINK PL522	0	NC
		Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet-management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.

CHECK VALVE PACKAGES**SELECT ONE:**

Packages cannot be combined.

Only Lowering Control Valve Packages include an Overload Warning Device, which signals hydraulic overload with an acoustical warning in the cab. Lowering control devices provide cylinder drift reduction functionality and prevent implement cylinders from unexpected movement in case of a hose breaking.

Anti Drift Devices only provide cylinder drift reduction.

For CE conformity a Lowering Control Valve Package needs to be selected

FIELD INSTALLED ATTACHMENTS***MISCELLANEOUS NOT INSTALLED ATTACHMENTS***

This attachment cannot be ordered with a machine, but only as a MISC order using OG-0220.

Please note that below kit is not compatible with current production M313D machines (prefix J5B).

L	364-2412	OUTRIGGERS, FRONT, WELD-ON KIT	0	\$15,450
		OUTRIGGERS, FRONT, WELD-ON KIT		
		One set of two outriggers for front weld-on installation.		

This KIT for FIELD INSTALLATION is only suitable for M315D machines (prefix W5M) with a serial number greater than W5M05005, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1744) including Undercarriage Frame 341-9129). It is not compatible with any other undercarriage package or frame. The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

notemb

The welding of the structural parts must be performed by a certified welder.

Please contact Product Group if further technical details are required.

WASTE HANDLING PACKAGE

L	418-6331	KIT,WASTE HANDLING PACKAGE HCR	0	\$8,600 NI
		Not for use in ambient temperature above 43°C/ 110F.		
		A special dense wire mesh prevents the radiator from clogging.		
		Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu.		
		A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter.		
		With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F.		
		CANNOT BE USED WITH: STANDARD AMBIENT COOLING PACKAGE BOOM;ONE PIECE

**M316D HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Engine:
Altitude capability: 3000m/9842 ft
Automatic engine speed control
Automatic starting aid
Power mode selector (economy and standard)

UNDERCARRIAGE

Creeper speed
Four wheel drive
Full hydraulic steering with emergency capability
Heavy-duty axles with advanced disc brake system and travel motor with adjustable braking force
Oscillating front axle, lockable, with remote greasing point
Steps, wide, left and right
Toolbox
Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
Heavy lift mode
Oil cooler
Separate swing pump
Stick regeneration circuit
Load sensing hydraulic system
Adjustable Hydraulic Sensitivity

ELECTRICAL

Alternator, 75 Ampere
Lights:
Boom working light
Cab interior
Roading lights (two front, two rear)
Halogen rear lights
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with 2006/42/EC and tested according ISO 12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel wiper and washer
Coat hook

Floor mat, washable, with storage compartment
Instrument panel and gauges with full color graphical display
Rearview camera
Interior lighting
Joysticks, pilot operated
Left side console, tiltable, with lock-out for all controls
Literature compartment behind seat
Literature holder in right hand cab panel
Mobile phone holder
Mounting provisions for radio and speakers
Parking brake
Positive filtered ventilation, variable speed
Power supply, 12V-7A
Kit, Radio Installation 12V and speakers
Rear window, emergency exit
Skylight
Sliding door windows
Steering column, tiltable
Storage compartment suitable for a lunch box
Sunshade for windshield and skylight

OTHER STANDARD EQUIPMENT

Automatic swing brake
Capability to add auxiliary hydraulic circuits
Caterpillar Datalink and Electronic Technician capability
Caterpillar Product Link ready
Door locks and cab locks with Caterpillar one-key security system
SOS quick sampling valves for engine oil, hydraulic oil and coolant

STICKS WITHOUT BUCKET LINKAGE

C	419-5460	STICK, INDUSTRIAL, 10" 2' 0 Drop nose stick 3100MM/10" 2' INCLUDES: High pressure stick lines, operated by bucket circuit for tool open/close function and medium pressure stick lines for tool rotation. One grapple pin. REQUIRES: Coupling, Industrial Stick FOR USE WITH: LANE 3 ONLY Boom Arrangement Without Autolube CANNOT BE USED WITH: Offset boom		\$8,330
L	354-7345	NO STICK 0 Mandatory if no stick is ordered FOR USE WITH: Boom Arrangement Without Autolube CANNOT BE USED WITH: Offset boom		\$62

BOOM LINES WITHOUT AUX.HIGH PRESSURE CIRCUIT

NOTE: BOOM LINES WITHOUT AUX. HIGH
PRESSURE CIRCUIT cannot be used if
machine is equipped with any auxiliary high
pressure circuit (TOOL CONTROL or
HAMMER CONTROL).

SELECT ONE:

L	416-9640	LINES, 1PC INCL. SLCV 0 INCLUDES: Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift.		\$2,575
L	425-3378	LINES, VA INCL. SLCV 0 INCLUDES: Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift.		\$2,575

BOOM LINES INCLUDING AUX.HIGH PRESSURE CIRCUIT

NOTE: BOOM LINES INCLUDING AUX. HIGH
PRESSURE CIRCUIT need to be selected if
machine is equipped with an auxiliary high
pressure circuit (TOOL CONTROL or
HAMMER CONTROL).
Must order HIGH PRESSURE AUXILIARY
HYDRAULIC CIRCUIT STICK LINES to
complete auxiliary circuit.

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

BOOMS, STICKS AND LINKAGES (CONT.)**BOOM LINES INCLUDING AUX.HIGH PRESSURE CIRCUIT (Cont.)**

L	416-9643	LINES, 1PC INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$3,670
L	416-9644	LINES, VA INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,030
L	416-9645	LINES, OFFSET INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,410

SMART BOOM & RIDE CONTROL

INCLUDES: Boom lowering control device, and overload warning device, which signals a hydraulic overload with an acoustical warning in the cab.

The device Smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick in force.

The boom float attachment eases operations and increases operator comfort.

The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading.

SELECT ONE:**ARRANGEMENTS INCLUDING RIDE CONTROL LANE 3 ONLY**

L	416-9650	BLCV, VA INCL. RIDE CONTROL 0 Improves operator comfort by reducing machine bouncing when travelling NOTE: Smartboom not included. INCLUDES: Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom LANE 3 ONLY CANNOT BE USED WITH: Industrial Stick No stick		\$5,300
L	416-9651	BLCV, 1PC INCL. RIDE CONTROL 0 Improves operator comfort by reducing machine bouncing when travelling NOTE: Smartboom not included. FOR USE WITH: 1PC boom LANE 3 ONLY CANNOT BE USED WITH: Industrial Stick No stick		\$4,200

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

BOOMS, STICKS AND LINKAGES (CONT.)**SMART BOOM & RIDE CONTROL (Cont.)**

L	416-9654	BLCV, VA INCL RC & SMARTBOOM 0 Improves operator comfort by reducing machine bouncing when travelling INCLUDES: Smartboom Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom LANE 3 ONLY CANNOT BE USED WITH: Industrial Stick No stick		\$8,060
L	416-9655	BLCV, 1PC INCL RC & SMARTBOOM 0 Improves operator comfort by reducing machine bouncing when travelling INCLUDES: Smartboom FOR USE WITH: 1PC boom LANE 3 ONLY CANNOT BE USED WITH: Industrial Stick No stick		\$6,970

ARRANGEMENTS WITHOUT RIDE CONTROL

L	340-3055	BLCV, 1PC 0 NOTE: Smartboom not included. FOR USE WITH: 1PC boom		NC
L	416-9647	BLCV, VA & OFFSET 0 NOTE: Smartboom not included. INCLUDES: Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom and Offset boom		\$1,090
L	416-9652	BLCV, 1PC INCL SMARTBOOM 0 INCLUDES: Smartboom FOR USE WITH: 1PC boom		\$2,760
L	416-9653	BLCV, VA INCL SMARTBOOM 0 INCLUDES: Smartboom Foreboom lowering control device, reducing foreboom drift. FOR USE WITH: VA boom		\$3,855

UNDERCARRIAGE

NOTE: Undercarriage arrangements are welded on and are therefore a permanent part of the machine. Dealers and customers cannot change these arrangement. It is not possible to add or change dozer blade or outrigger attachments.

STANDARD AXLE UC PACKAGES

Axle width: 2500mm / 8' 2"

L	416-9666	UC BLADE REAR 0 INCLUDES: Welded undercarriage No front attachment Parallel blade rear remote greasing (2550 mm / 8' 4" width)		\$9,120
---	----------	--	--	----------------

HYDRAULICS**SELECT ONE:**

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)***NO AUXILIARY HYDRAULIC CONTROLS***

L	299-9227	NO CONTROL, MEDIUM PRESSURE 0		NC
		Mandatory if no auxiliary circuit is required.		
		FOR USE WITH: Boom lines without Aux.High Pressure Circuit		
		CANNOT BE USED WITH: Industrial stick		
		Quick coupler control		

MEDIUM PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.
Must order boom and stick lines and couplings to complete auxiliary circuit

L	431-6551	CONTROL, MEDIUM PRESS. FUNCTION 0		\$1,250
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines without Aux. High Pressure Circuit		

HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one way tools such as hammers or compactors.
Must order Stick Lines and Couplings to complete auxiliary circuit

L	426-3401	CONTROL, HAMMER 0		\$2,595
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		
		CANNOT BE USED WITH: Offset boom		
		Industrial stick		
		Quick coupler control		

COMBINED AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.
Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one/two way tools such as hammer/compactor plates, or the open/close function of shears, crusher or grapples.
Must order boom and stick lines and couplings to complete auxiliary circuit

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**COMBINED AUXILIARY HYDRAULIC CONTROLS (Cont.)**

L	392-9592	CTRL, COMBINED AUXILIARY 0 INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: Boom lines including Aux.High Pressure Circuit CANNOT BE USED WITH: Offset Boom		\$6,220
L	392-9593	CTRL, COMB. AUX. W/JOYST 0 Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick. INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Group FOR USE WITH: Boom lines including Aux.High Pressure Circuit CANNOT BE USED WITH: Offset Boom		\$8,280
L	393-2070	CTRL, COMB. AUX. OFFSET 0 INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: Offset Boom		\$4,960

2nd HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS LANE 3 ONLY

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.

Provide auxiliary high pressure control circuit actuated with slider switch on left joystick for one way/two way tools such as hammer/compactor plates, or the open/close function of shears, crushers, or grapples.

Provide additional auxiliary high pressure control circuit.

Must order boom and stick lines and couplings to complete auxiliary circuit.

L	416-9662	CTRL, 2ND HP W/JOYST, VA 0 Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick. INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: VA Boom lines including Aux.High Pressure Circuit LANE 3 ONLY		\$12,070
L	416-9661	CTRL, 2ND HP W/JOYST, 1PC 0 Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick. INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: 1PC Boom lines including Aux.High Pressure Circuit LANE 3 ONLY		\$12,070

AUXILIARY HYDRAULIC PEDAL

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet management effectiveness.

Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink™. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and productivity. Productivity plans require Payload information.

L	359-4775	PRODUCT LINK PL522 0 Using GSM technology		NC
L	319-4492	NO PRODUCT LINK 0 For countries where Product Link is not certified for use, Please contact your Cat marketing contact with questions. FOR USE WITH: NO PRODUCT LINK Dealers		NC

EXCAVATION BUCKETS (Pin-on Buckets)

They cannot be ordered with MISC Material Order.

Dealers in NACD and LACD can place miscellaneous bucket orders by consulting Cat Work Tools at 1-800-255-2372 for bucket options, availability and appropriate ordering instructions.
Cat Work Tools inventories similar buckets that can be interchanged with the buckets provided by the factory in Europe.
Buckets include welded-on tooth adapters and adjuster.
The buckets do not include tips.
Please order required quantity of tips.
The buckets require either PIN, BUCKET/ADJ or PIN, BUCKET, TDP

FIELD INSTALLED ATTACHMENTS***MISCELLANEOUS NOT INSTALLED ATTACHMENTS***

This attachment cannot be ordered with a machine, but only
as a MISC order using OG-0303.

**Please contact Product Group if further technical details are
required.**

L	362-3781	KIT, OUTRIGGERS, FRONT, WELD-ON	0	\$17,510 NI
---	----------	---	---	-------------

OUTRIGGERS, FRONT, WELD-ON KIT
One set of two outriggers for front weld-on installation.
Please note that below kit is not compatible
with current production M316D machines (prefix P6K).

This KIT for FIELD INSTALLATION is only suitable for M316D
machines (prefix W6A) with a serial number greater than W6A05022,
and including a front empty undercarriage (P2: UC BLADE REAR:
352-1745) including Undercarriage Frame 341-9119). It is not
compatible with any other undercarriage package or frame.
The KIT provides special instructions, and includes all necessary
structural, electrical and hydraulic parts to install and to control
the outriggers

The welding of the structural parts must be performed by a
certified welder.

