Product Consist:

The following equipment is included as standard on C15-powered Caterpillar packaged gen sets 455-500 ekW:

PRICING INFORMATION

These prices are manufacturer suggested resale prices and are subject to change without notice. Shipment will usually be made from source of manufacture, or at factory discretion. Attachment prices are for attachments installed as original equipment unless otherwise specified.

Net price items are subject to no further discounts.

All prices are installed list prices unless otherwise specified.

SHIPMENT DATE SPECIFIC PRICING IS BEST FOUND THROUGH THE PSQ AND ISA QUOTING TOOLS.

AVAILABILITY

For product availability, go to Power Net at <https://engines.cat.com>
Under the quick links, select Engine Availability Letters.

GLOSSARY OF TERMS

For product abbreviations, go to Power Net at <https://engines.cat.com>
Under the quick links, select TMI Web. Once in TMI, select Abbreviations, listed under TMI Definitions.

DESIGN TO ORDER (DTO)

Orders requiring special engineering (referred to as DTO) will require additional process time. This time is over and above normal order processing or product availability.

Attachments listed in the price list are NOT interchangeable between sales models or applications. If attachments are required for a particular model or configuration but are not listed as compatible for this model in a specific price list, the order will require a DTO. This is true even when the same attachment or configuration has been ordered in the past.

A DTO will require an application and installation (A & I) marketing quote. For further information, contact the Application Support Center.

Requests for special ratings not listed in the Price List should also be sent to the Application Support Center. If the special rating is possible, it may also require a DTO and could require additional processing time if the appropriate details have not yet been established.

Please keep this information in mind when discussing or quoting approximate availability to your customers.

DTO quotes are typically valid for six (6) months. If the quote expires, regardless of whether it has been ordered or not, a new DTO quote will be required before an order can be placed.

DEALER SPECIFIC PRICING TERMS

To obtain the latest specific conditions from Caterpillar to individual Cat dealers, please use Engine Order Management Process (EOMP) quoting and order tools like ISA or PSQ. For questions or special requests, please contact your Caterpillar representative.

TECHNICAL PERFORMANCE DATA

Technical performance data and engine rating information is available in Power Net at <https://engines.cat.com>. Under the quick links, select TMI Web. Once in TMI, select TMI Performance Definitions.

To request dealer specific authorization, please follow links to Engine Order Management Process (EOMP) at Caterpillar Power Net (<https://engines.cat.com>). A CWS logon id is needed to access Power Net.

RATINGS GUIDE

The EPG Ratings Guide may be ordered through Media Logistics by calling + 1 (800) 566-7782 or + 1 (309) 266-0942. The current EPG Ratings Guide media number for Cat Generator Sets is LEXE7582-01 or LEXE7581-01 for Olympian Generator Sets.

Current EPG ratings are also available by accessing the Electronic Media Center at <https://emc.cat.com> and on Power Net at <https://engines.cat.com>, select Electric Power then select References/Sales Tools.

AIR INLET SYSTEM

Air cleaner; standard duty.

CONTROL PANELS

EMCP 4 controls including:

- Run / Auto / Stop Control
- Speed Adjust
- Voltage Adjust
- Engine Cycle Crank
- Emergency stop pushbutton

EMCP 4.2 controller features:

- 24-volt DC operation
- Environmental sealed front face
- Text alarm/event descriptions
- True RMS AC metering, 3-phase, ±1% accuracy.

Digital indication for:

- RPM
- DC volts
- Operating hours
- Oil pressure (psi, kPa or bar)
- Coolant temperature
- Volts (L-L & L-N), frequency (Hz)
- Amps (per phase & average)
- Power Factor (per phase & average)
- kW (per phase, average & percent)
- kVA (per phase, average & percent)
- kVAr (per phase, average & percent)
- kW-hr (total)
- kVAr-hr (total)

Warning/shutdown with common LED indication of shutdowns for:

- Low oil pressure
- High coolant temperature
- Overspeed
- Emergency stop
- Failure to start (overcrank)
- Low coolant temperature

CONTROL PANELS (CONT.)

- Low coolant level
- Programmable protective relaying functions:
 - Generator phase sequence
 - Over/Under voltage (27/59)
 - Over/Under Frequency (81 o/u)
 - Reverse Power (kW) (32)
 - Reverse Reactive Power (kVAr) (32RV)
 - Overcurrent (50/51)
- Communications
 - Customer data link (Modbus RTU)
 - Accessory module data link
 - Serial annunciator module data link
 - 6 programmable digital inputs
 - 4 programmable relay outputs (Form A)
 - 2 programmable relay outputs (Form C)
 - 2 programmable digital outputs
- Compatible with the following optional modules:
 - Digital I/O module
 - Local Annunciator
 - Remote CAN annunciator
 - Remote serial annunciator
 - RTD module
 - Thermocouple module

COOLING SYSTEM

Radiator, package-mounted. 40C Ambient Capability
Coolant drain line with valve.
Fan and belt guards.
Visible Coolant Level Indication
Caterpillar Extended Life Coolant.

EXHAUST SYSTEM

Stainless steel exhaust flex with 6" V-Band connection, shipped loose.

FUEL SYSTEM

Primary fuel filter w/integral water separator & secondary filter,
spin on.
Fuel cooler.
Fuel priming pump.
Flexible fuel lines.

GENERATORS AND GENERATOR ATTACHMENTS

Brushless, AREP Generator.
Class H insulation; class H temperature rise. Temp Rise = 125C Prime,
150C Standby, 40C ambient
2/3 Pitch
Random wound, 12 leads
Includes three phase sensing voltage regulator, installed
Power Connections:
Power terminal strips
IP22 Housing
Bottom cable entry

GOVERNING SYSTEM

Cat Electronic Governor (ADEM A4).

LUBE SYSTEM

Lubricating Oil (CJ4 with Cat ECF-1 spec) Oils specified in
Caterpillar Lubrication and Fluids guide.
Oil drain lines with valve.
OCV filtration with vent hose routed to front of radiator.

MOUNTING SYSTEM

Linear vibration isolators between base and engine-generator.
Base frame (non-fuel tank); includes lifting provisions and
termination points for coolant and lube oil drain lines.
Includes rear mounted cover plate.

PROTECTION SYSTEM

Safety shutoffs for:
- High water temperature.
- Overspeed.
- Low oil pressure.
- Low coolant level sensor.

STARTING/CHARGING SYSTEM

24-volt starting motor
Battery with rack & cables (dry); CCA 950; 90 amp-hrs
24V, 45 amp charging alternator.
Battery disconnect switch.

GENERAL

Paint, Caterpillar Yellow.
Vibration damper.
Lifting eyes.
Parts book.

APPLICATION INDICATORS***Application Indicators***

One or more of the following Application Indicators must be selected for each PGS pricing arrangement ordered. Provides power setting and nameplate for use in specified application.

6	STANDBY	STANDBY POWER APPLICATION	0	NC
		TECHNICAL: 500 hrs/yr.		
6	PRIMEPA	PRIME POWER APPLICATION	0	NC

Market Segmentation

Select one code to define expected end use.

6	MSEPGN	GENERAL (NON-ENCLOSED) EPG	0	NC
		All non-enclosed engines and generator sets utilized in the generation of electrical power for general residential, commercial, utility, construction and rental applications including energy utilities, communications, commercial and residential buildings, agricultural, construction, mining, manufacturing, public and civil services and rental. This category should not be used for Petroleum, Locomotive, or Marine electric power applications.		
6	MSPMDXQ	END USE: EPG rental-All Product	0	NC
		All generator sets (diesel and gas) utilized in the generation of electrical power for the application rental. This includes all standard open and enclosed products that will supporting rental fleets as well as specific EP Rental products (XQ & XQE). This category should not be used in conjunction with Diesel & Gas EPG (non-rental), Petroleum EPG, Locomotive EPG or Marine Auxiliary applications.		
6	MSLOCEP	END USE: LOCOMOTIVE EPG	0	NC
		All engines and generator sets utilized in the generation of electrical power for locomotive propulsion and head end power.		
6	MSMARAX	END USE: MAR AUX COMMERCIAL	0	NC
		All engines and/or generator sets utilized in boats and ships for auxiliary applications such as cargo winches, electrical power generation, pumps, bow thrusters, etc.		
6	MSPETDR	PETROLEUM DRILLING	0	NC
		Engines, transmissions and packages used to drill oil and gas wells (including emergency GEN Sets). This includes Petroleum, Industrial, EPG, and Marine price list products.		
6	MSPETPG	PETROLEUM PRODUCTION/PUMPING	0	NC
		All engines utilized in the generation of mechanical and electrical power for exploration, recovery and transmission of petroleum products including gathering, production, pumping, and refining, (BUT NOT GAS COMPRESSION). Applications include camp power, emergency gen sets (non-drilling), prime power at production and storage facilities, cranes, fire pumps, air compressors, primary or secondary recovery systems such as down hole pumps, water flood or disposal systems, etc. This includes rental products which fit Petroleum Production/Pumping market segment description. This includes industrial, marine, and EPG price list products.

ENGINE RATING AND SPEED***Engine Rating and Speed***

Select one of the following ratings.

60 Hertz Ratings - 1800 RPM

6	KW00455	455 kW W/FAN 0	NC
		FOR USE WITH: Prime	
6	KW00500	500 kW W/FAN 0	NC
		FOR USE WITH: Standby	

CONTROL PANELS***Control Panels***

Select one of the following control panel options.

6	EMCP42	EMCP 4.2 CONTROL PANEL 0	NC
		Standard.	
6	EMCP44	EMCP 4.4 CONTROL PANEL 0	\$8,840
		Provides functionality of EMCP 4.2 plus 5.2 inch graphic display, additional digital inputs and outputs, Modbus TCP communications, and on package paralleling. On package paralleling adds the following features: automatic synchronizing, dead bus arbitration, load sharing (kW and kVAr), and load sense/load demand.	
		TECHNICAL: Requires: Electrically Operated Breaker. Includes EMCP4.2 Panel Removal.	
6	RELEBT1	RELAY END BLOCK TERMINALS 0	NC
		REQUIRES: Only available when selection from EMCP4 attachments (EMA) is made.	

POWER CENTER MOUNTING ORIENTATION***POWER CENTER MOUNTING ORIENTATION***

6	EMCCPRR	REAR MOUNTED POWER CENTER 0	NC
		TECHNICAL: Includes control panel and power termination.	

LANGUAGE OPTIONS***Language Options***

One of the following language options must be selected for each package pricing arrangement ordered. Provides nameplate and decals in specified language. To order additional literature go to <https://oos.midlandcorp.com/> For information on other language options, please contact your Marketing Profit Center.

6	LANENGO	LANGUAGE MARKINGS-ENGLISH 0	NC
6	LANFREO	LANGUAGE MARKINGS-FRENCH 0	NC

Voltage (L-L)

Freq.	Volts	Rating
		500

60	600	800
60	480/277	800
60	208/120	2000

CIRCUIT BREAKERS (UL) (3-POLE) (100% RATED)

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CIRCUIT BREAKERS (CONT.)**FIRST CIRCUIT BREAKER (CB1) PACKAGE MOUNTED**

24V DC Shunt Trip, adjustable instantaneous trip and long time trip
 Requires PTS Removal
 Not for use with: EMCP 4.4
 Package mounted.
 See table for sizing.

6	CBK0493	3-POLE 600 AMP BREAKER	0	\$2,399
6	CBK0494	3-POLE 800 AMP BREAKER	0	\$2,254
6	CBK0495	3-POLE 1200 AMP BREAKER	0	\$3,322
6	CBK0496	3-POLE 1600 AMP BREAKER	0	\$6,402
		TECHNICAL: Auxiliary Contacts included CANNOT BE USED WITH: CB2		
6	CBK0497	3-POLE 2000 AMP BREAKER	0	\$7,044
		TECHNICAL: Auxiliary Contacts included CANNOT BE USED WITH: CB2		

SECOND CIRCUIT BREAKER (CB2) PACKAGE MOUNTED

24V DC Shunt Trip, adjustable instantaneous trip and long time trip
 Requires: PTS Removal & CB1 selection
 CANNOT BE USED WITH: EMCP 4.4

Package mounted.
 See table for sizing.

6	CBK0487	3-POLE 150 AMP BREAKER	0	\$2,965
6	CBK0488	3-POLE 175 AMP BREAKER	0	\$2,991
6	CBK0489	3-POLE 200 AMP BREAKER	0	\$3,016
6	CBK0490	3-POLE 225 AMP BREAKER	0	\$3,016
6	CBK0491	3-POLE 250 AMP BREAKER	0	\$3,067
6	CBK0492	3-POLE 400 AMP BREAKER	0	\$3,066
		TECHNICAL: CB2 only.		

Circuit Breaker Auxiliary Contacts

For 3 pole, UL, 100% rated, package-mounted circuit breakers.
 Order one or two depending on number of breakers selected
 (only one per breaker). Refer to Circuit Breaker Sizing Table for
 circuit breaker sizes.

6	CBKAC06	AUXILIARY CONTACT 100-1200 AMP	0	\$295
		REQUIRES: 3 pole, UL circuit breaker, 100% rated, 100-1200 amps. FOR USE WITH: CB1		
6	CBKAC08	AUXILIARY CONTACT 100-1200 AMP	0	\$295
		REQUIRES: 3 pole, UL circuit breaker, 100% rated, 100-1200 amps. FOR USE WITH: CB2		

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CIRCUIT BREAKERS (CONT.)***Power Terminal Strip Removal***

6	PTSRM01	PTS REMOVAL - 400-800 AMP 0 REQUIRES: Circuit breaker.		\$-467
6	PTSRM02	PTS REMOVAL - 2000 AMP 0 REQUIRES: Circuit breaker.		\$-1,947

ELECTRICALLY OPERATED CIRCUIT BREAKERS (UL) (3-POLE) (100% RATED)***FIRST CIRCUIT BREAKER (CB1) PACKAGE MOUNTED***

24V DC Undervoltage release, 2 sets of auxiliary contacts, adjustable instantaneous trip and long time trip settings.

5 Cycle minimum closing time.

Requires PTS Removal

CANNOT BE USED WITH: EMCP 4.2

Package mounted.

See table for sizing.

6	CBE0001	3-POLE 800 AMP BREAKER 0		\$3,072
6	CBE0002	3-POLE 1200 AMP BREAKER 0 CANNOT BE USED WITH: CB2		\$3,737

CONTROL PANELS***Control Panel Options***

6	EMCDP02	DUST-PROOF CONTROL PANEL 0 TECHNICAL: Meets the intent of IP52.		\$87
6	EMCCAS2	COMMON ALARM/SHUTDOWN RELAY 0 TECHNICAL: Volt free contact. REQUIRES: Option Chassis 1. CANNOT BE USED WITH: EMCP4.4		\$80
6	EMCGRR2	GENERATOR RUNNING RELAY 0 TECHNICAL: Volt-free contact. REQUIRES: Option Chassis 1. CANNOT BE USED WITH: EMCP4.4		\$118
6	CCM0005	CAN2 0 TECHNICAL: Consists of a service tool connection point with wiring mounted on a bracket that is mounted on the upper section option chassis. Required to re-program annunciators and I/O modules. REQUIRES: OPTION CHASSIS 2 CANNOT BE USED WITH: EMCP4.4		\$90
6	EMCOC01	EMCP4 OPTION CHASSIS 1 0 Provides a mounting plate for various control panel options. Required whenever EMCELR2, EMCCAS2, CNTHTR5 or EMCGR2 is selected. CANNOT BE USED WITH: EMCP4.4		\$225
6	EMCOC02	EMCP4 OPTION CHASSIS 2 0 Provides a mounting plate for various control panel options. Required whenever EMCSDP2, EMCLAM1, CCM0005 or EMCGRAM1 is selected. CANNOT BE USED WITH: EMCP4.4		\$495

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CONTROL PANELS (CONT.)***Control Panel Options (Cont.)***

6	EMCLAH1	LOCAL ALARM HORN 0 TECHNICAL: Provides panel-mounted audible indication for notification of alarm and shutdown conditions. REQUIRES: EMCP 4.2 Controller. CANNOT BE USED WITH: EMCP4.4 or Genset Mounted Annunciator or ULLIST		\$11
6	EMCSDP1	DISCRETE I/O MODULE 0 Shipped loose. TECHNICAL: Provides 12 programmable spare inputs and eight programmable relay outputs for system expansion. REQUIRES: EMCP4.2 or EMCP4.4. CANNOT BE USED WITH: ULLIST		\$503
6	EMCSDP2	DISCRETE I/O MODULE 0 Installed. TECHNICAL: Provides 12 programmable spare inputs and eight programmable relay outputs for system expansion. REQUIRES: EMCP4.2 and Option Chassis 2 and CAN2. CANNOT BE USED WITH: EMCP4.4		\$994
6	ALSLSM4	LOAD SHARE MODULE 0 Installed. TECHNICAL: Adds a load share module and speed adjustment potentiometer to EMCP4 control panel. CANNOT BE USED WITH: ULLIST		\$1,858

Control Panel Protective Devices

May select one or more.

Includes indicator light on control panel.

6	EMCELR2	EARTHLEAKAGE GROUNDFAULT RELAY 0 TECHNICAL: Earth leakage ground fault relay below 480V.. REQUIRES: Circuit breaker or PTS, option chassis 1 and neutral grounding connection. CANNOT BE USED WITH: EMCP4.4 or ULLIST		\$907
6	LUBTMPS	OIL TEMPERATURE SENSOR 0		\$69
6	VANDALD	VANDAL DOOR 0 CANNOT BE USED WITH: ENCLOSURES		\$153

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CONTROL PANELS (CONT.)***Local Alarm Modules***

NFPA 99/110, CSA 282.

Installed. Select one.

6	EMCLAM6	NFPA 99/110 LOCAL ANNUNCIATOR 0 16-light Local Alarm Module. TECHNICAL: 12-24 Vdc nominal. The Annunciator is used to announce faults, warnings, and status events to the operator. This is a RS-485 Annunciator that uses a proprietary masterslave communication protocol. The EMCP 4.2 controller will be the Master, and the RS-485 Annunciator(s) will be the slave. The Annunciator contains 16 pairs of LEDs and a horn to announce events and diagnostics. An additional pair of LED's provides status indication of the dedicated RS-485 Annunciator Network communication connection. Ability to annunciate alarm conditions sent from the EMCP 4 within preconfigured alarm groups. REQUIRES: EMCP4.4 or EMCP4.2		\$561
---	---------	---	--	--------------

Remote Annunciator Modules

NFPA 99/110, CSA 282.

Shipped loose. Select one or two.

6	ANNR001	16-LIGHT NFPA 99/110 ANNUNCIAT 0 TECHNICAL: Provides 16 annunciation points for remote mounting. Enclosure included. REQUIRES: EMCP4.4 or EMCP4.2		\$729
---	---------	--	--	--------------

COOLING SYSTEM***Radiator Duct Flange***

6	RADDFL8	RADIATOR DUCT FLANGE 0 CANNOT BE USED WITH: Enclosure; included with enclosure or RADIATOR GUARD (RADSGD2).		\$497
6	RADSGD2	RADIATOR GUARD 0 CANNOT BE USED WITH: Enclosure or RADIATOR DUCT FLANGE (RADDFL8).		\$93

ENCLOSURES***Sound Attenuated Enclosure***

6	ENCSA63	SOUND ATTENUATED ENCL-YELLOW 0 TECHNICAL: Includes super critical grade muffler, installed. Radiator sized for 40C (104F). Rear mounted power center. CANNOT BE USED WITH: Exhaust system options.		\$29,488
6	ENCSA64	SOUND ATTENUATED ENCL-WHITE 0 TECHNICAL: Includes super critical grade muffler, installed. Radiator sized for 40C (104F). Rear-mounted power center. CANNOT BE USED WITH: Exhaust system options.		\$30,634

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

EXHAUST SYSTEM**Mufflers - End In / End Out**

Shipped loose.

6	MUFIN26	MUFFLER - 10 DBA ATTENUATION 0 TECHNICAL: Industrial grade with ANSI inlet and outlet flanges. 6 in. (152.4mm). CANNOT BE USED WITH: Enclosure.		\$1,021
6	MUFCR36	MUFFLER - 25 DBA ATTENUATION 0 TECHNICAL: Residential and critical muffler - with ANSI inlet and outlet flanges, 8 in. (203.2mm). CANNOT BE USED WITH: Enclosure.		\$2,023
6	EXHFC01	FULL V-BAND ADAPTOR & CLAMP 0 TECHNICAL: Adapts to 152.4mm OD tube for weld connections CANNOT BE USED WITH: Enclosure		\$118

FUEL STORAGE SYSTEM

Fuel Storage

Table of available optional fuel tanks.

Heights listed do NOT include lumber used for skidding during shipping

-Tanks with full electrical stub-up area include removable end channel

-Configurable Low Fuel Level Switch/Alarm included

-Rupture Basin alarm included.

-All fuel tanks shipped installed.

Product Consist:

Product Consist:

The following equipment is included as standard on C9-powered Caterpillar packaged gen sets 180-300 ekW:

NOTE: The following are not standard on the C9 package: batteries, battery rack/cables, power terminal strips, flex fuel lines and exhaust flex. AC power cables must be connected inside generator housing unless optional circuit breaker or power terminal strips are ordered.

PRICING INFORMATION

These prices are manufacturer suggested resale prices and are subject to change without notice. Shipment will usually be made from source of manufacture, or at factory discretion. Attachment prices are for attachments installed as original equipment unless otherwise specified.

Net price items are subject to no further discounts.

All prices are installed list prices unless otherwise specified.

SHIPMENT DATE SPECIFIC PRICING IS BEST FOUND THROUGH THE PSQ AND ISA QUOTING TOOLS.

AVAILABILITY

For product availability, go to Power Net at <https://engines.cat.com>
Under the quick links, select Engine Availability Letters.

GLOSSARY OF TERMS

For product abbreviations, go to Power Net at <https://engines.cat.com>
Under the quick links, select TMI Web. Once in TMI, select Abbreviations, listed under TMI Definitions.

DESIGN TO ORDER (DTO)

Orders requiring special engineering (referred to as DTO) will require additional process time. This time is over and above normal order processing or product availability.

Attachments listed in the price list are NOT interchangeable between sales models or applications. If attachments are required for a particular model or configuration but are not listed as compatible for this model in a specific price list, the order will require a DTO. This is true even when the same attachment or configuration has been ordered in the past.

A DTO will require an application and installation (A & I) marketing quote. For further information, contact the Application Support Center.

Requests for special ratings not listed in the Price List should also be sent to the Application Support Center. If the special rating is possible, it may also require a DTO and could require additional processing time if the appropriate details have not yet been established.

DESIGN TO ORDER (DTO) (CONT.)

Please keep this information in mind when discussing or quoting approximate availability to your customers.

DTO quotes are typically valid for six (6) months. If the quote expires, regardless of whether it has been ordered or not, a new DTO quote will be required before an order can be placed.

DEALER SPECIFIC PRICING TERMS

To obtain the latest specific conditions from Caterpillar to individual Cat dealers, please use Engine Order Management Process (EOMP) quoting and order tools like ISA or PSQ. For questions or special requests, please contact your Caterpillar representative.

TECHNICAL PERFORMANCE DATA

Technical performance data and engine rating information is available in Power Net at <https://engines.cat.com>. Under the quick links, select TMI Web. Once in TMI, select TMI Performance Definitions.

To request dealer specific authorization, please follow links to Engine Order Management Process (EOMP) at Caterpillar Power Net (<https://engines.cat.com>). A CWS logon id is needed to access Power Net.

RATINGS GUIDE

The EPG Ratings Guide may be ordered through Media Logistics by calling + 1 (800) 566-7782 or + 1 (309) 266-0942. The current EPG Ratings Guide media number for Cat Generator Sets is LEXE7582 or LEXE7581 for Olympian Generator Sets.

Current EPG ratings are also available by accessing the Electronic Media Center at <https://emc.cat.com> and on Power Net at <https://engines.cat.com>, select Electric Power then select References/Sales Tools.

AIR INLET SYSTEM

Aftercooler core
Air cleaner; light duty with disposable paper filter
(Not for outdoor use. Requires protection for outdoor storage.)
Turbocharger

CONTROL PANELS

- EMCP 4 controls including:
- Run / Auto / Stop Control
 - Speed Adjust
 - Voltage Adjust
 - Engine Cycle Crank
 - Emergency stop pushbutton
- EMCP 4.1 controller features:
- 24-volt DC operation
 - Environmental sealed front face
 - Text alarm/event descriptions
 - True RMS AC metering, 3-phase, ±2% accuracy.
- Digital indication for:
- RPM

CONTROL PANELS (CONT.)

- DC volt
 - Operating hours
 - Oil pressure (psi, kPa or bar)
 - Coolant temperature (°C or °F)
 - Volts (L-L & L-N), frequency (Hz)
 - Amps (per phase & average)
- Warning/shutdown with common LED indication of shutdowns for:
- Low oil pressure
 - High coolant temperature
 - Overspeed
 - Emergency stop
 - Failure to start (overcrank)
 - Low coolant temperature
 - Low coolant level
- Programmable protective relaying functions:
- Generator phase sequence
 - Over/Under voltage (27/59)
 - Over/Under Frequency (81 O/U)
 - 4 programmable digital inputs
 - 4 programmable relay outputs (Form A)

COOLING SYSTEM

Radiator sized for 50 degrees C (122 degrees F) as an open package.
Coolant drain line with valve
Fan and belt guards
Coolant level sight gauge
Caterpillar Extended Life Coolant
Jacket water pump, gear driven, centrifugal

EXHAUST SYSTEM

Exhaust manifold

FLYWHEELS & FLYWHEEL HOUSINGS

Flywheel, SAE No. 14 = 113 teeth.
Flywheel housing, SAE No. 1.
SAE Rotation: CCW - from rear of engine.

FUEL SYSTEM

Primary fuel filter with integral water separator
Secondary fuel filter
Engine fuel transfer pump
Fuel cooler
Fuel priming pump

GENERATORS AND GENERATOR ATTACHMENTS

- Brushless self-excited generator (AREP for 600-volt generators)
- 2/3 pitch, random wound
- IP23 Protection
- Class H insulation with Class H temperature rise
- Analog Voltage Regulator (3 Phase Sensing)
- Cable connections located inside generator housing (NEMA compatible), side or vertical cable entry
- Power center, IP22 rear facing

GOVERNING SYSTEM

Cat Electronic Governor (ADEM A4)

LUBE SYSTEM

Lubricating oil
Oil filler and dipstick
Oil filter
Oil drain line with valve; piped to edge of base
Fumes disposal; piped to front of radiator
Oil cooler

MOUNTING SYSTEM

- Linear vibration isolators between base and engine-generator - seismic zone 4.
- Narrow base frame; includes lifting provisions and termination points for coolant and lube oil drain lines.

PROTECTION SYSTEM

- Safety shutoffs for high water temp, overspeed and low oil pressure (ADEM A4 control).

STARTING/CHARGING SYSTEM

24V, 45 amp charging alternator.
Single 24-volt starting motor.

GENERAL

Paint, Caterpillar Yellow
Vibration damper
Lifting eyes
Parts book

List Price
At Factory

**EPA STATIONARY EMERGENCY (EPA TIER 3 EMISSIONS LEVELS).
EPA CERTIFIED FOR STATIONARY USE ONLY DURING DEFINED EMERGENCY
CONDITIONS.**

**Outside EPA-regulated territories and in Guam, American Samoa or the
Commonwealth of the Northern Mariana Islands, these restrictions
do not apply.**

600 VOLT(WYE), 60 HZ, 1800 RPM, 3 PHASE, STANDBY OR PRIME

6	C09DE35	C9, 600 VOLT, 60 HZ. 4,900 200 ekW Standby, 180 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 254-1294, AREP, Model = 5024H. Gen Temp Rise: Standby = 150 C, Prime = 105 C. REQUIRES: Digital Voltage Regulator	\$49,943
6	C09DE36	C9, 600 VOLT, 60 HZ. 4,900 250 ekW Standby, 225 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 254-1294, AREP, Model = 5024H. Gen Temp Rise: Standby = 150 C, Prime = 105 C. REQUIRES: Digital Voltage Regulator	\$49,943
6	C09DE37	C9, 600 VOLT, 60 HZ. 5,042 300 ekW Standby, 275 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 237-7186, AREP, Model = 5024J. Gen Temp Rise: Standby = 150 C, Prime = 125 C. REQUIRES: Digital Voltage Regulator	\$55,163

480 VOLT(WYE), 60 HZ, 1800 RPM, 3 PHASE, STANDBY OR PRIME

6	C09DE38	C9, 480 VOLT, 60 HZ. 4,900 200 ekW Standby, 180 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 340-5265, Self Excited, Model = 5014F Gen Temp Rise: Standby = 150 C, Prime = 125 C.	\$49,452
6	C09DE39	C9, 480 VOLT, 60 HZ. 4,900 250 ekW Standby, 225 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 254-1292, Self Excited, Model = 5014H. Gen Temp Rise: Standby = 150 C, Prime = 125 C.	\$49,465
6	C09DE40	C9, 480 VOLT, 60 HZ. 5,042 300 ekW Standby, 275 ekW Prime. Governor = ADEM A4, Aspiration = ATAAC. Generator Argt = 237-7184, Self Excited, Model = 5014J. Gen Temp Rise: Standby = 150 C, Prime = 125 C.	\$54,685

EMISSION CERTIFICATION***Rating Type***

6	CERTESE	EPA STATIONARY EMERGENCY 0		NC
		Meets USA Environmental Protection Agency (EPA) Stationary Emergency Certifications for Stationary Use only during defined emergency conditions. Outside EPA-regulated territories and in Guam, American Samoa or the Commonwealth of the Northern Mariana Islands, these restrictions do not apply.		

UL2200 LISTING

Select one.

6	NONULL	NON-UL2200 LISTED GENSET 0		NC
6	ULLIST	UL2200 LISTED GENSET 0		NC
		Requires EMCP4.2 control panel, exhaust system guarding or enclosure, neutral grounding connection and power terminal strips or UL listed circuit breaker rated at = to FLC.		

VOLTAGE INDICATORS***Voltage Indicators***

Select one.

All package generator set orders REQUIRE a voltage specified.
The voltage must match the voltage in the top level arrangement you are ordering.

60 Hertz Voltage Indicators

6	60H0208	VOLTAGE INDICATOR 208V (Wye) 0		NC
6	60H0240	VOLTAGE INDICATOR 240V (Wye) 0		NC
6	60H0480	VOLTAGE INDICATOR 480V 0		NC
6	60H0600	VOLTAGE INDICATOR 600V 0		NC

APPLICATION INDICATORS***Application Indicators***

One or two of the following Application Indicators must be selected for each PGS pricing arrangement ordered. Provides power setting and nameplate for use in specified application.

6	PRIMEPA	PRIME POWER APPLICATION 0		NC
		REQUIRES: Upgrade to an optional air cleaner.		
6	STANDBY	STANDBY POWER APPLICATION 0		NC
6	ISOPRIM	ISO8528 PRP 0		NC

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

APPLICATION INDICATORS (CONT.)***Application Indicators (Cont.)***

6	NAMPLSL	SHIPPED LOOSE NAMEPLATE 0 Shipped loose standby nameplate; provides "STANDBY" nameplate. REQUIRES: PRIMEPA or ISOPRIM feature code. CANNOT BE USED WITH: UL2200 listing.		NC
---	---------	--	--	----

Market Segmentation

Select one code to define expected end use.

