BACKHOE LOADER WORK TOOLSShip Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

This Price List consists of Work Tools
for BHL-B, C, D, E, & F Series Machines.

The BHL-F Series Machine Price Lists
include Work Tools available with the
Machine. Use the Machine Price Lists
when ordering tools with machines.

Orders for BCP products will
automatically transfer from CMOPS to
Antares Parts Ordering via the bridge.

Effective March 1, 2013, BCP Work Tools
will be distributed using a new lane
strategy. This lane strategy will
ensure the quick delivery of high volume
work tools while controlling inventory
of work tools ordered less frequently.

For BCP Work Tool specific lanes, please
visit the "Availability & Lane
Information" section in Work Tool
Central at dealer.cat.com.
< <https://dealer.cat.com/products/wtc>>

CWTS Product- Work Tools are FOB CWTS
via LTL carrier unless otherwise noted
in this Price List. For availability
call 1-800-255-2372.

0P-0070 BACKHOE LOADER WORK TOOLS 0
PLEASE USE THE 0P REFERENCE NUMBER LISTED ABOVE WHEN ORDERING.

NC

All CWTS loose work tools will ship FOB from factory or work
tool distribution center. For availability, pricing, shipping,
general inquiries, or custom work tools, please call
1-800-255-2372.

**0P-0210 - Use this packing code for CWTS orders from this price list;
When ordering BCP products, do not use a packing code.**

-----	------------	------------------------	--------------------	--------------------------

414 THRU 450 BACKHOE LOADERS (CONT.)***THUMBS - REAR (Cont.)*****TINES**

FOR PIN ON BUCKETS, please use the following cross-reference to match your bucket with the proper tine.

BUCKET TYPE	BUCKET SIZE		
	12", 16", 18", 24"	30"	36"
Standard Duty	A1	B1	C1
Heavy Duty	A1	B1	C1
Heavy Duty Rock	A2	B2	C2
High Capacity*	A3*	B3	C3
Soil Excavation*	A3*	B3	C3

* Thumbs not recommended for 18" pin on High Capacity / Soil Excavation buckets.

FOR PIN GRABBER COUPLER BUCKETS, please use the following cross-reference to match your bucket with the proper tine.

BUCKET TYPE	BUCKET SIZE		
	12", 16", 18", 24"	30"	36"
Standard Duty	A3	B3	C3
Heavy Duty	A3	B3	C3
Heavy Duty Rock	A4	B4	C4
High Capacity	A5	B5	C5
Soil Excavation	A5	B5	C5

FOR PIN LOCK COUPLER BUCKETS, please use the following cross-reference to match your bucket with the proper tine.

BUCKET TYPE	BUCKET SIZE		
	12", 16", 18", 36"	24"	30"
Heavy Duty	C2	A2	B2
High Capacity	C4	C3	B4

Order one of the following, along with either 282-5409 or 282-5410 to get the complete Thumb.

COMPACT WHEEL LOADER WORK TOOLSShip Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

This WT-CWL Price List consists of Work Tool offerings for 902, 904, 906, 907, 908, 910, 914, & IT14 Compact Wheel Loaders.

Orders for BCP products will automatically transfer from CMOPS to Antares Parts Ordering via the bridge.

Orders for CWTS products will process in CMOPS and deliver directly to CWTS.

Effective March 1, 2013, BCP Work Tools will be distributed using a new lane strategy. This lane strategy will ensure the quick delivery of high volume work tools while controlling inventory of work tools ordered less frequently.

For BCP Work Tool specific lanes, please visit the "Availability & Lane Information" section in Work Tool Central at dealer.cat.com.
< <https://dealer.cat.com/products/wtc>>

CWTS Product-Work Tools are FOB CWTS via LTL Carrier unless otherwise noted in this Price List. For availability call 1-800-255-2372.

COUPLER

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

CENTER-LOCK PIN GRABBER COUPLER

W	292-4151	COUPLER, HYDRAULIC PIN GRABBER 809 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Service CENTER-LOCK COUPLER DOES NOT INCLUDE PIN GROUP!!! REQUIRES: Hydraulic kit and Connector lines. See HYD KIT Section below FOR USE WITH: B bucket family bucket linkage		\$7,369 NI

320 and 321D CR DEMOLITION AND SORTING GRAPPLE

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultation
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System
(FOS)
Failure to do so can lead to injury or death.

Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulletin GEJH0293.
For South America please consult Demolition and Sorting Grapple
product bulletin GEJH2293.

320 AND 321 EXCAVATOR (CONT.)**MULTI-PROCESSORS****MULTI PROCESSOR INFORMATION**

To have an operational demolition tool you need:

- 1) Jaws depending on purpose
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Low pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

324, 325, 328 AND 329 EXCAVATOR (CONT.)**DEMOLITION AND SORTING GRAPPLES**

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTs for ordering assistance and consultation regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System (FOPS)
Failure to do so can lead to injury or death.