L	418-6331	KIT, WASTE HANDLING PACKAGE HCR	0	\$8,600 NI
---	----------	---	---	------------

Includes a reversible fan, which automatically
reverses the airflow after a set interval. The interval
is manually adjustable between 5 and 60 minutes,
through the monitor menu. To prevent clogging
of the radiator, the engine hood has special dense
wire mesh. Also included are two cyclone filters on top
of the right front hood, providing clean, filtered air to the
engine air filter, the air-to-air after cooler and the
air conditioner condenser.

Not for use in ambient temperature above 43°C/110°F

With Waste Handling Package installed, engine will
derate when travelling in high ambient temperatures above 38°C/100°F
This might affect travel performance.

	Includes CILIX and foam protection on all cylinders Machines from the factory have been sprayed with Fluid Film TM. This product is added for corrosion protection while shipping and for extended storage periods. This product will need to be power washed with soapy water prior to shipment to the customer. Cilix AND foam protection on all cylinders are also included in this storage protection procedure. Recommended for: Sea and all type of long distance shipment		

PRODUCT LINK COMMUNICATIONS**SELECT ONE**

L	359-4775	PRODUCT LINK PL522	0	NC
		Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet- management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.

PRODUCT LINK COMMUNICATIONS

P	359-4775	PRODUCT LINK PL522 0 Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet- management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.		NC

FIELD INSTALLED ATTACHMENTS (CONT.)**MISCELLANEOUS NOT INSTALLED ATTACHMENTS (Cont.)**

L	362-3781	KIT, OUTRIGGERS, FRONT, WELD-ON 0		\$17,510
		OUTRIGGERS, FRONT, WELD-ON KIT		
		One set of two outriggers for front weld-on installation.		

This KIT for FIELD INSTALLATION is only suitable for M316D machines (prefix W6A) with a serial number greater than W6A05022, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1745) including Undercarriage Frame 341-9119). It is not compatible with any other undercarriage package or frame. The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers
notemb
The welding of the structural parts must be performed by a certified welder.

Please contact Product Group if further technical details are required.

WASTE HANDLING PACKAGE

L	418-6331	KIT, WASTE HANDLING PACKAGE HCR 0		\$8,600 NI
		Not for use in ambient temperature above 43°C/ 110F.		
		A special dense wire mesh prevents the radiator from clogging.		
		Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu.		
		A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter.		
		With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F.		
		CANNOT BE USED WITH: BOOM; ONE PIECE

**M318D HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Engine:
 Altitude capability: 3000m/9842 ft
 Automatic engine speed control
 Automatic starting aid
 Power mode selector (economy and standard)

UNDERCARRIAGE

Creeper speed
 Four wheel drive
 Full hydraulic steering with emergency capability
 Heavy-duty axles with advanced disc brake system and travel motor with adjustable braking force
 Oscillating front axle, lockable, with remote greasing point
 Steps, wide, left and right
 Toolbox
 Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
 Heavy lift mode
 Oil cooler
 Separate swing pump
 Stick regeneration circuit
 Load sensing hydraulic system
 Adjustable Hydraulic Sensitivity

ELECTRICAL

Alternator, 75 Ampere
 Lights:
 Boom working light
 Cab interior
 Rooding lights (two front, two rear)
 Halogen rear lights
 Main shut-off switch
 Signal/warning horn
 Two Caterpillar maintenance free batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with 2006/42/EC and tested according ISO 12117-2:2008
 Adjustable armrests
 Ash tray with 24V cigarette lighter
 Beverage cup/can holder
 Bolt-on FOGS capability
 Bottle holder
 Bottom mounted, intermittent, parallel wiper and washer
 Coat hook

Floor mat, washable, with storage compartment
 Instrument panel and gauges with full color graphical display
 Rearview camera
 Interior lighting
 Joysticks, pilot operated
 Left side console, tiltable, with lock-out for all controls
 Literature compartment behind seat
 Literature holder in right hand cab panel
 Mobile phone holder
 Mounting provisions for radio and speakers
 Parking brake
 Positive filtered ventilation, variable speed
 Power supply, 12V-7A
 Kit, Radio Installation 12V and speakers
 Rear window, emergency exit
 Skylight
 Sliding door windows
 Steering column, tiltable
 Storage compartment suitable for a lunch box
 Sunshade for windshield and skylight

OTHER STANDARD EQUIPMENT

Automatic swing brake
 Capability to add auxiliary hydraulic circuits
 Caterpillar Datalink and Electronic Technician capability
 Caterpillar Product Link ready
 Door locks and cab locks with Caterpillar one-key security system
 SOS quick sampling valves for engine oil, hydraulic oil and coolant

BOOM LINES INCLUDING AUX.HIGH PRESSURE CIRCUIT

NOTE: BOOM LINES INCLUDING AUX. HIGH PRESSURE CIRCUIT need to be selected if machine is equipped with an auxiliary high pressure circuit (TOOL CONTROL or HAMMER CONTROL).
Must order HIGH PRESSURE AUXILIARY HYDRAULIC CIRCUIT STICK LINES to complete auxiliary circuit.

L	419-5443	LINES, 1PC INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$3,765
L	419-5444	LINES, VA INCL. SLCV, HPF 0 INCLUDES: High pressure auxiliary hydraulic circuit boom lines. Stick lowering control device, reducing stick-in drift. Anti-drift valve bucket cylinder head, reducing bucket-out drift. CANNOT BE USED WITH: Industrial Stick		\$4,410

SMART BOOM & RIDE CONTROL

INCLUDES: Boom lowering control device, and overload warning device, which signals a hydraulic overload with an acoustical warning in the cab.

The device Smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick in force.

The boom float attachment eases operations and increases operator comfort.

The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading.

HYDRAULICS**SELECT ONE:*****NO AUXILIARY HYDRAULIC CONTROLS***

L	299-9227	NO CONTROL, MEDIUM PRESSURE 0		NC
		Mandatory if no auxiliary circuit is required. FOR USE WITH: Boom lines without Aux. High Pressure Circuit CANNOT BE USED WITH: Industrial stick Quick coupler control		

MEDIUM PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with
slider switch on left joystick for tilt/rotate function of medium
pressure two directional flow attachments such as tilting buckets,
clamshell buckets or grapples.
Must order boom and stick lines and couplings to
complete auxiliary circuit

L	251-7942	CONTROL, MEDIUM PRESS. FUNCTION 40		\$1,250
		REQUIRES: Boom and Stick Lines Groups FOR USE WITH: Boom lines without Aux. High Pressure Circuit		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS**

Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one way tools such as hammers or compactors.

Must order Stick Lines and Couplings to complete auxiliary circuit

L	419-5485	CONTROL, HAMMER 0		\$2,595
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		
		CANNOT BE USED WITH: Industrial stick, Quick coupler control		

COMBINED AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.

Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one/two way tools such as hammer/compactor plates, or the open/close function of shears, crusher or grapples.

Must order boom and stick lines and couplings to complete auxiliary circuit

L	419-5487	CTRL, COMBINED AUXILIARY 0		\$6,220
		INCLUDES: Anti drift valve tool control		
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		
L	419-5488	CTRL, COMB. AUX. W/JOYST 0		\$8,280
		Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick.		
		INCLUDES: Anti drift valve tool control		
		REQUIRES: Boom and Stick Lines Group		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		

2nd HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.

Provide auxiliary high pressure control circuit actuated with slider switch on left joystick for one way/two way tools such as hammer/compactor plates, or the open/close function of shears, crushers, or grapples.

Provide additional auxiliary high pressure control circuit.

Must order boom and stick lines and couplings to complete auxiliary circuit.

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet management effectiveness.

Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink™. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and productivity. Productivity plans require Payload information.

TECHNOLOGY PRODUCTS**MACHINE SECURITY SYSTEM**

L	290-8448	SECURITY SYSTEM, MACHINE 2 Advanced, programmable system to manage access to machine. Requires special Machine Security System keys. Machine shipped with system inactive but with two of these keys already programmed into system. Requires Caterpillar Service Tool Electronic Technician (ET) to activate and to program system for additional keys. Additional keys available through Parts Distribution.		NC
L	0P-2529	MACH.SECU.SYST.INSTALLATION 0 REQUIRES: Machine Security System & NON-EU dealers CANNOT BE USED WITH: EU dealers		\$1,200

GUARDS

L	370-5500	GUARD, FALLING OBJECTS 0 Includes guards front, roof and lights working front/rear cab. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: GUARD, VANDALISM		\$4,635 NI
L	188-4940	GUARD, VANDALISM 55 Foldable protection for the front windshield, stored on top of left undercarriage toolbox. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: Guard, Falling Objects	55	\$620 \$620 NI

OTHER ATTACHMENTS**LINE GROUPS COUPLINGS****COUPLING'S DIVERTER VALVES**

A coupling DV is required to complete
the diverter valve lines if machine is
equipped with a stick including Bucket Linkage

P	392-3970	COUPLING, STANDARD DV 0 CVV type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING, QUICK DISC DV		NC
P	392-3968	COUPLING, QUICK DISC DV 0 CVC type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING STANDARD DV		\$242

COUPLING'S MEDIUM PRESSURE CIRCUIT

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OTHER ATTACHMENTS (CONT.)**LINE GROUPS COUPLINGS (Cont.)**

A coupling medium pressure is required
to complete the medium pressure circuit
if the stick is equipped with
Medium Pressure Function Lines

P	392-2938	COUPLING, STANDARD MPF 0 CVC type couplings FOR USE WITH: stick lines medium pressure(grapple rotate, bucket tilt) CANNOT BE USED WITH: COUPLING QUICK DISC MPF		NC
P	392-2932	COUPLING, QUICK DISC MPF 0 CVC type couplings FOR USE WITH: Stick lines medium pressure(grapple rotate, bucket tilt) CANNOT BE USED WITH: COUPLING STANDARD MPF		\$335
P	176-6765	COUPLING, QUICK DISC MPF DC 2 Provides adapters (CVC type coupling to internal thread M22 x 1.5) for stick lines medium pressure, side (bucket tilt) FOR USE WITH: COUPLING, QUICK DISC MPF		\$328

COUPLING'S INDUSTRIAL STICK

A coupling IND Stick is required to complete
the medium pressure circuit if the machine
is equipped with Industrial Stick

P	416-7694	COUPLING, STANDARD, IND STICK 0 CVC type couplings FOR USE WITH: INDUSTRIAL / STICK CANNOT BE USED WITH: COUPLING, QUICK DISC, IND STICK		NC
P	416-7693	COUPLING, QUICK DISC IND STICK 0 CVC type couplings FOR USE WITH: INDUSTRIAL / STICK CANNOT BE USED WITH: COUPLING, STANDARD, IND STICK		\$335

COUPLING'S TOOL/HAMMER

A coupling Tool/Hammer is required to complete
the high pressure auxiliary hydraulic circuit
if the machine is equipped with High Pressure
Auxiliary Circuit Stick Lines .

P	391-2641	COUPLING, TOOL/HAMMER, SWISS 0 Roflex coupling REQUIRES: Road Homologation Switzerland FOR USE WITH: Stick lines HPF/HAMMER CANNOT BE USED WITH: COUPLING, TOOL/HAMMER		NC
P	391-2634	COUPLING, TOOL/HAMMER 0 SAE flange FOR USE WITH: Stick lines HPF/HAMMER CANNOT BE USED WITH: COUPLING, TOOL/HAMMER, SWISS		NC

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

QUICK COUPLERS**CAT QUICK COUPLER HYDRAULIC CIRCUIT**

Provides necessary hydraulics for usage with CWTS dedicated quick couplers.
Must order control, boom lines and stick lines to complete auxiliary circuit.

L	340-3235	CONTROL, QUICK COUPLER	0	\$2,415
		CANNOT BE USED WITH: No Control, Medium Pressure		

BUCKETS**BUCKET RETENTION PINS**

L	123-4801	PIN, BUCKET, ADJ	95	\$349
			95	\$349 NI
		FOR USE WITH: Sticks including Bucket linkage		
L	228-6708	PIN, BUCKET, TDP	99	\$378
			99	\$378 NI
		FOR USE WITH: Sticks including Bucket linkage		

EXCAVATION BUCKETS (Pin-on Buckets)

They cannot be ordered with MISC Material Order.