6	MSEPGGN	GENERAL (NON-ENCLOSED) EPG 0 All engines and generator sets utilized in the generation of electrical power for general residential, commercial, utility, construction and rental applications including energy utilities, communications, commercial and residential buildings, agricultural, construction, mining, manufacturing, public and civil services, and rental. This category should not be used for petroleum, locomotive or marine electric power applications.		NC
6	MSPMDXQ	END USE: EPG rental-All Product 0 All generator sets (diesel and gas) utilized in the generation of electrical power for the application rental. This includes all standard open and enclosed products that will supporting rental fleets as well as specific EP Rental products (XQ & XQE). This category should not be used in conjunction with Diesel & Gas EPG (non-rental), Petroleum EPG, Locomotive EPG or Marine Auxiliary applications.		NC
6	MSLOCEP	END USE: LOCOMOTIVE EPG 0 All engines and generator sets utilized in the generation of electrical power for locomotive propulsion and head end power.		NC
6	MSMARAX	END USE: MAR AUX COMMERCIAL 0 All engines and/or generator sets utilized in boats and ships for auxiliary applications such as cargo winches, electrical power generation, pumps, bow thrusters, etc.		NC
6	MSPETDR	PETROLEUM DRILLING 0 Engines, transmissions and packages used to drill oil and gas wells (including emergency GEN Sets). This includes Petroleum, Industrial, EPG, and Marine price list products.		NC
6	MSPETPG	PETROLEUM PRODUCTION/PUMPING 0 All engines utilized in the generation of mechanical and electrical power for exploration, recovery and transmission of petroleum products including gathering, production, pumping, and refining, (BUT NOT GAS COMPRESSION). Applications include camp power, emergency gen sets (non-drilling), prime power at production and storage facilities, cranes, fire pumps, air compressors, primary or secondary recovery systems such as down hole pumps, water flood or disposal systems, etc. This includes rental products which fit Petroleum Production/Pumping market segment description. This includes industrial, marine, and EPG price list products.		NC

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

ENGINE RATING AND SPEED***Engine Rating and Speed***

Select one of the following ratings.

60 Hertz Ratings - 1800 RPM

6	KW00180	180 EKW W/FAN	0	NC
		FOR USE WITH: Prime.		
6	KW00200	200 EKW W/FAN	0	NC
		FOR USE WITH: Standby.		
6	KW00225	225 EKW W/FAN	0	NC
		FOR USE WITH: Prime.		
6	KW00250	250 EKW W/FAN	0	NC
		FOR USE WITH: Standby.		
6	KW00275	275 EKW W/FAN	0	NC
		FOR USE WITH: Prime.		
6	KW00300	300 EKW W/FAN	0	NC
		FOR USE WITH: Standby.		

CONTROL PANELS***Control Panels***

Select one of the following control panel options.

Rear mount only in enclosed units.

6	EMCP41	EMCP 4.1 CONTROL PANEL	0	NC
		Standard		
6	EMCP42	EMCP 4.2 CONTROL PANEL	0	\$1,591
		TECHNICAL: Provides power metering, protective relaying, and Modbus communications. Includes EMCP4.1 Panel Removal.		
6	RELEBT1	RELAY END BLOCK TERMINALS	0	NC
		REQUIRES: Only available when selection from EMCP3 attachments (EMA) is made.		

Power Center Mounting Orientation

6	EMCCPRR	REAR MOUNTED POWER CENTER	0	NC
6	CVRGPRH	RIGHTHAND COVER GROUP	0	\$261
		REQUIRES: Multiple breakers.		

GENERATOR ATTACHMENTS***Voltage Regulators***

6	OVRAU13	ANALOG VOLTAGE REGULATOR	0	NC
		TECHNICAL: Standard voltage regulator installed in the generator. CANNOT BE USED WITH: 600 V Generator Package.		
6	OVRDG19	DIGITAL VOLTAGE REGULATOR	0	\$644
		TECHNICAL: Comes with reactive droop & KVAR/PF control. REQUIRES: Permanent Magnet or AREP Generators FOR USE WITH: 5000 frame generators.		

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

GENERATOR ATTACHMENTS (CONT.)

Voltage Regulators (Cont.)

6	OVRDG20	DIGITAL VOLTAGE REGULATOR 0 TECHNICAL: Comes with reactive droop & KVAR/PF control. REQUIRES: Permanent Magnet or AREP Generators FOR USE WITH: 6100 frame generators.		\$644
---	---------	---	--	-------

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

LANGUAGE OPTIONS***Language Options***

One of the following language options must be selected for each package pricing arrangement ordered. Provides nameplate and decals in specified language. To order additional literature go to <https://oos.midlandcorp.com/catstem>. For information on other language options, please contact your Marketing Profit Center.

6	LANENGO	LANGUAGE MARKINGS-ENGLISH	0	NC
6	LANFREQ	LANGUAGE MARKINGS-FRENCH	0	NC
6	LANSPAO	LANGUAGE MARKINGS-SPANISH	0	NC

EXTENDED SERVICE COVERAGE***Extended Service Coverage***

Must select one of the following Extended Service Coverage contracts for Cat branded commercial power systems. If no ESC is desired, please select feature code for NO ESC. See applicable contract @catinsurance.cat.com for * coverage area, ** covered components and exclusions. DEDUCTIBLE - \$200 for all coverage.

DEDUCTIBLE - \$0 and \$200 deductibles are available, see descriptions below.

** Silver coverage includes a wide range of covered components.

** Gold coverage includes all the same items as silver, as well as turbochargers, fuel nozzles and injectors, and water pumps.

** Platinum includes all original factory equipment with Cat Inc. part numbers, excluding consumables such as filters, hoses and belts.

6	ECP5HQ1	PLATINUM COVERAGE	0	\$2,790 NET
		5 yrs, 3000 hrs, Prime, \$0 Deductible		
6	ECP5OQ1	PLATINUM COVERAGE	0	\$3,720 NET
		5 yrs, 4500 hrs, Prime, \$0 Deductible		
6	ECP5NQ1	PLATINUM COVERAGE	0	\$4,460 NET
		5 yrs, 6000 hrs, Prime, \$0 Deductible		
6	ECP5PQ1	PLATINUM COVERAGE	0	\$5,240 NET
		5 yrs, 8000 hrs, Prime, \$0 Deductible		
6	ECP5GT1	PLATINUM COVERAGE	0	\$1,210 NET
		5 yrs, 2500 hrs, \$0 deductible, Standby		

No ESC

CIRCUIT BREAKERS (CONT.)**FIRST CIRCUIT BREAKER (CB1) PACKAGE MOUNTED (Cont.)**

6	CBK3P79	3-POLE 1200 AMP BREAKER 0 FOR USE WITH: 1250A rated packages.		\$3,923
---	---------	--	--	---------

SECOND CIRCUIT BREAKER (CB2) PACKAGE MOUNTED

Package mounted.
See table for sizing.
Requires Turret Group addition.

6	CBK3P87	3-POLE 400 AMP BREAKER 0		\$3,110
---	---------	------------------------------------	--	---------

THIRD CIRCUIT BREAKER (CB3) PACKAGE MOUNTED

Package mounted.
See table for sizing.
Requires Turret Group addition.

6	CBK3P95	3-POLE 400 AMP BREAKER 0		\$1,629
---	---------	------------------------------------	--	---------

Shunt Trip for UL 100% Rated Circuit Breakers.

6	SHUNT03	24 VDC SHUNT TRIP 100-630 AMP 0 FOR USE WITH: Single CB (CB1).		\$300
6	SHUNT07	24 VDC SHUNT TRIP 100-630 AMP 0 FOR USE WITH: 2nd breaker (CB2).		\$300
6	SHUNT08	24 VDC SHUNT TRIP 100-630 AMP 0 FOR USE WITH: 3rd breaker (CB3).		\$300
6	SHUNT04	24 VDC SHUNT TRIP 800-1200 AMP 0 FOR USE WITH: CB1 circuit breakers.		\$300

Circuit Breaker Auxiliary Contacts

For 3 pole, UL, 100% rated, package mounted circuit breakers.
Order one, two or three depending on number of breakers selected
(only one per breaker). Refer to Circuit Breaker Sizing Table
for circuit breaker sizes.

Circuit Breaker Auxiliary Contacts - First Breaker

For use with first circuit breaker (CB1).

6	CBKAC06	AUXILIARY CONTACT 100-1200 AMP 0 REQUIRES: 3 pole, UL circuit breaker, 100% rated, 100-1200 amps. FOR USE WITH: 1st breaker.		\$295
---	---------	--	--	-------

Circuit Breaker Auxiliary Contacts - Second Breaker

For use with second circuit breaker (CB2).

6	CBKAC07	AUXILIARY CONTACT-PKG MOUNT 0 REQUIRES: 3-pole, UL circuit breaker, 100% rated, 100-1200 amps. FOR USE WITH: 2nd breaker.		\$339
---	---------	---	--	-------

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CIRCUIT BREAKERS (CONT.)***Circuit Breaker Auxiliary Contacts - Third Breaker***

For use with third circuit breaker (CB3).

6	CBKAC08	AUXILIARY CONTACT 100-1200 AMP 0 REQUIRES: 3-pole, UL circuit breaker, 100% rated, 100-1200 amps. FOR USE WITH: 3rd breaker.		\$295
---	---------	--	--	-------

Power Terminal Strip

Requires Turret Group addition.

6	PTS6000	POWER TERMINAL STRIP-600 AMP 0 CANNOT BE USED WITH: Circuit breaker.		\$2,044
---	---------	---	--	---------

Turret Group Addition

6	TURGP01	TURRET GROUP ADDITION-800 AMP 0 REQUIRES: The selection of a circuit breaker/PTS. FOR USE WITH: 60H0600, 60H0480, 60H0440 or 60H0380 only.		\$185
6	TURGP02	TURRET GROUP ADDITION-1000 AMP 0 REQUIRES: The selection of a circuit breaker/PTS. CANNOT BE USED WITH: 60H0600, 60H0480, 60H0440 or 60H0380.		\$241
6	TURGP03	TURRET GROUP ADDITION-1500 AMP 0 REQUIRES: The selection of a circuit breaker/PTS. CANNOT BE USED WITH: 60H0600, 60H0480, 60H0440, 60H0380, KW00225 or KW00250.		\$241

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
CONTROL PANELS				
<i>Control Panel Options</i>				
6	EMCDP02	DUST-PROOF CONTROL PANEL 0 TECHNICAL: Meets the intent of IP52.		\$87
6	EMCGRR2	GENERATOR RUNNING RELAY 0 TECHNICAL: Volt-free contact. REQUIRES: Option Chassis 1.		\$118
6	CCM0005	CAN2 0 TECHNICAL: Consist of a CAN2 service tool connection point (with wiring) mounted on a bracket that is mounted on the upper section option chassis. This is required when the annunciator is ordered. Required to re-program annunciators and I/O modules. REQUIRES: EMCP4.2		\$90
6	EMCOC01	EMCP4 OPTION CHASSIS 1 0 Provides a mounting plate for various control panel options. Required whenever SASETH1, EMCELR2, EMCCAS2 or EMCGRR2 is selected.		\$225
6	EMCOC02	EMCP4 OPTION CHASSIS 2 0 Provides a mounting plate for various control panel options. Required whenever EMCSDP2, EMCTDM1, EMCTDM3, EMCLAM1 or ANNR001 is selected.		\$495
6	EMCLAH1	LOCAL ALARM HORN 0 TECHNICAL: Provides panel-mounted audible indication for notification of alarm and shutdown conditions. CANNOT BE USED WITH: Local alarm module.		\$11
6	EMCSDP1	DISCRETE I/O MODULE 0 Shipped loose. TECHNICAL: Provides 12 programmable spare inputs and eight programmable relay outputs for system expansion. REQUIRES: EMCP4.2.		\$503
6	EMCSDP2	DISCRETE I/O MODULE 0 Installed. TECHNICAL: Provides 12 programmable spare inputs and eight programmable relay outputs for system expansion. REQUIRES: EMCP4.2 and Option Chassis 2 and CAN2.		\$994
6	SASETH1	ETHER STARTING AID 0 TECHNICAL: Provides Ether starting aid system with manual override switch. Overrides automatic ether injection controlled by engine ECM and manually injects ether during engine starting. REQUIRES: OPTION1 CHASSIS CANNOT BE USED WITH: UL2200 listing.		\$602
6	ALSLSM4	LOAD SHARE MODULE 0 Shipped loose. TECHNICAL: Adds a load share module and speed adjustment potentiometer to EMCP4 control panel. REQUIRES: Installed EMCP4.2 Controller.		\$1,858

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

CONTROL PANELS (CONT.)**Control Panel Protective Devices**

May select one or more.

Includes indicator light on control panel.

6	EMCELR2	EARTHLEAKAGE GROUNDFAULT RELAY 0 TECHNICAL: Earth leakage ground fault relay below 480V. REQUIRES: CB with Shunt trip or PTS and Option Chassis 1 and neutral grounding connection.		\$907
6	EMCLFA2	LOW FUEL LEVEL ALARM 0 TECHNICAL: Not available with Low Fuel Level Shutdown indication. REQUIRES: Low Fuel Level switch.		NC
6	EMCFRB1	FUEL RUPTURE BASIN ALARM 0 REQUIRES: Dual-wall fuel tank base and an alarm module.		\$91
6	EMCLFS2	LOW FUEL LEVEL SHUTDOWN 0 REQUIRES: Low fuel level switch. CANNOT BE USED WITH: Low Fuel Level Alarm.		NC
6	VANCVR1	VANDAL COVER 0 CANNOT BE USED WITH: Enclosures.		\$165

Local Alarm Modules

NFPA 99/110, CSA 282.

6	EMCLAM1	NFPA 99/110 LOCAL ANNUNCIATOR 0 16-light local alarm module. TECHNICAL: 12-24 Vdc nominal. The annunciator is used to announce faults, warnings and status events to the operator. The annunciator contains 16 programmable pairs of LEDs and a horn to announce events and diagnostics. REQUIRES: EMCP4.2, CAN2 and Option Chassis 2. CANNOT BE USED WITH: EMCP4.1.		\$830
---	---------	---	--	--------------

Remote Annunciator Modules

Shipped loose. Select one or two.

NFPA 99/110, CSA 282.

6	ANNR001	16-LIGHT NFPA 99/110 ANNUNCIAT 0 Shipped loose. Max 2 may be ordered. TECHNICAL: Auxiliary alarm indication device, consisting of 16 pairs of indicator LED's, and an audible horn. Each annunciator can be mapped to one of four predefined group of alarms. REQUIRES: EMCP4.2 Control Panel, EMCOC02 and CAN2.		\$729
---	---------	---	--	--------------

COOLING SYSTEM

NOTE: For emissions certified engines: It is the dealer's
responsibility to provide a cooling system that permits
the engine to meet EPA regulations. Call the ASC for support.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
COOLING SYSTEM (CONT.)				
<i>Radiator Duct Flange</i>				
6	COLRDF1	RADIATOR DUCT FLANGE 0 CANNOT BE USED WITH: Enclosures.		\$118
<i>Low Coolant Level Sensor</i>				
6	CLS0001	COOLANT LEVEL SENSOR 0		\$165
ENCLOSURES				
<i>Sound Attenuated Enclosure - Single Breaker</i>				
6	ENCSA30	SOUND ATTENUATED ENCL-YELLOW 0 TECHNICAL: Includes super-critical grade muffler, installed. Radiator sized for 43C (110F). Rear-mounted power center. REQUIRES: Wide base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$20,107
6	ENCSA31	SOUND ATTENUATED ENCL-WHITE 0 TECHNICAL: Includes super-critical grade muffler, installed. Radiator sized for 43C (110F). Rear-mounted power center. REQUIRES: Wide base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$21,277
<i>Sound Attenuated Enclosure - Dual Breaker</i>				
6	ENCSA22	SOUND ATTENUATED ENCL-YELLOW 0 TECHNICAL: Includes super-critical grade muffler, installed. Radiator sized for 43C (110F). Rear-mounted power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$20,691
6	ENCSA23	SOUND ATTENUATED ENCL-WHITE 0 TECHNICAL: Includes super-critical grade muffler, installed. Radiator sized for 43C (110F). Rear-mounted power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$21,861
<i>Weather Protective Enclosure - Single Breaker with Critical Muffler</i>				
6	ENCWP52	WEATHER PROTECTIVE ENCL-YELLOW 0 TECHNICAL: Includes critical grade muffler, shipped loose. Radiator sized for 43C (110F). Rear-facing power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$15,799
6	ENCWP53	WEATHER PROTECTIVE ENCL-WHITE 0 TECHNICAL: Includes critical grade muffler, shipped loose. Radiator sized for 43C (110F). Rear-facing power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$16,970

ENCLOSURES (CONT.)***Weather Protective Enclosure - Dual Breaker with Critical Muffler***

6	ENCWP42	WEATHER PROTECTIVE ENCL-YELLOW 0 TECHNICAL: Includes critical grade muffler, shipped loose. Radiator sized for 43C (110F). Rear-facing power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$16,384
6	ENCWP43	WEATHER PROTECTIVE ENCL-WHITE 0 TECHNICAL: Includes critical grade muffler, shipped loose. Radiator sized for 43C (110F). Rear-facing power center. REQUIRES: Wide Base or integral fuel tank and PTS or circuit breaker. CANNOT BE USED WITH: Exhaust system options, narrow base or top cable entry.		\$17,554

Enclosure Options

6	ENCIML3	INTERIOR MAINTENANCE LIGHT 0 TECHNICAL: 24V DC. REQUIRES: Enclosure.		\$471
6	ENCDEC2	RENTAL DECALS 0 REQUIRES: Enclosure.		\$87 NET

EXHAUST SYSTEM***Exhaust Flex***

All items are shipped loose.

6	EXCFF08	FLEXIBLE FITTING 0 TECHNICAL: Stainless steel flex with split-cuff connections and u-clamps. CANNOT BE USED WITH: Enclosures.		\$203
---	---------	--	--	--------------

Engine Mounted Muffler

All items are shipped loose.

6	MUF0017	ENGINE MOUNTED MUFFLER 0 TECHNICAL: 10 dBA Attenuation. CANNOT BE USED WITH: Mounting kits or through-wall kits or enclosures.		\$188
---	---------	---	--	--------------

Mufflers - End In / End Out

All items are shipped loose.

6	MUFIN25	MUFFLER - 10 DBA ATTENUATION 0 TECHNICAL: Industrial Muffler - 5" (127mm). CANNOT BE USED WITH: Enclosures.		\$800
6	MUFRS10	MUFFLER - 25 dBA ATTENUATION 0 TECHNICAL: Critical grade muffler - 6" (152.4mm). CANNOT BE USED WITH: Enclosures.		\$1,785
6	MUFCR10	MUFFLER - 35 DBA ATTENUATION 0 TECHNICAL: Super critical grade muffler - 6" (152.4mm). CANNOT BE USED WITH: Enclosures.		\$2,827

FUEL STORAGE SYSTEM***Fuel Storage***

Table of available optional fuel tanks.

Heights listed do NOT include lumber used for skidding during shipping

-Tanks with full electrical stub-up area include removable end channel

-Tanks with RH/LH stub-up include area directly below the circuit
breaker or PTS.

Integral - Dual Wall Fuel Tank Base (UL)
Width 1758 mm (69.2 in.)

Note: Integral Fuel Tanks cannot be used with optional generators
OGNSEG3, OGNAR27, or OGNPRB6.

GENERATORS (OVERSIZE, AREP, CIP)***Installed Self Excited, AREP, CIP and Oversized***

Generator Argts. Ratings are with fan. Pricing for each feature code is listed after the following tables.

ORDERING INSTRUCTIONS:

To order any optional generator at the same voltage, include STD removal feature code on order and feature code of desired generator.

OPTIONAL GENERATORS FOR 60 HZ PACKAGE GEN SETS

Available at: 480/277, 240/139, or 208/120 volts.

To upgrade from standard package generator to the same size AREP generator (12 leads):

SB	Prime		Generator	Generator
ekW	ekW	Frame	Arrg.	Removal
200	180	5024H	OGNAR24	RPA0343
250	225	5024H	OGNAR24	RPA0281
300	275	5024J	OGNAR25	RPA0282

To upgrade from standard package self-excited (SE) generator to an oversize SE generator (12 leads):
(OGNSEG2 is for use with wide base or integral fuel tank base.)
(OGNSEJ5 cannot be used with wide base or integral fuel tank base.)

1 Oversize					2 Oversize

Generator Removals

480/277, 240/139, or 208/120 Volts @ 60 Hz.
 Removes standard generator from PGS for replacement with
 optional generator.

6	RPA0281	GENERATOR REMOVAL-5014H FRAME	0	\$-9,478
		REQUIRES: Selection of an optional generator.		
6	RPA0282	GENERATOR REMOVAL-5014J FRAME	0	\$-10,144
		REQUIRES: Selection of an optional generator.		
6	RPA0343	GENERATOR REMOVAL-5014F FRAME	0	\$-8,958
		REQUIRES: Selection of an optional generator.		

AREP - Generators

480/277, 240/139, or 208/120 Volts @ 60 Hz.
 To upgrade from standard package generator to the same size AREP
 generator (12 leads):

6	OGNAR24	GENERATOR - 5024H FRAME	0	\$9,835
		TECHNICAL: 12 lead, AREP generator arrangement 254-1293.		
		REQUIRES: Generator removal.		
6	OGNAR25	GENERATOR - 5024J FRAME	0	\$10,547
		TECHNICAL: 12 lead, AREP generator arrangement 237-7185.		
		REQUIRES: Generator removal.		

Self Excited - Single Oversize Generators

480/277, 240/139, or 208/120 Volts @ 60 Hz.
 To upgrade from standard package self-excited generator to single
 oversize SE generator (12 leads):

6	OGNSEG1	GENERATOR - 5014J FRAME	0	\$10,144
		TECHNICAL: 12 lead, self-excited generator arrangement 237-7184.		
6	OGNSEG2	GENERATOR - 5014L FRAME	0	\$11,487
		TECHNICAL: 12 lead, self-excited generator arrangement 235-1199.		
		FOR USE WITH: Wide base or integral fuel tank base.		
6	OGNSEJ5	GENERATOR - 5014L FRAME	0	\$11,487
		TECHNICAL: 12 lead, self-excited generator arrangement 235-1199.		
		CANNOT BE USED WITH: Wide base or integral fuel tank base.		

Self Excited - Double Oversize Generators

480/277, 240/139 or 208/120 volts @ 60 hz.
 To upgrade from standard package self-excited (SE) generator to
 double oversize SE generator (12 leads).

6	OGNSEG2	GENERATOR - 5014L FRAME	0	\$11,487
		TECHNICAL: 12 lead, permanent magnet, generator arrangement 235-1199.

CATERPILLAR INC. ENGINE DIVISION PRICE LIST

CATERPILLAR PKG. GEN SET (Y)
NEWBERRY, SOUTH CAROLINA

Ship Weight
lbs

List Price
At Factory

Product Consist:

These prices are manufacturer suggested resale prices and are subject to change without notice. Shipment will usually be made from source of manufacture, or at factory discretion. Attachment prices are for attachments installed as original equipment unless otherwise specified.

Net price items are subject to no further discounts.

All prices are installed list prices unless otherwise specified.

* SHIPMENT DATE SPECIFIC PRICING IS BEST FOUND THROUGH THE PSQ AND ISA QUOTING TOOLS*.

For product abbreviations go to Power Net at <https://engines.cat.com>
Under the quick links, select TMI Web. Once in TMI select Abbreviations, listed under TMI Definitions.

Orders requiring special engineering (referred to as DTO) will require additional process time. This time is over and above normal order processing or product availability.

Attachments listed in the price list are NOT interchangeable between sales models or applications. If attachments are required for a particular model or configuration but are not listed as compatible for this model in a specific price list, the order will require a DTO. This is true even when the same attachment or configuration has been ordered in the past.

A DTO will require an application and installation (A & I) marketing quote. For further information contact the Application Support Center.

Requests for special ratings not listed in the Price List should also be sent to the Application Support Center. If the special rating is possible, it may also require a DTO and could require additional processing time if the appropriate details have not yet been established.

Please keep this information in mind when discussing or quoting approximate availability to your customers.

DTO quotes are typically valid for six (6) months. If the quote expires, regardless if it has been ordered or not, a new DTO quote will be required before an order can be placed.

To obtain the latest specific conditions from Caterpillar to individual Cat dealers please use Engine Order Management Process (EOMP) quoting and order tools like ISA or PSQ. For questions or special requests, please contact your Caterpillar representative.

Technical performance data and Engine rating information is available

in Power Net at <https://engines.cat.com>. Under the quick links, select TMI Web. Once in TMI select TMI Performance Definitions.

To request dealer specific authorization, please follow links to Engine Order Management Process (EOMP) at Caterpillar Power Net (<https://engines.cat.com>). CWS logon id is needed to access Power Net.

The EPG Ratings Guide may be ordered through Media Logistics by calling + 1 (800) 566-7782 or + 1 (309) 266-0942. The current EPG Ratings Guide media number for Cat Generator Sets is LEXE7582 or or LEXE7581 for Olympian Generator Sets.

Current EPG ratings are also available by accessing the Electronic Media Center at <https://emc.cat.com> and on Power Net at <https://engines.cat.com>, select Electric Power then select References/Sales Tools.

ENGINE

Electrical system, 12 VDC
Cartridge type air filter(s) Medium Duty
Coolant and lube drains piped to the edge of base
D40-6, D50-6, D40-6S, D50-6S product includes Electronic Governor
D60-6 to D175-2, D60-8S to D100-6S product includes ADEM electronic engine control w/Speed Adjust thru EMCP
Tier 3 EPA Approved Emissions Certified

AUTOMATIC VOLTAGE REGULATOR

Voltage within + /- 0.5% at steady state from no load to full load
Provides fast recovery from transient load changes

CAT Premium High Output Battery(s) with rack & cables
Installed (dry); 950CCA; 90amp hr; 12V

CONTROL PANEL

NEMA 1 enclosure with hinged door
Wiring loom
DC and AC wiring harness
EMCP 4.2 controls including:
std -Run / Auto / Stop Control
std -Speed Adjust
optional -Voltage Adjust
std -Engine Cycle Crank
std -Emergency Stop pushbutton
optional -Audible Alarm
EMCP 4.2 controller features:
std -12-volt DC operation
std -Environmental sealed front face
std -Text alarm/event descriptions
Digital indication for:
std -RPM

* SHIPMENT DATE SPECIFIC PRICING IS BEST FOUND THROUGH THE PSQ AND ISA QUOTING TOOLS*.

For product abbreviations go to Power Net at <https://engines.cat.com>
Under the quick links, select TMI Web. Once in TMI select Abbreviations, listed under TMI Definitions.

Orders requiring special engineering (referred to as DTO) will require additional process time. This time is over and above normal order processing or product availability.

Attachments listed in the price list are NOT interchangeable between sales models or applications. If attachments are required for a particular model or configuration but are not listed as compatible for this model in a specific price list, the order will require a DTO. This is true even when the same attachment or configuration has been ordered in the past.

A DTO will require an application and installation (A & I) marketing quote. For further information contact the Application Support Center.

Requests for special ratings not listed in the Price List should also be sent to the Application Support Center. If the special rating is possible, it may also require a DTO and could require additional processing time if the appropriate details have not yet been established.

Please keep this information in mind when discussing or quoting approximate availability to your customers.

DTO quotes are typically valid for six (6) months. If the quote expires, regardless if it has been ordered or not, a new DTO quote will be required before an order can be placed.

To obtain the latest specific conditions from Caterpillar to individual Cat dealers please use Engine Order Management Process (EOMP) quoting and order tools like ISA or PSQ. For questions or special requests, please contact your Caterpillar representative.

Technical performance data and Engine rating information is available

CATERPILLAR INC. ENGINE DIVISION PRICE LIST

in Power Net at <https://engines.cat.com>. Under the quick links, select TMI Web. Once in TMI select TMI Performance Definitions.

To request dealer specific authorization, please follow links to Engine Order Management Process (EOMP) at Caterpillar Power Net (<https://engines.cat.com>). CWS logon id is needed to access Power Net.

The EPG Ratings Guide may be ordered through Media Logistics by calling + 1 (800) 566-7782 or + 1 (309) 266-0942. The current EPG Ratings Guide media number for Cat Generator Sets is LEXE7582 or or LEXE7581 for Olympian Generator Sets.

Current EPG ratings are also available by accessing the Electronic Media Center at <https://emc.cat.com> and on Power Net at <https://engines.cat.com>, select Electric Power then select References/Sales Tools.

ENGINE

Electrical system, 12 VDC
Cartridge type air filter(s) Medium Duty
Coolant and lube drains piped to the edge of base
D40-6, D50-6, D40-6S, D50-6S product includes Electronic Governor
D60-6 to D175-2, D60-8S to D100-6S product includes ADEM electronic engine control w/Speed Adjust thru EMCP
Tier 3 EPA Approved Emissions Certified

AUTOMATIC VOLTAGE REGULATOR

Voltage within + /- 0.5% at steady state from no load to full load
Provides fast recovery from transient load changes

CAT Premium High Output Battery(s) with rack & cables
Installed (dry); 950CCA; 90amp hr; 12V

CONTROL PANEL

NEMA 1 enclosure with hinged door
Wiring loom
DC and AC wiring harness
EMCP 4.2 controls including:
std -Run / Auto / Stop Control
std -Speed Adjust
optional -Voltage Adjust
std -Engine Cycle Crank
std -Emergency Stop pushbutton
optional -Audible Alarm
EMCP 4.2 controller features:
std -12-volt DC operation
std -Environmental sealed front face
std -Text alarm/event descriptions
Digital indication for:
std -RPM

AT FACTORY

Standard Equipment:

POWERTRAIN

CAT C9 Diesel Engine 300HP
Oversized with dedicated engine air tunnel and side by side engine radiator & charge cooler with variable pitch auto reversing fan.
Pre-cleaner plus two-stage filter.
High mounted (above engine) to avoid debris.
Meets non-current Tier3 emission levels.

UNDERCARRIAGE

Four independent wheel drives with planetary gear boxes.
True 4WD for superior traction.
Oscillating rear axle with lock-out feature.
Two mode shift on the fly travel speed system features creeper mode for travel up to 3.1mph and standard mode for travel up to 7.5mph.
Four wheel independent hydraulic braking plus park brake.
One button operation for all outriggers plus individual controls.
Guarded cylinders with load-holding valves.

HYDRAULICS

Load sensing variable displacement hydraulics with pre-compensation valves and flow sharing
Two 75gpm pumps tied together to supply 150gpm to main functions at 4800psi.
Closed loop swing system with regenerative hydraulic braking.
41gpm swing pump at 5100 psi with large capacity direct drive swing motor.
52" ring gear
6gpm pump for hydraulic cooling fan.
Induction hardened cylinders with electronic cushions.
Load holding valves on cylinders for main and stick.

ELECTRICAL

24V DC
Two 12V batteries
2 lights above, 1 below the cab and two mounted to the stick. Three service lights in the engine and hydraulic compartments. Two sealed wiring enclosures with easy access.

OPERATOR ENVIRONMENT

Ground access cab over the sides and up to 18'8" at eye level.
Bolt-on FOGS standard
Tempered glass windows except laminated glass in retractable front windshield.
Removable lower windshield and sliding upper door window
Seat KAB 84/E4P, suspension seat with adjustable arm rest and retractable 3" seat belt (cloth)
Monitor
-Full graphic and full color display with language display capability
-Warning information, filter and fluid change information
-Working hour information
-Machine condition, error code and tool mode setting information
-Start up level check for hydraulic oil, engine oil and engine coolant
Skylight with sun shade
Upper windshield wiper and washers
Positive filtered ventilation
Bi-level air conditioner, heater and defroster
Instrument panel and gauges
Interior lighting
Coat hook
Load holding valves and cab riser cylinders

OTHER STANDARD EQUIPMENT

Upper and lower auto-lube standard
Operating system to monitor machine functions.