Dealers in NACD and LACD can place miscellaneous bucket orders by consulting Cat Work Tools at 1-800-255-2372 for bucket options, availability and appropriate ordering instructions.
Cat Work Tools inventories similar buckets that can be interchanged with the buckets provided by the factory in Europe.
Buckets include welded-on tooth adapters and adjuster.
The buckets do not include tips.
Please order required quantity of tips.
The buckets require either PIN, BUCKET/ADJ or PIN, BUCKET, TDP

L	388-9590	BUCKET-GD, 48" 1.29 CYD	1,475	\$6,049
			1,475	\$6,049 NI
		REQUIRES: 5 tips K080		
		Pin-on, adjuster included		
L	388-9591	BUCKET-GD, 55" 1.54 CYD	1,609	\$6,638
			1,609	\$6,638 NI
		REQUIRES: 5 tips K080		
		Pin-on, adjuster included		

EXCAVATION BUCKETS (Quick Coupler Buckets)

NOTE: They cannot be ordered with MISC Material Order.
Buckets include welded-on tooth adapters and adjuster.
The buckets do not include tips. Please order required quantity of tips.
The buckets require either PIN, BUCKET/ADJ or PIN, BUCKET, TDP and a Quick Coupler

FIELD INSTALLED ATTACHMENTS**MISCELLANEOUS NOT INSTALLED ATTACHMENTS**

This attachment cannot be ordered with a machine, but only as a MISC order using OG-0304.

Please contact Product Group if further technical details are required.

L	362-3781	KIT, OUTRIGGERS, FRONT, WELD-ON 0 OUTRIGGERS, FRONT, WELD-ON KIT One set of two outriggers for front weld-on installation. Please note that below kit is not compatible with current production M318D machines (prefix P8L).	\$17,510 NI
---	----------	---	-------------

This KIT for FIELD INSTALLATION is only suitable for M318D machines (prefix W8P) with a serial number greater than W8P05020, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1745) including Undercarriage Frame 341-9119). It is not compatible with any other undercarriage package or frame. The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

The welding of the structural parts must be performed by a certified welder.

L	418-6331	KIT, WASTE HANDLING PACKAGE HCR 0 Includes a reversible fan, which automatically reverses the airflow after a set interval. The interval is manually adjustable between 5 and 60 minutes, through the monitor menu. To prevent clogging of the radiator, the engine hood has special dense wire mesh. Also included are two cyclone filters on top of the right front hood, providing clean, filtered air to the engine air filter, the air-to-air after cooler and the air conditioner condenser. Not for use in ambient temperature above 43°C/110°F With Waste Handling Package installed, engine will derate when travelling in high ambient temperatures above 38°C/100°F This might affect travel performance.	\$8,600 NI
---	----------	--	------------

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

EU configs need to be combined with the following sections out of the mandatory sections:

-0P9001 has to be selected

-Export Packing

-Product link

-Security Systeme Machine (MSS)

These configs can be combined with the following sections out of the Finish to order sections:

-Certificate of conformity

-Preparation

FACTORY ARRANGEMENTS

384-1061	M318D WHEEL EXCAVATOR 0	\$268,920
	CONSISTS OF:	
	* 3547319 M318D WHEEL EXCAVATOR (HCR)	
	_ Hydraulic cab riser, 2400 mm / 7'87"	
	* 3833307 ENGINE TIER 3 / STAGE IIIA	
	ADSD-N EPA/ARB Flexibility Engine	
	TURKEY: Non-current Tier3 or Stage IIIA emissions	
	FOR USE WITH: ADS-D-N dealers, Turkey dealers	

NOTE: FOR MISCELLANEOUS ORDERS, PLEASE USE :

0G-0196	M318D MH MISC MATL GRENOBLE 0	NC
	CWTS quick couplers and buckets cannot be ordered	
	with a MISC MATERIAL order at Grenoble.	
	Please order them directly at CWTS!

BOOMS, STICKS AND LINKAGES**BOOMS**

Select one:

L	253-2254	BOOM, ONE PIECE	4,255 4,255	\$22,100 \$22,100 NI
		Length: 5350 mm / 17' 7"		
		INCLUDES: boom cylinders; stick cylinder and one working light located on the right side of the boom.		
L	435-8511	BOOM, MH	0	\$30,400
		Length: 6400 mm / 21'		
		Material handling boom		
		INCLUDES:		
		High pressure boom lines, operated by bucket circuit at right joystick for tool open/close function in combination with STICK, 4900 MM, DROP NOSE MH. Those lines cannot be used for operation with CONTROL, MCV/TOOLCONTROL HCR or CONTROL, HAMMERFUNCTION HCR		
		INCLUDES: Medium pressure boomlines for tool rotation.		
L	421-1497	BOOM, VA VARIABLE ADJUSTABLE	0	\$27,430
		Length 5440 mm / 17' 10"		
		Two piece boom with proportional hydraulic foreboom adjustment via left foot pedal.		
		INCLUDES: boom cylinders, VA-cylinder, stick cylinder and one working light located under foreboom.		
		INCLUDES: hydraulics and controls for VA boom operation		
L	416-9656	BOOM, SHORT MH	0	\$28,950
		Length 5350 mm / 17' 56"		
		Short Material Handling boom.		
		REQUIRES: Bucket circuit boom lines and Medium pressure boom lines.		

STICKS

Select one:

NOTE: Includes bucket cylinder; Requires a bucket linkage.

P	253-1758	STICK, 7' 3"	1,213 1,213	\$5,620 \$5,620 NI
P	253-1759	STICK, 8' 2"	1,279 1,279	\$5,760 \$5,760 NI
P	253-1760	STICK, 9' 2"	1,323 1,323	\$5,870 \$5,870 NI
P	235-1831	STICK, 10'10" INDUSTRIAL	1,146 1,146	\$8,720 \$8,720 NI
		Drop nose stick for material handling applications.		
		INCLUDES: Auxiliary high pressure sticklines, operated by bucket circuit at right joystick for tool open/close function.		
		INCLUDES: Auxiliary medium pressure stick lines for tool rotation.		
		REQUIRES: Medium pressure boomlines and		
		Either Control, Medium Pressure Function HCR Or		
		Control, joystick steering HCR		
		CANNOT BE USED WITH: Bucket linkage		
		Autolube		
		Material Handling Boom Arrangements

-----	------------	-----------------------	--------------------	---------------------------

BOOMS, STICKS AND LINKAGES (CONT.)**STICKS (Cont.)**

P	260-7556	STICK, 16' 1", DROP NOSE MH	1,874 1,874	\$11,110 \$11,110 NI
		Drop nose material handling stick MUST BE DETACHED FOR SHIPPING, when ordered in combinaison with BOOM, SHORT MH(4900 MM stick must be ordered as Not intalled). In this case Packing 0G-3154 MUST BE ORDERED INCLUDES: high pressure sticklines, operated by bucket circuit at right joystick for tool open/close function. Those lines cannot be used for operation with control, MCV/tool HCR or control, Hammer function HCR INCLUDES: Auxiliary medium pressure stick lines for tool rotation FOR USE WITH: BOOM, MH BOOM, SHORT MH CANNOT BE USED WITH: Bucket linkages		
P	260-7557	STICK 13' 9", STRAIGHT MH	2,072 2,072	\$12,900 \$12,900 NI
		Straight material handling stick for use with bucket linkage INCLUDES: Auxiliary medium pressure stick lines for tool rotation If work tool open/close function is required, MCV/TOOLCONTROL HCR and HCR PRESSURE AUXILIARY CIRCUIT BOOM & STICK LINES must be or- dered (see HYDRAULIC section) FOR USE WITH: BOOM MH BOOM SHORT MH		

CHECK VALVE PACKAGES

Select one:

Packages cannot be combined

Lowering Control Valve Packages include an Overload Warning Device, which signals hydraulic overload with an acoustical warning in the cab. Lowering control devices provide cylinder drift reduction functionality and prevent implement cylinders from from unexpected movement in case of a hose breaking.

LOWERING CONTROL VALVE PACKAGES

L	421-1475	P7: 1PC, B/SLCV	0	\$6,540
		CONSISTS OF: Overload Warning Device Boom lowering control device, reducing boom drift Stick lowering device, reducing stick-in drift Anti drift valve bucket cylinder head, reducing bucket-out drift FOR USE WITH: 1PC Boom Packages CANNOT BE USED WITH: Smart Boom		
L	421-1481	P8: 1PC, B/SLCV, W/ SB	0	\$6,540
		CONSISTS OF: Overload Warning Device Boom lowering control device, reducing boom drift Stick lowering device, reducing stick-in drift Anti drift valve bucket cylinder head, reducing bucket-out drift FOR USE WITH: 1PC Boom Packages, Smart Boom

L	360-4021	UC OUT. FRONT/ OUT. REAR 0 Width: 2750 mm / 9'02" Undercarriage with front and rear welded outriggers		NC
L	360-4023	UNDERCARRIAGE, SA HCR 0 Width: 2990 mm / 9'81" Undercarriage with front and rear welded outriggers. Recommended for use with :BOOM MH		NC
L	360-4020	UNDERCARRIAGE, SA HCR, W/BLADE 0 Width: 2990 mm / 9'81" Undercarriage with front and rear welded outriggers and a front blade. Recommended for use with :BOOM MH		\$8,450

TIRES

Select one:

DUAL TIRES (spacer rings to be ordered separately).

P	252-7281	TIRES, MITAS 11.00-20 DUAL 1,993 MITAS NB38, BIAS (DIAGONAL/CROSS PLY), PR16. Robust diagonal tires guaranteeing either a maximum grip on soft terrain or, on the other hand, increased resistance to mechanical damage during work in stony terrains. Corresponding Spacer Rings: 68mm/2.67inch CANNOT BE USED WITH: UNDERCARRIAGE NARROW HCR		\$1,120
P	252-7280	TIRES, BRIDGEST. 11.00-20 DUAL 1,993 BRIDGESTONE FG, BIAS (DIAGONAL/CROSS PLY) PR16. The FG's separate lugs are tapered for greater traction and self cleaning, resulting in an easier drive through heavy dirt and mud. Corresponding Spacer Rings: 68mm/2.67inch CANNOT BE USED WITH: UNDERCARRIAGE NARROW HCR		\$5,190
P	253-1630	TIRES, SOLID RUB. 10.00-20 DUAL 3,719 SOLID RUBBER Tires for industrial applications. Requires 20 km/h travel speed Corresponding Spacer Rings: 68mm/2.67inch		\$14,740
P	265-9260	TIRES, MITAS 10.00-20 DUAL 1,858 MITAS NB38, BIAS (DIAGONAL/CROSS PLY), PR16. Corresponding Spacer Rings: 60mm/2.36inch FOR USE WITH: UNDERCARRIAGE NARROW HCR		\$1,030

-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS**MEDIUM PRESSURE CONTROL AND JOYSTICK STEERING**

Select one

Maximum pressure: 175 bar/2538 PSI, maximum flow: 50 lpm.
Must order control, boomlines and sticklines to complete auxiliary circuit.

L	251-7943	CONTROL, MEDIUM PRESS.FUNC.HCR 82 Provides auxiliary medium pressure control circuit for use with medium pressure two directional flow attachments such as tilting buckets, clamshell buckets and grapples. Includes slider switch control on left joystick and proportional valve REQUIRES: Boom and Stick Lines Groups CANNOT BE USED WITH: Control, joystick steering		\$1,240
L	262-4662	CONTROL, JOYSTICK STEERING HCR 141 Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick. Includes: Control, Medium Pressure Function REQUIRES: Boom and Stick Lines Groups CANNOT BE USED WITH: Control, medium pressure		\$3,970

STARTERS, BATTERIES, & ALTERNATORS**BATTERY**

Select one:

P	112-7166	BATTERY, STANDARD 110 Two 12-volt batteries (750 CCA (BCI))		NC
P	112-7167	BATTERY, HEAVY DUTY 110 Two 12-volt batteries (900 CCA (BCI)) for improved cold weather starting.		\$166

OPERATOR ENVIRONMENT**WINDSHIELD**

Select one:

NOTE: If machine will be equipped with a hammer or mower, or any attachment that might generate flying objects, it is recommended to select the WINDSHIELD, 1-PC, HIGH RESIST windshield option.

L	350-8549	WINDSHIELD, 1-PC HIGH RES. HCR 0 Fixed, one piece, high impact resistant, 10mm/0.4inch laminated glass windshield and glass side and rear windows.		\$2,710
L	350-8551	WINDSHIELD, 70/30 SPLIT HCR 0 Openable, 70/30 split, 6mm/0.28inch laminated glass windshield and glass side and rear windows.		\$2,675
L	327-2833	WINDSHIELD, 70/30 SPLIT HCR 0 FOR USE WITH: 4241077 DCA11 (only)		\$2,675

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

OPERATOR ENVIRONMENT (CONT.)**SEATS**

Select one:

NOTE: All seats includes adjustable and tiltable armrests
and a headrest.