AT FACTORY

Standard Equipment:

POWERTRAIN

CAT C9 Diesel Engine 325HP
Oversized system with dedicated engine air tunnel and side by side engine radiator & charge cooler with variable pitch auto reversing fan.
Pre-cleaner plus two-stage filter.
High mounted (above engine) to avoid debris.
Meets non-current Tier3 emission levels.

UNDERCARRIAGE

Four independent wheel drives with planetary gear boxes.
True 4WD for superior traction.
Oscillating rear axle with lock-out feature.
Two mode shift on the fly travel speed system features creeper mode for travel up to 2.3mph and standard mode for travel up to 7.2mph.
Four wheel independent hydraulic braking plus park brake.
One button operation for all outriggers plus individual controls.
Guarded cylinders with load-holding valves.
Four 23.5" X 59" solid tires.

HYDRAULICS

Load sensing variable displacement hydraulics with pre-compensation valves and flow sharing
Two 84gpm pumps tied together to supply 168gpm to main functions at 4800psi.
Closed loop swing system with regenerative hydraulic braking.
52gpm swing pump at 5500 psi with large capacity direct drive swing motor.
64" ring gear
6gpm pump for hydraulic cooling fan.
Induction hardened cylinders with electronic cushions.
Load holding valves on cylinders for main and stick.
Hydraulic warm-up valve integrated into the lower control valve.

ELECTRICAL

24V DC
Two 12V batteries
2 lights above, 1 below the cab and two mounted to the stick. Three service lights in the engine and hydraulic compartments. Two sealed

wiring enclosures with easy access.

OPERATOR ENVIRONMENT

Ground access cab over the front, sides rear and up to 23'6" at eye level.
Bolt-on FOGS
Tempered glass windows except laminated glass in retractable front windshield.
Removable lower windshield and sliding upper door window
Seat KAB 84/E4P, suspension seat with adjustable arm rest and retractable 3" seat belt (cloth)
Monitor
-Full graphic and full color display with language display capability
-Warning information, filter and fluid change information
-Working hour information
-Machine condition, error code and tool mode setting information
-Start up level check for hydraulic oil, engine oil and engine coolant
Skylight with sun shade
Upper windshield wiper and washers
Positive filtered ventilation
Bi-level air conditioner, heater and defroster
Instrument panel and gauges
Interior lighting
Coat hook
Load holding valves and cab riser cylinders

OTHER STANDARD EQUIPMENT

Upper and lower auto-lube
IQAN communication system to monitor machine functions.

PIRACICABA, BRAZIL

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator
through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, AUTO
Drain, engine oil, ecology
Engine, C7.1 with ACERT technology, diesel, with automatic engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Fuel-water separator
Parking brake, multi-disc, sealed and Oil cooled
Priming pump, fuel
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP+ (Variable Horsepower Plus)
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Electrical system, 24 volt
Grade Control Ready
-cab harness -software
-bosses -brackets
-electrical hydraulic valves
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Display, digital speed and gear
Gauge, machine level
Gauges (analog) inside the cab
Includes -fuel
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-regeneration
Joystick, adjustable armrests

Joystick gear selection
Joystick hydraulic controls
-right/left blade lift w/float position
-front wheel lean and articulation
-blade sideshift and tip -circle drive
-centershift -steering
Joystick hydraulic power steering
Ladders, cab, left and right side
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
ROPS cab, sound suppressed
70dB(A)
ISO 6394
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges, 6" x 5/8" (152mm x 16mm)
curved DH-2 steel, 3/4" mounting bolts (19mm)
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Drawbar, 4 shoe with replaceable wear strips
Endbits, 5/8" (16mm) DH-2 steel, 3/4" (19mm) mounting bolts
Fuel tank, 100 gallon (378 L)
Ground level engine shutdown
Hammer (emergency exit)
Moldboard, 12' x 24" x 7/8" (3658mm x 610mm x 22mm)
Pump, hydr, high capacity (98cc/6cu in)
Radiator, cleanout access (both sides with swing doors)
Secondary steering
SOS ports, engine, hydraulic

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements

If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory.

353-2917 120M2 AWD MOTOR GRADER 37,622 \$360,700

NOTE: To be complete, your machine order must contain:

- Base machine
- Regional Packages
- Performance Packages
- Hydraulics
- Electrical
- Operator Environment
- Technology Products
- Tires
- Service Instruction
- Associated OP Numbers

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

HYDRAULICS

NOTE: Optional Control Locations

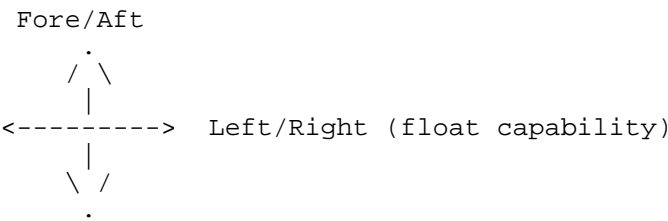

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
DA1 = Dozer Angle 1 (angles front blade left OR right)
DA2 = Dozer Angle 2 (angles front blade left AND right)
RIP = Rear Mounted Ripper (moves ripper up/down)
MMS = Mid-Mounted Scarifier
WM = Wing Mast
WT = Wing Tilt
Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS (CONT.)***ACCUGRADE (Must Select One) (Cont.)***

L	364-3746	INTEGRATED CROSS SLOPE	165	\$11,390
---	----------	----------------------------------	-----	----------

Available for new orders only.

Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road.

Provides cab switches, software, harness, sensors and mounting. Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions).

PRODUCT LINK (Must Select One)

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321	29	NC
---	----------	---	----	----

Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.

L	361-3107	PRODUCT LINK, CELLULAR PL522	29	NC
---	----------	--	----	----

Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

TIRES, RIMS, AND WHEELS*(Must Select One)*

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

L	393-1563	MOUNT, SNOW WING, FRAME READY 251		\$1,895
		INCLUDES:		
		- Snow Wing Mount		
		- Light, Snow Wing, Right Hand		
		INCLUDED IN: SNOW ARRANGEMENT		
L	365-1336	MID MOUNT SCARIFIER PACKAGE 2,071		\$16,040
		INCLUDES:		
		- Mid-mount scarifier, V Type with 11 Teeth		
		- Mid-mount scarifier bracket		
		INCLUDES: MOUNT, MID-MOUNT SCARIFIER		
		CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT (Installed)		
		CANNOT BE USED WITH: FENDERS, FRONT, NON-AWD		
		CANNOT BE USED WITH: FRONT BLADE PACKAGE		

COMFORT PACKAGE (May select one)

L	391-8968	COMFORT PACKAGE 19		\$1,925
		INCLUDES:		
		- Radio, 12V, AM/FM, Weatherband		
		- Sun Shade, Rear		
		- Converter, Communication (CB)		
L	397-5305	COMFORT PACKAGE 2 21		\$2,455
		INCLUDES:		
		- Radio, 12V, AM/FM CD/MP3 BLUETOOTH, Weatherband		
		- Sun Shade, Rear		
		- Converter, Communication (CB)

-----	------------	----------------------	--------------------	---------------------------

OPERATOR ENVIRONMENT (CONT.)**MIRRORS (May select one)**

L	233-3295	MIRRORS, OUTSIDE MOUNTED 32 Provides two convex mirrors for outside mounting on the left and right cab grab irons. NOTE: the mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment. REQUIRED BY : EU ARRANGEMENT AND EU ARRANGEMENT WITH ROADING		\$485
L	344-0984	MIRRORS, OUTSIDE HEATED 33 Provides mirrors with a 24V heating element to keep mirrors ice free in cold weather operations. NOTE: the mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment. REQUIRED BY : EU ARRANGEMENT AND EU ARRANGEMENT WITH ROADING		\$655

TECHNOLOGY PRODUCTS**TECHNOLOGY PRODUCTS (May select one or more)**

L	238-8827	SECURITY SYSTEM, MACHINE 10 FOR USE IN LANE 3 ONLY Provides a programmable system to manage access to the machine using special MSS keys. Deters theft, vandalism, and unauthorized use. Programmable features allow the following: * limits operators to selected machines * controls the days and hours equipment may be started * controls access by untrained operators or personnel * disarms system during regular working hours for standard key usage * allows expiration date on key Includes two preprogrammed keys. The machine will be shipped with the system inactive. Requires Caterpillar Service Tool, Electronic Technician (ET) to activate and modify programming of keys. Additional 206-5162 keys are available through Parts Distribution.		\$710
---	----------	--	--	--------------

TIRES, RIMS, AND WHEELS**FRONT SPARE RIMS LANE 3 ONLY (May Select One)**

L	252-0113	RIM, 14" X 25" AWD MP (SPARE) 217 FOR USE WITH LANE 3 ONLY For use on FRONT of AWD machine.		\$1,750 NI
L	252-0110	RIM, 10" X 24" AWD MP (SPARE) 197 FOR USE WITH LANE 3 ONLY For use on FRONT of AWD machine.		\$1,490 NI

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
TIRES, RIMS, AND WHEELS (CONT.)				
<i>REAR SPARE RIMS LANE 3 ONLY (May Select One)</i>				
L	252-0108	RIM, 10" X 24" MP (SPARE) 197 FOR USE WITH LANE 3 ONLY For use on REAR of AWD machine.		\$1,355 NI
L	252-0112	RIM, 14" X 25" MP (SPARE) 237 FOR USE WITH LANE 3 ONLY For use on REAR of AWD machine.		\$1,590 NI
GUARDS				
L	367-6905	GUARD, AXLE HOSE 15 Protects hose along front axle lines and fittings. * NOTE* NOT recommended for use with tire chains		\$1,060
L	366-2462	GUARD, TRANSMISSION 293 Provides a steel guard to protect the transmission from ground debris. REQUIRED BY: GUARD, TRANSMISSION SIDES/SOUND INCLUDED IN: EUROPEAN ARRANGEMENT AND TUV ROADING ARRANGEMENT		\$3,350
L	366-6006	GUARD, TRANSMISSION SIDES/SOUND 167 Provides two metallic side panels on either side of transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION REQUIRES: GUARD GP, HITCH INCLUDED IN: EUROPEAN ARRANGEMENT AND TUV ROADING ARRANGEMENT		\$2,250
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors. INLCUDED IN: EUROPEAN ARRANGEMENT AND TUV ROADING ARRANGEMENT		\$1,520
L	246-6027	FENDERS, REAR 360 FOR USE WITH LANE 3 ONLY Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. INCLUDED IN: TUV ROADING ARRANGEMENT		\$5,310
L	262-0412	FENDERS, FRONT, AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$3,740
L	324-5396	GUARD, DEBRIS 20 Provides a additional cooling with debris guard on underside of rear engine enclosure. REQUIRED BY: STARTING, ETHER CANNOT BE USED WITH: STARTING AID - ETHER		\$1,140

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

OTHER ATTACHMENTS**ENGINE COOLANT HEATERS (May select one)**

L	255-1336	HEATER, ENGINE COOLANT, 120V 1 Engine coolant heater for 120 volt external power source. REQUIRED BY: SNOW ARRANGEMENT REQUIRED BY: WEATHER, COLD PLUS		\$226
---	----------	--	--	--------------

STARTING AIDS (May select one)

L	324-5338	STARTING, ETHER 1 REQUIRED BY: WEATHER, COLD AND WEATHER, COLD PLUS REQUIRES: GUARD, DEBRIS		\$487
L	373-8181	STARTING AID - ETHER 1 REQUIRED BY: WEATHER, COLD REQUIRED BY: WEATHER, COLD PLUS NOT FOR USE WITH: GUARD, DEBRIS		\$487

WORK TOOLS**WORK TOOLS (May select one or more)**

L	359-3914	MOUNT, MID-MOUNT SCARIFIER 131 Brackets welded to front frame for future installation of midmount scarifier. NOTE: this is the mounting only and does not include the scarifier. There is a contact point with the mid-mount scarifier and the A Frame in extreme positions. REQUIRES: Hydraulics with a mid-scarifier function NOTE: If you intend to purchase the mid-mounted scarifier, please note that the actual scarifier cannot be attached to the machine at same time as the Lift Group, Hydraulic, Front CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$1,390
L	359-3925	MOUNTING, FRONT LIFT 10 Two mounting plates welded to both sides of the front frame for factory or future installation of Front Lift. REQUIRED BY: LIFT GROUP, MANUAL, FRONT		\$435

GROUND ENGAGING TOOLS**(May select one or more)**

P	8J-1434	TOOTH, RIPPER 67 Straight shank with one tooth each. FOR USE WITH: RIPPER-SCARIFIER, REAR		\$795
P	4K-3330	SHANKS/TEETH FOR SCARIFIER 152 These nine shanks have teeth and are for sale with the rear ripper-scarifiers. NOTE: these shanks/teeth can be used with front scarifiers and mid-mount scarifiers, but must be ordered as not-installed from Parts Distribution Centers. FOR USE WITH: RIPPER-SCARIFIER, REAR		\$1,383

**120M2 AWD MOTOR GRADER
LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner,dual stage dry type radial seal with service indicator
through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock,automatic
Drain, engine oil, ecology
Engine,C7.1 with ACERT technology, diesel, with automatic engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Fuel-water separator
Parking brake, multi-disc, sealed and oil cooled
Priming pump, fuel
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive VHP Plus(Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Electrical system, 24 volt
Grade Control Ready
-cab harness -software
-bosses -brackets
-electrical hydraulic valves
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Display, digital speed and gear
Gauge, machine level
Gauges (analog) inside the cab
Includes -fuel
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-regeneration
Joystick, adjustable armrests
Joystick gear selection
Joystick hydraulic controls

-right/left blade lift w/float position
-front wheel lean and articulation
-blade sideshift and tip -circle drive
-centershift -steering
Joystick hydraulic power steering
Ladders, cab, left and right side
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
ROPS cab, sound suppressed 70dB(A)
ISO 6394
Seat,cloth-covered, comfort suspension
Seat belt, retractable 3"
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges, 6" x 5/8" (152mm x 16mm)
curved DH-2 steel, 3/4" mounting bolts (19mm)
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Drawbar, 4 shoe with replaceable wear strips
Endbits, 5/8" (16mm) DH-2 steel, 3/4" (19mm) mounting bolts
Fuel tank, 100 gallon (378 L)
Ground level engine shutdown
Hammer (emergency exit)
Moldboard, 12'x 24" x 7/8" (3658mm x 610mm x 22mm)
Pump, hydr, high capacity (98cc/6cu in)
Radiator, cleanout access (both sides with swing doors)
Secondary steering
SOS ports, engine, hydraulic
transmission, coolant, fuel
Tow hitch

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

To be complete, your Lane 1 machine order must at least contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P numbers for packing shipment

Effective 12 September, 2011 Exact Lane 1 configuration may also be sourced from the factory with Lane 2 Availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator Instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory.

353-2917	120M2 AWD MOTOR GRADER	37,622	\$360,700
-----------------	---	---------------	------------------

NOTE: To be complete, your machine order must contain:

- Base machine
- Regional Packages
- Performance Packages
- Hydraulics
- Electrical
- Operator Environment
- Technology Products
- Tires
- Service Instruction
- Associated 0P Numbers

0P-1918	120M2 MISC MATL NLR	0	NC
----------------	--------------------------------------	----------	-----------

Use this as the top level reference number when ordering misc material without ordering a machine.

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

120M2 AWD MOTOR GRADER LITTLE ROCK, ARKANSAS	Ship Weight lbs	List Price At Factory
---	--------------------	--------------------------

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

HYDRAULICS

NOTE: Optional Control Locations

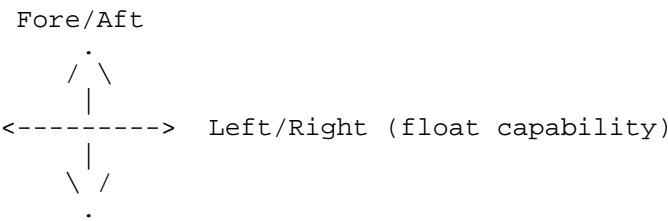

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must select one)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

	0P-1904	PRODUCT LINK INSTALLATION 0 CANNOT BE USED WITH: European Union Dealer, North American Dealer, New Zealand or Australian Dealer.		NC
L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC

-----	------------	----------------------	--------------------	--------------------------

TIRES, RIMS, AND WHEELS*(Must Select One)*

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

Standard Equipment:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, AUTO
Drain, engine oil, ecology
Engine, C7.1 with ACERT technology, diesel, with automatic engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Fuel-water separator
Parking brake, multi-disc, sealed and Oil cooled
Priming pump, fuel
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP (Variable Horsepower Plus)
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Electrical system, 24 volt
Grade Control Ready
-cab harness -software
-bosses -brackets
-electrical hydraulic valves
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Display, digital speed and gear
Gauge, machine level
Gauges (analog) inside the cab
Includes -fuel
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-regeneration
Joystick, adjustable armrests

Joystick gear selection
Joystick hydraulic controls
-right/left blade lift w/float position
-front wheel lean and articulation
-blade sideshift and tip -circle drive
-centershift -steering
Joystick hydraulic power steering
Ladders, cab, left and right side
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
ROPS cab, sound suppressed 70dB(A)
ISO 6394
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges, 6" x 5/8" (152mm x 16mm)
curved DH-2 steel, 3/4" mounting bolts (19mm)
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Drawbar, 4 shoe with replaceable wear strips
Endbits, 5/8" (16mm) DH-2 steel, 3/4" (19mm) mounting bolts
Fuel tank, 100 gallon (378 L)
Ground level engine shutdown
Hammer (emergency exit)
Moldboard, 12' x 24" x 7/8" (3658mm x 610mm x 22mm)
Pump, hydr, high capacity (98cc/6cu in)
Radiator, cleanout access (both sides with swing doors)
Secondary steering
SOS ports, engine, hydraulic

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements

If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory.

353-2916 120M2 MOTOR GRADER 35,038 \$311,820

NOTE: To be complete, your machine order must contain:

- Base machine
- Regional Packages
- Performance Packages
- Hydraulics
- Electrical
- Operator Environment
- Technology Products
- Tires
- Service Instruction
- Associated OP Numbers

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

HYDRAULICS

NOTE: Optional Control Locations

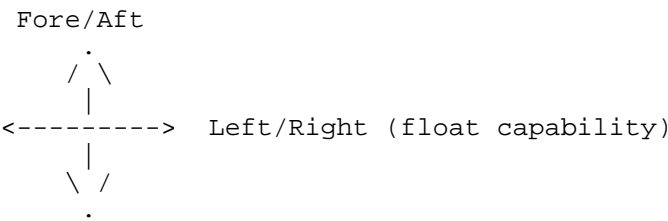

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

---	----------	--	-----	-----------------

Available for new orders only.

Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road.

Provides cab switches, software, harness, sensors and mounting.

Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions).

PRODUCT LINK (Must Select one)

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321	29	NC
---	----------	--	----	-----------

Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.

L	361-3107	PRODUCT LINK, CELLULAR PL522	29	NC
---	----------	---	----	-----------

Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

-----	------------	----------------------	--------------------	---------------------------

TIRES, RIMS, AND WHEELS*(Must Select One)*

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose between an alternative tire or a "rims only" option (where available) within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Engine, C7.1 with ACERT technology, diesel, with automatic engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Fuel-water separator
Parking brake, multi-disc, sealed, and oil cooled
Priming pump, fuel
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive VHP Plus(Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Electrical system, 24 volt
Grade Control Ready
-cab harness -software
-bosses -brackets
-electrical hydraulic valves
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Display, digital speed and gear
Gauge, machine level
Gauges (analog) inside the cab
Includes -fuel
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-regeneration
Joystick, adjustable armrests
Joystick gear selection
Joystick hydraulic controls

-right/left blade lift w/float position
-front wheel lean and articulation
-blade sideshift and tip -circle drive
-centershift -steering
Joystick hydraulic power steering
Ladders, cab, left and right side
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
ROPS cab, sound suppressed 70dB(A)
ISO 6394
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges, 6" x 5/8" (152mm x 16mm)
curved DH-2 steel, 3/4" mounting bolts (19mm)
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Drawbar, 4 shoe with replaceable wear strips
Endbits, 5/8" (16mm) DH-2 steel, 3/4" (19mm) mounting bolts
Fuel tank, 100 gallon (378 L)
Ground level engine shutdown
Hammer (emergency exit)
Moldboard, 12' x 24" x 7/8" (3658mm x 610mm x 22mm)
Pump, hydr, high capacity (98cc/6cu in)
Radiator, cleanout access (both sides with swing doors)
Secondary steering
SOS ports, engine, hydraulic
transmission, coolant, fuel

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory.

353-2916	120M2 MOTOR GRADER 35,038	\$311,820
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires	
	- Service Instruction	
	- Associated OP Numbers	
0P-1918	120M2 MISC MATL NLR 0	NC
	Use this as the top level reference number when ordering misc material without ordering a machine.	

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

HYDRAULICS

NOTE: Optional Control Locations

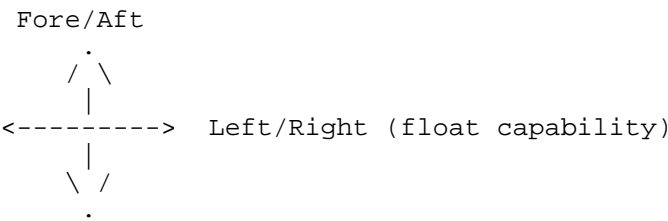

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

- INDEX = Index Finger (front lift)(float capability)
- MID = Middle Finger(dozer angle 1)
- RING = Ring Finger (dozer angle 2)
- LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

- RH1 = Front Lift (float capability)
- RH2 = Ripper-Scarifier Control
- RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (Angles front blade left OR right)
 DA2 = Dozer Angle 2 (Angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

ACCUGRADE (Must Select Only One)				
L	362-5222	NO ACCUGRADE.	0	NC
L	365-2197	INSTALLATION, ACCUGRADE READY Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment	32	\$5,250
L	364-3745	GRADE CONTROL X SLOPE Available for new orders only. Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.	165	\$11,390

Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

NOTES

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions).

TIRES, RIMS, AND WHEELS**(Must Select One)**

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

-----	------------	-----------------------	--------------------	--------------------------

TIRES, RIMS, AND WHEELS (CONT.)*(Must Select One) (Cont.)*

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

L	246-6027	FENDERS, REAR 360 Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS.		\$5,310
L	308-7368	FENDERS, FRONT, NON-AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all Non-AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE CANNOT BE USED WITH: AXLE HOSE GUARD		\$4,070
L	324-5396	GUARD, DEBRIS 20 Provides a additional cooling with debris guard on underside of rear engine enclosure. REQUIRED BY: Ether Starting Aid		\$1,140
OTHER ATTACHMENTS				
<i>ENGINE COOLANT HEATERS (May select one)</i>				
L	255-1336	HEATER, ENGINE COOLANT, 120V 1 Engine coolant heater for 120 volt external power source. REQUIRED BY: SNOW ARRANGEMENT CANNOT BE USED WITH: HEATER, ENGINE COOLANT, 240V		\$226
<i>STARTING AIDS (May select one)</i>				
L	373-8181	STARTING AID - ETHER 1 FOR USE WITH: Weather, Cold & Weather, Cold Plus NOT FOR USE WITH: Guard, Coolant Shield, Debris		\$487
L	324-5338	STARTING, ETHER 1 REQUIRED BY: Weather, Cold & Weather, Cold Plus REQUIRES: Guard, Coolant Shield, Debris		\$487
WORK TOOLS				
<i>WORK TOOLS (May select one or more)</i>				
L	359-3914	MOUNT, MID-MOUNT SCARIFIER 131 Brackets welded to front frame for future installation of midmount scarifier. NOTE: this is the mounting only and does not include the scarifier. There is a contact point with the mid-mount scarifier and the A Frame in extreme positions. REQUIRES: Hydraulics with a mid-scarifier function NOTE: If you intend to purchase the mid-mounted scarifier, please note that the actual scarifier cannot be attached to the machine at same time as the LIFT GROUP, MANUAL, FRONT CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$1,390
L	359-3925	MOUNTING, FRONT LIFT 10 Two mounting plates welded to both sides of the front frame for factory or future installation of Front Lift. REQUIRED BY: Lift Group, Manual, Front		\$435

12M2 AWD MOTOR GRADER
PIRACICABA, BRAZIL

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, auto
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel w/ auto engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards.
Fuel-water separator
Muffler, under hood
Parking brake, multi-disc, sealed and oil cooled
Priming pump, fuel
Rear axle, modular
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive Variable Horsepower Plus
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Cab harness and electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready -Cab harness
-software -electrical hydraulic valves
-bosses -brackets
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Accelerator
Air Conditioning with heater
Arm and wrist rest, adjustable

12M2 AWD MOTOR GRADER
PIRACICABA, BRAZIL

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

OPERATOR ENVIRONMENT (CONT.)

Articulation, automatic return to center
Ashtray and lighter
Centershift pin indicator
Coat hook
Cupholder
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-fuel -regen
Joystick, adjustable armrests
Joystick gear selection
Joystick hydraulic controls
-right/left blade lift w/ float position
-blade sideshift and tip -steering
-circle drive -centershift
-front wheel lean -articulation
Joystick hydraulic power steering
Ladders, cab, left and right side
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
-70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

Doors, 4, engine compartment, (two left hand, two right hand,) locking
Drawbar, 6 shoe w/replaceable wear strips
Electrical hydraulic valves, base 8
Endbits -5/8" (16mm) -DH-2 steel, 3/4" -3/4" (19mm) mounting bolts
Fluid check, ground level
Frame, articulated with safety lock
Fuel tank, 110 gallon (416 L)
Ground level engine shutdown
Ground level fueling
Hammer (emergency exit)
Horn, electric
Hydraulic lines for base functions
Lockout, hydraulic implement (for roading and servicing)
Moldboard, 12' x 24" x 7/8" (3658mm x 610mm x 22mm)
Mounting, cab roof accessories
Pump, hydraulic, high capacity (98cc/cu in)
Radiator, cleanout access (both sides with swing doors)
Secondary steering
Serviceability, LH side
SOS ports -engine -hydraulic
-transmission -coolant -fuel
Tandem walkway/guards
Tool box
Multi-piece rims are included in the base machine price and weight.

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Anti-glare paint
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges -6" x 5/8" (152mm x 16mm)
-curved DH-2 steel
-3/4" mounting bolts (19mm)

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not

381-8796 12M2 AWD MOTOR GRADER 39,334 \$378,800

NOTE: To be complete, your machine order must contain:

- Base machine
- Regional Packages
- Performance Packages
- Hydraulics
- Electrical
- Operator Environment
- Technology Products
- Tires
- Service Instruction
- Associated OP Numbers

HYDRAULICS

NOTE: Optional Control Locations

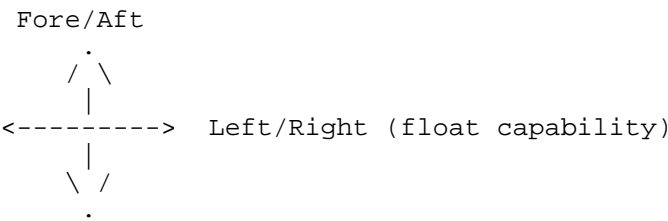

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
DA1 = Dozer Angle 1 (angles front blade left OR right)
DA2 = Dozer Angle 2 (angles front blade left AND right)
RIP = Rear Mounted Ripper (moves ripper up/down)
MMS = Mid-Mounted Scarifier
WM = Wing Mast
WT = Wing Tilt
Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must select one)

L	362-5222	NO ACCUGRADE. 0		NC
L	364-3747	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harness, sensors and mounting.	\$11,390	
L	362-6013	INSTALLATION, ACCUGRD RDY AWD 32 Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment	\$5,250	

Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions)

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to the worldwide tire shortage of Off-The-Road tires, has had to change the tires that are offered for Motor Graders. Caterpillar fully understands that many tenders may require a tire; however the factory can only supply tires that are available from the tire manufacturers. During this shortage you may be to change to an alternative tire.