L	356-1637	SEAT, STANDARD 0	NC
		Seat includes vertical mechanical suspension with manual weight adjustment and mechanical lumbar support.	
L	356-1638	SEAT, COMFORT PLUS 0	\$810
		Seat includes vertical air suspension (low-frequency), horizontal suspension, automatic weight adjustment, mechanical lumbar support, passive climate system, seat cushion length and angle adjustment and a seat heater	
L	360-0039	SEAT, DELUXE 0	\$2,440
		Seat includes vertical air suspension (low-frequency), horizontal suspension, automatic height & weight adjustment, active climate system (two step heating & cooling), premium microfibre seat fabric, pneumatic lumbar support, seat cushion length and angle adjustment and adjustable dampening.	

SEAT-BELTS

Select one:

L	205-6210	BELT, SEAT 2" 2	NC
		Retractable seat belt	
L	8Y-4031	BELT, SEAT 3" 2	\$60
		Static seat belt	

MIRRORS

Select one:

L	333-0120	MIRROR, VA/MH BOOM 11	NC
		One mirror located on left side of the cab, two mirrors located on the right side of the machine. REQUIRES: for VA Boom and MH Boom.	
L	333-0121	MIRROR, HEATABLE VA/MH BOOM 0	\$655
		One heatable mirror located on left side of the cab, two heatable mirrors located on the right side of the machine. REQUIRES: for VA Boom and MH Boom.	
L	333-0122	MIRROR, ONE PIECE BOOM 11	NC
		One mirror located on left side of the cab, three mirrors located on the right side of the machine. REQUIRED: for One Piece Boom.	
L	333-0123	MIRROR, HEATABLE ONE PIECE BOOM 0	\$655
		One heatable mirror located on left side of the cab, three heatable mirrors located on the right side of the machine. REQUIRES: for One Piece Boom.	
L	338-8214	MIRROR, ONE PIECE BOOM / WHP 0	NC
		One mirror located on the left side of the cab, two mirrors located on the right side of the machine REQUIRES: For One Piece Boom and Waste Handling Package

OPERATOR ENVIRONMENT (CONT.)**TRAVEL SPEED LOCK**

L	254-2684	NO TRAVEL SPEED LOCK 9 Provides standard travel pedal without travel speed lock.		NC
L	250-9621	TRAVEL SPEED LOCK 9 Provides the ability to lock travel pedal at maximum speed.		\$283

PEDAL

Select one:

L	261-3608	NO PEDAL 2 Floorboard cover required if HPF/Hammer pedal is not selected		NC
L	252-6685	PEDAL, HPF/HAMMER 9 High Pressure/Hammer Pedal allows secondary operation of Hammer and Multifunction circuit in addition to the standard slider control on the right joystick. Note: Joystick slider has priority.		\$990
FOR USE WITH: Control, MCV/Toolcontrol Control, Hammerfunction				

CONTROL VALVE

Select one:

L	396-9645	CONTROL, 1PC & VA 0 Implement Control Valve FOR USE WITH: 1PC Boom or VA Boom		NC
L	420-1486	CONTROL, MH, STRAIGHT STICK 0 Implement Control Valve optimized for sorting grapple operation. FOR USE WITH: MH Booms and STICK, MH, STRAIGHT		NC
L	421-1480	CONTROL, MH, DROP NOSE 0 Implement Control Valve optimized for orange peel / grapple operation. FOR USE WITH: MH Booms and STICK, MH, DROP NOSE CANNOT BE USED WITH: Generator		NC
L	435-7573	CONTROL, MH, DROP NOSE W GENSET 0 Implement Control Valve optimized for orange peel / grapple and magnet operation. FOR USE WITH: MH Booms and STICK, MH, DROP NOSE		NC

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet-management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.

L	377-1940	PRODUCT LINK PL321SR 0	NC
		Using GPS technology	
		FOR USE WITH: No Generator	
P	359-4775	PRODUCT LINK PL522 0	NC
		FOR USE WITH: NO GENERATOR	
		CANNOT BE USED WITH: 15 KW GENERATOR	
		12.5 KW GENERATOR	
P	359-4779	PRODUCT LINK PL522 0	NC
		FOR USE WITH: GENERATOR, 15 KW HCR	
P	359-4776	PRODUCT LINK PL522 0	NC
		FOR USE WITH: 12.5 KW GENERATOR	
L	319-4492	NO PRODUCT LINK 0	NC
		For countries where Product Link is not certified for use,	
		Please contact your Cat marketing contact with questions.	
		FOR USE WITH: NO PRODUCT LINK Dealers	

GUARDS**GUARD**

Select one:

L	357-3315	NO GUARD 0	\$540
		Two front and one rear working light on the top of the cab	
L	370-5500	GUARD, FALLING OBJECTS 0	\$4,635
		Includes guards front, roof and two front and one rear	
		working light on the top of the cab	
		CANNOT BE USED WITH: Protector, rain cab front	
		Guard Vandalism	

OTHER ATTACHMENTS**COUNTERWEIGHT**

Select one:

P	252-9836	COUNTERWEIGHT, 8818 LBS 8,818	NC

OTHER ATTACHMENTS (CONT.)**LUBRICATIONS**

Select one:

L	286-6928	HYDRAULIC OIL, MINERAL HCR	672	NC
		Filling with CAT HYDO Advanced 10 oil		
L	286-6931	HYDRAULIC OIL, BIODEGRADABLE	672	\$3,775
		Filling with CAT HEES biodegradable synthetic ester hydraulic oil.		

TRAVEL SPEEDS & COOLING PACKAGES

Select one:

High ambient:

L	360-2853	12.4 MPH HIGH AMBIENT	0	NC
		Limits machine maximum travel speed to 20 KPH/12.4 MPH. Includes compatible high ambient cooling system with 52 degrees Celsius / 125.6 degrees Fahrenheit cooling capability. Required when machine is equipped with Tires, solid rubber Recommended for regions/applications with lower heavy construction equipment speed limits or when using single tires.		
L	360-2854	15.5 MPH HIGH AMBIENT	0	NC
		Allows machine to develop full speed up to 25 KPH/15.5 MPH. Includes compatible high ambient cooling system with 52 degrees Celsius / 125,6 degrees Fahrenheit cooling capability. CANNOT BE USED WITH: Tires, solid rubber		

GENERATOR

Select one:

L	321-8800	NO GENERATOR	0	NC
		FOR USE WITH: PRODUCT LINK PL522: 359-4775 PRODUCT LINK PL321: 377-1940		
L	358-9332	GENERATOR, 15 KW HCR	0	\$32,780
		15 KW Generator set with hydraulic priority valve and electronic controls. Includes cover and in cab drop time adjuster. FOR USE WITH: PRODUCT LINK PL522: 359-4779 CANNOT BE USED WITH: WASTE HANDLING PACKAGE		

INSTRUCTIONS**MACHINE DECALS (PCTO)(ANSI)**

Select one:

P	253-2259	DECALS, NORTH AMERICA (ANSI)	0	NC
		This package includes picto decals as required for North America. The word "WARNING" is on picto decals for ANSI.		
P	253-2262	DECALS, INTERNATIONAL (ISO)	0	NC
		This package includes picto decals as required for all countries except North America. Symbols only are on picto decals for ISO.

SPECIAL ARRANGEMENTS***CUSTOM PAINT***

C	262-4657	DECALS, DETACHED 0 CONTACT CUSTOM PRODUCTS FOR AVAILABILITY. This arrangement provides CAT decals, nomenclature decals and red stripe on uppercarriage and front implements shipped loose inside the cab of the machine.		NC
---	----------	---	--	----

SMART BOOM

L	364-8281	SMART BOOM 0 The device smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick-in force. The boom float attachment eases operations and operator comfort. The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading. REQUIRES: LOWERING CONTROL VALVE PACKAGES:P8,P18,P25,P29		\$2,760
---	----------	--	--	---------

ADJUSTABLE HYDRAULIC SENSITIVITY

L	364-5276	ADJ. HYDRAULIC SENSITIVITY 0 Enables the operator to select the optimal hydraulic sensitivity for each application.		\$535
---	----------	---	--	-------

WASTE HANDLING PACKAGE

L	418-6329	WASTE HANDLING PACKAGE, HCR 0 Not for use in ambient temperature above 43°C/ 110F. A special dense wire mesh prevents the radiator from clogging. Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu. A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter. With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F. CANNOT BE USED WITH: GENERATORS		\$6,610
L	358-2610	FILM, WASTE HANDLER 0 FOR USE WITH: WASTE HANDLING PACKAGE		NC

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

BOOMS, STICKS AND LINKAGES**BUCKET LINKAGES**

NOTE

Includes bucket cylinder.

If bucket linkage is ordered, a bucket pin group is required.

Machines equipped with lifting hook may require protective attachments (such as check valve boom, check valve stick, device overload warning)

Please consult local regulations regarding the use of excavators in lifting application.

P	299-5858	LINKAGE, BUCKET W/DIV.VALVE	725 725	\$4,375 \$4,375 NI
		Bucket linkage with diverter valve. Allows the operator to manually select between oil flow to the bucket cylinder or oil flow to the free swinging hydromechanical worktools mounted at the stick nose (e.g. clamshell or grapple open/close). CANNOT BE USED WITH: Stick, 3300 mm / 10'10" industrial Stick, 4900 mm / 16'1" drop nose MH Stick, 4200 mm / 13'9" straight MH		
P	299-5859	LINKAGE, BUCKET W/O DIV.VALVE	646 646	\$4,815 \$4,815 NI
		Bucket linkage without diverter valve. FOR USE WITH: STICK, 4200mm / 13'9" Straight MH CANNOT BE USED WITH: STICK, 3300 MM INDUSTRIAL STICK, 4900 MM, DROP NOSE MH		
P	257-2227	LINKAGE,BKT.W/DIV.VLV AUTOLUBE	725	\$5,420
		Bucket linkage with diverter valve and automatic lubrication system for the linkage. Allows the operator to manually select between oil flow to the bucket cylinder or oil flow to the free swinging hydromechanical worktools mounted at the stick nose (e.g. clamshell or grapple open/close). REQUIRES: AUTOLUBE LUBRICATION SYSTEM FOR BOOM AND STICK CANNOT BE USED WITH: Stick, 3300 mm / 10'10" industrial Stick, 4900 mm / 16'1" drop nose MH Stick, 4200 mm / 13'9" straight MH		
P	257-2229	LINKAGE,BKT.W/O DIV.VLV A-LUBE	646	\$5,210
		Bucket linkage without diverter valve and automatic lubrication system for the linkage. REQUIRES: AUTOLUBE LUBRICATION SYSTEM FOR BOOM AND STICK FOR USE WITH: Stick, 4200 MM / 13'9" straight MH		

ANTI DRIFT VALVES

L	281-5583	VALVE, ANTI DRIFT TOOL CONTROL	24	\$575
		Reduces drifting of the tools operated by the Control, Multi- function/MCV/Toolcontrol circuit FOR USE WITH: Control, MCV/Toolcontrol		

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

UNDERCARRIAGE**SPACER RINGS**

L	8U-6725	SPACER RINGS 256 Provides one set of 68 mm/2.67 inch spacer rings mounted in between the dual tires, closing the space in order to keep dirt out FOR USE WITH: Solid Rubber 10.00-20 Bridgestone 11.00-20 Mitas 11.00-20		\$495
L	8U-6723	SPACER RINGS 247 Provides one set of 60 mm/2.36 inch spacer rings mounted in between the dual tires, closing the space in order to keep dirt out FOR USE WITH: Mitas 10.00-20		\$495

HYDRAULICS**SHORT MH BOOM LINES**

L	389-8788	LINES, SHORT MH BOOM, W/O HPF 0 Provide bucket circuit boom lines for BOOM, SHORT MH if CONTROL, MCV/TOOLCONTROL HCR is not selected CANNOT BE USED WITH: CONTROL, MCV/TOOLCONTROL HCR LINES, SHORT MH BOOM, HPF		NC
---	----------	---	--	-----------

MEDIUM PRESSURE AUXILIARY HYDRAULIC CIRCUIT BOOM LINES

L	295-2072	LINES, MPF 1PC BOOM 22		\$590
L	295-2073	LINES, MPF VA BOOM 24		\$590
L	389-8792	LINES, MPF, SHORT MH BOOM 0 Provides medium pressure boom lines for Boom, SHORT MH if, CONTROL, QUICK COUPLER is not selected CANNOT BE USED WITH: CONTROL, QUICK COUPLER LINES, QC, SHORT MH BOOM		NC

MEDIUM PRESSURE AUXILIARY HYDRAULIC CIRCUIT STICK LINES

L	254-0399	LINES, MPF, 7'3" STICK 13		\$535
L	254-0400	LINES, MPF, 8'2" STICK 13		\$490
L	254-0401	LINES, MPF, 9'2" STICK 15		\$525

HIGH PRESSURE AUXILIARY HYDRAULIC CIRCUITS CONTROL GROUPS

Maximum pressure: 330 bar/4786 PSI, maximum flow: 250 lpm.