L	391-8971	SNOW ARRANGEMENT	355	\$9,620
		INCLUDES:		
		- MOUNT, SNOW WING, FRAME READY		
		- LIGHTS, WORKING, PLUS		
		- LIGHTS, FRONT HEADLIGHTS, HIGH		
		- MOUNTING, WARNING LIGHT		
		- TRANSMISSION, AUTOSHIFT		
		REQUIRES: HEATER, ENGINE COOLANT, 120V		
		or HEATER, ENGINE COOLANT, 240V		
		REQUIRES: STARTER, ELECTRIC, HEAVY DUTY		
		REQUIRES: WEATHER, COLD PLUS		
		REQUIRES: CAB, PLUS (STANDARD GLASS)		
		or CAB, PLUS (ANTI-ICING GLASS)		
		RECOMMENDED: MIRRORS, OUTSIDE HEATED		

WORK TOOL PACKAGE (May select one or more)

L	358-9341	MID MOUNT SCARIFIER PACKAGE	2,076	\$16,040
		INCLUDES:		
		- Mid-mount Scarifier, V-Type with 11 Teeth		
		- Mid-mount Scarifier Bracket		
		CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT		
		CANNOT BE USED WITH: FRONT FENDERS, AWD		
L	390-9182	MOUNT, SNOW WING, FRAME READY	251	\$2,255
		INCLUDES:		
		- Snow Wing Mount		
		- Light, Snow Wing, Right Hand		
		INCLUDED IN: SNOW ARRANGEMENT		
L	351-5178	FRONT BLADE PACKAGE	2,612	\$11,460
		INCLUDES:		
		- Front Blade (Lift & Lower only)		
		- Lines for Front Blade		
		REQUIRES: A hydraulics control part number that has a Front Lift		
		function.		
		CANNOT BE USED WITH: PUSH PLATE		
		CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT		

COMFORT PACKAGE (May select one)

L	391-8968	COMFORT PACKAGE	19	\$1,925

Standard Equipment:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Parking brake, multi-disc, sealed, and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP PLUS (Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
Joystick, adjustable armrests

Joystick gear selection, hydraulic power steering hydraulic controls (right/left, blade lift w/float position blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed -70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc/15cu in)
Radiator, cleanout access (both sides with swing doors)
SOS ports -engine -hydraulic

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

To be complete,your Lane 1 Machine order must contain:
1)Distribution Center Arrangement (DCA)
2)0P-9001 Lane 1 order
3)0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not

HYDRAULICS

NOTE: Optional Control Locations

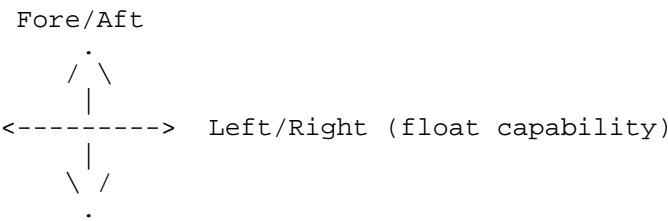

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must select one)

L	362-5222	NO ACCUGRADE. 0		NC
L	362-6013	INSTALLATION, ACCUGRD RDY AWD 32 Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	364-3747	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.		\$11,390

Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions)

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

FEATURE PACKAGES (CONT.)***LIGHTING PACKAGES (May select one)***

L	353-3319	LIGHTS, WORKING, BASIC 19 INCLUDES: - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting CANNOT BE USED WITH: LIGHTS, WORKING, PLUS		\$760
L	353-3320	LIGHTS, WORKING, PLUS 22 INCLUDES: - Lights, Ripper 3X3 - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting INCLUDED IN: SNOW ARRANGEMENT CANNOT BE USED WITH: LIGHTS, WORKING, BASIC		\$1,020

OTHER OPTIONAL ATTACHMENTS (May select one or more)

L	338-1132	LIGHT, LED WARNING STROBE 5 Amber high-speed strobe beacon. REQUIRES: MOUNTING, WARNING LIGHT		\$595 NI
L	248-6925	TRANSMISSION, AUTOSHIFT 5 Improves ease of operation and maximizes productivity by automatically shifting the transmission at optimal shift points. INCLUDED IN: SNOW ARRANGEMENT		\$3,155
L	361-3137	MOUNTING, WARNING LIGHT 10 Provides the bracket for warning beacon light, 284-3757. INCLUDED IN: SNOW ARRANGEMENT REQUIRED BY: EUROPEAN ARRANGEMENT		\$715

OPERATOR ENVIRONMENT***CAMERA (May select one)***

L	391-2914	CAMERA, REAR VISION 15 Provides a 115 degree color camera mounted on the rear of the hood that is connected to a 7 inch (178mm) LCD color display mounted in the cab which shows the view behind the machine.		\$2,500
---	----------	---	--	----------------

MIRRORS (May select one)

L	233-3295	MIRRORS, OUTSIDE MOUNTED 32 Provides two convex mirrors for outside mounting on the left and right cab grab irons. NOTE: The mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment. REQUIRED BY: EUROPEAN ARRANGEMENT CANNOT BE USED WITH: MIRRORS, OUTSIDE HEATED		\$485
---	----------	--	--	--------------

GUARDS				
<i>GUARDS (May select one or more)</i>				
L	367-6905	GUARD, AXLE HOSE 15 Provides additional protection to the front axle cylinders, lines, and fittings. * NOTE* NOT recommended for use with tire chains		\$1,060
L	366-2459	GUARD, TRANSMISSION 310 Provides a steel guard to protect the transmission from ground debris. INCLUDED IN: EUROPEAN ARRANGEMENT REQUIRED BY: SOUND SUPPRESSION (BOTTOM)		\$3,350
L	377-1602	SOUND SUPPRESSION (BOTTOM) 243 Provides two metallic side panels on either side of the transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION REQUIRES: GUARD GP, HITCH INCLUDED IN: EUROPEAN ARRANGEMENT CANNOT BE USED WITH: ARTICULATION GUARD		\$2,065
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors. INCLUDED IN: EUROPEAN ARRANGEMENT		\$1,520
L	262-0412	FENDERS, FRONT, AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all Non-AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID-MOUNT SCARIFIER PACKAGE CANNOT BE USED WITH: GUARD, AXLE HOSE		\$3,740
L	262-0413	FENDERS, REAR 344 Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS.		\$4,955

OTHER ATTACHMENTS***STARTING AIDS (May select one)***

L	249-5516	HEATER, ENGINE COOLANT, 120V 3 Engine coolant heater for 120 volt external power source. REQUIRED BY: SNOW ARRANGEMENT CANNOT BE USED WITH: HEATER, ENGINE COOLANT, 240V		\$240
L	249-5511	HEATER, ENGINE COOLANT, 240V 3 Engine coolant heater for 240 volt external power source. REQUIRED BY: SNOW ARRANGEMENT CANNOT BE USED WITH: HEATER, ENGINE COOLANT, 120V CANNOT BE USED WITH: North American Dealers		\$240

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

WORK TOOLS***WORK TOOLS (May select one or more)***

L	360-5074	MOUNT, MID-MOUNT SCARIFIER 131 Brackets welded to front frame for future installation of mid-mount scarifier. NOTE: This is the mounting only and does not include the scarifier. RECOMMENDED: Hydraulics with a mid-mount scarifier (MMS) function NOTE: If you intend to purchase the mid-mounted scarifier, please note that the actual scarifier cannot be attached to the machine at same time as the Lift Group, Hydraulic, Front.		\$1,500
L	367-6880	COUNTERWEIGHT 885 Front mounted. Recommended when machine is not equipped with front or rear mounted work tool attachments to provide additional blade performance capability. NOTE: This cannot be used in conjunction with push plate, mid mount scarifier, front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift. CANNOT BE USED WITH: RIPPER-SCARIFIER, REAR CANNOT BE USED WITH: PUSH PLATE CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$3,150
L	367-6842	PUSH PLATE 2,822 Front mounted. Recommended when machine is equipped with rear ripper/scarifier and other rear mounted attachments. NOTE: This cannot be used in conjunction with counterweight, any front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift CANNOT BE USED WITH: COUNTERWEIGHT		\$5,550
L	312-2204	LIFT GROUP, MANUAL, FRONT 1,500 Front hydraulic lift without any work tool attached. REQUIRES: MOUNTING, FRONT LIFT REQUIRES: Hydraulics control part number that has front lift (FL) function NOT FOR USE WITH: BASE + 1 (RIP) BASE + 1 (MMS) NOTE: A Not-Installed Manual Lift Group can be ordered with an INSTALLED Push Plate/Counterweight. The not-installed lift group will be skidded, banded and shipped with the unit. CANNOT BE USED WITH: PUSH PLATE, or MID MOUNT SCARIFIER PACKAGE (The Installed Manual Lift Group can be attached to the machine at the sametime as the mounting for the mid-mount scarifier, but not the actual scarifier itself).	1,500 1,500	\$10,860 \$10,860 NI
L	359-3925	MOUNTING, FRONT LIFT 10 Two mounting plates welded to both sides of the front frame for factory or future installation of Front Lift. REQUIRED BY: LIFT GROUP, MANUAL, FRONT		\$435

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

WORK TOOLS (CONT.)***WORK TOOLS (May select one or more) (Cont.)***

L	305-2945	LINES, RIPPER, ADDITIONAL 8 For use with rear mounted auxiliary functions. Provides two hydraulic hoses with one end bundled at the rear of the machine and the other end bundled at the rear valve bank in front of the cab. CANNOT BE USED WITH: Any hydraulic valve group that does not have a ripper function.		\$420
---	----------	---	--	--------------

GROUND ENGAGING TOOLS***GROUND ENGAGING TOOLS LANE 3 ONLY (May Select One or More)***

P	8J-1434	TOOTH, RIPPER 67 Straight shank with one tooth each.		\$795
P	4K-3330	SHANKS/TEETH FOR SCARIFIER 152 These nine shanks have teeth and are for sale with the rear ripper-scarifiers. NOTE: These shanks/teeth can be used with front scarifiers and mid-mount scarifiers, but must be ordered as not-installed from Parts Distribution Centers.		\$1,383

GROUND ENGAGING TOOLS LANE 3 ONLY (May Select Only One)**Note:**

Blade extensions are not compatible with AccuGrade systems that require mast installation on the moldboard. This is due to interference between the mast mounting bracket and the blade extension mounting hardware. The mast mounting bracket must be removed prior to blade extension installation.

L	110-5327	EXTENSION, BLADE, 24"X 27"X1" L 250 FOR USE WITH LANE 3 ONLY Left hand extension. Shipped not-installed. FOR USE WITH: MOLDBOARD, 14 FT, PLUS NOTE: Endbit Overlays must be removed before installing the blade extension.		\$2,150 NI
L	250-0615	EXTENSION, BLADE, 24"X24"X7/8" LH 250 FOR USE WITH LANE 3 ONLY Left hand extension. Ships not-installed. FOR USE WITH: MOLDBOARD, 12 FT FOR USE WITH: MOLDBOARD, 14 FT, BASIC		\$2,150 NI

PIRACICABA, BRAZIL**Ship Weight
lbsLIST PRICE
AT PO ENTRY**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, auto
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel w/ auto engine derate and idle control
Meets U.S. EPA Tier 4 and EU Stage IIb emission standards.
Fuel-water separator
Muffler, under hood
Parking brake, multi-disc, sealed and oil cooled
Priming pump, fuel
Rear axle, modular
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive VHP Plus (Variable Horsepower)
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Cab harness and electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready -Cab harness
-software -electrical hydraulic valves
-bosses -brackets
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Accelerator
Air Conditioning with heater
Arm and wrist rest, adjustable
Articulation, automatic return to center

Ashtray and lighter
Centershift pin indicator
Coat hook
Cupholder
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab
-articulation -engine coolant temp
-engine RPM -hydraulic oil temp
-fuel -regen
Joystick, adjustable armrests
Joystick gear selection
Joystick hydraulic controls
-right/left blade lift w/ float position
-blade sideshift and tip -steering
-circle drive -centershift
-front wheel lean -articulation
Joystick hydraulic power steering
Ladders, cab, left and right side
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
-70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Anti-glare paint
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges -6" x 5/8" (152mm x 16mm)
-curved DH-2 steel
-3/4" mounting bolts (19mm)
Doors, 4, engine compartment, (two left hand, two right hand,) locking

HYDRAULICS

NOTE: Optional Control Locations

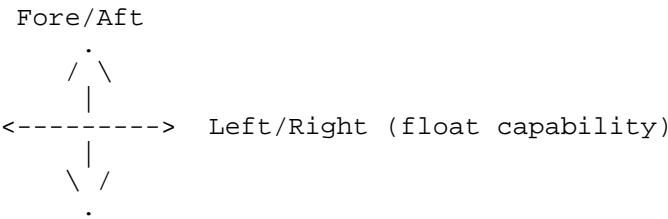

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE. 0		NC
L	363-4372	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harness, sensors and mounting.	\$11,390	
L	358-9339	INSTALLATION, ACCUGRADE READY 90 Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment	\$5,250	

Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the AccuGrade Electro-Hydraulic system.

The AccuGrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to the worldwide tire shortage of Off-The-Road tires, has had to change the tires that are offered for Motor Graders. Caterpillar fully understands that many tenders may require a tire; however the factory can only supply tires that are available from the tire manufacturers. During this shortage you may be to change to an alternative tire.

LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIIb emission standards.
Parking brake, multi-disc, sealed, and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP PLUS (Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab Harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

HYDRAULICS

NOTE: Optional Control Locations

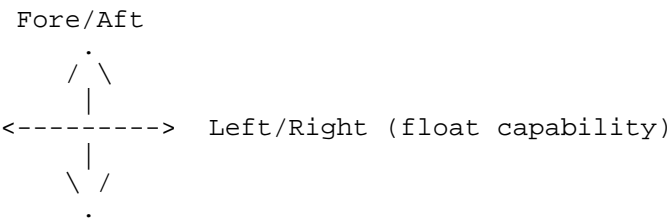

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must select one)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of information about the location, utilization, and condition of your asset information including location, utilization and condition.		
		For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition.		
		Cellular technology provides capabilities for frequent data transmission.

ACCUGRADE (Must Select Only One)				
L	362-5222	NO ACCUGRADE.	0	NC
L	358-9339	INSTALLATION, ACCUGRADE READY Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment(SEA)	90	\$5,250
L	363-4372	GRADE CONTROL X SLOPE Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.	165	\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **Accugrade Electro-Hydraulic** system.

The **Accugrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions)

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**
All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the **Tire Load Worksheet** in the back of the **Caterpillar Motor Graders Tire Selection Pocket Guide**. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

TIRES, RIMS, AND WHEELS (CONT.)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

Standard Equipment:

STANDARD EQUIPMENT:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

384-9678	12M3 AWD MOTOR GRADER 39,334	\$394,750
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires	
	- Guards	
	- Documentation	
	- Associated 0P Numbers	
0P-2981	12M3 AWD MISC MATERIAL CBL 0	NC
	Use this as the top level reference number when ordering misc material without ordering a machine.

HYDRAULICS

NOTE: Optional Control Locations

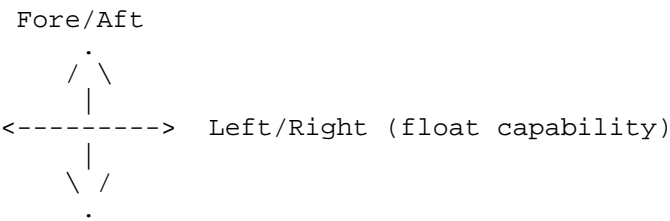

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE. 0		NC
L	394-3914	ACCUGRADE READY. 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3916	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

**12M3 MOTOR GRADER
PIRACICABA, BRAZIL**Ship Weight
lbsLIST PRICE
AT PO ENTRY**Standard Equipment:****STANDARD EQUIPMENT:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

HYDRAULICS

NOTE: Optional Control Locations

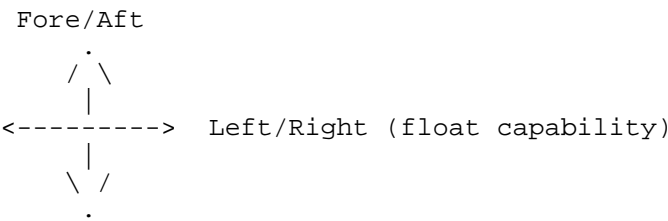

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)***NOTE: Common Functions***

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
 Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
 Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE. 0		NC
L	394-3913	ACCUGRADE READY. 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3915	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

GUARDS				
<i>GUARDS (May Select One or More)</i>				
L	370-3845	GUARD, AXLE HOSE 15 Provides additional protection to the front axle cylinders, lines, and fittings. * NOTE* NOT recommended for use with tire chains		\$1,060
L	366-2459	GUARD, TRANSMISSION 310 Provides a steel guard to protect the transmission from ground debris. INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING (TUV) REQUIRED BY: SOUND SUPPRESSION (BOTTOM)		\$3,350
L	377-1602	SOUND SUPPRESSION (BOTTOM) 243 Provides two metallic side panels on either side of the transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION REQUIRES: GUARD GP, HITCH INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING (TUV) CANNOT BE USED WITH: ARTICULATION GUARD		\$2,065
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors. INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING (TUV)		\$1,520
L	308-7368	FENDERS, FRONT, NON-AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all Non-AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE CANNOT BE USED WITH: GUARD, AXLE HOSE		\$4,070
L	262-0413	FENDERS, REAR 344 Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. INCLUDED IN: EUROPEAN AR. W/ ROADING (TUV) ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS.		\$4,955

140M2 AWD MOTOR GRADER
PIRACICABA, BRAZIL

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, AUTO
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel, with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards.
Parking brake, multi-disc, sealed and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horsepower Plus)
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
SOS ports, engine, hydraulic transmission, coolant, fuel
Joystick gear selection, hydraulic

power steering hydraulic controls
hydraulic controls, (right/left blade lift with float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed 70dB(A) ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze (-35C/-30F)
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
Drawbar, 6 shoe with replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc/6cu in)
Radiator, cleanout access (both sides)

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements

If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

353-2924	140M2 AWD MOTOR GRADER 39,877 NOTE: To be complete, your machine order must contain: - Base machine - Regional Packages - Performance Packages - Hydraulics - Electrical - Operator Environment - Technology Products - Tires - Service Instruction - Associated OP Numbers	\$411,950

HYDRAULICS

NOTE: Optional Control Locations

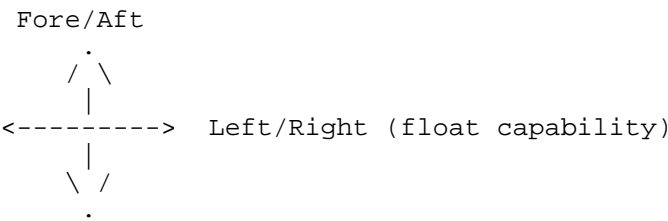

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		

ACCUGRADE (Must select one)

L	362-5222	NO ACCUGRADE. 0		NC
L	362-6013	INSTALLATION, ACCUGRD RDY AWD 32		\$5,250
		Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. * * REQUIRES: Software enabled attachment		
L	364-3747	GRADE CONTROL X SLOPE 165		\$11,390
		Available for new orders only. Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harness, sensors and mounting.		
		Please consult the ACCUMG PRICE LIST for ordering instructions and pricing information on the ELECTRONICS KITS and Software Enabled Attachment (SEA) required to activate the Accugrade Electro-Hydraulic system.		

The Accugrade LASER TRANSMITTER and TRIPOD must be ordered directly from the supplier (see ACCUMG PRICE LIST for ordering instructions)

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose an alternative tire within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

**140M2 AWD MOTOR GRADER
LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards.
Parking brake, multi-disc, sealed, and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus(Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Harness, software, valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
Joystick gear selection, hydraulic power steering hydraulic controls

(right/left, blade lift w/float position
blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed -70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc/15cu in)
Radiator, cleanout access (both sides with swing doors)
SOS ports -engine -hydraulic
-transmission -coolant -fuel
Tool box

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available

353-2924	140M2 AWD MOTOR GRADER 39,877	\$411,950
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires	
	- Service Instruction	
	- Associated OP Numbers	
0P-1919	140M2 MISC MATERIAL 0	NC
	Use this as the top level reference number when ordering misc material without ordering a machine.

LANE SELECTION**LANE SELECTION (Must choose one)**

0P-9002	LANE 2 ORDER	0	NC
	Cannot be ordered with items listed as Lane 3 packages or stand alone attachments.		
0P-9003	LANE 3 ORDER	0	NC
	If you require a package or stand alone attachment listed as Lane 3 select this option.		

REGIONAL PACKAGES

L	353-3313	GLOBAL ARRANGEMENT	0	NC
		Provides standard accumulators. For use with temperatures above -18°C		
		FOR USE WITH: Australia / New Zealand Dealers		
		CANNOT BE USED WITH: WEATHER, COLD PLUS		
L	363-3910	GLOBAL ARRANGEMENT, LOW AMBIENT	0	NC
		Provide brake accumulators for low ambient temperatures below -18°C		
		CANNOT BE USED WITH: WEATHER, STANDARD		
		CANNOT BE USED WITH: Canadian Dealers or EU Dealers		

PERFORMANCE PACKAGES**MOLDBOARDS**

(Must select one)

L	349-3046	MOLDBOARD, 12'	0	NC
		INCLUDES:		
		- Moldboard 12' x 24" x 7/8" (3658mm x 610mm x 22mm)		
		- Curved Cutting Edge, 6" X 5/8" (152mm x 16mm)		
		- End Bits, Standard, Without Overlay		
L	349-3047	MOLDBOARD, 14' BASIC	347	\$1,180
		INCLUDES:		
		- Moldboard 14' x 24" x 7/8" (4267mm x 610mm x 22mm)		
		- Curved Cutting Edge, 8" x 3/4" (203mm x 19mm)		
		- End Bits, Standard, Without Overlay		
L	349-3048	MOLDBOARD, 14' PLUS	650	\$2,670
		INCLUDES:		
		- Moldboard 14' x 27" x 1" (4267mm x 686mm x 25mm)		
		- Curved Cutting Edge, 8" x 3/4" (203mm x 19mm)		
		- End Bits, Standard, With Overlay

HYDRAULICS

NOTE: Optional Control Locations

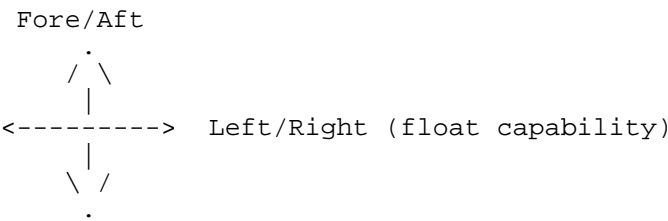

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

TECHNOLOGY PRODUCTS (CONT.)				
ACCUGRADE (Must select one)				
L	362-5222	NO ACCUGRADE.	0	NC
L	362-6013	INSTALLATION, ACCUGRD RDY AWD Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)	32	\$5,250
L	364-3747	GRADE CONTROL X SLOPE Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.	165	\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**
All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	-----------------------	--------------------	--------------------------

TIRES, RIMS, AND WHEELS (CONT.)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

FEATURE PACKAGES (CONT.)***LIGHTING PACKAGES (May select one)***

L	353-3319	LIGHTS, WORKING, BASIC 19 INCLUDES: - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting		\$760
L	353-3320	LIGHTS, WORKING, PLUS 22 INCLUDES: - Lights, Ripper 3X3 - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting INCLUDED IN: SNOW ARRANGEMENT		\$1,020

OTHER OPTIONAL ATTACHMENTS (May select one or more)

L	338-1132	LIGHT, LED WARNING STROBE 5 Amber high-speed strobe beacon. REQUIRES: MOUNTING, WARNING LIGHT		\$595 NI
L	361-3137	MOUNTING, WARNING LIGHT 10 Provides the bracket for warning beacon light. INCLUDED IN: SNOW ARRANGEMENT		\$715
L	248-6925	TRANSMISSION, AUTOSHIFT 5 Improves ease of operation and maximizes productivity by automatically shifting the transmission at optimal shift points. INCLUDED IN: SNOW ARRANGEMENT		\$3,155

OPERATOR ENVIRONMENT***CAMERA (May select one)***

L	391-2914	CAMERA, REAR VISION 15 Provides a 115 degree color camera mounted on the rear of the hood that is connected to a 7 inch (178mm) LCD color display mounted in the cab which shows the view behind the machine.		\$2,500
---	----------	---	--	----------------

MIRRORS (May select one)

L	233-3295	MIRRORS, OUTSIDE MOUNTED 32 Provides two convex mirrors for outside mounting on the left and right cab grab irons. NOTE: The mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment.		\$485
L	344-0984	MIRRORS, OUTSIDE HEATED 33 Provides mirrors with a 24V heating element to keep mirrors ice free in cold weather operations. NOTE: The mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment.		\$655

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

TECHNOLOGY PRODUCTS**TECHNOLOGY PRODUCTS LANE 3 ONLY (May select one)**

L	238-8827	SECURITY SYSTEM, MACHINE 10 FOR USE IN LANE 3 ONLY Provides a programmable system to manage access to the machine using special MSS keys. Deters theft, vandalism, and unauthorized use. Programmable features allow the following: * limits operators to selected machines * controls the days and hours equipment may be started * controls access by untrained operators or personnel		\$710
---	----------	--	--	--------------

TIRES, RIMS, AND WHEELS**SPARE RIMS LANE 3 ONLY**

L	252-0108	RIM, 10" X 24" MP (SPARE) 197 FOR USE WITH LANE 3 ONLY For use on REAR of machine.		\$1,355 NI
L	252-0110	RIM, 10" X 24" AWD MP (SPARE) 197 FOR USE WITH LANE 3 ONLY Can be used on FRONT.		\$1,490 NI
L	252-0112	RIM, 14" X 25" MP (SPARE) 237 FOR USE WITH LANE 3 ONLY For use on REAR of machine.		\$1,590 NI
L	252-0113	RIM, 14" X 25" AWD MP (SPARE) 217 FOR USE WITH LANE 3 ONLY Can be used on FRONT.		\$1,750 NI

GUARDS**GUARDS (May select one or more)**

L	367-6905	GUARD, AXLE HOSE 15 Provides additional protection to the front axle cylinders, lines, and fittings. * NOTE* NOT recommended for use with tire chains		\$1,060
L	366-2459	GUARD, TRANSMISSION 310 Provides a steel guard to protect the transmission from ground debris. REQUIRED BY: SOUND SUPPRESSION (BOTTOM)		\$3,350
L	377-1602	SOUND SUPPRESSION (BOTTOM) 243 Provides two metallic side panels on either side of the transmission accumulating on top of the transmission guard and also suppresses to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION CANNOT BE USED WITH: ARTICULATION GUARD		\$2,065
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors.		\$1,520

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, AUTO
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Parking brake, multi-disc, sealed and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP (Variable Horsepower Plus)
EIS (Engine Idle Shutdown)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Harness, software, valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
Joystick gear selection, hydraulic power steering hydraulic controls (right/left, blade lift with float position, blade sideshift and tip, circle drive,

centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
70dB(A), ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
Drawbar, 6 shoe replaceable strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc/ 6cu in)
Radiator, cleanout access (both sides)
SOS ports, engine, hydraulic transmission, coolant, fuel
Tool box

LIST PRICE
AT PO ENTRY

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements

If no reference number is listed, Lane 1 configuration is not available.

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane 1 Indicator and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

HYDRAULICS

NOTE: Optional Control Locations

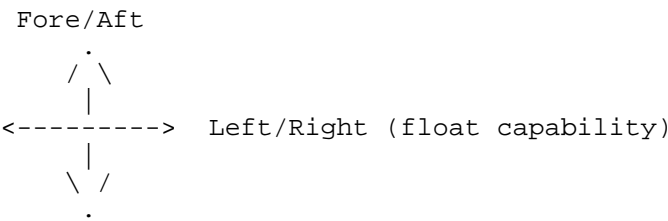

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium brand tire without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose an alternative tire within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed at that point. As a consequence of a possible tire change, the total machine price will be decreased or increased depending on the price of the new tire.

L	391-8971	SNOW ARRANGEMENT 355	\$9,620
		INCLUDES: - MOUNT, SNOW WING, FRAME READY - LIGHTS, WORKING, PLUS - LIGHTS, FRONT HEADLIGHTS, HIGH - MOUNTING, WARNING LIGHT - TRANSMISSION, AUTOSHIFT REQUIRES: HEATER, ENGINE COOLANT, 120V or HEATER, ENGINE COOLANT, 240V REQUIRES: STARTER, ELECTRIC, HEAVY DUTY REQUIRES: WEATHER, COLD PLUS REQUIRES: CAB, PLUS (STANDARD GLASS) or CAB, PLUS (ANTI-ICING GLASS) RECOMMENDED: MIRRORS, OUTSIDE HEATED	

WORK TOOL PACKAGES (May select one or more)

L	358-9341	MID MOUNT SCARIFIER PACKAGE 2,076	\$16,040
		INCLUDES: - Mid-mount Scarifier, V-Type with 11 Teeth - Mid-mount Scarifier Bracket CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT CANNOT BE USED WITH: FRONT FENDERS, NON-AWD	
L	390-9182	MOUNT, SNOW WING, FRAME READY 251	\$2,255
		INCLUDES: - Snow Wing Mount - Light, Snow Wing, Right Hand INCLUDED IN: SNOW ARRANGEMENT	
L	351-5178	FRONT BLADE PACKAGE 2,612	\$11,460
		INCLUDES: - Front Blade (Lift & Lower only) - Lines for Front Blade REQUIRES: A hydraulics control part number that has a Front Lift function. CANNOT BE USED WITH: PUSH PLATE CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT	

COMFORT PACKAGE (May select only one)

L	391-8968	COMFORT PACKAGE 19	\$1,925
		INCLUDES: - Radio, 12V, AM/FM, Weatherband - Sun Shade, Rear - Converter, Communication (CB)	
L	397-5305	COMFORT PACKAGE 2 21	\$2,455
		INCLUDES: - Radio, 12V, AM/FM CD/MP3 BLUETOOTH, Weatherband - Sun Shade, Rear - Converter, Communication (CB)	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	---------------------	--------------------	---------------------------

FEATURE PACKAGES (CONT.)***LIGHTING PACKAGES (May select only one)***

L	353-3319	LIGHTS, WORKING, BASIC 19 INCLUDES: - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting		\$760
L	353-3320	LIGHTS, WORKING, PLUS 22 INCLUDES: - Lights, Ripper 3X3 - Lights, Work, Heel 3X3 - Lights, Work, Midframe Toe 3X3 - Switch, Work Lighting INCLUDED IN: SNOW ARRANGEMENT		\$1,020

OTHER OPTIONAL ATTACHMENTS (May select one or more)

L	338-1132	LIGHT, LED WARNING STROBE 5 Amber high-speed strobe beacon. REQUIRES: MOUNTING, WARNING LIGHT		\$595 NI
L	361-3137	MOUNTING, WARNING LIGHT 10 Provides the bracket for warning beacon light, 338-1132. INCLUDED IN: SNOW ARRANGEMENT		\$715
L	248-6925	TRANSMISSION, AUTOSHIFT 5 Improves ease of operation and maximizes productivity by automatically shifting the transmission at optimal shift points. REQUIRED BY: EUROPEAN ARRANGEMENT REQUIRED BY: EUROPEAN AR. W/ ROADING INCLUDED IN: SNOW ARRANGEMENT		\$3,155

OPERATOR ENVIRONMENT***CAMERA (May select one)***

L	391-2914	CAMERA, REAR VISION 15 Provides a 115 degree color camera mounted on the rear of the hood that is connected to a 7 inch (178mm) LCD color display mounted in the cab which shows the view behind the machine. CAN NOT BE USED WITH: EUROPEAN AR. W/ ROADING (TUV) NOTE* EUROPEAN AR. W/ ROADING (TUV) includes front and rear facing cameras		\$2,500
---	----------	---	--	----------------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	---------------------	--------------------	---------------------------

OPERATOR ENVIRONMENT (CONT.)**MIRRORS (May select one)**

L	233-3295	MIRRORS, OUTSIDE MOUNTED 32 Provides two convex mirrors for outside mounting on the left and right cab grab irons. NOTE: the mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment. REQUIRED BY: EUROPEAN ARRANGEMENT REQUIRED BY: EUROPEAN AR. W/ ROADING		\$485
L	344-0984	MIRRORS, OUTSIDE HEATED 33 Provides mirrors with a 24V heating element to keep mirrors ice free in cold weather operations. NOTE: the mirrors are wrapped in bubble wrap and rotated toward the doors for protection during shipment. REQUIRED BY: EUROPEAN ARRANGEMENT REQUIRED BY: EUROPEAN AR. W/ ROADING		\$655

TECHNOLOGY PRODUCTS**TECHNOLOGY PRODUCTS LANE 3 ONLY (May select one)**

L	238-8827	SECURITY SYSTEM, MACHINE 10 FOR USE IN LANE 3 ONLY Provides a programmable system to manage access to the machine using special MSS keys. Deters theft, vandalism, and unauthorized use. Programmable features allow the following: * limits operators to selected machines * controls the days and hours equipment may be started * controls access by untrained operators or personnel		\$710
---	----------	--	--	--------------

TIRES, RIMS, AND WHEELS**SPARE RIMS LANE 3 ONLY (May select one)**

L	252-0108	RIM, 10" X 24" MP (SPARE) 197 FOR USE WITH LANE 3 ONLY Can be used on front and rear.		\$1,355 NI
L	252-0112	RIM, 14" X 25" MP (SPARE) 237 FOR USE WITH LANE 3 ONLY Can be used on front and rear.		\$1,590 NI

GUARDS**GUARDS (May select one or more)**

L	370-3845	GUARD, AXLE HOSE 15 Provides additional protection to the front axle cylinders, lines, and fittings. CANNOT BE USED WITH: FENDERS, FRONT, NON-AWD * NOTE* NOT recommended for use with tire chains		\$1,060
---	----------	--	--	----------------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	---------------------	--------------------	---------------------------

GUARDS (CONT.)***GUARDS (May select one or more) (Cont.)***

L	366-2459	GUARD, TRANSMISSION 310 Provides a steel guard to protect the transmission from ground debris. REQUIRED BY: SOUND SUPPRESSION (BOTTOM) INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING		\$3,350
L	377-1602	SOUND SUPPRESSION (BOTTOM) 243 Provides two metallic side panels on either side of the transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION REQUIRES: GUARD GP, HITCH CANNOT BE USED WITH: ARTICULATION GUARD INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING		\$2,065
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors. INCLUDED IN: EUROPEAN ARRANGEMENT INCLUDED IN: EUROPEAN AR. W/ ROADING		\$1,520
L	308-7368	FENDERS, FRONT, NON-AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all Non-AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID-MOUNT SCARIFIER PACKAGE CANNOT BE USED WITH: AXLE HOSE GUARD		\$4,070
L	262-0413	FENDERS, REAR 344 Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS.		\$4,955