Must order control, boomlines and sticklines to complete auxiliary circuit. Those lines are not included in any Boom or Stick package

NOTE: If machine will be equipped with a hammer or mower, or any attachment that might generate flying objects, it is recommended to select the WINDSHIELD, 1-PC, HIGH RESIST windshield option.

BUCKETS (CONT.)**EXCAVATION BUCKETS (Pin-on Buckets)**

They cannot be ordered with MISC Material Order

Dealers in US-A and LACD can place miscellaneous bucket orders by consulting Cat Work Tools at 1-800- 255-2372 for bucket options, availability and appropriate ordering instructions.

Cat Work Tool inventories similar buckets that can be interchanged with the buckets provided by the factory in Europe.

Buckets include welded on tooth adapters and adjuster.

The buckets do not include tips. Please order required quantity of tips.

The buckets require a bucket pin group.

P	359-4775	PRODUCT LINK PL522	0	NC
		Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet-management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.		

MACHINE SECURITY SYSTEM

L	290-8448	SECURITY SYSTEM, MACHINE	2	NC
		Advanced, programmable system to manage access to machine. Requires special Machine Security System keys. Machine shipped with system inactive but with two of these keys already programmed into system. Requires Caterpillar Service Tool Electronic Technician (ET) to activate and to program system for additional keys. Additional keys available through Parts Distribution.

TECHNOLOGY PRODUCTS**MACHINE SECURITY SYSTEM**

L	290-8448	SECURITY SYSTEM, MACHINE 2		NC
		Advanced, programmable system to manage access to machine. Requires special Machine Security System keys. Machine shipped with system inactive but with two of these keys already programmed into system. Requires Caterpillar Service Tool Electronic Technician (ET) to activate and to program system for additional keys. Additional keys available through Parts Distribution.		

PRODUCT LINK COMMUNICATIONS

P	359-4775	PRODUCT LINK PL522 0		NC
		Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet- management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.

FIELD INSTALLED ATTACHMENTS***MISCELLANEOUS NOT INSTALLED ATTACHMENTS***

This attachment cannot be ordered with a machine, but only as a MISC order using OG-0194.

Please note that below kit is not compatible with current production M318D machines (prefix D8W).

L	362-3781	KIT, OUTRIGGERS, FRONT, WELD-ON	0	\$17,510
		OUTRIGGERS, FRONT, WELD-ON KIT		

One set of two outriggers for front weld-on installation.

This KIT for FIELD INSTALLATION is only suitable for M318D machines (prefix W8P) with a serial number greater than W8P05020, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1745) including Undercarriage Frame 341-9119). It is not compatible with any other undercarriage package or frame.

The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

notemb

The welding of the structural parts must be performed by a certified welder.

Please contact Product Group if further technical details are required.

FIELD INSTALLED ATTACHMENTS (CONT.)**WASTE HANDLING PACKAGE**

L	418-6331	KIT,WASTE HANDLING PACKAGE HCR 0		\$8,600 NI
		Not for use in ambient temperature above 43°C/ 110F. A special dense wire mesh prevents the radiator from clogging. Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu. A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter. With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F. CANNOT BE USED WITH: BOOM;ONE PIECE

**M322D HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE**Ship Weight
lbsLIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Engine:
Altitude capability: 3000m/9842 ft
Automatic engine speed control
Automatic starting aid
Power mode selector (economy and standard)

UNDERCARRIAGE

Creeper speed
Four wheel drive
Full hydraulic steering with emergency capability
Heavy-duty axles with advanced disc brake system and travel motor with adjustable braking force
Oscillating front axle, lockable, with remote greasing point
Steps, wide, left and right
Toolbox
Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
Heavy lift mode
Oil cooler
Separate swing pump
Stick regeneration circuit
Load sensing hydraulic system
Adjustable Hydraulic Sensitivity

ELECTRICAL

Alternator, 75 Ampere
Lights:
Boom working light
Cab Interior
Roading lights (two front, two rear)
Halogen rear lights
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with 2006/42/EC and tested according ISO 12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel wiper and washer
Coat hook

Floor mat, washable, with storage compartment
Instrument panel and gauges with full color graphical display
Rearview camera
Interior lighting
Joysticks, pilot operated
Left side console, tiltable, with lock-out for all controls
Literature compartment behind seat
Literature holder in right hand cab panel
Mobile phone holder
Mounting provisions for radio and speakers
Parking brake
Positive filtered ventilation, variable speed
Power supply, 12V-7A
Kit, Radio Installation 12V and speakers
Rear window, emergency exit
Skylight
Sliding door windows
Steering column, tiltable
Storage compartment suitable for a lunch box
Sunshade for windshield and skylight

OTHER STANDARD EQUIPMENT

Automatic swing brake
Capability to add auxiliary hydraulic circuits
Caterpillar Datalink and Electronic Technician capability
Caterpillar Product Link ready
Door locks and cab locks with Caterpillar one-key security system
SOS quick sampling valves for engine oil, hydraulic oil and coolant

SMART BOOM & RIDE CONTROL

INCLUDES: Boom lowering control device, and overload warning device, which signals a hydraulic overload with an acoustical warning in the cab.

The device Smartboom allows the operator to free downward and upward the motion of the boom, i.e. to lower the boom on its own weight/lift it up by stick in force.

The boom float attachment eases operations and increases operator comfort.

The device smartboom is useful and recommended in the following applications: Material Handling, Hammering, Rock-cleaning, Smooth leveling and Truck loading.

P	252-7280	TIRES,BRIDGEST.11.00-20 DUAL 1,993 BRIDGESTONE FG, PR16 (DIAGONAL/CROSS PLY) The FG's separate lugs are tapered for greater traction and self cleaning, resulting in an easier drive through heavy dirt and mud. Corresponding Spacer Rings: 68mm/2.67inch		\$5,190

HYDRAULICS**SELECT ONE:*****NO AUXILIARY HYDRAULIC CONTROLS***

L	299-9227	NO CONTROL, MEDIUM PRESSURE 0 Mandatory if no auxiliary circuit is required. FOR USE WITH: Boom lines without Aux.High Pressure Circuit CANNOT BE USED WITH: Quick coupler control		NC
---	----------	--	--	-----------

MEDIUM PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with
slider switch on left joystick for tilt/rotate function of medium
pressure two directional flow attachments such as tilting buckets,
clamshell buckets or grapples.
Must order boom and stick lines and couplings to
complete auxiliary circuit

L	251-8008	CONTROL,MEDIUM PRESS.FUNCTION 40 REQUIRES: Boom and Stick Lines Groups FOR USE WITH: Boom lines without Aux. High Pressure Circuit		\$1,250
---	----------	---	--	----------------

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS**

Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one way tools such as hammers or compactors.

Must order Stick Lines and Couplings to complete auxiliary circuit

L	426-0379	CONTROL, HAMMER 0		\$2,595
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		
		CANNOT BE USED WITH: Quick coupler control		

COMBINED AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.

Provide auxiliary high pressure control circuit actuated with slider switch on right joystick for one/two way tools such as hammer/compactor plates, or the open/close function of shears, crusher or grapples.

Must order boom and stick lines and couplings to complete auxiliary circuit

L	426-0382	CTRL, COMBINED AUXILIARY 0		\$6,220
		INCLUDES: Anti drift valve tool control		
		REQUIRES: Boom and Stick Lines Groups		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		
L	426-0386	CTRL, COMB. AUX. W/JOYST 0		\$8,280
		Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick.		
		INCLUDES: Anti drift valve tool control		
		REQUIRES: Boom and Stick Lines Group		
		FOR USE WITH: Boom lines including Aux.High Pressure Circuit		

2nd HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS

Provide auxiliary medium pressure control circuit actuated with slider switch on left joystick for tilt/rotate function of medium pressure two directional flow attachments such as tilting buckets, clamshell buckets or grapples.

Provide auxiliary high pressure control circuit actuated with slider switch on left joystick for one way/two way tools such as hammer/compactor plates, or the open/close function of shears, crushers, or grapples.

Provide additional auxiliary high pressure control circuit.

Must order boom and stick lines and couplings to complete auxiliary circuit.

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**2nd HIGH PRESSURE AUXILIARY HYDRAULIC CONTROLS (Cont.)**

L	426-0388	CTRL, 2ND HP W/JOYST, VA 0 Enables steering of the machine while travelling in first gear by using the sliding switch on the right hand joystick. INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: VA Boom lines including Aux.High Pressure Circuit LANE 3 ONLY		\$12,070
L	426-0387	CTRL, 2ND HP W/JOYST, 1PC 0 Enables steering of the machine while travelling in first gear byol using the sliding switch on the right hand joystick. INCLUDES: Anti drift valve tool control REQUIRES: Boom and Stick Lines Groups FOR USE WITH: 1PC Boom lines including Aux.High Pressure Circuit LANE 3 ONLY		\$12,070

AUXILIARY HYDRAULIC PEDAL**SELECT ONE:**

L	252-6685	PEDAL, HPF/HAMMER 9 High Pressure/Hammer Pedal allows secondary operation of auxiliary high pressure control circuit in addition to the standard slider control on the right joystick. Note: Joystick slider has priority. FOR USE WITH: Control, combined auxiliary or control, hammer		\$990
L	261-3608	NO PEDAL 2 Floorboard cover required if HPF/Hammer pedal is not selected.		NC

STARTERS, BATTERIES, & ALTERNATORS**BATTERY****SELECT ONE:**

P	112-7167	BATTERY, HEAVY DUTY 110 Two 12-volt batteries (900 CCA (BCI)) for improved cold weather starting.		\$166
P	112-7166	BATTERY, STANDARD 110 Two 12-volt batteries (750 CCA (BCI))		NC

TECHNOLOGY PRODUCTS**PRODUCT LINK COMMUNICATIONS**

Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet management effectiveness.

Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink™. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and productivity. Productivity plans require Payload information.

TECHNOLOGY PRODUCTS**MACHINE SECURITY SYSTEM**

L	290-8448	SECURITY SYSTEM, MACHINE 2 Advanced, programmable system to manage access to machine. Requires special Machine Security System keys. Machine shipped with system inactive but with two of these keys already programmed into system. Requires Caterpillar Service Tool Electronic Technician (ET) to activate and to program system for additional keys. Additional keys available through Parts Distribution.		NC
L	0P-2529	MACH.SECU.SYST.INSTALLATION 0 REQUIRES: Machine Security System & NON-EU dealers CANNOT BE USED WITH: EU dealers		\$1,200

GUARDS

L	370-5500	GUARD, FALLING OBJECTS 0 Includes guards front, roof and lights working front/rear cab. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: GUARD, VANDALISM		\$4,635 NI
L	188-4940	GUARD, VANDALISM 55 Foldable protection for the front windshield, stored on top of left undercarriage toolbox. FOR USE WITH: LANE 3 ONLY CANNOT BE USED WITH: Guard, Falling Objects	55	\$620 \$620 NI

OTHER ATTACHMENTS**LINE GROUPS COUPLINGS****COUPLING'S DIVERTER VALVES**

A coupling DV is required to complete
the diverter valve lines if machine is
equipped with a stick including Bucket Linkage

P	392-3970	COUPLING, STANDARD DV 0 CVV type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING, QUICK DISC DV		NC
P	392-3968	COUPLING, QUICK DISC DV 0 CVC type couplings FOR USE WITH: Bucket Linkage with diverter valve for grapple open/close CANNOT BE USED WITH: COUPLING STANDARD DV		\$242

COUPLING'S MEDIUM PRESSURE CIRCUIT

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OTHER ATTACHMENTS (CONT.)**LINE GROUPS COUPLINGS (Cont.)**

A coupling medium pressure is required
to complete the medium pressure circuit
if the stick is equipped with
Medium Pressure Function Lines

P	392-2938	COUPLING, STANDARD MPF 0 CVC type couplings FOR USE WITH: Stick lines medium pressure(grapple rotate, bucket tilt) CANNOT BE USED WITH: COUPLING QUICK DISC MPF		NC
P	392-2932	COUPLING, QUICK DISC MPF 0 CVC type couplings FOR USE WITH: Stick lines medium pressure(grapple rotate, bucket tilt) CANNOT BE USED WITH: COUPLING STANDARD MPF		\$335
P	176-6765	COUPLING, QUICK DISC MPF DC 2 Provides adapters (CVC type coupling to internal thread M22 x 1.5) for stick lines medium pressure, side (bucket tilt) FOR USE WITH: COUPLING, QUICK DISC MPF		\$328

COUPLING'S TOOL/HAMMER

A coupling Tool/Hammer is required to complete
the high pressure auxiliary hydraulic circuit
if the machine is equipped with High Pressure
Auxiliary Circuit Stick Lines .