OTHER ATTACHMENTS***STARTING AIDS (May select one)***

L	249-5516	HEATER, ENGINE COOLANT, 120V 3 Engine coolant heater for 120 volt external power source. REQUIRED BY: SNOW ARRANGEMENT		\$240
---	----------	---	--	--------------

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	---------------------	--------------------	---------------------------

OTHER ATTACHMENTS (CONT.)***MOUNTS (May select one or more)***

L	360-5074	MOUNT, MID-MOUNT SCARIFIER 131 Brackets welded to front frame for future installation of midmount scarifier. NOTE: this is the mounting only and does not include the scarifier. RECOMMENDED: Hydraulics with a mid-mount scarifier (MMS) function NOTE: If you intend to purchase the mid-mounted scarifier, please note that the actual scarifier cannot be attached to the machine at same time as the Lift Group, Hydraulic, Front		\$1,500
L	359-3925	MOUNTING, FRONT LIFT 10 Two mounting plates welded to both sides of the front frame for factory or future installation of Front Lift. REQUIRED BY: LIFT GROUP, MANUAL, FRONT		\$435
L	305-2945	LINES, RIPPER, ADDITIONAL 8 For use with rear mounted auxiliary functions. Provides two hydraulic hoses with one end bundled at the rear of the machine and the other end bundled at the rear valve bank in front of the cab. CANNOT BE USED WITH: Any hydraulic valve group that does not have a ripper function.		\$420

WORK TOOLS***WORK TOOLS (May select one or more)***

L	367-6880	COUNTERWEIGHT 885 Front mounted. Recommended when machine is not equipped with front or rear mounted work tool attachments to provide additional blade performance capability. NOTE: This cannot be used in conjunction with push plate, mid mount scarifier, front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift CANNOT BE USED WITH: RIPPER-SCARIFIER, REAR CANNOT BE USED WITH: PUSH PLATE CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT (Installed)		\$3,150
L	367-6842	PUSH PLATE 2,822 Front mounted. Recommended when machine is equipped with rear ripper/scarifier and other rear mounted attachments. NOTE: This cannot be used in conjunction with counterweight, any front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift CANNOT BE USED WITH: COUNTERWEIGHT CANNOT BE USED WITH: LIFT GROUP, MANUAL, FRONT (Installed) FOR USE WITH: RIPPER-SCARIFIER, REAR		\$5,550

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	---------------------	--------------------	---------------------------

WORK TOOLS (CONT.)***WORK TOOLS (May select one or more) (Cont.)***

L	312-2204	LIFT GROUP, MANUAL, FRONT	1,500 1,500	\$10,860 \$10,860 NI
<p>Front hydraulic lift without any work tool attached. Note: This Front Lift Group has manual locking pins. REQUIRES: MOUNTING, FRONT LIFT REQUIRES: Hydraulics control part number that has front lift (FL) function NOT FOR USE WITH: BASE + 1 (RIP) NOT FOR USE WITH: BASE + 1 (MMS) REQUIRED, to use Front Scarifiers</p> <p>NOTE: A Not-Installed Manual Lift Group can be ordered with an INSTALLED Push Plate or Counterweight. The not-installed lift group will be skidded, banded and shipped with the unit. CANNOT BE USED WITH: PUSH PLATE, COUNTERWEIGHT, or MID MOUNT SCARIFIER PACKAGE (The Installed Manual Lift Group can be attached to the machine at the sametime as the mounting for the mid-mount scarifier, but not the actual scarifier itself).</p>				

GROUND ENGAGING TOOLS***GROUND ENGAGING TOOLS (May select one)***

P	8J-1434	TOOTH, RIPPER	67	\$795
Straight shank with one tooth each.				
P	4K-3330	SHANKS/TEETH FOR SCARIFIER	152	\$1,383
<p>These nine shanks have teeth and are for sale with the rear ripper-scarifiers. NOTE: These shanks/teeth can be used with front scarifiers and mid-mount scarifiers, but must be ordered as not-installed from Parts Distribution Centers.</p>				

GROUND ENGAGING TOOLS LANE 3 ONLY (May select one)

Blade extensions are not compatible with AccuGrade systems that require mast installation on the moldboard. This is due to between the mast mounting bracket and the blade extension mounting hardware. The mast mounting bracket must be removed prior to blade extension installation

L	110-5327	EXTENSION, BLADE, 24"X 27"X1"L	250	\$2,150 NI
<p>FOR USE WITH LANE 3 ONLY Left hand extension. Shipped not-installed. FOR USE WITH: MOLDBOARD, 14FT, PLUS NOTE: Endbit Overlays must be removed before installing the blade extension.</p>

**140M2 MOTOR GRADER
LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Parking brake, multi-disc, sealed, and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive VHP (Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Harness, software, valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
Joystick gear selection, hydraulic power steering, hydraulic controls (right/left blade lift w/ float position

blade sideshift and tip, circle drive, center shift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed -70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc / 15 cu in)
Radiator, cleanout access (both sides with swing doors)
SOS ports -engine -hydraulic -transmission -coolant -fuel
Tandem walkway/guards
Tool box

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements
If no reference number is listed, Lane 1 configuration is not available.

Lane 2/Lane 3 Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

HYDRAULICS

NOTE: Optional Control Locations

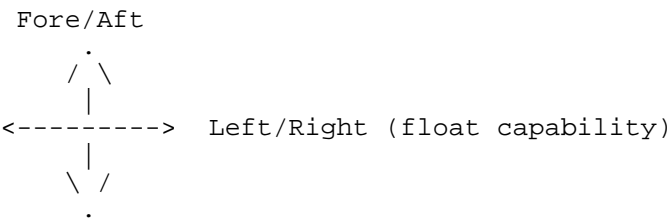

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

- INDEX = Index Finger (front lift)(float capability)
- MID = Middle Finger(dozer angle 1)
- RING = Ring Finger (dozer angle 2)
- LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

- RH1 = Front Lift (float capability)
- RH2 = Ripper-Scarifier Control
- RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

TECHNOLOGY PRODUCTS (CONT.)				
ACCUGRADE (Must Select Only One)				
L	362-5222	NO ACCUGRADE	0	NC
L	358-9339	INSTALLATION, ACCUGRADE READY Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment(SEA)	90	\$5,250
L	363-4372	GRADE CONTROL X SLOPE Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.	165	\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **Accugrade Electro-Hydraulic** system.

The **Accugrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions)

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (Media #AEXQ0182), available on the Electronic Sales Library.**
All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the **Tire Load Worksheet** in the back of the **Caterpillar Motor Graders Tire Selection Pocket Guide**. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

TIRES, RIMS, AND WHEELS (CONT.)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

LIST PRICE
AT PO ENTRY

Standard Equipment:

STANDARD EQUIPMENT:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

OTHER STANDARD EQUIPMENT (CONT.)

DEF/AdBlue Tank, 5.5 gallon (21 L)
Hydraulic lines for base functions
Pump, hydralic, high capacity
(98cc / 15 cu in)
Radiator, cleanout access
(both sides with swing doors)
SOS ports - engine -hydraulic
-transmission -coolant -fuel
Tandem walkway/guards
Tool box
Debris Guard

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

384-5805	140M3 AWD MOTOR GRADER 39,877	\$429,290
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires

HYDRAULICS

NOTE: Optional Control Locations

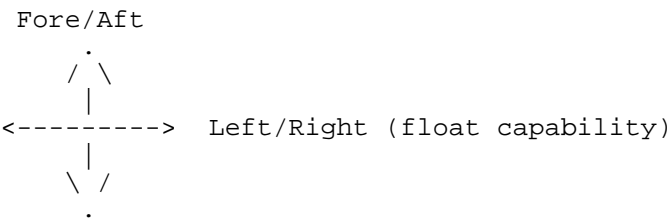

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
 Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
 Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE. 0		NC
L	394-3914	ACCUGRADE READY. 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3916	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

Standard Equipment:

STANDARD EQUIPMENT:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
 If no reference number is listed, a Lane 1 configuration
 is not available.

To be complete, your Lane 1 Machine order must contain:
 1) Distribution Center Arrangement (DCA)
 2) 0P-9001 Lane 1 order
 3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also
 be sourced from the factory with lane 2 availability by using the
 same reference numbers except 0P9222 Lane 2 Special Indicator instead
 of 0P9001 Lane Indicator and adding Priority Code "L2" to the order.
 No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
 Machines ordered in this section will be sourced from the factory.
 If no reference number is listed Lane 2/3 configuration is not
 available.

HYDRAULICS

NOTE: Optional Control Locations

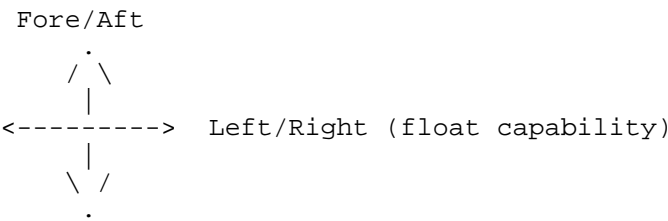

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
 Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
 Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE 0		NC
L	394-3913	ACCUGRADE READY 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3915	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

**14M MOTOR GRADER
LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator through messenger and automatic dust ejector
Air-to-air after cooler (ATAAC)
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock
Drain, engine oil, ecology
Engine, C11 with ACERT technology, diesel, with automatic engine derate and idle control.
For US & Canada Dealers only;
EPA/ARB Flexibility certified engine (Tier 3, credit using engine).
For EU dealers only;
New factory orders are no longer being accepted, and the only machines available are stock located in Antwerp (Belgium)."
For Turkey dealers only;
meets stage IIIA (R96 certified) engine.
Note: For all other regions, meets non-current US EPA Tier 3 or EU Stage IIIA emissions standards.
Ether, starting aid
Fuel-water separator
Parking brake, multi-disc, sealed and oil cooled
Priming pump, fuel
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP (Variable Horsepower)

ELECTRICAL

Alarm, back-up
Alternator, 80 ampere, sealed
Batteries, maintenance free, HD 1125 CCA
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses, and brackets)
Lights, reversing
Lights, roading, roof-mounted
Lights, stop and tail, LED
Product Link ready
Starter, electric

OPERATOR ENVIRONMENT

Accelerator

Air Conditioning with heater
Display, digital speed and gear
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp)
Joystick, adjustable armrests
Joystick gear selection
Joystick hydraulic controls, (right/left blade lift with float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Joystick hydraulic power steering
Ladders, cab, left and right side
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed 72dB(A)
ISO 6394 (70% fan speed)
Seat, cloth-covered, comfort suspension
Seat belt, retractable 3"
Throttle control, electronic
Windows: laminated glass
-fixed front with intermittent wiper
-side and rear wipers (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Anti-glare paint
Brake accumulators, dual certified
Bumper, rear, integrated with hitch
CD ROM Parts Book
Clutch, circle drive slip
Cutting edges, 8" x 3/4" (203mm x 19mm)
curved DH-2 steel, 3/4" mounting bolts (19 mm)
Doors, 3 engine compartment, (two left hand, one right hand,) locking
Drawbar, 6 shoe with replaceable wear strips
Endbits, 5/8" (16 mm) DH-2 steel, 3/4" (19 mm) mounting bolts
Fuel tank, 130 gallon (492 L)

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

To be complete, your Lane 1 machine order must at least contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P numbers for packing shipment

LANE 2 / LANE 3 - FACTORY ARRANGEMENTS

Machines ordered in this section will be sourced from the factory.

349-2555	14M MOTOR GRADER	46,366	\$525,490
-----------------	-----------------------------------	--------	------------------

NOTE: To be complete, your machine order must contain:

- Base Machine
- Regional Packages
- Performance Packages
- Application Specific Components
- Hydraulics
- Electrical
- Operator Environment
- Technology Products
- Tires
- Service Instructions
- Associated 0P Numbers

0P-2159	14M MISC MATERIAL NLR	0	NC
----------------	--	---	-----------

Use this as the top level reference number when ordering miscellaneous material without ordering a machine.

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

PERFORMANCE PACKAGES (CONT.)**WEATHER PACKAGES (Must select one)**

L	351-2594	WEATHER, STANDARD 0		NC
		Recommended for year around use when typical ambient temperature range is 50°F (10°C) to 43°F (10°C) and operating at altitude below 1220 m (4000 feet). INCLUDES: - Batteries, Heavy Duty - 1125 CCA - Oil, Hydraulic, 10W - Starter, Standard		

LANE 3 ONLY

L	351-2596	WEATHER, COLD PLUS 37		\$2,620
		FOR USE WITH LANE 3 ONLY Recommended for year around use when typical ambient temperature range is -40°F (-40°C) to 40°F (10°C) or operating at altitude above 1220 m (4000 feet). INCLUDES: - Batteries, Extreme Duty -1400 CCA - Covers, Screen - Cover, Hydraulic Oil Cooler - Oil, Hydraulic, Cold, 0W - Starter, Heavy Duty * Recommended for Snow Removal REQUIRES: Heater, Engine Coolant, 120V OR Heater, Engine Coolant, 240V		

GUARD (Must Select One)

L	270-9382	GUARD, DEBRIS 0		NC
		Provides a flat non-metallic shield that bolts directly to the underside of the rear frame. The shield is designed to keep debris from entering the enclosure from the underside. Also helps lower outside sound levels.		
L	366-6008	GUARD, TRANSMISSION SIDES/SOUND 265		\$1,175
		Provides two metallic side panels on either side of transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: Transmission Guard INCLUDED IN: EU Arrangement		

FUEL TANK (Must Select One)

L	355-3347	TANK, FUEL, STANDARD 0		NC
		Provides a 130 gallon (492 liter) gravity fill fuel tank at ground level.		
L	355-3348	TANK, FUEL, FAST FILL 31		\$4,235
		Ground level gravity and ground level accessible fast fill feature. Shaw Aero low-pressure system with automatic shut-off for fast fill fueling rates up to 100 GPM.		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory

PERFORMANCE PACKAGES (CONT.)**ACCUMULATORS (Must Select One)**

L	351-8252	LINES, STANDARD W/O ACCUMULATOR 0		NC
		Provides hydraulic lines for base functions.		
L	364-2441	ACCUMULATORS, BLADE LIFT 225		\$4,620
		Provides hydraulic lines for base functions and accumulators for the blade lift. Allows approximately 1-3" of vertical blade travel to reduce impact loads. Nitrogen/oil accumulators activated by electric switch.		
		Accumulator meets European directive 97/23/EC		
		CANNOT BE USED WITH: Canadian Dealers		

POWER (Must Select One)

L	235-4180	FILM, ENGINE, VHP 0		NC
		Provides VHP film. 5 HP increments up to 4th gear.		
L	235-4186	FILM, ENGINE, VHP PLUS 0		\$3,340
		Provides VHP Plus film. 5 HP increments through 8th gear.		
		* Recommended for Snow Removal		

HORN (Must Select One)

L	297-3244	HORN, ELECTRIC 0		NC
		Provides an electrical horn that mounts on front frame.		
L	355-1048	HORN, AIR 15		\$1,530
		FOR USE WITH LANE 3 ONLY		
		Provides a self-sufficient air horn that mounts on the front frame.		
		Provides 107 to 112 db (A) loudness at seven meters.		

APPLICATION SPECIFIC COMPONENTS (Must Select One)

L	392-0137	STANDARD ENGINE AIR CLEANER 0		NC
		For use in standard applications		
		NOT FOR USE WITH: METALLIC ENGINE AIR CLEANER		
L	381-3856	METALLIC ENGINE AIR CLEANER 26		\$540
		For use in harsh or high vibration environments		
		NOT FOR USE WITH: STANDARD ENGINE AIR CLEANER

HYDRAULICS

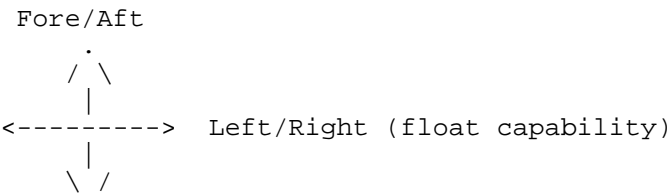

NOTE: Optional Control Locations

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

Auxiliary Pod controls

- INDEX = Index Finger (front lift)(float capability)
- MID = Middle Finger(dozer angle 1)
- RING = Ring Finger (dozer angle 2)
- LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

- RH1 = Front Lift (float capability)
- RH2 = Ripper-Scarifier Control
- RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (Media #AEXQ0182) available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to the industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, we may contact the dealer. However, in some cases, we will change to an alternative premium tire brand without notice. If the tire type cannot be supplied, we will contact the dealer to propose alternatives. The dealer needs to choose an alternative tire within 72 hours. If no response is provided by the deadline, the order will default to the alternative tire and will be changed. The total machine price will be increased or decreased depending on the price of the new tire.

LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Parking brake, multi-disc, sealed and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP (Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Harness, software, valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, regen)
Joystick gear selection, hydraulic power steering hydraulic controls

(right/left, blade lift w/float position
blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed -70dB(A) -ISO 6394
Seat, cloth-covered, comfort
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10"x24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc / 15 cu in)
Radiator, cleanout access (both sides with swing doors)
SOS ports -engine -hydraulic
-transmission -coolant -fuel
Tool box

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 Distribution Center Arrangements (DCA's)
If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available

353-2926	160M2 AWD MOTOR GRADER 40,098	\$444,330
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires	
	- Service Instruction	
	- Associated OP Numbers	
0P-1920	160M2 MISC MATERIAL 0	NC
	Use this as the top level reference number when ordering misc material without ordering a machine.

LANE SELECTION**LANE SELECTION (Must choose one)**

0P-9002	LANE 2 ORDER	0	NC
	Cannot be ordered with items listed as Lane 3 packages or stand alone attachments.		
0P-9003	LANE 3 ORDER	0	NC
	If you require a package or stand alone attachment listed as Lane 3 select this option.		

REGIONAL PACKAGES

L	353-3313	GLOBAL ARRANGEMENT	0	NC
		Provides standard brake accumulators. For use with temperatures above -18°C		
		FOR USE WITH: Australia / New Zealand Dealers		
		CANNOT BE USED WITH: WEATHER, COLD PLUS		
L	363-3910	GLOBAL ARRANGEMENT, LOW AMBIENT	0	NC
		Provides brake accumulators for low ambient temperatures below -18°C		
		CANNOT BE USED WITH: Canadian Dealers or EU Dealers		
		CANNOT BE USED WITH: WEATHER, STANDARD		

PERFORMANCE PACKAGES**MOLDBOARDS**

(Must select one)

L	349-3046	MOLDBOARD, 12'	0	NC
		INCLUDES:		
		- Moldboard 12' x 24" x 7/8" (3658mm x 610mm x 22mm)		
		- Curved Cutting Edge, 6" X 5/8" (152mm x 16mm)		
		- End Bits, Standard, Without Overlay		
L	349-3047	MOLDBOARD, 14' BASIC	347	\$1,180
		INCLUDES:		
		- Moldboard 14' x 24" x 7/8" (4267mm x 610mm x 22mm)		
		- Curved Cutting Edge, 8" x 3/4" (203mm x 19mm)		
		- End Bits, Standard, Without Overlay		
L	349-3048	MOLDBOARD, 14' PLUS	650	\$2,670
		INCLUDES:		
		- Moldboard 14' x 27" x 1" (4267mm x 686mm x 25mm)		
		- Curved Cutting Edge, 8" x 3/4" (203mm x 19mm)		
		- End Bits, Standard, With Overlay		
L	350-0678	MOLDBOARD, 16 FT	1,040	\$6,980
		INCLUDES:		
		- Moldboard 16' x 27" x 1" (4877mm x 686mm x 25mm)		
		- Curved Cutting Edge, 8" x 3/4" (203mm x 19mm)		
		- End Bits, Standard, With Overlay		

WORK TOOLS(Must Select One)

HYDRAULICS

NOTE: Optional Control Locations

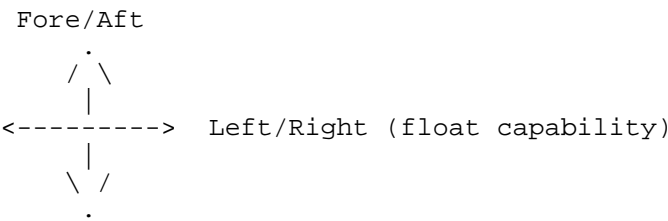

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must select one)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.

TECHNOLOGY PRODUCTS (CONT.)				
ACCUGRADE (May select one or more)				
L	362-5222	NO ACCUGRADE.	0	NC
L	362-6013	INSTALLATION, ACCUGRD RDY AWD Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software enabled attachment	32	\$5,250
L	364-3747	GRADE CONTROL X SLOPE Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.	165	\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**
All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

-----	------------	-----------------------	--------------------	--------------------------

TIRES, RIMS, AND WHEELS (CONT.)

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

GUARDS***GUARDS (May select one or more)***

L	367-6905	GUARD, AXLE HOSE 15 Provides additional protection to the front axle cylinders, lines, and fittings. * NOTE* NOT recommended for use with tire chains		\$1,060
L	366-2459	GUARD, TRANSMISSION 310 Provides a steel guard to protect the transmission from ground debris. REQUIRED BY: SOUND SUPPRESSION (BOTTOM) INCLUDED IN: EUROPEAN ARRANGEMENT		\$3,350
L	377-1602	SOUND SUPPRESSION (BOTTOM) 243 Provides two metallic side panels on either side of the transmission guard, enclosing the rear of the machine. This option prevents debris from accumulating on top of the transmission guard and also suppresses sound to meet EU sound regulations. REQUIRES: GUARD, TRANSMISSION REQUIRES: GUARD GP, HITCH INCLUDED IN: EUROPEAN ARRANGEMENT CANNOT BE USED WITH: ARTICULATION GUARD		\$2,065
L	307-1477	SOUND SUPPRESSION (ENCLOSURE) 32 Suppression panels in engine enclosure doors. INCLUDED IN: EUROPEAN ARRANGEMENT		\$1,520
L	262-0412	FENDERS, FRONT, AWD 124 Non-metallic front fenders aid in reducing the build-up of mud, snow, or debris. Front fenders are compatible with all Non-AWD tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS. CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$3,740
L	242-2452	FENDERS, REAR 344 Provides non-metallic rear fenders to aid in reducing the build-up of mud, snow, or debris. Rear fenders are compatible with all MG tire sizes offered by the factory. ** NOT RECOMMENDED FOR USE WITH TIRE CHAINS.		\$5,130

OTHER ATTACHMENTS***STARTING AIDS (May select one)***

L	249-5516	HEATER, ENGINE COOLANT, 120V 3 Engine coolant heater for 120 volt external power source. REQUIRED BY: SNOW ARRANGEMENT CANNOT BE USED WITH: HEATER, ENGINE COOLANT, 240V		\$240
L	249-5511	HEATER, ENGINE COOLANT, 240V 3 Engine coolant heater for 240 volt external power source. REQUIRED BY: Snow Arrangement CANNOT BE USED WITH: HEATER, ENGINE COOLANT, 120V CANNOT BE USED WITH: North American Dealers		\$240

WORK TOOLS				
<i>WORK TOOLS (May select one or more)</i>				
L	367-6880	COUNTERWEIGHT 885 Front mounted. Recommended when machine is not equipped with rear or front mounted work tool attachments to provide additional blade performance capability. NOTE: This cannot be used in conjunction with push plate, mid mount scarifier, front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift. CANNOT BE USED WITH: RIPPER-SCARIFIER, REAR CANNOT BE USED WITH: PUSH PLATE CANNOT BE USED WITH: MID MOUNT SCARIFIER PACKAGE		\$3,150
L	367-6842	PUSH PLATE 2,822 Front mounted. Recommended when machine is equipped with rear ripper/scarifier and other rear mounted attachments. NOTE: This cannot be used in conjunction with counterweight, any front lift work tools, or the 'installed' hydraulic front lift. It can be used with a not installed hydraulic front lift. CANNOT BE USED WITH: COUNTERWEIGHT		\$5,550
L	360-5074	MOUNT, MID-MOUNT SCARIFIER 131 Brackets welded to front frame for future installation of midmount scarifier. NOTE: This is the mounting only and does not include the scarifier. RECOMMENDED: Hydraulics with a mid-mount scarifier (MMS) function NOTE: If you intend to purchase the mid-mounted scarifier, please note that the actual scarifier cannot be attached to the machine at same time as the Lift Group, Manual, Front		\$1,500
L	312-2204	LIFT GROUP, MANUAL, FRONT 1,500 Front hydraulic lift without any work tool attached. REQUIRES: MOUNTING, FRONT LIFT REQUIRES: Hydraulics control part number that has front lift (FL) function NOT FOR USE WITH: BASE + 1 (RIP) BASE + 1 (MMS) NOTE: A Not-Installed Manual Lift Group can be ordered with an INSTALLED Push Plate/Counterweight. The not-installed lift group will be skidded, banded and shipped with the unit. CANNOT BE USED WITH: PUSH PLATE, or MID MOUNT SCARIFIER PACKAGE (The Installed Manual Lift Group can be attached to the machine at the sametime as the mounting for the mid-mount scarifier, but not the actual scarifier itself).	1,500 1,500	\$10,860 \$10,860 NI
L	359-3925	MOUNTING, FRONT LIFT 10 Two mounting plates welded to both sides of the front frame for factory for future installation of Front Lift. REQUIRED BY: LIFT GROUP, MANUAL, FRONT		\$435
L	305-2945	LINES, RIPPER, ADDITIONAL 8 For use with rear mounted auxiliary functions. Provides two hydraulic hoses with one end bundled at the rear of the machine and the other end bundled at the rear valve bank in front of the cab. CANNOT BE USED WITH: Any hydraulic valve group that does not have a ripper function.		\$420

**160M2 MOTOR GRADER
LITTLE ROCK, ARKANSAS**Ship Weight
lbsList Price
At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. Meets U.S. EPA Tier 4 and EU Stage IIb emission standards
Parking brake, multi-disc, sealed and oil cooled
Sediment drain, fuel tank
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horsepower Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Harness, software, valves, bosses and brackets)
Lights, reversing, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp, and regen)
Joystick gear selection, hydraulic power steering, hydraulic controls

(right/left blade lift w/ float position
blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed -70dB(A) -ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- fixed front with intermittent wiper
- side and rear (3)

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 4, engine compartment, (two left hand, two right hand,) locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators, brake, dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 110 gallon (416 L)
Ground level fueling
Hydraulic lines for base functions
Pump, hydraulic, high capacity (98cc/15cu in)
Radiator, cleanout access (both sides with swing doors)
SOS ports -engine -hydraulic
-transmission -coolant -fuel
Tool box

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

Lane 1 DISTRIBUTION CENTER ARRANGEMENTS
If no reference number is listed, Lane 1 configuration is not available.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available

353-2925	160M2 MOTOR GRADER 38,131 NOTE: To be complete, your machine order must contain: - Base machine - Regional Packages - Performance Packages - Hydraulics - Electrical - Operator Environment - Technology Products - Tires - Service Instruction - Associated OP Numbers	\$389,820
0P-1920	160M2 MISC MATERIAL 0 Use this as the top level reference number when ordering misc material without ordering a machine.	NC

HYDRAULICS

NOTE: Optional Control Locations

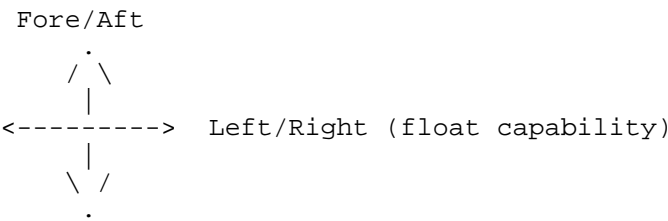

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

- INDEX = Index Finger (front lift)(float capability)
- MID = Middle Finger(dozer angle 1)
- RING = Ring Finger (dozer angle 2)
- LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

- RH1 = Front Lift (float capability)
- RH2 = Ripper-Scarifier Control
- RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).

Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.

Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS**PRODUCT LINK (Must select one)**

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29		NC
		Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition.		
		For use in areas with poor or no cellular coverage.		
L	361-3107	PRODUCT LINK, CELLULAR PL522 29		NC
		Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition.		
		Cellular technology provides capabilities for frequent data transmission.		

ACCUGRADE (Must select one)

L	362-5222	NO ACCUGRADE. 0		NC
L	358-9339	INSTALLATION, ACCUGRADE READY 90		\$5,250
		Allows the Motor Grader to be equipped with either a Cross Slope, Laser, GPS, or ATS electronics kit.		
		Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket.		
		** REQUIRES: Software enabled attachment(SEA)		

USE	REF NO.	LANE 2 / 3 MANDATORY	Ship Weight lbs	List Price At Factory
-----	------------	----------------------	--------------------	--------------------------

TECHNOLOGY PRODUCTS (CONT.)***ACCUGRADE (Must select one) (Cont.)***

L	363-4372	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option.		\$11,390
---	----------	---	--	-----------------

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.

The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**
All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change, the total machine price will be decreased or increased relative to the price of the new tire selection.

LIST PRICE
AT PO ENTRY

Standard Equipment:

STANDARD EQUIPMENT:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

--	--------------------	---------------------------

OTHER STANDARD EQUIPMENT (CONT.)

DEF/AdBlue Tank, 5.5 gallon (21 L)
Hydraulic lines for base functions
Pump, hydralic, high capacity
(98cc / 15 cu in)
Radiator, cleanout access
(both sides with swing doors)
SOS ports - engine -hydraulic
-transmission -coolant -fuel
Tandem walkway/guards
Tool box
Debris Guard

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list. You must order your machine from Lane 1, Lane 2, or Lane 3. The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements

Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

383-9705	160M3 AWD MOTOR GRADER 40,098	\$463,300
	NOTE: To be complete, your machine order must contain:	
	- Base machine	
	- Regional Packages	
	- Performance Packages	
	- Hydraulics	
	- Electrical	
	- Operator Environment	
	- Technology Products	
	- Tires	
	- Guards	
	- Documentation	
	- Associated 0P Numbers	
0P-2983	160M3 AWD MISC MATERIAL CBL 0	NC
	Use this as the top level reference number when ordering misc material without ordering a machine.