P	391-2641	COUPLING, TOOL/HAMMER, SWISS 0 Roflex coupling REQUIRES: Road Homologation Switzerland FOR USE WITH: Stick lines HPF/HAMMER CANNOT BE USED WITH: COUPLING, TOOL/HAMMER		NC
P	391-2634	COUPLING, TOOL/HAMMER 0 SAE flange FOR USE WITH: Stick lines HPF/HAMMER CANNOT BE USED WITH: COUPLING, TOOL/HAMMER, SWISS		NC

QUICK COUPLERS**CAT QUICK COUPLER HYDRAULIC CIRCUIT**

Provides necessary hydraulics for usage with CWTS dedicated
quick couplers.
Must order control, boom lines and stick lines to complete
auxiliary circuit.

L	340-3109	CONTROL, QUICK COUPLER 0 CANNOT BE USED WITH: No Control, Medium Pressure		\$2,460

EXCAVATION BUCKETS (Pin-on Buckets)

They cannot be ordered with MISC Material Order.

Dealers in NACD and LACD can place miscellaneous bucket orders by consulting Cat Work Tools at 1-800- 255-2372 for bucket options, availability and appropriate ordering instructions.

Cat Work Tools inventories similar buckets that can be interchanged with the buckets provided by the factory in Europe.

Buckets include welded-on tooth adapters and adjuster.

The buckets do not include tips.

Please order required quantity of tips.

The buckets require either PIN, BUCKET/ADJ or PIN, BUCKET, TDP

FIELD INSTALLED ATTACHMENTS**MISCELLANEOUS NOT INSTALLED ATTACHMENTS**

This attachment cannot be ordered with a machine, but only as a MISC order using OG-0305.

Please contact Product Group if further technical details are required.

L	365-4135	KIT, OUTRIGGERS, FRONT, WELD-ON 0 One set of two outriggers for front weld-on installation. Please note that below kit is not compatible with current production M318D machines (prefix P8L).	\$18,520 NI
---	----------	---	-------------

This KIT for FIELD INSTALLATION is only suitable for M322D machines (prefix W2S) with a serial number greater than W2S05000, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1746) including Undercarriage Frame 341-9134). It is not compatible with any other undercarriage package or frame. The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

The welding of the structural parts must be performed by a certified welder.

L	418-6331	KIT, WASTE HANDLING PACKAGE HCR 0 Includes a reversible fan, which automatically reverses the airflow after a set interval. The interval is manually adjustable between 5 and 60 minutes, through the monitor menu. To prevent clogging of the radiator, the engine hood has special dense wire mesh. Also included are two cyclone filters on top of the right front hood, providing clean, filtered air to the engine air filter, the air-to-air after cooler and the air conditioner condenser. Not for use in ambient temperature above 43°C/110°F With Waste Handling Package installed, engine will derate when travelling in high ambient temperatures above 38°C/100°F This might affect travel performance.	\$8,600 NI
---	----------	--	------------

Please contact Product Group if further technical details are required.

M322D MH HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

Does not include :

Boom

Stick

Bucket

Bucket linkage

Bucket retention pin

(These items must be ordered separately:
see attachments)

POWERTRAIN

Engine:

Air filter

Altitude capability: 3000m/9842ft

Automatic engine speed control

Automatic starting aid

Cat C6.6 engine with ACERT technology,
129,5KW electronically controlled.

Fuel filter

Fuel/water separator with level
indicator

Muffler

Power mode selector (economy and
standard)

UNDERCARRIAGE

Creeper speed

Four wheel drive

Full hydraulic steering with emergency
capability

Heavy-Duty axles with advanced disc
brake system and travel motor with
adjustable braking force

Oscillating front axle, lockable, with
remote greasing point

Seven way electrical Swivel

Steps, wide, left and right

Tires

Toolboxes, Left & Right

Two-piece drive shaft

Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses

Heavy lift mode

Oil cooler

Separate swing pump

Stick regeneration circuit

Variable displacement, load sensing
hydraulic system

ELECTRICAL

Alternator, 75 Ampere

Light:

Boom working light

M322D MH HYDRAULIC WHEEL EXCAVATOR
GRENOBLE, FRANCE

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

ELECTRICAL (CONT.)

Cab Interior
Roading lights (two front, two rear)
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free
batteries
Led lights

Power supply, 12V-7A
Rear window, emergency exit
Seat belt
Seat with adjustable suspension
Skylight
Sliding door windows
Steering column, tiltable
Sunshade for windshield and skylight
Rearview camera

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with
2006/42/EC and tested according ISO
12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Steps uppercarriage
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel
wiper and washer
Climate control
Covered storage compartment suitable for
a lunch box
Coat hook
Floor mat, washable, with storage
compartment
Instrument panel and gauges with full
color graphical display
-Gauges for fuel level, engine coolant
temperature and hydraulic oil
temperature
-Information and warning messages in
local language
-Filters/fluids change interval,
working hour
-Indicators for headlights, turning
signal, low fuel, engine dial setting
-Clock with 10 day backup battery
Interior lighting
Joysticks, pilot operated
Joystick, slider/slider
Laminated front windshield
Left side console, tiltable, with
lock-out for all controls
Literature compartment behind seat
Literature holder in right hand cab
panel
Mirrors
Mobile phone holder
Mounting provisions for radio and
speakers
Parking brake
Positive filtered ventilation, variable
speed

OTHER STANDARD EQUIPMENT

Anti-drift valve for boom cylinder
Automatic swing brake
Capability to add auxiliary hydraulic
circuits
Caterpillar Datalink and Electronic
Technician capability
Caterpillar Product Link ready
Counterweight
Door locks and caps locks with
Caterpillar one-key security system
SOS quick sampling valves for engine
oil, hydraulic oil and coolant
Uppercarriage access steps
Kit, Radio Installation 12V and speakers

Select one:

P	259-6808	COUNTERWEIGHT, 11900 LBS	11,905	\$1,775
		Heavy Counterweight		

LUBRICATIONS

Select one:

L	286-6929	HYDRAULIC OIL, MINERAL HCR	794	NC
		Filling with CAT HYDO Advanced 10 oil		
L	286-6932	HYDRAULIC OIL, BIODEGRADABLE	794	\$4,800
		Filling with CAT HEES biodegradable synthetic ester hydraulic oil.		

TRAVEL SPEEDS & COOLING PACKAGES

Select one:

High ambient:

L	360-2853	12.4 MPH HIGH AMBIENT	0	NC
		Limits machine maximum travel speed to 20 KPH/12.4 MPH. Includes compatible high ambient cooling system with 52 degrees Celsius / 125.6 degrees Fahrenheit cooling capability. Required when machine is equipped with Tires, solid rubber Recommended for regions/applications with lower heavy construction equipment speed limits or when using single tires.		
L	360-2854	15.5 MPH HIGH AMBIENT	0	NC
		Allows machine to develop full speed up to 25 KPH/15.5 MPH. Includes compatible high ambient cooling system with 52 degrees Celsius / 125.6 degrees Fahrenheit cooling capability. CANNOT BE USED WITH: Tires, solid rubber		

GENERATOR

Select one:

L	338-8190	NO GENERATOR	0	NC
		FOR USE WITH: PRODUCT LINK PL522: 359-4775 PRODUCT LINK PL321: 377-1940		
L	358-9322	GENERATOR, 15 KW HCR	0	\$32,780
		15 KW Generator set with hydraulic priority valve and electronic controls. Includes cover and in cab drop time adjuster. FOR USE WITH: PRODUCT LINK PL522: 359-4779

INSTRUCTIONS***MACHINE DECALS (PICTO) (ANSI)***

Select one:

P	253-2259	DECALS, NORTH AMERICA (ANSI) 0	NC
		This package includes picto decals as required for North America. The word "WARNING" is on picto decals for ANSI.	
P	253-2262	DECALS, INTERNATIONAL (ISO) 0	NC
		This package includes picto decals as required for all countries except North America. Symbols only are on picto decals for ISO.	

PACKING***EXPORT PACKING***

Select one:

0G-9240	COMPLETE STORAGE PROTECTION 0	\$361 NET
	Includes CILIX and foam protection on all cylinders Machines from the factory have been sprayed with Fluid Film TM. This product is added for corrosion protection while shipping and for extended storage periods. This product will need to be power washed with soapy water prior to shipment to the customer. Cilix AND foam protection on all cylinders are also included in this storage protection procedure. Recommended for: Sea and all type of long distance shipment

SPECIAL ARRANGEMENTS***CUSTOM PAINT***

C	262-4657	DECALS, DETACHED 0 CONTACT CUSTOM PRODUCTS FOR AVAILABILITY. This arrangement provides CAT decals, nomenclature decals and red stripe on uppercarriage and front implements shipped loose inside the cab of the machine.		NC
---	----------	---	--	----

ADJUSTABLE HYDRAULIC SENSITIVITY

L	364-5276	ADJ. HYDRAULIC SENSITIVITY 0 Enables the operator to select the optimal hydraulic sensitivity for each application.		\$535
---	----------	---	--	-------

WASTE HANDLING PACKAGE

L	418-6330	WASTE HANDLING PACKAGE, HCR 0 Not for use in ambient temperature above 43°C/ 110F. A special dense wire mesh prevents the radiator from clogging. Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu. A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter. With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F. CANNOT BE USED WITH: GENERATORS		\$6,610
---	----------	---	--	---------

BOOMS, STICKS AND LINKAGES***BUCKET LINKAGES*****NOTE**

Includes bucket cylinder.

If bucket linkage is ordered, a bucket pin group is required.

Machines equipped with lifting hook may require protective attachments (such as check valve boom, check valve stick, device overload warning)

Please consult local regulations regarding the use of excavators in lifting application.

P	299-5860	LINKAGE, BUCKET W/DIV.VALVE 842 842 Bucket linkage with diverter valve. Allows the operator to manually select between oil flow to the bucket cylinder or oil flow to the free swinging hydromechanical worktools mounted at the stick nose (e.g. clamshell or grapple open/close). CANNOT BE USED WITH: Stick, 4900 mm / 16'1" drop nose MH Stick, 5900 mm / 19'4" drop nose MH Stick, 4800 MM / 15'9" straight MH		\$4,835 \$4,835 NI

POWERTRAIN

Engine:
Air filter
Altitude capability: 3000m/9842ft
Automatic engine speed control
Automatic starting aid
Cat C6.6 engine with ACERT technology,
129KW electronically controlled.
Fuel filter
Fuel/water separator with level
indicator
Muffler
Power mode selector (economy and
standard)

UNDERCARRIAGE

Creeper speed
Four wheel drive
Full hydraulic steering with emergency
capability
Heavy-duty axles with advanced disc
brake system and travel motor with
adjustable braking force
Oscillating front axle, lockable, with
remote greasing point
Steps, wide, left and right
Tires
Toolboxes, Left & Right
Two-piece drive shaft
Hydrostatic transmission, two speed

HYDRAULICS

Cat XT-6 ES hoses
Heavy lift mode
Oil cooler
Separate swing pump
Stick regeneration circuit
Variable displacement, load sensing
hydraulic system

ELECTRICAL

Alternator, 75 Ampere
Lights:
Boom working light
Cab Interior

Rooding lights (two front, two rear)
Led rear lights
Beacon, rotating removable
Main shut-off switch
Signal/warning horn
Two Caterpillar maintenance free
batteries

OPERATOR ENVIRONMENT

Reinforced cab structure compliant with
2006/42/EC and tested according ISO
12117-2:2008
Adjustable armrests
Ash tray with 24V cigarette lighter
Beverage cup/can holder
Bolt-on FOGS capability
Bottle holder
Bottom mounted, intermittent, parallel
wiper and washer
Climate control
Coat hook
Floor mat, washable, with storage
compartment
Instrument panel and gauges with full
color graphical display
-Gauges for fuel level, engine
coolant temperature and hydraulic
oil temperature
-Information and warning messages in
local language
-Filters/fluids change interval,
working hour
-Indicators for headlights, turning
signal, low fuel, engine dial
setting
-Clock with 10 day backup battery
Interior lighting
Joysticks, pilot operated
Laminated front windshield
Left side console, tiltable, with
lock-out for all controls
Lights working cab front/rear
Literature compartment behind seat
Literature holder in right hand cab
panel
Mirrors
Mobile phone holder
Mounting provisions for radio and
speakers
Parking brake

0P-9001	LANE 1 ORDER	0	NC
	Order from Product Distribution Center (PDC)		

EXPORT PACKING**SELECT ONE**

0G-9240	COMPLETE STORAGE PROTECTION	0	\$361 NET
	Includes CILIX and foam protection on all cylinders		
	Machines from the factory have been sprayed with Fluid Film TM.		
	This product is added for corrosion protection while shipping		
	and for extended storage periods. This product will need to be power		
	washed with soapy water prior to shipment to the customer.		
	Cilix AND foam protection on all cylinders are also included		
	in this storage protection procedure.		
	Recommended for: Sea and all type of long distance shipment		

PRODUCT LINK COMMUNICATIONS**SELECT ONE**

P	359-4775	PRODUCT LINK PL522	0	NC
		Cat Product Link is part of Caterpillar's fleet management		
		system that allows remote monitoring of equipment with		
		features and capabilities that will improve overall fleet-		
		management effectiveness. Cat Product Link is integrated into		
		the machine interacting with engine, transmission and		
		implement ECMs data. Events and diagnostic codes as well as		
		hours, fuel, idle time and other detailed information is		
		transmitted and displayed in a secure web based application,		
		VisionLink. The VisionLink application includes powerful tools		
		and features for processing and conveying information to		
		customer users and dealers. Managing your entire fleet of		
		equipment begins with the Essentials plan that offers mapping,		
		working and idle time, fuel level and more. Additional value can		
		be added through the following additional subscription		
		offerings: Maintenance, Health, Utilization, Health Extended,		
		Utilization Extended and Productivity. Productivity plans require		
		Payload information.