HYDRAULICS

NOTE: Optional Control Locations

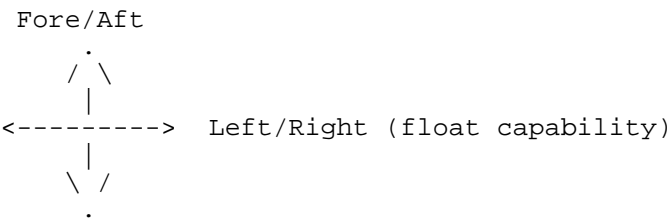

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
 Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
 Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE 0		NC
L	394-3914	ACCUGRADE READY 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3916	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

Standard Equipment:

STANDARD EQUIPMENT:

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator and automatic dust ejector
Air-to-air after cooler (ATAAC)
Belt, serpentine, automatic tensioner
Brakes, oil disc, four-wheel, hydraulic
Demand fan, hydraulic
Differential, lock/unlock, Automatic
Drain, engine oil, ecology
Electronic over-speed protection
Engine, C9 with ACERT technology, diesel with automatic engine derate and idle control. EPA/ARB Tier 4 Final & EU stage IV certified Engine & Aftertreatment
Parking brake, multi-disc, sealed and oil cooled.
Sediment drain, fuel tank.
Tandem drive
Transmission, 8 speed forward and 6 speed reverse, power shift, direct drive
VHP Plus (Variable Horse Power Plus)

ELECTRICAL

Alarm, back-up
Alternator, 150 ampere, sealed
Batteries, maintenance free, heavy duty, 1125 CCA
Breaker panel, ground accessible
Electrical hydraulic valves
Electrical system, 24 volt
Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)
Lights, reversing
Lights, roading, roof-mounted, stop and tail, LED
Starter, electric

OPERATOR ENVIRONMENT

Air Conditioning with heater
Articulation, automatic return to center
Centershift pin indicator
Display, digital speed and gear
Doors, left and right side with wiper
Gauge, machine level
Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM,

and hydraulic oil temp, DEF/AdBlue)
Joystick, adjustable armrests
Joystick gear selection, hydraulic
power steering hydraulic controls (right/left, blade lift w/ float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)
Lights, night time cab
Messenger operator information system
Meter, hour, digital
Mirror, inside rearview, wide angle
Power Port, 12V
Radio Ready, Entertainment
ROPS cab, sound suppressed
- 69dB(A) - ISO 6394
Seat, cloth-covered, comfort suspension
Storage area for cooler/lunchbox
Throttle control, electronic
Windows: laminated glass
- Fixed front with intermittent wiper
- Door with intermittent wipers (3)
Windows: Tempered
- Left and right side wipers
- Rear with intermittent wiper

SAFETY AND SECURITY

Clutch, circle drive slip
Doors, 2 engine compartment, (two left hand, two right hand) locking
Doors, 2 service, left and right locking
Ground level engine shutdown
Hammer (emergency exit)
Horn, electric
Lockout, hydraulic implement (for roading and servicing)
Seat belt, retractable 3"
Secondary steering
Tandem walkway/guards

TIRES, RIMS, AND WHEELS

A partial allowance for tires on 10" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze
Extended Life Coolant -35C/-30F

OTHER STANDARD EQUIPMENT

Accumulators -brake -dual certified
Drawbar, 6 shoe w/replaceable wear strips
Fluid check, ground level
Fuel tank, 105 gallon (398 L)
Ground level fueling

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Lane 1 Distribution Center Arrangements(DCA's)
If no reference number is listed, a Lane 1 configuration is not available.

To be complete, your Lane 1 Machine order must contain:
1) Distribution Center Arrangement (DCA)
2) 0P-9001 Lane 1 order
3) 0P number for packing shipment

Effective 12 september, 2011 Exact Lane 1 configurations may also be sourced from the factory with lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 items may be added to the order.

Lane 2 / Lane 3 - Factory Arrangements
Machines ordered in this section will be sourced from the factory. If no reference number is listed Lane 2/3 configuration is not available.

HYDRAULICS

NOTE: Optional Control Locations

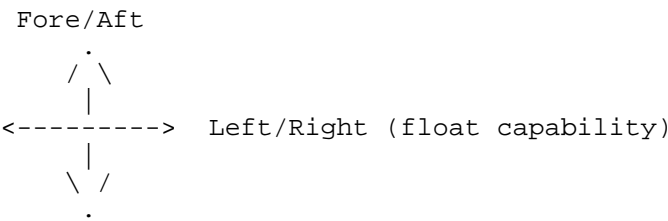

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

NOTE: Auxiliary controls that can have float

Auxiliary Pod Controls

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger(dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE= Little Finger (float capability)

NOTE: Mini-Joystick

NOTE: Ripper Control Pod

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

USE	REF NO.	MANDATORY ATTACHMENTS	Ship Weight lbs	LIST PRICE AT PO ENTRY
-----	------------	-----------------------	--------------------	---------------------------

HYDRAULICS (CONT.)**NOTE: Common Functions**

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

FL = Front Lift (moves front work tools up/down)
 DA1 = Dozer Angle 1 (angles front blade left OR right)
 DA2 = Dozer Angle 2 (angles front blade left AND right)
 RIP = Rear Mounted Ripper (moves ripper up/down)
 MMS = Mid-Mounted Scarifier
 WM = Wing Mast
 WT = Wing Tilt
 Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
 Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).
 Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
 Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
 Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TECHNOLOGY PRODUCTS***PRODUCT LINK (Must Select One)***

Product Link enables the remote transmission of information about the location, operation, and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition, and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	373-6739	PRODUCT LINK, SATELLITE PL321 29 Satellite Product Link uses a satellite network for transmission of asset information including location, utilization and condition. For use in areas with poor or no cellular coverage.		NC
L	361-3107	PRODUCT LINK, CELLULAR PL522 29 Cellular Product Link uses GSM cellular networks for transmission of asset information including location, utilization, and condition. Cellular technology provides capabilities for frequent data transmission.		NC

ACCUGRADE (Must Select One)

L	362-5222	NO ACCUGRADE. 0		NC
L	394-3913	ACCUGRADE READY. 90 Allows the Motor Grader to be equipped with either a Cross Slope, Sonic, Laser, GPS, or ATS electronics kit. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. ** REQUIRES: Software Enabled Attachment (SEA)		\$5,250
L	394-3915	GRADE CONTROL X SLOPE 165 Allows the operator to manually control one end of the blade to match the curb or crown while automatically maintaining the desired slope of the blade. This system is used to maintain the crown of a gravel road or the shoulder of a road. Provides cab switches, software, harnesses for sensors, mounting for sensors and blade mast bracket. Accugrade Ready is included in this option		\$11,390

Please consult the **ACCUMG PRICE LIST** for ordering instructions and pricing information on the **ELECTRONICS KITS** and **Software Enabled Attachment (SEA)** required to activate the **AccuGrade Electro-Hydraulic system**.
The **AccuGrade LASER TRANSMITTER** and **TRIPOD** must be ordered directly from the supplier (see **ACCUMG PRICE LIST** for ordering instructions).

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to industry-wide tire availability limitations, tire brand and type cannot be guaranteed. Every effort will be made to satisfy your tire choice, but we reserve the right to change to alternate tires. If the tire brand cannot be supplied, the dealer will be contacted to propose alternative tire options. The dealer will need to respond with an alternative tire selection within 72 hours. If no response is provided by the supplier, the order will default to a comparable tire. As a consequence of a tire change the total machine price will be decreased or increased relative to the price of the new tire selection.

At Factory**Standard Equipment:**

The standard equipment list includes key components necessary for an operable machine.

POWERTRAIN

Air cleaner, dual stage dry type radial seal with service indicator through messenger and automatic dust ejector.

Air-to-air after cooler (ATAAC)

Demand fan, hydraulic.

Drain, engine oil, high speed.

Brakes, oil disc, four-wheel, hydraulic.

Engine, C13 with ACERT technology, diesel, with automatic engine derate and idle control.

Note: For US & Canada Dealers only; meets EPA/ARB Flexibility certified engine (Tier 3, credit using engine).

For Turkey dealers only; meets stage IIIA (R96 certified) engine.

Note: For all other regions; meets EU stage IIIA certified engine.

Engine or EPA/ARB Flexibility certified engine (Tier 3, credit using engine).

For EU dealers only; "New factory orders are no longer being accepted, and the only machines available are stock located in Antwerp (Belgium)."

ELECTRICAL

Alarm, back-up

Alternator, 150 ampere, sealed

Batteries, maintenance free, HD 1400 CCA

Electrical system, 24 volt

Grade Control Ready (Cab harness, software, electrical hydraulic valves, bosses and brackets)

Lights, reversing

Lights, roading, roof-mounted

Lights, stop and tail, LED

Lights, work, front

Product Link ready

Starter, electric, heavy duty

OPERATOR ENVIRONMENT

Air Conditioning with heater

Display, digital speed and gear

Gauge, machine level

Gauges (analog) inside the cab (includes fuel, articulation, engine coolant temp, engine RPM, and hydraulic oil temp)

Joystick, adjustable armrests

Joystick gear selection

Joystick hydraulic controls, (right/

left blade lift with float position, blade sideshift and tip, circle drive, centershift, front wheel lean and articulation and steering)

Joystick hydraulic power steering

Ladders, cab, left and right side

Messenger operator information system

Meter, hour, digital

Mirror, inside rearview, wide angle

ROPS cab, sound suppressed

less than 75dB (A)

ISO 6394 (100% fan speed)

Seat, cloth-covered, comfort air

suspension, Ret. Seat Belt

Throttle control, electronic

Windows: laminated glass

-fixed front with intermittent wiper

-side and rear (3)

TIRES, RIMS, AND WHEELS

A partial allowance for tires on

23.5" x 24" multi-piece rims is included in the base machine price and weight.

FLUIDS

Antifreeze

Extended Life Coolant to -35C/-30F

OTHER STANDARD EQUIPMENT

Grade Control Cross Slope

Accumulators, blade lift

Brake accumulators, dual certified

Bumper, rear, integrated with hitch

CD ROM Parts Book

Clutch, circle drive slip

Cutting edges, 8" x 1" (203mm x 25mm)

curved DH-2 steel, 3/4" mounting

bolts (19 mm)

Doors, 4 engine compartment, (two left

hand, two right hand,) locking

Drawbar, 6 shoe with replaceable

wear strips

Endbits, 5/8" (16 mm) DH-2 steel,

3/4" (19 mm) mounting bolts

Fuel tank, 137 gallon (518 L) Fast fill

Ground level engine shutdown

ORDERING INSTRUCTIONS:

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS(DCA's)
If no reference number is listed, Lane 1 configuration is not available.

To be complete, your Lane 1 machine order must at least contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) 0P numbers for packing shipment

Effective 12 September, 2011 Exact Lane 1 configuration may also be sourced from the factory with Lane 2 Availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator Instead of 0P9001 Lane Indicator and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

LANE 2 / LANE 3 - FACTORY ARRANGEMENTS

Machines ordered in this section will be sourced from the factory.

349-2556	16M MOTOR GRADER	56,516	\$895,830
	NOTE: To be complete, your machine order must contain:		
	- Base Machine		
	- Performance Packages		
	- Hydraulics		
	- Electrical		
	- Operator Environment		
	- Technology Products		
	- Tires		
	- Service Instructions		
	- Associated 0P Numbers		
0P-2164	16M MISC MATERIAL NLR	0	NC
	Use this as the top level reference number when ordering miscellaneous material without ordering a machine.		

16M MOTOR GRADER LITTLE ROCK, ARKANSAS	Ship Weight lbs	List Price At Factory
---	--------------------	--------------------------

Weight and price for the no-charge items are included in the base Motor Grader weight and price. Ship weight does not include operator or fuel.

The general arrangement does not include an allowance for FULL tire and rim price or weight. Please see Mandatory Attachments for tire and rim information.

NOTE: Each Motor Grader will be shipped with a Parts Book on CD ROM. The CD will be shipped in a bag in the tool box or with other Motor Grader literature. If a paper copy is desired, please order through the dealer parts department.

L	352-3808	WEATHER, COLD PLUS 24 Recommended for year around use when typical ambient temperature range is -40°C (-40°F) to 40°C (104°F) or operating at altitude above 1220 m (4000 feet). INCLUDES: - Covers, Screen - Cover, Hydraulic Oil Cooler - Oil, Hydraulic, Cold, 0W REQUIRES: Heater, Engine Coolant, 120V or Heater, Engine Coolant, 240V		\$2,345
---	----------	---	--	----------------

ACCUMULATORS (Must Select One)

L	271-3652	CONTROL, BLADE, VARIABLE FLOAT 20 Allows operator to control the amount of down force the blade has in float mode. CANNOT BE USED WITH: Canadian Dealers		\$12,290
L	354-8463	ACCUMULATORS, BLADE LIFT 0 Without variable float. Provides hydraulic lines for base functions and accumulators for the blade lift. Allows approximately 1-3" of vertical blade travel to reduce impact loads. Nitrogen/oil accumulators activated by electric switch. Accumulator meets European directive 97/23/EC CANNOT BE USED WITH: Canadian Dealers		NC

POWER (Must Select One)

L	249-7321	FILM, ENGINE, VHP 0 Provides VHP film. 5 HP increments up to 4th gear.		NC
L	249-7328	FILM, ENGINE, VHP PLUS 0 Provides VHP Plus film. 5 HP increments through 8th gear. INCLUDED IN: Snow Arrangement		\$3,650

HORNS (Must Select One)

L	300-1274	HORN, ELECTRIC 0 Provides an electrical horn that mounts on front frame.		NC
L	300-1275	HORN, AIR 15 Provides a self-sufficient air horn that mounts on the front frame. Provides 107 to 112 db (A) loudness at seven meters.		\$1,705

AUTOLUBE (Must Select One)

L	283-7765	LINES, GREASE 0		NC
---	----------	------------------------------	--	-----------

-----	------------	----------------------	--------------------	--------------------------

PERFORMANCE PACKAGES (CONT.)***AUTOLUBE (Must Select One) (Cont.)***

L	389-6066	AUTOLUBE, CENTRO-MATIC 25 Provides a LINCOLN INDUSTRIAL CORP. "CENTRO-MATIC" automated lubrication system. The system utilizes a Hydraulic pump, SL-V injectors and a 40 lb. reservoir. Provides for an adjustable timer to dispense grease at a predetermined interval to all MG lubrication points; eliminates manual lubrication, extends component life and reduces downtime. NOTE: If ordering a ripper, the Ripper Enhancement Autolube, is required.		\$17,660
---	----------	--	--	-----------------

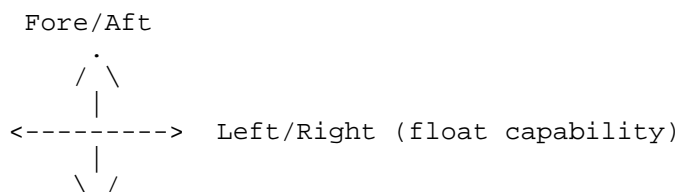

DCM WEAR STRIPS (Must Select One)

L	390-7857	METALLIC DCM WEAR STRIPS 10 Provides metallic wear strips for the circle for severe applications. Includes shim-able moldboard wear strip retention system.		\$1,330
L	390-7858	NON-METALLIC DCM WEAR STRIPS 0 Provides non-metallic wear strips for the circle as described in the standard equipment section. Includes set screw adjust on moldboard.		NC

HYDRAULICS***NOTE: Optional Control Locations***

Caterpillar offers many attachment hydraulic controls to operate work tools. Depending on which hydraulic part number is selected, the operating electro-hydraulic switches may include the auxiliary pod, mini-joystick located on the auxiliary pod, and/or the ripper control pod.

INDEX = Index Finger (front lift)(float capability)
MID = Middle Finger (dozer angle 1)
RING = Ring Finger (dozer angle 2)
LITTLE = Little Finger (float capability)

NOTE: Mini-Joystick***NOTE: Ripper Control Pod***

RH1 = Front Lift (float capability)
RH2 = Ripper-Scarifier Control
RHD = Ripper Handle Dual Switch (RH1 & RH2)

HYDRAULICS (CONT.)

NOTE: Common Functions

COMMON FUNCTIONS:

Base = 8 functions: right and left blade lift, circle turn, drawbar center shift, blade side shift, blade tip, front wheel lean, frame articulation.

- FL = Front Lift (moves front work tools up/down)
- DA1 = Dozer Angle 1 (angles front blade left OR right)
- DA2 = Dozer Angle 2 (angles front blade left AND right)
- RIP = Rear Mounted Ripper (moves ripper up/down)
- WM = Wing Mast
- WT = Wing Tilt
- Float = Built-in feature of valve section that opens both the work ports to tank. The external forces (weight of the implement) allows free movement of the implement.
- Flow Rate=Provides maximum rate of fluid flow from the specific work port. B/A represents the maximum flow rate in Port B/Port A* in LPM (liters per minute).

*NOTE: Each valve section has two work ports (Port A and Port B).
Port A: Used to either raise implement or move implement to the right or for clockwise rotation of the implement.
Port B: Used to either lower implement or move implement to the left or for counter-clockwise rotation of the implement.

TIRES, RIMS, AND WHEELS

Tires listed below include a set of six tires.

**** To calculate tire loads with machine attachments, please reference the MG Tire Selection Pocket Guide (media #AEXQ0182), available on the Electronic Sales Library.**

All tire selections should be made with consideration for planned machine attachments (OEM and aftermarket) and their additional weight. Each tire has a maximum load rating that is not to be exceeded. The tire selection should be based on the maximum of all tire position loads on the machine. Assistance for calculating the highest tire load can be found in the Tire Load Worksheet in the back of the Caterpillar Motor Graders Tire Selection Pocket Guide. Failure to abide by the load ratings of the tires without first consulting the local tire supplier representative could result in nullification of the tire warranty.

Due to the worldwide tire shortage of Off-The-Road tires, Caterpillar has had to change the tires that are offered for Motor Graders. Caterpillar fully understands that many tenders may require a certain tire; however the factory can only supply tires that are available from the tire manufacturers. During this shortage, you may be required to change to an alternative tire or to order the Motor Graders with "rims only" and source tires locally.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

- 346-1834 TANK, WATER, B-SERIES MACHINES**
 FOR USE WITH: A, B, B2 & B3 Series machines
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and
 quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 233-5632 FOPS, LEVEL 2**
 Refer to REHS5758 for a complete parts listing.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
 CANNOT BE USED WITH: Lifting Eye, Single Point

**NOTE: NACD ONLY may place orders in CMOPS to be transferred via
 the bridge to ANTARES Parts Ordering.
 When ordering via CMOPS include top level reference numbers (0P-2237)
 and 0P number for packing.**

B3 Series ONLY Kits

- 364-1353 KIT, QUICK COUPLER, HYDRAULIC** 56 **\$1,418 NI**
 For proper installation, refer to media number REHS5235.
- 361-0455 KIT, WT ELECTRICAL CONTROL, DLX** 7 **\$438 NI**
 For proper installation, refer to media number REHS5230.
 Includes: Work Tool Electrical switch, harness connector and Left
 Hand Joystick. Allows installation of Work Tool Control on a Standard
 Flow machine. Used to operate a number of specific work tools,
 including six way dozer blades, power box rakes equipped with
 hydraulic angling feature, the BA18 angle angle broom, the SG16B stump
 grinder and the SR118 snow blower.
 Serial number JXM01955 and BELOW
 FOR USE WITH: Control, Basic and Control, 1-Spd, Prop Aux, DLx

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

*** Please refer to 226B3 price lists to order DCAs until they are consumed.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

- 346-1834 TANK, WATER, B-SERIES MACHINES**
 FOR USE WITH: A, B, B2 & B3 Series machines.
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and
 quick disconnect
 Estimated time to install: 16 hours
 FOR USE WITH: B-series machines
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used
 in dusty or high airborne debris applications. Kit contains a
 muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours
- 233-5632 FOPS, LEVEL 2**
 Refer to REHS5758 for a complete parts listing.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
 CANNOT BE USED WITH: Lifting Eye, Single Point

Available Through ANTARES Parts Ordering.

**NOTE: NACD ONLY may place orders in CMOPS to be transferred via
 the bridge to ANTARES Parts Ordering.
 When ordering via CMOPS include top level reference numbers (0P-2240)
 and 0P number for packing.**

TIRES, RIMS, AND WHEELS*Select One***60" (1524mm) Width**

P	422-3337	TIRES, 10X16.5 8PR CAT 380 Caterpillar Tire - Premium conventional heavy duty tire provides excellent traction in a variety of conditions. Deepest tread available (24/32") (19mm) results in long service life. Extra heavy sidewall construction protects against abrasion, tears and impact damage. Directional chevron tread pattern, bias ply. Includes valve stem protection. 60" (1524mm) width		\$71
P	422-3338	TIRES, 10 X 16.5 8PR GALAXY 393 Galaxy "Beefy Baby" - Designed with extra side wall strength to protect against punctures and abuse. Extra wide lug bar and deep tread give good traction in soft conditions. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$-213
P	422-3339	TIRES, 10 X 16.5 6PR GY SGL 348 Goodyear Sure Grip Lug - Used in soft soil operation where traction and flotation required. Designed for good forward traction, cleaning ability and durability. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$-257
P	422-3340	TIRES, 10 X 16.5 10PR CAT, XD 489 Caterpillar XD Tire- 10-Ply pneumatic tire with very deep tread, ultra heavy sidewalls and extra large rim guards. Ideal for concrete & demolition work, quarries and asphalt recycling. Tread depth 44/32" (35mm) is 40% deeper than Cat Premium Conventional Tires. The XD Tire features a special tread compound for long wear and durability. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$820
P	422-3341	TIRES, 31 X 6 X 10 CAT, FLXPRT 920 Extreme Duty Flexport Solid Tire- The Flexport design incorporates a series of holes molded through the outer ring of the sidewall. The result is a stable and more cushioned ride while maintaining the benefits of a solid tire. Extra large tapered lugs and a tread depth of 64/32" (51mm) mean excellent traction on improved and unimproved surfaces. The rubber tire and steel rim are a one-piece bonded assembly, and replaced as a single unit. No specialized tire service is ever required. Directional chevron tread pattern. 60" (1524mm) width		\$2,165

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2736) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI

	For proper installation, refer to media number REHS7806. Includes Work Tool Electrical switch, harness, connector and mounting hardware. Estimated time to install: 2 hours	
388-8273	KIT, WT ELECTRICAL CONTROL, DLX 0	\$690 NI
	For proper installation, refer to media number REHS7814. Includes: Work Tool Electrical switch, harness, connector, mounting hardware and 4 button Left Hand Joystick. Estimated time to install: 3 hours	
422-3315	KIT, RIDE CONTROL 0	\$1,029 NI
	For proper installation, refer to media number REHS7850. Estimated time to install: 3 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
428-5910	KIT, DEBRIS BARRIER 0	\$1,919 NI
	For proper installation, refer to media number REHS8714. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 7 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
388-6641	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5799. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.	
422-3323	KIT, FRONT ROADING LIGHTS 0	\$463 NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours	

NO RETURNS accepted for kit components not used or for parts removed from machine during kit installation.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

 quick disconnect
 Estimated time to install: 16 hours
 FOR USE WITH: B-series machines
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used
 in dusty or high airborne debris applications. Kit contains a
 muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours
- 233-5632 FOPS, LEVEL 2**
 Refer to REHS5758 for a complete parts listing.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
 CANNOT BE USED WITH: Lifting Eye, Single Point

FIELD INSTALLED ATTACHMENTS (CONT.)

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2243) and 0P number for packing.

B3 Series ONLY Kits

361-0446	KIT, AIR CONDITIONER (HTR/DFR) 160	\$2,667 NI
	For proper installation, refer to media number REHS5729.	
361-0441	KIT, AIR CONDITIONER (CONVRN) 160	\$2,383 NI
	For proper installation, refer to media number REHS5724.	
280-8392	KIT, TURBO DEBRIS GUARD 0	\$192 NI
	For proper installation, refer to media number REHS4036.	
	This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.	
	Estimated time to install: 1 hour 30 minutes	
	FOR USE WITH: Tier 3 and Tier 4 Interim Engine.	
355-6778	KIT, DEBRIS BARRIER 0	\$1,451 NI
	For proper installation, refer to media number REHS5745.	
	This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame.	
	This kit contains various seals, covers and brushes that are designed to cover the openings that exist between the frame, body and rear door of the machine. The kit also includes a steel mesh guard for the exhaust pipe.	
	Estimated time to install: 8 hours	
361-0452	KIT, WT ELECTRICAL CONTROL 5	\$294 NI
	For proper installation, refer to media number REHS5229.	
	Includes: Work Tool Electrical switch, harness and connector.	
	Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific work tools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower.	
	Serial number SRS01045 and BELOW	
	FOR USE WITH: Control Basic, Control, 1-Spd, Prop Aux, Dlx and Control, 2-Spd, Prop Aux, Dlx

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

TIRES, RIMS, AND WHEELS				
<i>Select One</i>				
60" (1524mm) Width				
P	422-3337	TIRES, 10X16.5 8PR CAT 380 Caterpillar Tire - Premium conventional heavy duty tire provides excellent traction in a variety of conditions. Deepest tread available (24/32") (19mm) results in long service life. Extra heavy sidewall construction protects against abrasion, tears and impact damage. Directional chevron tread pattern, bias ply. Includes valve stem protection. 60" (1524mm) width		\$71
P	422-3338	TIRES, 10 X 16.5 8PR GALAXY 393 Galaxy "Beefy Baby" - Designed with extra side wall strength to protect against punctures and abuse. Extra wide lug bar and deep tread give good traction in soft conditions. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$-213
P	422-3339	TIRES, 10 X 16.5 6PR GY SGL 348 Goodyear Sure Grip Lug - Used in soft soil operation where traction and flotation required. Designed for good forward traction, cleaning ability and durability. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$-257
P	422-3340	TIRES, 10 X 16.5 10PR CAT, XD 489 Caterpillar XD Tire- 10-Ply pneumatic tire with very deep tread, ultra heavy sidewalls and extra large rim guards. Ideal for concrete & demolition work, quarries and asphalt recycling. Tread depth 44/32" (35mm) is 40% deeper than Cat Premium Conventional Tires. The XD Tire features a special tread compound for long wear and durability. Bias ply. Includes valve stem protection. 60" (1524mm) width		\$820
P	422-3341	TIRES, 31 X 6 X 10 CAT, FLXPRT 920 Extreme Duty Flexport Solid Tire- The Flexport design incorporates a series of holes molded through the outer ring of the sidewall. The result is a stable and more cushioned ride while maintaining the benefits of a solid tire. Extra large tapered lugs and a tread depth of 64/32" (51mm) mean excellent traction on improved and unimproved surfaces. The rubber tire and steel rim are a one-piece bonded assembly, and replaced as a single unit. No specialized tire service is ever required. Directional chevron tread pattern. 60" (1524mm) width		\$2,165

P	422-3343	TIRES, 10 X 16.5 8PR GALAXY 393 Galaxy "Beefy Baby" - Designed with extra side wall strength to protect against punctures and abuse. Extra wide lug bar and deep tread give good traction in soft conditions. Bias ply. Includes valve stem protection. 66" (1676mm) width		\$-213
P	422-3345	TIRES, 31 X 6 X 10 CAT, FLXPRT 920 Extreme Duty Flexport Solid Tire- The Flexport design incorporates a series of holes molded through the outer ring of the sidewall. The result is a stable and more cushioned ride while maintaining the benefits of a solid tire. Extra large tapered lugs and a tread depth of 64/32" (51mm) mean excellent traction on improved and unimproved surfaces. The rubber tire and steel rim are a one-piece bonded assembly, and replaced as a single unit. No specialized tire service is ever required. Directional chevron tread pattern. 66" (1676mm) width		\$2,165
P	165-4898	TIRES, 12 X 16.5 10PR GALAXY 515 Galaxy "Beefy Baby" - Designed with extra side wall strength to protect against punctures and abuse. Extra wide lug bar and deep tread give good traction in soft conditions. Bias ply. Includes valve stem protection. 66" (1676mm) width		\$360
P	185-8667	TIRES, 12X16.5 10PR CAT 480 Caterpillar Tire - Premium conventional heavy duty tire provides excellent traction in a variety of conditions. Deepest tread available (26/32") (21mm) results in long service life. Extra heavy sidewall construction protects against abrasion, tears and impact damage. Directional chevron tread pattern, bias ply. Includes valve stem protection. 66" (1676mm) width		\$336

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

For proper installation, refer to media number REHS7848.

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
428-5920	KIT, DEBRIS BARRIER 0	\$1,919 NI
	For proper installation, refer to media number REHS8715. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 7 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
388-6641	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5799. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.	
422-3323	KIT, FRONT ROADING LIGHTS 0	\$463 NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. NOT for use with European dealers. Estimated time to install: 1 hour 15 minutes	
258-4443	KIT, DOOR, CAB, GLASS, EU 0	\$926 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. ONLY For use with European Dealers Estimated time to install: 1 hour 15 minutes	
280-8392	KIT, TURBO DEBRIS GUARD 0	\$192 NI
	For proper installation, refer to media number REHS4036. This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes FOR USE WITH: Tier 3 and Tier 4 Interim Engine.	
342-2683	KIT, DEBRIS BARRIER 0	\$1,433 NI
	For proper installation, refer to media number REHS5200. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals, covers and brushes that are designed to cover the openings that exist between the frame, body and rear door of the machine. The kit also includes a steel mesh guard for the exhaust pipe. * Note: The Vented Rear Door is also required for use with this kit to provide proper cooling. Estimated time to install: 6.5 hours CANNOT BE USED WITH: EU Dealers

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

304-6754	KIT, RIDE CONTROL 0	\$1,103 NI
	For proper installation, refer to media number REHS2684. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours	
258-3910	KIT, QUICK COUPLER, HYDRAULIC 0	\$1,069 NI
	For proper installation, refer to media number REHS2683. Estimated time to install: 7 hours	
350-9039	KIT, AIR CONDITIONER (HTR/DFR) 0	\$3,294 NI
	For proper installation, refer to media number REHS5206. Estimated time to install: 8 hours Serial number JAY04501 and ABOVE	
350-9038	KIT, AIR CONDITIONER (CONVRN) 0	\$2,500 NI
	For proper installation, refer to media number REHS5207. Estimated time to install: 8 hours Serial number JAY04501 and ABOVE	
258-4127	KIT, WT ELECTRICAL CONTROL 0	\$375 NI
	For proper installation, refer to media number REHS2794. Includes: Work Tool Electrical switch, harness, connector and Left Hand Joystick. Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific worktools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower. Estimated time to install: 2 hours	
258-3915	KIT, SELF LEVEL (RADIAL LIFT) 0	\$596 NI
	For proper installation, refer to media number REHS2685. Estimated time to install: 3 hours	
258-4410	KIT, LIFTING EYES, FOUR POINT 0	\$457 NI
	For proper installation, refer to media number REHS2955. Estimated time to install: 8 hours	
258-4390	KIT, LIFTING EYE, SINGLE POINT 0	\$714 NI
	For proper installation, refer to media number REHS2953. Estimated time to install: 8 hours

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

258-4111	KIT, INFO & CONTROL-(AMICS) 0	\$758 NI
	For proper installation, refer to media number REHS2950. Includes: Analog gauges to display engine coolant and hydraulic oil temperatures and LED display used to operate Selectable Work Speed Control, Selectable Implement Control and Selectable Hystat Response Control features. LED also displays Engine RPM, System voltage and Job Clock. Estimated time to install: 1 hour	
258-3884	KIT, ROADING LIGHTS 0	\$490 NI NET
	For proper installation, refer to media number REHS3139. This kit provides (lift arm mounted) front headlights, mirrors and turn signals. It contains split red/amber tail lights that incorporate rear turn signals with stop lights, a rear mounted license plate holder with light and switches to operate the turn signals, roading lights and flashing hazard lights. For use in applications that require additional forward working lights or turn signals such as snow removal, highway projects or working in containers. Estimated time to install: 1 hour 30 minutes	
307-6237	KIT, LIGHTS, REAR, WIDE MOUNT 0	\$590 NI
	For proper installation, refer to media number REHS3140. Use this kit to re-mount the rear lights to the sides of the rear towers. Used to meet roading requirements in Italy and Germany.	
337-3991	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS4078. Includes: Antenna, speakers, radio mounting box, wiring, mounting brackets and hardware. Estimated time to install: 1.5 hours	

NO RETURNS accepted for kit components not used or for parts removed from machine during kit installation.

Shipments will be within 3 - 5 working days of order receipt for delivery by dealer parts stocking truck to dealer stocking facility.

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

L	309-1325	LIGHTS, BEACON 0 Magnetic base, mounted to top of cab. Operates when key switch is in "On" position.		\$212
---	----------	---	--	-------

OTHER ATTACHMENTS

L	345-5234	RETURN TO DIG/WRKTL POSITIONER 0 Return to Dig automatically lowers lift arms and returns work tool to preset angle. Work Tool positioner automatically returns work tool to present angle. Requires H2 or H3 performance package Note: Included with H4 performance package		\$281
L	345-5148	COUNTERWEIGHT, MACHINE, EXTERNAL 0 Includes external weights bolted to the frame tower. Machine ROC increased by 250 lbs (113 kg).		\$1,005
L	345-3556	HEATER, ENGINE COOLANT, 120V 0 120 Volt - For additional cold weather startability.		\$188
L	417-4606	LIFTING EYES, FOUR POINT 0 Included in Conversion Arrangements: EU and Rooding.		\$187

PRODUCT LINK

Product Link enables the remote transmission of information about the location, operation and condition of your equipment. Efficiently and effectively monitor performance of your assets to help keep your jobs on schedule, maintain equipment condition and reduce the costs of owning and operating your fleet. Availability varies by country. Please contact your Cat marketing representative with questions.