TECHNOLOGY PRODUCTS (CONT.)**PRODUCT LINK COMMUNICATIONS**

P	359-4775	PRODUCT LINK PL522 0		NC
		Cat Product Link is part of Caterpillar's fleet management system that allows remote monitoring of equipment with features and capabilities that will improve overall fleet-management effectiveness. Cat Product Link is integrated into the machine interacting with engine, transmission and implement ECMs data. Events and diagnostic codes as well as hours, fuel, idle time and other detailed information is transmitted and displayed in a secure web based application, VisionLink. The VisionLink application includes powerful tools and features for processing and conveying information to customer users and dealers. Managing your entire fleet of equipment begins with the Essentials plan that offers mapping, working and idle time, fuel level and more. Additional value can be added through the following additional subscription offerings: Maintenance, Health, Utilization, Health Extended, Utilization Extended and Productivity. Productivity plans require Payload information.

FIELD INSTALLED ATTACHMENTS***MISCELLANEOUS NOT INSTALLED ATTACHMENTS***

This attachment cannot be ordered with a machine, but only as a MISC order using OG-0195.

Please note that below kit is not compatible with current production M322D machines (prefix D2W).

L	365-4135	KIT, OUTRIGGERS, FRONT, WELD-ON	0	\$18,520
		OUTRIGGERS, FRONT, WELD-ON KIT		

One set of two outriggers for front weld-on installation.

This KIT for FIELD INSTALLATION is only suitable for M322D machines (prefix W2S) with a serial number greater than W2S05000, and including a front empty undercarriage (P2: UC BLADE REAR: 352-1746) including Undercarriage Frame 341-9134). It is not compatible with any other undercarriage package or frame.

The KIT provides special instructions, and includes all necessary structural, electrical and hydraulic parts to install and to control the outriggers

notemb

The welding of the structural parts must be performed by a certified welder.

Please contact Product Group if further technical details are required.

FIELD INSTALLED ATTACHMENTS (CONT.)**WASTE HANDLING PACKAGE**

L	418-6331	KIT,WASTE HANDLING PACKAGE HCR 0		\$8,600 NI
		Not for use in ambient temperature above 43°C/ 110F. A special dense wire mesh prevents the radiator from clogging. Included is also a reversible fan, which automatically reverses the airflow after a set interval, which is adjustable between 5 and 60 minutes, through the monitor menu. A cyclone filter on top of the right front hood, provides clean, filtered air to the engine air filter. With Waste Handling Package installed, machine ambient temperature capability will be lowered to 43°C/ 110F, and the engine will derate when working in higher ambient temperature than 43°C/ 110F. CANNOT BE USED WITH: BOOM;ONE PIECE

Standard Equipment:

ELECTRICAL

65 Ampere alternator
Light, genset box mounted
Light, cab mounted (one)
Warning horn (front)

OPERATOR ENVIRONMENT

Reinforced Cab structure compliant with 2006/42/EC
Adjustable pilot operated joystick type (wrist lever) controls with integral electrical switches for operation of the grapple rotate, cab riser, horn, smart boom disable and magnet lift/drop
Radio mounting (DIN), with antenna and mounting for two stereo speakers
12V-7A power supply for radio and multipurpose socket
Ashtray with lighter
Beverage holder
Interior lighting and coat hook
Wiring provision for electrical seat heating and beacon light
Floor mat
Positive Filtered Ventilation
Instrumental panel and gauges
Parking brake
Bolt-on FOGS capability
Sliding door window
Polycarbonate skylight
Sun shade for skylight and front windshield
Windshield wiper (parallel type) and washer
Alternate exit: hammer to break rear window glass
Automatic climate control with bi-level air conditioner, heater and defroster
Tiltable steering column
Travel control pedals
Storage compartment suitable for lunch box
Neutral lever lockout for all controls
Adjustable pilot operated joystick type (wrist lever) controls each with 3 on/off buttons and 1 slider
Monitor:
-Full graphic and full color display with language capability
-Warning information, filter and fluid change information
-Working hour information
-Machine condition, error code and tool

mode setting information
-Start-up level check for hydraulic oil, engine oil and engine coolant
Heavy lift mode selection

POWERTRAIN

CAT C-7 Diesel Engine
Standard power version for EU countries: (EU Stage IIIA Certified Engine - 140KW)
Standard power version for NACD: M325D (EPA/ARB Flexibility Engine - 140KW)
High power version for NACD: M325DL (EPA/ARB Flexibility Engine - 154KW)
52°C cooling capability
2300m/7500ft altitude capability
24-volt electric starting
Standard power version for all other territories:
Meets non-current Tier 3 or Stage IIIA emission levels
Radial seal air filters (13") with double element, integrated cyclonic
Caterpillar extended life coolant
Automatic engine speed control with push button return to idle
Water separator in fuel line
Muffler

UNDERCARRIAGE

Creeper speed
Exclusive 3 position transmission
braking controls
Four dual 12.00-20 solid rubber tires on M325D MH
Four 16.00-25 single solid tires on M325DL MH
Four wheel hydrostatic drive with on-the-go shifting
4 independent or simultaneously controlled hydraulic stabilizers with single axis float pad
Fully hydraulic braking system
Hydraulic maximum speed limiter
Internal oil disk brakes
Lockable oscillating axle
Two wheel steer
2 speed hydrostatic transmission
Wide steps on both sides

OTHER STANDARD EQUIPMENT

Automatic swing parking brake
Cat 2.6m (8'5") Hydraulically

**PM-102 COLD PLANER
MINERBIO, ITALY**Ship Weight
lbsLIST PRICE
AT PO ENTRY**Standard Equipment:**

The under listing (standard equipment)
is general description of an PM-102
equipped with all no charge (NC) items.

POWERTRAIN

CAT C7 diesel, 6-cylinder,
turbocharged, aftercooled 225Hp
Power and Torque Curve Optimized for
Milling Applications
EPA TIIIa / EU Stage 3 emissions
certified
Engine Diagnostic Connector (for Cat ET)
Air cleaner, dry type dual element with
integral precleaner
Belt, automatic tensioner
Fuel filter/water separator
Hydrostatic transmission
Computerized load control
On Demand Traction Flow divider

ELECTRICAL

Backup Alarm
Alternator, 68amp
Batteries, two maintenance free,
750 CCA each
Horn, forward warning
Electrical System, 24 Volt
Work lights (7)

OPERATOR ENVIRONMENT

Single right side operation station
with adjustable seat
Operator platform with visibility to
both sides of the machine
Machine monitoring system
Lockable vandalism guards for all
control panels
Platform handrails/guardrails
Control and propel consol
Propel Lever
Steering Wheel
Electronic Machine Management System
Digital graphic display for
diagnostics and operating instructions
Automatic Drum shutoff on clutch
slip
Rear RH Leg Steering
Load Control
Rear RH Leg Retraction
Water Spray System
Two Level Warning System w/Action
Light and Horn (Warning; Critical
Warning)
Power Assist Steering
Throttle Control Manual, Auto and Low

Idle
Quick Detach Fuse/Relay/Controller/
Wiring Panel

OTHER STANDARD EQUIPMENT**ROTOR DRIVE SYSTEM**

Caterpillar Patented Tool Holder with
Easy Extraction Feature
External Floating Side Plates
Dry Clutch, Belt Transmission and
Automatic Tensioner
Tool Water Cooling with Dedicated Spray
System

CONVEYORS

Front Loading
Dual Stage, infinitely variable speed,
reversing
Folding Downward Discharge Conveyor
totally detachable
550mm wide Collection Conveyor
600mm wide Discharge Conveyor
+ /- 41deg swing angle

OTHERS

Doors, service access, hinged, locking
Fuel Tank 400L
Pressure test ports with quick connect
Water Tank 1060L
Sound Suppression insulation kit
Sight Gauges (Water, Hydraulic Oil,
Filter Restriction)
Steering Guide
Mirrors

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

If no reference number is listed, a Lane 1 Configuration is not available

LANE 2/3 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2/Lane 3 Configuration is not available

271-1317	PM-102 COLD PLANER	28,175	\$348,580
----------	------------------------------	--------	------------------

0G-4046	PM 102 MISC MATL	0	NC
---------	----------------------------	---	-----------

Use this as the top level reference number when ordering miscellaneous material without ordering a machine.

To be complete, your LANE 2/3 machine order must at least contain:

- Base machine
- 0P9002 Lane 2 order - 0P9003 Lane 3 order
- Powertrain
- Mill Rotors
- Traction Type
- Operator Display
- Service Instructions - Pictograph films
- Service Instructions - Operating and Instructions Manual
- Associated 0G numbers

NOTE: We recommended and strongly encourage any Misc.Matl. Order ship loose item, less than \$500 list price, be ordered through Morton parts distribution system

NOTE: FOR SPECIAL PAINT REQUEST, CONTACT ORDER COORDINATOR

CONVEYORS

Front loading
800 mm (31.5") belt width collecting conveyor
800 mm (31.5") belt width discharge conveyor
48-Degree swing either side of center for discharging conveyor
Remote conveyor control with infinitely adjustable belt speed
Reverse speed

CONVEYOR TYPE MUST BE SPECIFIED FROM MANDATORY ATTACHMENTS SECTION

ELECTRICAL

Alarm, back-up
Alternator, 100amp
Batteries, two maintenance free, 1300 CCA each
Horn, forward warning
Starting and charging system, 24 Volt
Work lights, halogen, flood (4) front, (4) center and (4) rear
Product Link ready

OPERATOR ENVIRONMENT

Left and right side machine control stations
Machine monitoring system
Lockable vandalism guards for all consoles
Platform handrails/guardrails
Control and propel consoles:
Propel lever (one for each side)
Steering wheel (one for each side)
Electronic monitoring/warning system:
Three levels with action light (warning, critical warning, shut down)
Instrumentation:
Engine coolant, engine oil pressure
Hydraulic oil temperature
Hour meter
Indicator lights
Battery charging, hydraulic oil filter condition
Speed Tachometer (included on Gp-Elec Display)
Power assist steering for front and rear tracks:

Front tracks controlled by Steering wheel
Rear tracks controlled by Joystick switch
Steering Variable Automatic Control:
Crab, Coordinated, Rear tracks Auto-alignment
Throttle control, Low/Intermediate/High idle, electronic

POWERTRAIN

CAT C-18 diesel, ACERT, 6-cylinder, Turbocharged engine, 429 kW (575 HP)
EPA Tier III / EU Stage 3 emissions certified engine
Torque and Power Curves Optimized for Milling Applications
Air Compressor
Air cleaner, dry-type dual element with integral precleaner
Air-to-air after cooler (ATAAC)
Belt, automatic tensioner
Fuel filter / water separator
Four tracks each (1640x300) 64.5" x 12" with polyurethane track pads
Hydrostatic transmission on all four tracks, with On Demand Flow Divider
Electronically controlled Propel Load Sensing System

ROTOR DRIVE SYSTEM

Mechanical drive by belts with automatic tension adjustment
Caterpillar wet clutch hydraulically controlled
External floating side plates hydraulically raiseable
Moldboard adjusting down pressure
Fast moldboard descent
Hydraulic raiseable and floating Anti-Slab
Water spray system for picks cooling and lubrication

ROTOR TYPE MUST BE SPECIFIED FROM MANDATORY ATTACHMENTS SECTION

OTHER STANDARD EQUIPMENT

Doors, service access, hinged locking
Electrical system
Engine diagnostic connector (for CAT ET)
Fuel Tank 1100 L (290 gal)
Water Tank 3500 L (925 gal)
Sight gauges (water, hydraulic oil)

PM-200 COLD PLANER XUZHOU SOURCED
XUZHOU, CHINA

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

The under listing (standard equipment) is general description of a PM-200 equipped with all no charge (NC) items.