L	380-2437	PRODUCT LINK, CELLULAR, PL421 0 Cellular Product Link uses GSM cellular networks to transmit information about the hours and location of your equipment. This Product Link offering may provide asset health and/or utilization information depending on machine capability. Cellular technology provides capabilities for frequent data transmission.		\$670

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

The KIT, SELECT PATTERN CONTROL and KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

FIELD INSTALLED ATTACHMENTS (CONT.)

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-2730) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. Provides Creep Control, Hystat response adjustment, Implement response adjustment, Fuel gauge, Hydraulic temperature gauge, Engine coolant gauge, Tachometer, Language selection and Advanced multi-operator Anti-theft Security and Monitoring. Note: Rear camera ready. Will require dealer to enable Anti-theft Security System feature. Estimated time to install: 1 hour 30 minutes	
388-8284	KIT, CAMERA REAR VIEW 0	\$454 NI
	For proper installation, refer to media number REHS7825. Note: Requires Advanced Display Estimated time to install: 1 hour	
388-8285	KIT, FOOT THROTTLE 0	\$328 NI
	For proper installation, refer to media number REHS8712. Estimated time to install: 1 hour 30 minutes	
388-7875	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$517 NI
	Kit provides one counterweight per side which increases the Rated Operating Capacity by approximately 100-125 lbs (46 - 57 kg), depending on model. For maximum ROC increase, must order quantity of (2) 388-7875 kits. Includes Mounting hardware for both one counterweight per side configuration and two counterweights per side configuration. Estimated time to install: 30 minutes	
388-8267	KIT, AIR CONDITIONER (HTR/DFR) 0	\$3,031 NI
	For proper installation, refer to media number REHS7808. Estimated time to install: 8 hours 30 minutes	
388-8266	KIT, AIR CONDITIONER (CONVRSN) 0	\$2,019 NI
	For proper installation, refer to media number REHS7807. Estimated time to install: 8 hours	
388-8268	KIT, HEATER 0	\$1,214 NI
	For proper installation, refer to media number REHS7809. Estimated time to install: 6 hours	
388-8275	KIT, WINDOW, SIDES 0	\$676 NI
	For proper installation, refer to media number REHS8707. Estimated time to install: 1 hour	
388-8276	KIT, DOOR, CAB, GLASS 0	\$996 NI
	For proper installation, refer to media number REHS8708. Estimated time to install: 1 hour 30 minutes	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

388-8281	KIT, DOOR, CAB, POLYCARBONATE 0	\$1,768 NI
	For proper installation, refer to media number REHS8709. Estimated time to install: 1 hour 30 minutes	
388-8264	KIT, QUICK COUPLER, ELECTRIC 0	\$936 NI
	For proper installation, refer to media number REHS7805. Estimated time to install: 6 hours	
388-8265	KIT, WT ELECTRICAL CONTROL 0	\$190 NI
	For proper installation, refer to media number REHS7806. Includes Work Tool Electrical switch, harness, connector and mounting hardware. Estimated time to install: 2 hours	
388-8273	KIT, WT ELECTRICAL CONTROL, DLX 0	\$690 NI
	For proper installation, refer to media number REHS7814. Includes: Work Tool Electrical switch, harness, connector, mounting hardware and 4 button Left Hand Joystick. Estimated time to install: 3 hours	
388-8271	KIT, RIDE CONTROL 0	\$1,031 NI
	For proper installation, refer to media number REHS7813. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 3 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0720	KIT, DEBRIS BARRIER 0	\$2,090 NI
	For proper installation, refer to media number REHS7830. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 8 hours	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

388-7849	KIT, A/C BREATHER	0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes		
415-2795	KIT, PRECLEANER	0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour		
416-5705	KIT, TURBO DEBRIS GUARD	0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes		
345-5504	KIT, DOOR, HYD FILL CAP	0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.		
422-3323	KIT, FRONT ROADING LIGHTS	0	\$463 NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours		

**NO RETURNS accepted for kit components not used or for parts removed
from machine during kit installation.**

**Shipments will be within 3 - 5 working days of order receipt for
delivery by dealer parts stocking truck to dealer stocking facility.**

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator I (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

- 346-1834 TANK, WATER, B-SERIES MACHINES**
 FOR USE WITH: A, B, B2 & B3 Series machines.
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and
 quick disconnect
 Estimated time to install: 16 hours
 FOR USE WITH: B-series machines
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 305-9261 KIT, B2 UNDERCARRIAGE, COMPLETE**
 Note: Kit includes complete left and right B2 Undercarriage
 Assemblies, including UC frame, hubs, wheels, idlers, planetary drive
 motor, drive table and sprocket assembly, and tracks. For more
 information please refer to Special Instructions REHS4021.
 Estimated Installation time: 6 hrs.
- 305-9262 KIT, B2 UNDERCARRIAGE, PARTIAL**
 Note: Kit includes left and right B2 Undercarriage Frame Assemblies
 with hubs, wheels and idlers installed. Also includes new outboard
 bearing for existing drive motor shaft, sprocket ring and a complete
 set of inner and outer roller sleeves. This kit DOES NOT INCLUDE
 Drive Motors, Drive Table or Tracks. For more information please
 refer to Special Instructions REHS4023.
 Estimated Installation time: 10 hrs.
- 233-5632 FOPS, LEVEL 2**
 Refer to REHS5758 for a complete parts listing.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
 CANNOT BE USED WITH: Lifting Eye, Single Point

Available Through ANTARES Parts Ordering.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator I (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

B3 Series ONLY Kits

361-0447	KIT, AIR CONDITIONER (HTR/DFR) 160	\$2,704 NI
	For proper installation, refer to media number REHS5730.	
361-0442	KIT, AIR CONDITIONER (CONVRN) 160	\$2,383 NI
	For proper installation, refer to media number REHS5725.	
280-8392	KIT, TURBO DEBRIS GUARD 0	\$192 NI
	For proper installation, refer to media number REHS4036.	
	This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.	
	Estimated time to install: 1 hour 30 minutes	
	FOR USE WITH: Tier 3 and Tier 4 Interim Engine.	
355-6778	KIT, DEBRIS BARRIER 0	\$1,451 NI
	For proper installation, refer to media number REHS5745.	
	This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame.	
	This kit contains various seals, covers and brushes that are designed to cover the openings that exist between the frame, body and rear door of the machine. The kit also includes a steel mesh guard for the exhaust pipe.	
	Estimated time to install: 8 hours	
361-0452	KIT, WT ELECTRICAL CONTROL 5	\$294 NI
	For proper installation, refer to media number REHS5229.	
	Includes: Work Tool Electrical switch, harness and connector.	
	Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific work tools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower.	
	Serial number B7H00878 and BELOW	
	FOR USE WITH: Control, 2-Spd, Prop Aux, Dlx

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2738) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. Provides Creep Control, Hystat response adjustment, Implement response adjustment, Fuel gauge, Hydraulic temperature gauge, Engine coolant gauge, Tachometer, Language selection and Advanced multi-operator Anti-theft Security and Monitoring. Note: Rear camera ready. Will require dealer to enable Anti-theft Security System feature. Estimated time to install: 1 hour 30 minutes	
388-8284	KIT, CAMERA REAR VIEW 0	\$454 NI
	For proper installation, refer to media number REHS7825. Note: Requires Advanced Display Estimated time to install: 1 hour	
388-8285	KIT, FOOT THROTTLE 0	\$328 NI
	For proper installation, refer to media number REHS8712. Estimated time to install: 1 hour 30 minutes

388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
428-5920	KIT, DEBRIS BARRIER 0	\$1,919 NI
	For proper installation, refer to media number REHS8715. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 7 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
388-6641	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5799. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.	
422-3323	KIT, FRONT ROADING LIGHTS 0	\$463 NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

259B3 COMPACT TRACK LOADER SANFORD, NORTH CAROLINA	Ship Weight lbs	LIST PRICE AT DEALER
---	--------------------	-------------------------

LANE 2 FACTORY ARRANGEMENTS
If no reference number is listed, a Lane 2 configuration is not available.

0P-2245	259B3 MISC MATERIAL SANFORD	0	NC
---------	-----------------------------------	---	----

Work Tools are sourced via Caterpillar Parts Distribution system.

Compact Track Loader and Work Tools orders REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT-SSL price list to order Work Tools.

- 346-1834 TANK, WATER, B-SERIES MACHINES**
 FOR USE WITH: B3 Series machines
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and
 quick disconnect
 Estimated time to install: 16 hours
 FOR USE WITH: B-series machines
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used
 in dusty or high airborne debris applications. Kit contains a
 muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours
- 233-5632 FOPS, LEVEL 2**
 Refer to REHS5758 for a complete parts listing.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
 CANNOT BE USED WITH: Lifting Eye, Single Point

Standard Flow - 20 gpm (76 lpm)

Self Level, None

L 388-8136 PACKAGE, PERFORMANCE, (H4) 0 \$595

All of the following are included in this package:

Standard Flow - 20 gpm (76 lpm)

Return to Dig/Work Tool Positioner

Does NOT include Self Level

L 388-8138 PACKAGE, PERFORMANCE, (H5) 0 \$3,310

All of the following are included in this package:

High Flow - 30 gpm (113 lpm)

Return to Dig/Work Tool Positioner

Does NOT include Self Level

Hydraulics, Proportional

Worktool Harness

HYDRAULIC CONTROLS (FOR USE WITH H1 & H4)

L 345-5919 HYDRAULICS, ON/OFF 0 NC

L 345-5923 HYDRAULICS, PROPORTIONAL 0 \$204

Includes 4 button left hand joystick control

L 387-5383 HYDRAULICS, PROPORTIONAL, WT 0 \$530

Includes 4 button left hand joystick control and electrical work tool harness

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-7849	KIT, A/C BREATHER	0	\$336	NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes			
388-6641	KIT, PRECLEANER	0	\$736	NI
	For proper installation, refer to media number REHS5799. Estimated time to install: 1 hour			
416-5705	KIT, TURBO DEBRIS GUARD	0	\$358	NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes			
345-5504	KIT, DOOR, HYD FILL CAP	0	\$100	NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.			
422-3323	KIT, FRONT ROADING LIGHTS	0	\$463	NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours			

**NO RETURNS accepted for kit components not used or for parts removed
from machine during kit installation.**

**Shipments will be within 3 - 5 working days of order receipt for
delivery by dealer parts stocking truck to dealer stocking facility.**

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

0P-1951

262C2 MISC MATERIAL SANFORD 0

NC

Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
 For Use With EAME and APD
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 328-2366 KIT, ACCUGRADE HARNESS, UPDATE**
 For proper installation, refer to media number REHS4089.
 This kit includes electrical harness and securing hardware to update C-Series machines to accept the SSL/MTL/CTL AccuGrade System.
 Estimated time to install: 30 minutes
 Note: Also requires latest machine and AMICS software flash files.
 Please consult the AccuGrade Price Pages (ACCUSL) for AccuGrade system availability and the Skid Steer Loader Work Tools (WT-SSL) Price Pages for Box Blade availability.
- 305-8044 KIT, A/C BREATHER**
 For proper installation, refer to media number REHS4080.
 This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
 Estimated time to install: 30 minutes
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used in dusty or high airborne debris applications. Kit contains a muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours

-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**380-1723 KIT, DOOR, REAR, VENTED**

This kit provides a new rear door with steel mesh inserts that allows air to enter the rear of the machine to provide additional cooling in high ambient temperatures.

Estimated time to install: 1.5 hours

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-1669) and 0P number for packing.

258-4145	KIT, PRODUCT LINK, MOUNTING GP 0	\$22 NI
	For proper installation, refer to media number REHS2948. Includes: Mounting plates and hardware required to install Product Link on a C-Series SSL or MTL. For Use With: Either PL121SR or PL321SR and Antenna, Magnetic. Estimated time to install: 1.5 hours	
287-4160	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$521 NI
	Installed kit increases the Rated Operating Capacity by approximately 100 lbs (45 kg). Includes Mounting hardware for 100 lb and 200 lb counterweight option. For 200# ROC must order quantity of (2) 287-4160. Estimated time to install: 30 minutes	
258-2472	KIT, WINDOW, SIDES 0	\$675 NI
	For proper installation, refer to media number REHS2796. Estimated time to install: 45 minutes

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

350-9034	KIT, HEATER 0	\$1,238 NI
	For proper installation, refer to media number REHS5208. Estimated time to install: 6 hours	
388-7183	KIT, DOOR, CAB, POLYCARBONATE 0	\$1,604 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock-out switch. Estimated time to install: 1 hour 15 minutes	
258-2473	KIT, DOOR, CAB, GLASS 0	\$938 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. NOT for use with European dealers. Estimated time to install: 1 hour 15 minutes	
258-4443	KIT, DOOR, CAB, GLASS, EU 0	\$926 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. ONLY For use with European Dealers Estimated time to install: 1 hour 15 minutes	
280-8392	KIT, TURBO DEBRIS GUARD 0	\$192 NI
	For proper installation, refer to media number REHS4036. This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
342-2684	KIT, DEBRIS BARRIER 0	\$1,433 NI
	For proper installation, refer to media number REHS5201. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals, covers and brushes that are designed to cover the openings that exist between the frame, body and rear door of the machine. The kit also includes a steel mesh guard for the exhaust pipe. * Note: The Vented Rear Door is also required for use with this kit to provide proper cooling. Estimated time to install: 6.5 hours CANNOT BE USED WITH: EU Dealers

-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

304-6750	KIT, RIDE CONTROL 0	\$1,103 NI
	For proper installation, refer to media number REHS2684. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours	
258-3911	KIT, QUICK COUPLER, HYDRAULIC 0	\$1,015 NI
	For proper installation, refer to media number REHS3212. Estimated time to install: 7 hours	
350-9039	KIT, AIR CONDITIONER (HTR/DFR) 0	\$3,294 NI
	For proper installation, refer to media number REHS5206. Estimated time to install: 8 hours	
350-9038	KIT, AIR CONDITIONER (CONVRN) 0	\$2,500 NI
	For proper installation, refer to media number REHS5207. Estimated time to install: 8 hours	
258-4127	KIT, WT ELECTRICAL CONTROL 0	\$375 NI
	For proper installation, refer to media number REHS2794. Includes: Work Tool Electrical switch, harness, connector and Left Hand Joystick. Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific worktools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower. Estimated time to install: 2 hours	
294-5580	KIT, SELF LEVEL (VERT.LIFT) 0	\$596 NI
	For proper installation, refer to media number REHS2685. Estimated time to install: 3 hours	
258-4410	KIT, LIFTING EYES, FOUR POINT 0	\$457 NI
	For proper installation, refer to media number REHS2955. Estimated time to install: 8 hours	
258-4390	KIT, LIFTING EYE, SINGLE POINT 0	\$714 NI
	For proper installation, refer to media number REHS2953. Estimated time to install: 8 hours

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

258-4111	KIT, INFO & CONTROL-(AMICS) 0	\$758 NI
	For proper installation, refer to media number REHS2950. Includes: Analog gauges to display engine coolant and hydraulic oil temperatures and LED display used to operate Selectable Work Speed Control, Selectable Implement Control and Selectable Hystat Response Control features. LED also displays Engine RPM, System voltage and Job Clock. Estimated time to install: 1 hour	
258-3884	KIT, ROADING LIGHTS 0	\$490 NI NET
	For proper installation, refer to media number REHS3139. This kit provides (lift arm mounted) front headlights, mirrors and turn signals. It contains split red/amber tail lights that incorporate rear turn signals with stop lights, a rear mounted license plate holder with light and switches to operate the turn signals, roading lights and flashing hazard lights. For use in applications that require additional forward working lights or turn signals such as snow removal, highway projects or working in containers. Estimated time to install: 1 hour 30 minutes	
307-6237	KIT, LIGHTS, REAR, WIDE MOUNT 0	\$590 NI
	For proper installation, refer to media number REHS3140. Use this kit to re-mount the rear lights to the sides of the rear towers. Used to meet roading requirements in Italy and Germany.	
337-3991	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS4078. Includes: Antenna, speakers, radio mounting box, wiring, mounting brackets and hardware. Estimated time to install: 1.5 hours	

NO RETURNS accepted for kit components not used or for parts removed from machine during kit installation.

Shipments will be within 3 - 5 working days of order receipt for delivery by dealer parts stocking truck to dealer stocking facility.

PACKING*Only to be used when ordering kits via CMOPS.*

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

TIRES, RIMS, AND WHEELS (CONT.)**72" (1830mm) Width (Cont.)**

P	252-0346	TIRES, 12 X 16.5 14PR CAT, XD 597 Caterpillar XD Tire- 14-ply pneumatic tire with very deep tread, ultra heavy sidewalls and extra large rim guards. Ideal for concrete & demolition work, quarries and asphalt recycling. Tread depth 44/32" (35mm) is 40% deeper than Cat Premium Conventional Tires. The XD Tire features a special tread compound for long wear and durability. Bias ply. Includes valve stem protection. 72" (1830mm) width		\$1,160
P	252-0377	TIRES, 33 X 6 X 11 CAT, FLXPRT 1,100 Extreme Duty Flexport Solid Tire- The Flexport design incorporates a series of holes molded through the outer ring of the sidewall. The result is a stable and more cushioned ride while maintaining the benefits of a solid tire. Extra large tapered lugs and a tread depth of 75/32" (58mm) mean excellent traction on improved and unimproved surfaces. The rubber tire and steel rim are a one-piece bonded assembly, and replaced as a single unit. No specialized tire service is ever required. Directional chevron tread pattern. 72" (1830mm) width		\$2,215

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2731) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. Provides Creep Control, Hystat response adjustment, Implement response adjustment, Fuel gauge, Hydraulic temperature gauge, Engine coolant gauge, Tachometer, Language selection and Advanced multi-operator Anti-theft Security and Monitoring. Note: Rear camera ready. Will require dealer to enable Anti-theft Security System feature. Estimated time to install: 1 hour 30 minutes

-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8271	KIT, RIDE CONTROL 0	\$1,031 NI
	For proper installation, refer to media number REHS7813. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 3 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0740	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7829. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 10.5 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
415-2795	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

388-7848	KIT, WT ELECTRICAL CONTROL 0	\$190 NI
	For proper installation, refer to media number REHS5794. Includes: Work Tool Electrical switch, harness, connector and Left Hand Joystick. Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific worktools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower. Estimated time to install: 2 hours	
345-4967	KIT, RIDE CONTROL 0	\$1,101 NI
	For proper installation, refer to media number REHS5759. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours	
345-4968	KIT, DUAL SELF LEVEL 0	\$593 NI
	For proper installation, refer to media number REHS5760. Estimated time to install: 3 hours	
433-2579	KIT, QUICK COUPLER, ELECTRIC 0	\$975 NI
	For proper installation, refer to media number REHS5761. Estimated time to install: 7 hours	
430-9628	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7817. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 13 hours

ORDERING INSTRUCTIONS

272D SKID STEER LOADER
SANFORD, NORTH CAROLINA

Ship Weight
lbs

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

422-3272	272D SKID STEER LOADER	0	\$54,040
0P-2740	272D MISC MATERIAL SANFORD	0	NC
	Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.		

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.
345-3590	KIT, PRECLEANER, ENG AIR INTAKE Turbine-type precleaner for use in high dust/debris applications For proper installation, refer to media number REHS5764. Estimated time to install: 45 minutes
388-6660	KIT, TURBO DEBRIS GUARD For proper installation, refer to media number REHS5793. This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$200 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2740) and 0P number for packing.

ORDERING INSTRUCTIONS

272D SKID STEER LOADER XHP
SANFORD, NORTH CAROLINA

Ship Weight
lbs

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

422-3273	272D SKID STEER LOADER XHP	0	\$72,700
0P-2741	272D XHP MISC MATERIAL SANFORD	0	NC
	Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.		

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

- 433-9697 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 For proper installation, refer to media number REHS7826.
 Estimated time to install: 9 hours 30 minutes
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 345-6070 FOPS, LEVEL 2**
 For proper installation, refer to media number REHS8703.
 Four post structure meets SAE J231 Jan81 and ISO 3449: 1992
 Falling Object Protective Structure level 2.
 Provides additional overhead protection.
 Recommended for use in demolition applications.
- 345-3590 KIT, PRECLEANER, ENG AIR INTAKE**
 Turbine-type precleaner for use in high dust/debris applications
 For proper installation, refer to media number REHS5764.
 Estimated time to install: 45 minutes
- 388-6660 KIT, TURBO DEBRIS GUARD**
 For proper installation, refer to media number REHS5793.
 This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.
 Estimated time to install: 1 hour 30 minutes

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2741) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

345-5272	272D SKID STEER LOADER XHP	0	\$72,490
----------	----------------------------------	---	----------

0P-1957	272D XHP MISC MATERIAL SANFORD	0	NC
	Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.		

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS*Available Through Parts Distribution.*

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and
 quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio
 and wiring harness that gathers and transmits data such as machine
 location, hours and health. Refer to Information Release Memo (IRM)
 EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 345-3590 KIT,PRECLEANER, ENG AIR INTAKE**
 Turbine-type precleaner for use in high dust/debris applications
 For proper installation, refer to media number REHS5764.
 Estimated time to install: 45 minutes
- 388-6660 KIT, TURBO DEBRIS GUARD**
 For proper installation, refer to media number REHS5793.
 This kit contains steel mesh guards that are desinged to cover the
 exhaust manifold and turbocharger. The guards provide a second level
 of protection, by preventing any material that does enter the engine
 compartment from collecting on the hot surfaces of the exhaust
 manifold and turbocharger. It is recommended that the turbo guard kit
 be used in conjunction with the debris barrier kit.
 Estimated time to install: 1 hour 30 minutes

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-1957) and 0P number for packing.

 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 328-2366 KIT, ACCUGRADE HARNESS, UPDATE**
 For proper installation, refer to media number REHS4089.
 This kit includes electrical harness and securing hardware to update C-Series machines to accept the SSL/MTL/CTL AccuGrade System.
 Estimated time to install: 30 minutes
 Note: Also requires latest machine and AMICS software flash files.
 Please consult the AccuGrade Price Pages (ACCUSL) for AccuGrade system availability and the Skid Steer Loader Work Tools (WT-SSL) Price Pages for Box Blade availability.
- 305-8044 KIT, A/C BREATHER**
 For proper installation, refer to media number REHS4080.
 This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
 Estimated time to install: 30 minutes
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used in dusty or high airborne debris applications. Kit contains a muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**380-1723 KIT, DOOR, REAR, VENTED**

This kit provides a new rear door with steel mesh inserts that allows air to enter the rear of the machine to provide additional cooling in high ambient temperatures.

Estimated time to install: 1.5 hours

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-6086) and 0P number for packing.

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

435-8832	277D MTL DCA1	0	\$82,730
	345-5277 277D MTL TIER 4 FINAL HRC		
	345-5225 PACKAGE, PERFORMANCE, (H4)		
	387-5383 HYDRAULICS, PROPORTIONAL, WT		
	345-4937 RIDE CONTROL, NONE		
	345-4919 ROPS, ENCLOSED WITH A/C (C3)		
	345-6359 SEAT, AIR SUSPENSION, CLOTH, HEAT		
	345-6240 DOOR, CAB, GLASS		
	378-1034 DISPLAY, ADVANCED, LCD		
	345-4744 QUICK COUPLER, ELECTRIC		
	345-5911 CONVERSION ARRANGEMENT		
	345-6175 RADIO READY		
	258-4095 SEAT BELT, 2"		
	361-6372 BATTERY, XTRA HVY DUTY 1000 CCA		
	345-3556 HEATER, ENGINE COOLANT, 120V		

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2732) and 0P number for packing.

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0720	KIT, DEBRIS BARRIER 0	\$2,090 NI
	For proper installation, refer to media number REHS7830. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 8 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
415-2795	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

0P-1954 279C2 MISC MATERIAL SANFORD 0
Use this top level reference number only when ordering KITS in CMOPS
to be transferred via the bridge to ANTARES Parts Ordering.

NC

279C COMPACT TRACK LOADER SANFORD, NORTH CAROLINA	Ship Weight lbs	LIST PRICE AT DEALER
--	--------------------	-------------------------

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS
order entries. Zeebrugge Distribution Center (ZDC) orders do NOT
require individual CMOPS order entries and may include both the
machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS*Available Through Parts Distribution.*

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
 For Use With EAME and APD
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 328-2366 KIT, ACCUGRADE HARNESS, UPDATE**
 For proper installation, refer to media number REHS4089.
 This kit includes electrical harness and securing hardware to update C-Series machines to accept the SSL/MTL/CTL AccuGrade System.
 Estimated time to install: 30 minutes
 Note: Also requires latest machine and AMICS software flash files.
 Please consult the AccuGrade Price Pages (ACCUSL) for AccuGrade system availability and the Skid Steer Loader Work Tools (WT-SSL) Price Pages for Box Blade availability.
- 305-8044 KIT, A/C BREATHER**
 For proper installation, refer to media number REHS4080.
 This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
 Estimated time to install: 30 minutes
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used in dusty or high airborne debris applications. Kit contains a muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**380-1723 KIT, DOOR, REAR, VENTED**

This kit provides a new rear door with steel mesh inserts that allows air to enter the rear of the machine to provide additional cooling in high ambient temperatures.

Estimated time to install: 1.5 hours

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-1954) and 0P number for packing.

258-4145	KIT, PRODUCT LINK, MOUNTING GP 0	\$22 NI
	For proper installation, refer to media number REHS2948. Includes: Mounting plates and hardware required to install Product Link on a C-Series SSL or MTL. For Use With: Either PL121SR or PL321SR and Antenna, Magnetic. Estimated time to install: 1.5 hours	
287-4160	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$521 NI
	Installed kit increases the Rated Operating Capacity by approximately 100 lbs (45 kg). Includes Mounting hardware for 100 lb and 200 lb counterweight option. For 200# ROC must order quantity of (2) 287-4160. Estimated time to install: 30 minutes	
258-2472	KIT, WINDOW, SIDES 0	\$675 NI

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2734) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. Provides Creep Control, Hystat response adjustment, Implement response adjustment, Fuel gauge, Hydraulic temperature gauge, Engine coolant gauge, Tachometer, Language selection and Advanced multi-operator Anti-theft Security and Monitoring. Note: Rear camera ready. Will require dealer to enable Anti-theft Security System feature. Estimated time to install: 1 hour 30 minutes	
388-8284	KIT, CAMERA REAR VIEW 0	\$454 NI
	For proper installation, refer to media number REHS7825. Note: Requires Advanced Display Estimated time to install: 1 hour

Available Through ANTARES Parts Ordering. (Cont.)

388-7875	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$517 NI
	Kit provides one counterweight per side which increases the Rated Operating Capacity by approximately 100-125 lbs (46 - 57 kg), depending on model. For maximum ROC increase, must order quantity of (2) 388-7875 kits. Includes Mounting hardware for both one counterweight per side configuration and two counterweights per side configuration. Estimated time to install: 30 minutes	
388-8267	KIT, AIR CONDITIONER (HTR/DFR) 0	\$3,031 NI
	For proper installation, refer to media number REHS7808. Estimated time to install: 8 hours 30 minutes	
388-8266	KIT, AIR CONDITIONER (CONVRSN) 0	\$2,019 NI
	For proper installation, refer to media number REHS7807. Estimated time to install: 8 hours	
388-8268	KIT, HEATER 0	\$1,214 NI
	For proper installation, refer to media number REHS7809. Estimated time to install: 6 hours	
388-8275	KIT, WINDOW, SIDES 0	\$676 NI
	For proper installation, refer to media number REHS8707. Estimated time to install: 1 hour	
388-8276	KIT, DOOR, CAB, GLASS 0	\$996 NI
	For proper installation, refer to media number REHS8708. Estimated time to install: 1 hour 30 minutes	
388-8281	KIT, DOOR, CAB, POLYCARBONATE 0	\$1,768 NI
	For proper installation, refer to media number REHS8709. Estimated time to install: 1 hour 30 minutes	
388-8264	KIT, QUICK COUPLER, ELECTRIC 0	\$936 NI
	For proper installation, refer to media number REHS7805. Estimated time to install: 6 hours	
388-8265	KIT, WT ELECTRICAL CONTROL 0	\$190 NI
	For proper installation, refer to media number REHS7806. Includes Work Tool Electrical switch, harness, connector and mounting hardware. Estimated time to install: 2 hours	
388-8273	KIT, WT ELECTRICAL CONTROL, DLX 0	\$690 NI
	For proper installation, refer to media number REHS7814. Includes: Work Tool Electrical switch, harness, connector, mounting hardware and 4 button Left Hand Joystick. Estimated time to install: 3 hours	
388-8271	KIT, RIDE CONTROL 0	\$1,031 NI
	For proper installation, refer to media number REHS7813. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 3 hours	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0720	KIT, DEBRIS BARRIER 0	\$2,090 NI
	For proper installation, refer to media number REHS7830. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 8 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
415-2795	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

0P-1953

287C2 MISC MATERIAL SANFORD 0

NC

Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS*Available Through Parts Distribution.*

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
 For Use With EAME and APD
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 328-2366 KIT, ACCUGRADE HARNESS, UPDATE**
 For proper installation, refer to media number REHS4089.
 This kit includes electrical harness and securing hardware to update C-Series machines to accept the SSL/MTL/CTL AccuGrade System.
 Estimated time to install: 30 minutes
 Note: Also requires latest machine and AMICS software flash files.
 Please consult the AccuGrade Price Pages (ACCUSL) for AccuGrade system availability and the Skid Steer Loader Work Tools (WT-SSL) Price Pages for Box Blade availability.
- 305-8044 KIT, A/C BREATHER**
 For proper installation, refer to media number REHS4080.
 This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
 Estimated time to install: 30 minutes
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used in dusty or high airborne debris applications. Kit contains a muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**380-1723 KIT, DOOR, REAR, VENTED**

This kit provides a new rear door with steel mesh inserts that allows air to enter the rear of the machine to provide additional cooling in high ambient temperatures.

Estimated time to install: 1.5 hours

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-6086) and 0P number for packing.

258-4145	KIT, PRODUCT LINK, MOUNTING GP 0	\$22 NI
	For proper installation, refer to media number REHS2948. Includes: Mounting plates and hardware required to install Product Link on a C-Series SSL or MTL. For Use With: Either PL121SR or PL321SR and Antenna, Magnetic. Estimated time to install: 1.5 hours	
287-4160	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$521 NI
	Installed kit increases the Rated Operating Capacity by approximately 100 lbs (45 kg). Includes Mounting hardware for 100 lb and 200 lb counterweight option. For 200# ROC must order quantity of (2) 287-4160. Estimated time to install: 30 minutes	
258-2472	KIT, WINDOW, SIDES 0	\$675 NI
	For proper installation, refer to media number REHS2796. Estimated time to install: 45 minutes

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

350-9034	KIT, HEATER 0	\$1,238 NI
	For proper installation, refer to media number REHS5208. Estimated time to install: 6 hours	
388-7183	KIT, DOOR, CAB, POLYCARBONATE 0	\$1,604 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock-out switch. Estimated time to install: 1 hour 15 minutes	
258-2473	KIT, DOOR, CAB, GLASS 0	\$938 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. NOT for use with European dealers. Estimated time to install: 1 hour 15 minutes	
258-4443	KIT, DOOR, CAB, GLASS, EU 0	\$926 NI
	For proper installation, refer to media number REHS2797. Includes loader arm lock out switch. ONLY For use with European Dealers Estimated time to install: 1 hour 15 minutes	
280-8392	KIT, TURBO DEBRIS GUARD 0	\$192 NI
	For proper installation, refer to media number REHS4036. This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes	
342-2684	KIT, DEBRIS BARRIER 0	\$1,433 NI
	For proper installation, refer to media number REHS5201. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals, covers and brushes that are designed to cover the openings that exist between the frame, body and rear door of the machine. The kit also includes a steel mesh guard for the exhaust pipe. * Note: The Vented Rear Door is also required for use with this kit to provide proper cooling. Estimated time to install: 6.5 hours	
258-3910	KIT, QUICK COUPLER, HYDRAULIC 0	\$1,069 NI
	CANNOT BE USED WITH: EU Dealers For proper installation, refer to media number REHS2683. Estimated time to install: 7 hours

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

345-5287	287D MTL TIER 4 FINAL HRC 0	\$76,810
0P-2733	287D MISC MATERIAL SANFORD 0 Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.	NC

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2733) and 0P number for packing.

-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8271	KIT, RIDE CONTROL 0	\$1,031 NI
	For proper installation, refer to media number REHS7813. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 3 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0740	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7829. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 10.5 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
415-2795	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

0P-1955 **289C2 MISC MATERIAL SANFORD** 0
Use this top level reference number only when ordering KITS in CMOPS
to be transferred via the bridge to ANTARES Parts Ordering.

NC

289C COMPACT TRACK LOADER SANFORD, NORTH CAROLINA	Ship Weight lbs	LIST PRICE AT DEALER
--	--------------------	-------------------------

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS
order entries. Zeebrugge Distribution Center (ZDC) orders do NOT
require individual CMOPS order entries and may include both the
machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
 For Use With EAME and APD
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 328-2366 KIT, ACCUGRADE HARNESS, UPDATE**
 For proper installation, refer to media number REHS4089.
 This kit includes electrical harness and securing hardware to update C-Series machines to accept the SSL/MTL/CTL AccuGrade System.
 Estimated time to install: 30 minutes
 Note: Also requires latest machine and AMICS software flash files.
 Please consult the AccuGrade Price Pages (ACCUSL) for AccuGrade system availability and the Skid Steer Loader Work Tools (WT-SSL) Price Pages for Box Blade availability.
- 305-8044 KIT, A/C BREATHER**
 For proper installation, refer to media number REHS4080.
 This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab.
 Estimated time to install: 30 minutes
- 348-6735 KIT, MUFFLER**
 For proper installation, refer to media number REHS4094.
 This kit provides increased engine air filter life for machines used in dusty or high airborne debris applications. Kit contains a muffler, required hose/tubes and attachment hardware.
 Estimated time to install: 1.5 hours

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)**380-1723 KIT, DOOR, REAR, VENTED**

This kit provides a new rear door with steel mesh inserts that allows air to enter the rear of the machine to provide additional cooling in high ambient temperatures.

Estimated time to install: 1.5 hours

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.

When ordering via CMOPS include top level reference numbers (0P-6087) and 0P number for packing.

258-4145	KIT, PRODUCT LINK, MOUNTING GP 0	\$22 NI
	For proper installation, refer to media number REHS2948. Includes: Mounting plates and hardware required to install Product Link on a C-Series SSL or MTL. For Use With: Either PL121SR or PL321SR and Antenna, Magnetic. Estimated time to install: 1.5 hours	
287-4160	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$521 NI
	Installed kit increases the Rated Operating Capacity by approximately 100 lbs (45 kg). Includes Mounting hardware for 100 lb and 200 lb counterweight option. For 200# ROC must order quantity of (2) 287-4160. Estimated time to install: 30 minutes

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

433-9697	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect For proper installation, refer to media number REHS7826. Estimated time to install: 9 hours 30 minutes Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer
345-6070	FOPS, LEVEL 2 For proper installation, refer to media number REHS8703. Four post structure meets SAE J231 Jan81 and ISO 3449: 1992 Falling Object Protective Structure level 2. Provides additional overhead protection. Recommended for use in demolition applications.

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$205 USD Dealer Net (August, 2013). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components required are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$255 USD Dealer Net (August, 2013). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns. Estimated time to install: 30 minutes
Refer to media number REHS8719 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$843 USD Dealer Net (August, 2013). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch. Estimated time to install: 1 hour
Refer to media number REHS8718 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-2735) and 0P number for packing.

388-8274	KIT, ADVANCED DISPLAY 0	\$961 NI
	For proper installation, refer to media number REHS8706. Includes: Full color 5 in. LCD screen with digital gauge display. Provides Creep Control, Hystat response adjustment, Implement response adjustment, Fuel gauge, Hydraulic temperature gauge, Engine coolant gauge, Tachometer, Language selection and Advanced multi-operator Anti-theft Security and Monitoring. Note: Rear camera ready. Will require dealer to enable Anti-theft Security System feature. Estimated time to install: 1 hour 30 minutes	
388-8284	KIT, CAMERA REAR VIEW 0	\$454 NI
	For proper installation, refer to media number REHS7825. Note: Requires Advanced Display Estimated time to install: 1 hour

	For proper installation, refer to media number REHS7814. Includes: Work Tool Electrical switch, harness, connector, mounting hardware and 4 button Left Hand Joystick. Estimated time to install: 3 hours	
388-8269	KIT, DUAL SELF LEVEL 0	\$743 NI
	For proper installation, refer to media number REHS7810. Estimated time to install: 2 hours 45 minutes	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

388-8271	KIT, RIDE CONTROL 0	\$1,031 NI
	For proper installation, refer to media number REHS7813. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 3 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS7824. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS7827. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
416-0740	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7829. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 10.5 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
415-2795	KIT, PRECLEANER 0	\$736 NI
	For proper installation, refer to media number REHS5798. Turbine-type precleaner for the engine air filter. For use in high dust/debris applications. Estimated time to install: 1 hour	
416-5705	KIT, TURBO DEBRIS GUARD 0	\$358 NI
	For proper installation, refer to media number REHS7828. This kit contains a steel mesh guard that is designed to cover the exhaust manifold and turbocharger. The guard provides a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit. Estimated time to install: 1 hour 30 minutes

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

345-6299	299D COMPACT TRACK LOADER	0	\$80,820
----------	-------------------------------------	---	----------

0P-1958	299D MISC MATERIAL SANFORD	0	NC
	Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.		

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

SPECIAL ARRANGEMENTS**PROTECTION**

0P-2266	SHIPPING/STORAGE PROTECTION 0	\$198 NET
	Provides protective application of Fluid Film TM for protection while shipping and for extended storage periods. If desired, this product can be power washed with warm soapy water prior to shipment to the customer.	

FIELD INSTALLED ATTACHMENTS**Available Through Parts Distribution.**

346-1833	TANK, WATER Mounted to top of cab 42 gallon capacity Includes tank, pump, filter, lines, mounting brackets and quick disconnect Estimated time to install: 16 hours Water Sprinkler Kit: Angle Broom Pick Up Broom Utility Broom Cold Planer	
258-4185	KIT, SECURITY SYSTEM, MACHINE Provides coded key to start the machine to enhance machine security. Available only through Antares Parts Distribution.	
331-5291	RADIO 12V AM/FM/CD 12V AM/FM/Weather Band w/CD Estimated time to install: 1 hour	
376-8077	KIT, STEEL TRACK For proper installation, refer to media REHS5766. This kit contains all needed components for a dealer installation of a steel track undercarriage. Kit includes triple grouser steel tracks (13.4 in. wide), sprockets, idler wheels, roller wheels and carrier rollers. Estimated time to install: 10 hours * * Not for use with EU dealers	
263-7802	ANTENNA, MAGNETIC PRODUCT LINK FOR USE WITH: PL121SR and PL321SR	
257-0428	PRODUCT LINK PL121SR On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details. FOR USE WITH: Product Link Mounting Group and Magnetic Antenna	
345-3590	KIT, PRECLEANER, ENG AIR INTAKE Turbine-type precleaner for use in high dust/debris applications For proper installation, refer to media number REHS5764. Estimated time to install: 45 minutes	

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)*****388-6660 KIT, TURBO DEBRIS GUARD**

For proper installation, refer to media number REHS5793.

This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.

Estimated time to install: 1 hour 30 minutes

The RETURN TO DIG/WRKTL POSITIONER feature is available as a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password. Cost to enable the feature via password is approximately \$200 USD Dealer Net (May, 2012). Machine must be equipped with the Dual Self Level feature, provided in the H2 or H3 performance package to install the SEA.

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-1958) and 0P number for packing.

258-2472 KIT, WINDOW, SIDES 0**\$675 NI**

For proper installation, refer to media number REHS2796.

-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through ANTARES Parts Ordering. (Cont.)***

345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.	
388-7875	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$517 NI
	Installed kit increases the Rated Operating Capacity by approximately 125 lbs (57 kg). Includes Mounting hardware for 125 lb and 250 lb counterweight option. For 250# ROC must order quantity of (2) 3887875. Estimated time to install: 30 minutes	
388-7848	KIT, WT ELECTRICAL CONTROL 0	\$190 NI
	For proper installation, refer to media number REHS5794. Includes: Work Tool Electrical switch, harness, connector and Left Hand Joystick. Allows installation of Work Tool Control on a Standard Flow machine. Used to operate a small number of specific worktools, including six way dozer blades, power box rakes equipped with hydraulic angling feature, the BA18 angle broom, the SG16B stump grinder, and the SR118 snow blower. Estimated time to install: 2 hours	
345-4967	KIT, RIDE CONTROL 0	\$1,101 NI
	For proper installation, refer to media number REHS5759. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours	
345-4968	KIT, DUAL SELF LEVEL 0	\$593 NI
	For proper installation, refer to media number REHS5760. Estimated time to install: 3 hours	
433-2579	KIT, QUICK COUPLER, ELECTRIC 0	\$975 NI
	For proper installation, refer to media number REHS5761. Estimated time to install: 7 hours	
430-9628	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7817. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 13 hours

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

345-4967	KIT, RIDE CONTROL 0	\$1,101 NI
	For proper installation, refer to media number REHS5759. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours	
388-8283	KIT, RADIO, READY 0	\$147 NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour	
388-8286	KIT, RADIO, AM/FM/BLUETOOTH 0	\$567 NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes	
433-5340	KIT, DEBRIS BARRIER 0	\$2,511 NI
	For proper installation, refer to media number REHS7831. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 12 hours	
388-7849	KIT, A/C BREATHER 0	\$336 NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes	
345-5504	KIT, DOOR, HYD FILL CAP 0	\$100 NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.	
422-3323	KIT, FRONT ROADING LIGHTS 0	\$463 NI
	For proper installation, refer to media number REHS7836. Estimated time to install: 4 hours	

NO RETURNS accepted for kit components not used or for parts removed from machine during kit installation.

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

422-3298	299D COMPACT TRACK LOADER XHP	0	\$100,090
0P-2743	299D XHP MISC MATERIAL SANFORD	0	NC
Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.			

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

388-7875	KIT, COUNTERWEIGHT, 100 LB ROC 0	\$517 NI
	Kit provides one counterweight per side which increases the Rated Operating Capacity by approximately 100-125 lbs (46 - 57 kg), depending on model. For maximum ROC increase, must order quantity of (2) 388-7875 kits. Includes Mounting hardware for both one counterweight per side configuration and two counterweights per side configuration. Estimated time to install: 30 minutes	
422-3327	KIT, AIR CONDITIONER (HTR/DFR) 0	\$3,031 NI
	For proper installation, refer to media number REHS7839. Estimated time to install: 8 hours 30 minutes	
422-3328	KIT, AIR CONDITIONER (CONVRSN) 0	\$2,019 NI
	For proper installation, refer to media number REHS7840. Estimated time to install: 8 hours 30 minutes	
422-3326	KIT, HEATER 0	\$1,214 NI
	For proper installation, refer to media number REHS7838. Estimated time to install: 6 hours	
388-8275	KIT, WINDOW, SIDES 0	\$676 NI
	For proper installation, refer to media number REHS8707. Estimated time to install: 1 hour	
388-8276	KIT, DOOR, CAB, GLASS 0	\$996 NI
	For proper installation, refer to media number REHS8708. Estimated time to install: 1 hour 30 minutes	
388-8281	KIT, DOOR, CAB, POLYCARBONATE 0	\$1,768 NI
	For proper installation, refer to media number REHS8709. Estimated time to install: 1 hour 30 minutes	
388-8264	KIT, QUICK COUPLER, ELECTRIC 0	\$936 NI
	For proper installation, refer to media number REHS7805. Estimated time to install: 6 hours	
388-8265	KIT, WT ELECTRICAL CONTROL 0	\$190 NI
	For proper installation, refer to media number REHS7806. Includes Work Tool Electrical switch, harness, connector and mounting hardware. Estimated time to install: 2 hours	
388-8273	KIT, WT ELECTRICAL CONTROL, DLX 0	\$690 NI
	For proper installation, refer to media number REHS7814. Includes: Work Tool Electrical switch, harness, connector, mounting hardware and 4 button Left Hand Joystick. Estimated time to install: 3 hours	
388-8269	KIT, DUAL SELF LEVEL 0	\$743 NI
	For proper installation, refer to media number REHS7810. Estimated time to install: 2 hours 45 minutes	

USE	REF NO.	LANE 2 / 3 OPTIONAL	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	---------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS (CONT.)*Available Through ANTARES Parts Ordering. (Cont.)*

345-4967	KIT, RIDE CONTROL	0	\$1,101	NI
	For proper installation, refer to media number REHS5759. The Ride Control feature allows the lift arms to "float" when the machine travels over rough terrain. The result is a more comfortable ride and better material retention in the bucket or better load retention on pallet forks. Estimated time to install: 2.5 hours			
388-8283	KIT, RADIO, READY	0	\$147	NI
	For proper installation, refer to media number REHS8710. Provides Speakers, Wiring, Radio Box, Antenna & Cable, and hardware required to install a single DIN radio. Estimated time to install: 1 hour			
388-8286	KIT, RADIO, AM/FM/BLUETOOTH	0	\$567	NI
	For proper installation, refer to media number REHS8705. Includes radio with Bluetooth interface, microphone and auxiliary inputs (USB port and aux input jack) to connect external audio devices. Requires: Radio Ready operator station. Estimated time to install: 45 minutes			
433-5340	KIT, DEBRIS BARRIER	0	\$2,511	NI
	For proper installation, refer to media number REHS7831. This kit provides additional protection for customers in debris intensive applications by restricting debris and other material from entering the engine compartment and the lower frame. This kit contains various seals and covers that are designed to cover the openings that exist between the frame, body, cab and rear door of the machine. This kit also includes front and rear light guards, exhaust stack guard, lockable hydraulic fill cap door and quick disconnect guard. Estimated time to install: 12 hours			
388-7849	KIT, A/C BREATHER	0	\$336	NI
	For proper installation, refer to media number REHS5802. This kit provides increased cab air filter life for machines used in dusty or high airborne debris applications. Kit contains duct work and hardware required to relocate the cab fresh air intake to a higher location near the roof of the cab. Estimated time to install: 30 minutes			
438-3083	KIT, COOLER, AUXILIARY HYDR	0	\$2,876	NI
	For proper installation, refer to media number REHS7827. Roof mounted auxiliary hydraulic cooler provides additional hydraulic cooling capacity. For use in heavy duty applications (i.e. mulching, brush cutting, etc.) where the machine is utilized continuously in XHP mode with high demand on the Hystat system at ambient temperatures greater than 38 Celsius (100 Fahrenheit). Estimated time to install: 8 hours			
345-5504	KIT, DOOR, HYD FILL CAP	0	\$100	NI
	For proper installation, refer to media number REHS5795. Provides lockable cover for hydraulic oil fill.

LIST PRICE
AT DEALER

For an explanation of Lane Strategy and ordering instructions please refer to the sales model "GENERAL" posted in the web price list.

You must order your machine from Lane 1 or Lane 2.
The lane you order from will determine capability to order additional attachments and service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS

No orders will be accepted for DCAs until official communication via Marketing bulletin that the DCA order board is open.
If no reference number is listed, a Lane 1 configuration is not available.

Effective 12 September, 2011 some exact Lane 1 configurations for this model may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order. For this model no Lane 1 configurations from Zeebrugge Distribution Center (ZDC) may be ordered from the factory.

LANE 2 FACTORY ARRANGEMENTS

If no reference number is listed, a Lane 2 configuration is not available.

345-5299	299D COMPACT TRACK LOADER XHP 0	\$99,790
----------	---	----------

0P-1959	299D XHP MISC MATERIAL SANFORD 0	NC
	Use this top level reference number only when ordering KITS in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.	

Work Tools are sourced via Caterpillar Parts Distribution system.
Skid Steer Loader and Work Tools order REQUIRE individual CMOPS order entries. Zeebrugge Distribution Center (ZDC) orders do NOT require individual CMOPS order entries and may include both the machine and work tool orders.

Refer to WT_SSL price list to order Work Tools.

USE	REF NO.	OPTIONAL ATTACHMENTS	Ship Weight lbs	LIST PRICE AT DEALER
-----	------------	----------------------	--------------------	-------------------------

FIELD INSTALLED ATTACHMENTS***Available Through Parts Distribution.***

- 346-1833 TANK, WATER**
 Mounted to top of cab
 42 gallon capacity
 Includes tank, pump, filter, lines, mounting brackets and quick disconnect
 Estimated time to install: 16 hours
 Water Sprinkler Kit: Angle Broom
 Pick Up Broom
 Utility Broom
 Cold Planer
- 258-4185 KIT, SECURITY SYSTEM, MACHINE**
 Provides coded key to start the machine to enhance machine security.
 Available only through Antares Parts Distribution.
- 331-5291 RADIO 12V AM/FM/CD**
 12V AM/FM/Weather Band w/CD
 Estimated time to install: 1 hour
- 376-8077 KIT, STEEL TRACK**
 For proper installation, refer to media REHS5766.
 This kit contains all needed components for a dealer installation of a steel track undercarriage. Kit includes triple grouser steel tracks (13.4 in. wide), sprockets, idler wheels, roller wheels and carrier rollers.
 Estimated time to install: 10 hours
 Not for use with EU dealers.
- 263-7802 ANTENNA, MAGNETIC PRODUCT LINK**
 FOR USE WITH: PL121SR and PL321SR
- 257-0428 PRODUCT LINK PL121SR**
 On-board machine hardware, consisting of an antenna, electronic radio and wiring harness that gathers and transmits data such as machine location, hours and health. Refer to Information Release Memo (IRM) EMS04-06 (PELJ0437) for part numbers and more details.
 FOR USE WITH: Product Link Mounting Group and Magnetic Antenna
- 345-3590 KIT,PRECLEANER, ENG AIR INTAKE**
 Turbine-type precleaner for use in high dust/debris applications
 For proper installation, refer to media number REHS5764.
 Estimated time to install: 45 minutes
- 388-6660 KIT, TURBO DEBRIS GUARD**
 For proper installation, refer to media number REHS5793.
 This kit contains steel mesh guards that are designed to cover the exhaust manifold and turbocharger. The guards provide a second level of protection, by preventing any material that does enter the engine compartment from collecting on the hot surfaces of the exhaust manifold and turbocharger. It is recommended that the turbo guard kit be used in conjunction with the debris barrier kit.
 Estimated time to install: 1 hour 30 minutes

FIELD INSTALLED ATTACHMENTS (CONT.)***Available Through Parts Distribution. (Cont.)***

The 258-4110 KIT, SELECT PATTERN CONTROL and 292-7927 KIT, DEDICATED ALT. PATTERN are no longer available for order as a kit. The components of these kits are available for order from the Parts Department. This feature is a Software Enabled Attachment (SEA) and is installed using Electronic Technician and a unique password.

For the DEDICATED ALTERNATE PATTERN:

The SEA cost to enable the feature via password is approximately \$250 USD Dealer Net (July, 2012). Configures the machine to operate using the alternative "H" control pattern only. The operator MAY NOT choose between two patterns.

Refer to media number REHS2947 for appropriate parts list.

For the SELECTABLE PATTERN CONTROL:

The SEA cost to enable the feature via password is approximately \$827 USD Dealer Net (July, 2012). Allows an operator to select either standard CAT control pattern or the alternative "H" control pattern with the flip of a switch.

Refer to media number REHS2947 for appropriate parts list.

Available Through ANTARES Parts Ordering.

NOTE: NACD ONLY may place orders in CMOPS to be transferred via the bridge to ANTARES Parts Ordering.
When ordering via CMOPS include top level reference numbers (0P-1959) and 0P number for packing.

ORDERING INSTRUCTIONS

For an explanation of Lane Strategy and ordering instructions please refer to the sales model 'GENERAL' posted in the web price lists.

You must order your machine from Lane 1, Lane 2 or Lane 3.

Your lane selection will determine the range of additional attachments you may order and the service level you will receive.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

If no reference number is listed, a Lane 1 configuration is not available.

Distribution Center Arrangement (DCA) reference numbers for this model may not be used to order machines from the factory; they are only valid to order machines from a Product Distribution Center (PDC).

Standard Equipment:

POWERTRAIN

CAT C3.3B Diesel Engine with 12-volt
electrical starting
Auto idle
2,500M (8,200ft) altitude capability
Water separator in fuel line
Two speed auto-shift travel
Straight line travel
Automatic swing park brake

Tool storage area
Accumulator
Towing eye on base frame
Tie down eyes on track frame
Boom with offset swing post
Rear reflector
Lockable fuel cap
Dozer blade w/float function
Economy mode for up to 20% fuel savings

UNDERCARRIAGE

Hydraulic track adjusters

ELECTRICAL

12 volt electrical system
Circuit breaker
Ignition key stop switch
60 ampere alternator
Light, Cab, Boom Left & Right
880 CCA maintenance free battery
Warning horn

OPERATOR ENVIRONMENT

Seat, Fabric, High Back, Suspension
Openable front windshield
COMPASS: Complete Operation, Maintenance
Performance and Security System
- Multiple Languages
Windshield wiper and washer
Air conditioning with defroster
Interior light
Coat hook
Literature holder
Utility space for mobile phone
Cup holder
Hydraulic neutral lockout system
Washable floor mat
Skylight
Rear window emergency exit
Travel control pedals with hand levers
Control lever mounted auxiliary controls
Adjustable wrist rests
Mirror rear view: Cab Left
Radio mounting
12V power socket

FLUIDS

Extended life cooling -37C

OTHER STANDARD EQUIPMENT

Hydraulic flow summation system
Auxiliary hydraulics with adjustable
maximum flow and continuous flow
Door locks
Caterpillar corporate "one key" system

Standard Equipment:

POWERTRAIN

CAT C3.3B Diesel Engine with 12-volt
electrical starting
Auto idle
2,500M (8,200ft) altitude capability
Water separator in fuel line
Two speed auto-shift travel
Straight line travel
Automatic swing park brake

UNDERCARRIAGE

Hydraulic track adjusters

ELECTRICAL

12 volt electrical system
Circuit breaker
Ignition key stop switch
60 ampere alternator
Working light:
-Cab mounted
-Boom left
880 CCA maintenance free battery
Warning horn

OPERATOR ENVIRONMENT

Openable front windshield with assist
device
Digital liquid crystal monitor:
Language display,
Full graphic and color display,
Instrument panel and gauge,
Warning information and machine
condition,
Clock
Windshield wiper and washer
Air conditioning with defroster
Interior light
Coat hook
Literature holder
Utility space for mobile phone
Cup holder
Hydraulic neutral lockout system
Washable floor mat
Skylight
Rear window emergency exit
Travel control pedals with hand levers
Control lever mounted auxiliary controls
Adjustable wrist rests
Mirror rear view:
-Cab left
Suspension seat with retractable seat
belt
Radio mounting
12V power socket

FLUIDS

Extended life cooling -37C

OTHER STANDARD EQUIPMENT

Load sensing hydraulics
Auxiliary hydraulics with adjustable
maximum flow and continuous flow
Door locks
Caterpillar corporate "one key" system
Boom lowering device
Tool storage area
Accumulator
Towing eye on base frame
Tie down eyes on track frame
Boom with offset swing post
Rear reflector
Lockable fuel cap

311F RR EXCAVATOR
AKASHI, JAPAN

Ship Weight
lbs

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Diesel engine C3.4,
-Certify to EPA Tier4 final,
EU Stage 4, MLIT Stage4
-2300m/7546ft altitude capability
Waved fin radiator and
side-by-side oil cooler
Radiator Screen
Fixed type A/C condenser
Fixed Fan drive for cooling compartment
xx C capability, maximum 10% derate
at xx deg
Radial seal air filter, double element
Water separator in fuel line
Secondary engine shutoff switch
Water level indicator for water
separator
EIS (Engine Idle Shutdown) function
Capability of installing;
- Block Heater
- using Bio-Diesel fuel (B20)

UNDERCARRIAGE

Base frame with New Eye for Diagonal
Lashing
Towing eye on baseframe
Grease lubricated track GLT2

HYDRAULICS

Hydraulic main pump
High performance hyd. Return filter
(Element type)
Regeneration circuit for boom and stick
Boom lowering device in case of engine
shut down
Fine swing control capability

ELECTRICAL

Signaling/ Warning horn
Light, control valve room mounted (one)
halogen
Time delay function for boom light and
cab light
CAT data link w/capability of using E.T.

OPERATOR ENVIRONMENT

Cab:
- Bolt-on FOGS capability
- Openable front windshield w/assist
device
- Pillar mounted upper windshield wiper
and washer
- Cab sliding upper door window
- Removable lower windshield w/ in cab
storage bracket

- Washer for radial wiper
- Radial wiper

Operator station:

- Interior lighting
- Coat hook
- Ashtray for cup holder
- Beverage holder
- Literature holder
- Utility space for magazine
- Radio mounting (DIN size)
- Mounting for two stereo speakers
(two locations)
- Storage compartment suitable for
lunch box
- 24V radio ready (harness,
two speakers, antenna-flexible type)
- Console Height Adjustment system
- Armrest Height Adjustment system
- Neutral lever (lock out) for all
controls
- Electrical provision for seat heater
- 12V-2 10A power supply w/ two cigar
lighter type sockets

Monitor:

- Language display
- Full graphic and full color display.
- Warning information.
- Filter/Fluid change information,
- Working hour information Machine
condition,
- Error code and tool mode setting
information.

Pedal:

- Capability of installing 2 addt'l
pedals
- Travel control pedals w/ removable
hand levers

OTHER STANDARD EQUIPMENT

Capability of installing;
- stackable valves for main valve
(maximum one)
- additional auxiliary pump & circuit
- boom lowering control device and stick
lowering check valve
Automatic swing parking brake
Two speed travel
Caterpillar one key security system
Door locks and cap locks
Circuit breaker (24V & 12V)
Mirrors, rearview (frame -right,
cab -left)

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be complete, your LANE 1 machine order must at least contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) Service Instruction Language
- 4) Packing (ex.0P numbers)

Effective 12 September, 2011, exact Lane 1 configurations may also be sourced from the factory with Lane 2 availability by using the same reference numbers except 0P9222 Lane 2 Special Indicator (instead of 0P9001 Lane 1 Indicator) and adding Priority Code "L2" to the order. No additional Lane 2 or 3 items may be added to the order.

LANE 1 NACD MANDATORY ATTACHMENTS

MUST CHOOSE AT LEAST ONE PACKAGE OR ATTACHMENT FROM EACH CATEGORY

LANE SELECTION

YOU MUST SELECT THIS REFERENCE WHEN ORDERING FROM THE PDC.

0P-9001	LANE 1 ORDER	0	NC
	Order from Product Distribution Center (PDC)		

DECAL PACKAGE

(must choose one)

P	0P-7124	INSTRUCTION,NORTH AMERICA ANSI	0	NC
		This package includes the ANSI decals and is required by all NACD territories except Quebec, Canada. ONLY ON PDC MACHINES.		

SERVICE INSTRUCTIONS

Operation & Maintenance Manuals(OMMs) are automatically sent on every machine sourced from the PDC based on the legally required language of the destination country.

FOR OMM'S IN ADDITIONAL LANGUAGES, PLEASE USE THE FOLLOWING SITE:

LIST PRICE
AT PO ENTRY

Standard Equipment:

POWERTRAIN

Diesel engine C4.4
Tier4 Interim emission package for NACD
Stage3b emission package for EU
- 2300m/7546ft altitude capability
w/ no deration
Standard power version for NACD
and EU with economy mode
Automatic engine speed control
Capability of low idle engine shutdown
Radial seal air filter
Secondary engine shut-off switch
Primary filter with water separator
- water separator indicator switch
- fuel differential indicator
- switch in fuel line
Electric fuel lifting pump

UNDERCARRIAGE

Towing eye on base frame
Track type undercarriage with grease
lubricated seals, resin seal type 2

ELECTRICAL

80 amp alternator
Horn, signaling/warning
Light, Integrated into storage box

OPERATOR ENVIRONMENT

Cab:
- Beverage holder
- Coat hook
- Interior lighting
- Literature holder
- Utility space for magazine
- Openable skylight
- Radio mounting (meets DIN size)
suitable for 24-Volt Radios
- Two stereo speakers
- Sliding upper door window
on the left hand cab door
- Storage shelf suitable for lunch box
- Glass breaking safety hammer
- Pressurized operator station
(Positive Filtration)
- Removable lower windshield
w/in cab storage bracket
- Two power outlets, 10 amp (total)
Monitor:
- Capability of time clock
on monitor battery
(lasts 1 week w/disconnect)
- Color LCD display,
rear view camera ready
- Machine condition, error code &

tool mode setting information
- Start-up level check for hydraulic
oil, engine oil and engine coolant
- Warning, filter/fluid change, water
level & working hour information
Neutral lever for all controls
Pedal:
- Capability to install 2 addtl pedals
- Travel control with removable
hand levers
Seat:
- Adjustable armrest
- Height adjustable consoles

OTHER STANDARD EQUIPMENT

Automatic swing parking brake
Capability of installing additional
auxiliary pump & circuit
Capability of installing boom & stick
lowering control device
Compatible with Electronic Technician
Caterpillar one key security system
Circuit breaker
Door locks and cap locks of
fuel and hydraulic tanks
Lockable external tool / storage box
High performance hyd. return filter
75 micron screen
10 micron primary filter
4 micron secondary filter in fuel line
Mirrors, rearview (frame -right,
cab-left)
Regeneration circuit for boom & stick
Reverse swing damping valve
Two speed travel
2 SBS radiator for easy cleaning
Capability of installing
CAT Bio hydraulic oil
Capability of using Bio-diesel fuel
Capability to electrically
connect a beacon
Power edge trade dress with power
edge decals and black cylinders

LIST PRICE
AT PO ENTRY

ORDERING INSTRUCTIONS:

FOR AN EXPLANATION OF LANE STRATEGY AND ORDERING INSTRUCTIONS, PLEASE REFER TO THE SALES MODEL "GENERAL" POSTED IN THE WEB PRICE LIST.

You must order your machine from Lane 1, Lane 2, or Lane 3.
The lane you order from will determine capability to order additional attachments.

LANE 1 DISTRIBUTION CENTER ARRANGEMENTS (DCA's)

To be complete, your LANE 1 machine order must at least contain:

- 1) Distribution Center Arrangement (DCA)
- 2) 0P-9001 Lane 1 order
- 3) Service Instruction Language
- 4) Packing (ex.0P numbers)