CONVEYORS

Front loading
800 mm (31.5") belt width collecting conveyor
800 mm (31.5") belt width discharge conveyor
48-Degree swing either side of center for discharging conveyor
Remote conveyor control with infinitely adjustable belt speed
Reverse speed

CONVEYOR TYPE MUST BE SPECIFIED FROM MANDATORY ATTACHMENTS SECTION

ELECTRICAL

Alarm, back-up
Alternator, 100amp
Batteries, two maintenance free, 1300 CCA each
Horn, forward warning
Starting and charging system, 24 Volt
Work lights, halogen, flood (4) front, (4) center and (4) rear

OPERATOR ENVIRONMENT

Left and right side machine control stations
Machine monitoring system
Lockable vandalism guards for all consoles
Platform handrails/guardrails
Control and propel consoles:
Propel lever (one for each side)
Steering wheel (one for each side)
Electronic monitoring/warning system:
Three levels with action light (warning, critical warning, shut down)
Instrumentation:
Engine coolant, engine oil pressure
Hydraulic oil temperature
Hour meter
Indicator lights
Battery charging, hydraulic oil filter condition
Speed Tachometer (included on Gp-Elec Display)
Power assist steering for front and rear tracks:
Front tracks controlled by Steering

wheel
Rear tracks controlled by Joystick switch
Steering Variable Automatic Control:
Crab, Coordinated, Rear tracks Auto-alignment
Throttle control, Low/Intermediate/High idle, electronic

POWERTRAIN

CAT C-18 diesel, ACERT, 6-cylinder, Turbocharged engine, 429 kW (575 HP)
EPA Tier III / EU Stage 3 emissions certified engine
Torque and Power Curves Optimized for Milling Applications
Air Compressor
Air cleaner, dry-type dual element with integral precleaner
Air-to-air after cooler (ATAAC)
Belt, automatic tensioner
Fuel filter / water separator
Four tracks each (1640x300) 64.5" x 12" with polyurethane track pads
Hydrostatic transmission on all four tracks, with On Demand Flow Divider
Electronically controlled Propel Load Sensing System

ROTOR DRIVE SYSTEM

Mechanical drive by belts with automatic tension adjustment
Caterpillar wet clutch hydraulically controlled
External floating side plates hydraulically raiseable
Moldboard adjusting down pressure
Fast moldboard descent
Hydraulic raiseable and floating
Anti-Slab
Water spray system for picks cooling and lubrication

ROTOR TYPE MUST BE SPECIFIED FROM MANDATORY ATTACHMENTS SECTION

OTHER STANDARD EQUIPMENT

Doors, service access, hinged locking
Electrical system
Engine diagnostic connector (for CAT ET)
Fuel Tank 1100 L (290 gal)
Water Tank 3500 L (925 gal)
Sight gauges (water, hydraulic oil)
Pressure test ports with quick connect

PM-200 COLD PLANER XUZHOU SOURCED XUZHOU, CHINA	Ship Weight lbs	LIST PRICE AT PO ENTRY

BOLSTER

L	249-6527	BOLSTER, NO REAR WHEEL POWER 0	NC
---	----------	---	----

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
BOLSTER (CONT.)				
L	234-8895	BOLSTER, REAR WHEEL POWER 450 Includes separate propel pump, two radial piston hydraulic drive motors, flow divider and free wheeling valve. Provides on-demand rear wheel drive (AWD) in all gears by selecting a switch on the operator's control console. Increases tractive effort in each propel gear when it is engaged. The rear wheels free wheel when rear wheel assist is not engaged. For use in working mode only. HIGHLY RECOMMENDED FOR SOIL STABILIZATION APPLICATIONS.		\$26,710
OPERATOR ENVIRONMENT				
L	273-1094	PLATFORM, OPEN, FIXED 0 Operator station is in fixed, left side position. Includes rotating vinyl seat, handrails, single left side access ladder only and vandalism guards for both main control and propel lever consoles.		NC
L	245-4386	PLATFORM, OPEN, SLIDING 220 Operator station slides fully to both sides of platform using hydraulic assist. Includes rotating vinyl seat, handrails, dual access ladders and vandalism guards for both main control and propel lever consoles.		\$12,130
L	245-4385	CAB. 1,030 Operator cab slides fully to both sides of platform using hydraulic assist. Includes rotating cloth seat, handrails, dual access ladders, left and right side doors with locks, air conditioner, heater, defroster, dome lamp, dual front and rear wet-arm wipers/washers, tinted windows, 12V-power receptacle, two-cup holders and floor mat. Cab is pressurized and is radio-ready with 12-V (20-amp) converter, antenna and cable, two speakers and a headliner location for mounting ex-factory installed radio.		\$53,070
POWERTRAIN				
ENGINES				
L	366-2130	ENGINE, NACD ONLY 0 EPA/ARB Tier 4 Interim AB&T Certified Engine (Tier 3 credit-using engine)		NC
ROTOR PROTECTION				
L	232-2907	DISC, DRIVETRAIN SHEAR 0 Heavy-duty shear disc protects rotor drive components from torsional stress and shocks by use of a quick change shear bolt.		NC
L	246-3239	TORQUE LIMITER 140 Protects rotor drive train by limiting force sent to transmission in the event the rotor strikes a large object. Friction torque limiter is adjustment-free and is installed between the rotor transmission and rotor drive axle. When excess rotor loading occurs, the limiter slips momentarily without interrupting machine operation.	0	\$11,560 \$11,560 NI

ROTOR DRIVE SYSTEM

NOTE: All rotors below are in an up-cut configuration. 16" Universal and 20" Combination Rotor cutting width is 96" (2438 mm). 18" Spade Rotor cutting width is 90.6" (2300 mm), Please consult factory for custom rotors.

L	287-1724	ROTOR, 16" UNIVERSAL	9,000 0	\$58,240 \$58,240 NI
		Designed primarily for use in asphalt reclamation with secondary application in soil stabilization. Maximum cutting depth is 15.5 in (39.4 cm). Diameter over bits is 54 in (1375 mm) with 0.625 in (15.9 mm) bit spacing. Includes breaker bar and 200 point-attack carbide-tipped tools with 0.75 in (19 mm) bit shank diameter. Tools are mounted in drive-in/knock-out breakaway bolt-on tool holders with kicker paddles. Triple-tree tools on rotor ends.		
L	129-9365	ROTOR, 18" SPADE	5,100 5,100	\$33,650 \$33,650 NI
		Designed for use in soil stabilization. Maximum cutting depth is 18 in (45.7 cm). Diameter over bits is 62 in (1575 mm) with 6.75" (171 mm) tool spacing. Includes 58 carbide-faced, quick-change spade tools held in place by a 7/8" locknut.		
L	272-6090	ROTOR, 20" COMBINATION	6,685 0	\$56,840 \$56,840 NI
		Designed primarily for use in soil stabilization with secondary application in light cuts of asphalt reclamation. Maximum cutting depth is 20 in (50.8 cm). Diameter over bits is 64 in (1625 mm) with 1.25 in (32 mm) bit spacing. Includes 114 point-attack carbide-tipped tools with 0.875 in (22 mm) bit shank diameter that are mounted in drive-in/knock-out breakaway bolt-on tool holders. Three piece bolt-on end rings protect rotor from wear. Gradation performance will be less than the 18" Universal Rotor or 20" Stabilization Rotor. Intended for applications where material gradation is of less importance and where higher working speeds are desired.		
L	7R-5818	ROTOR, NONE	0	\$1,585
		Cross bar required for shipping stability.		

HYDRAULICS

L	260-6871	DOOR, FRONT, BASIC	0	NC
		Includes heavy-duty front rotor chamber door that is manually adjustable.		
L	246-1728	DOOR, FRONT, HYDRAULIC	160	\$3,905
		Includes heavy-duty front rotor chamber door actuated by dual hydraulic cylinders that is adjustable from the operator's control console. Recommended for asphalt reclamation to better control gradation. Increases versatility in soil stabilization by allowing forward or reverse operation.

Standard Equipment:

ELECTRICAL

Alarm, back-up
 Alternator, 95-amp
 Batteries, two maintenance free,
 1365 CCA each
 Horn, warning (front & rear)
 Lighting system, 2 rear red running
 lamps and 6 halogen, adjustable
 floodlights (2 front, 2 rear, 1 facing
 each rotor chamber door)
 Starting and charging system, 24-volt
 Product Link Ready

OPERATOR ENVIRONMENT

Access ladder, left and right side
 Monitoring system with lit, analog
 gauges
 Tachometer with digital hour meter
 Feet/meters per minute indicator
 Engine coolant, hydraulic oil
 temperature
 Rotor transmission temp, engine oil
 pressure, fuel level, voltage
 indicator
 Platform handrails / guardrails
 Power steering, hydraulic
 Propel console with speed control dial,
 padded armrest
 Seat, vinyl, suspension, rotating,
 flip-up armrests
 Seat belt, retractable, 3" (76 mm) wide
 Sliding operator station, full width,
 hyd
 Steering wheel, tilting and telescoping
 Throttle control, two-position, elect
 Vandalism guard for control consoles
 Warning system, action light and horn

POWERTRAIN

CAT C-15 diesel, ACERT, 6-cylinder,
 turbocharged engine, 540 HP (403 kW)
 U.S. EPA Tier 3 or EU Stage IIIA
 Certified
 Air cleaner, dry-type dual element with
 precleaner
 Air-to-air after cooler (ATAAC)
 Belt, serpentine, automatic tensioner
 Demand fan
 Fuel filter / water separator
 Fuel priming pump, electric
 Ground level engine shutdown
 Muffler
 Propel system - All Wheel Drive
 Dual propel pumps with dual flow
 dividers

Two-speed, axial piston hydraulic
 motors (4) with 2F/2R speeds
 Heavy-duty, wheel planetary gearsets
 Brakes, oil-bath, sealed at each wheel
 Secondary parking brake switch
 Engine load / speed control, automatic
 Steering, four modes
 Front, crab, coordinated and rear

ROTOR DRIVE SYSTEM

Axle, heavy-duty
 Depth control, automatic
 Dual sealed chain cases
 Self-lubricating
 Single strand drive chains
 Heavy-duty shear disc
 Maintenance free U-joint drive shafts
 Transmission, 3-speed, powershift

OTHER STANDARD EQUIPMENT

Doors, service access, hinged
 Ecology drains
 Electrical system
 Circuit breaker panel and disconnect
 switch
 Machine diagnostic connector
 Machine Security System wire-ready
 Starting receptacle for emergency
 start, ground level
 Engine enclosure, fiberglass, hyd
 Fuel tank with sediment drain,

System includes a 30-200 gpm centrifugal pump (installed on front, right corner of machine), in-line flow meter, microprocessor control, spray bar with 16 nozzles and hydraulically controlled shut-off valve. Operator controls integrated into standard operator display panel. NOTE: Compatible for installation on s/n ASW00157 and up. INCLUDED IN: SPRAY & WATER EMULSION		
L	293-8605	SPRAY, WATER & EMULSION	1,630 0	\$84,850 \$84,850 NI
		Provides dual system for adding both water and emulsion separately to processed material. CONSISTS OF: SPRAY, WATER and SPRAY, EMULSION		
L	447-6596	SPRAY, WATER ULTRA LOW FLOW	860 860	\$30,040 \$30,040 NI
		Provides accurate addition of water to processed material. System includes a 16-159 gpm centrifugal pump (installed on front, left corner of machine), in-line flow meter, 16 nozzle spray bar with 2 nozzle sizes and a hydraulically controlled single valve spray bar shut-off. Operator controls integrated into standard operator display panel. INCLUDED IN: SPRAY, WATER & EMULSION 448-4235		
L	448-4235	SPRAY, WATER & EMULSION	1,830 0	\$84,850 \$84,850 NI
		Provides dual system for adding both water and emulsion separately to processed material. CONSIST OF ULTRA LOW FLOW SPRAY, WATER, 60-600ltr/min, 16-159 GPM and SPRAY, EMULSION		

TRUCK INTERFACE

P	433-4400	PUSH BAR	249 249	\$5,900 \$5,900 NI
		One 6'6" push bar mounted to the front hitch of machine for pushing water truck. Ring type connection for truck interface. Compatible with the RM-500 S/N ASW00117 and up.