Matches are dependent upon excavator configurations. Please consult Demolition and Sorting Grapple product bulletin GEJH0293. For South America please consult Demolition and Sorting Grapple product bulletin GEJH2293.

324, 325, 328 AND 329 EXCAVATOR (CONT.)**MULTI-PROCESSOR****MULTI PROCESSOR INFORMATION**

To have an operational demolition tool you need:

- 1) Jaws depending on purpose
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Low pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultin regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects. Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

DEDICATED "CB" RIPPERS***SHEARS*****HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shearer
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

324 THUMBS**THUMBS, HYDRAULIC**

To have an Operational Thumb you will need to order
one part number from each section:

Section 1. Thumb Group

Section 2. Bracket Group (if machine does not have thumb ready stick)

Section 3. Thumb hydraulic lines

Machines REQUIRE these Hydraulic Functions to Operate the Thumb:

1. Double or Combined Function Hydraulics

For ordering assistance for both Thumbs and Hydraulics

1. dWING: <https://gwtapps.cat.com/dWING/>
2. Refer to the following media numbers:
 - a. GEJQ0212: Thumb Product Bulletin
 - b. GEJQ0503: Thumb Quick Reference Card
 - c. GEJQ0215 for hydraulics
3. Contact CWTS at 800-255-2372

330 AND 336 EXCAVATOR (CONT.)**COUPLERS**

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

CENTER-LOCK PIN GRABBER COUPLER FOR "DB" FAMILY

W	292-4152	COUPLER, HYDRAULIC PIN GRABBER 1,230 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services CENTER-LOCK COUPLER DOES NOT INCLUDE PIN GROUP!!! REQUIRES: Hydraulic kit and Connector lines. See Hyd Kit Section below FOR USE WITH: DB and D family buckets Hydromechanical work tools. An additional HYDRO-MECH CONVERSION KIT is required. See Hyd Kit Section below.	1,230	\$9,896 NI
W	318-7130	COUPLER, HYDRAULIC PIN GRABBER 1,230 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services CENTER-LOCK NARROW COUPLER DOES NOT INCLUDE PIN GROUP!!! REQUIRES: Hydraulic kit and Connector lines. See Hyd Kit Section below FOR USE WITH: DB and D family buckets See Product Bulletin for bucket compatibility. Hydromechanical work tools. An additional HYDRO-MECH CONVERSION KIT is required. See Hyd Kit Section below.	1,230	\$8,996 NI

CENTER-LOCK PIN GRABBER COUPLER HYDRAULIC KITS

W	345-0640	FIELD INST KIT, HYD., CENTERLOCK 65 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services FOR USE WITH: Center-Lock Coupler, 330/336D INCLUDES: Control Group, Boom Lines & Stick Lines Used on a "Bare" machine. Connector lines 345-3158 are required to be ordered separately. NOTE: 330D and 336D DB Linkage machines operating hydromechanical work tools with a Center Lock Pin Grabber Coupler also require the addition of a hydromechanical conversion kit 422-2496.	65	\$2,471 NI

330 AND 336 EXCAVATOR (CONT.)**DEMOLITION AND SORTING GRAPPLE**

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulletin GEJH0293.
For South America please consult Demolition and Sorting Grapple
product bulletin GEJH2293.

330 AND 336 EXCAVATOR (CONT.)**MULTI-PROCESSOR****MULTI PROCESSOR INFORMATION**

To have an operational demolition tool you need:

- 1) Jaws depending on purpose
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Low pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

330 AND 336 EXCAVATOR (CONT.)***RIPPERS*****PIN ON "DB" RIPPERS**

W	352-2591	RIPPER, PENETRATION 51"1,693 61.6" (1564mm) Tip Radius FOR USE WITH: Pin On or Pin Grabber Coupler FOR USE WITH: DB linkage		\$14,057 NI
---	----------	--	--	-------------

DEDICATED "DB" RIPPERS***SHEARS*****HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

FOR USE WITH "DB" FAMILY LINKAGE ONLY!!**

To have an Operational Thumb you will need to order
one part number from each section:

- Section 1. Thumb Group (Order from Section 1)
Section 2. Bracket Group
Section 3. Thumb hydraulic lines

Machines REQUIRE these Hydraulic Functions to Operate the Thumb:

1. Double or Combined Function Hydraulics

For ordering assistance for both Thumbs and Hudraulics

1. dWING: <https://gwtapps.cat.com/dWING/>
2. Refer to the following media numbers
 - a. GEJQ0212: Thumb Product Bulletin
 - b. GEJQ0503: Thumb Quick Reference Card
 - c. GEJQ0215 for hydraulics
3. Contact CWTS at 800-255-2372

330 MH EXCAVATOR**GSH GRAPPLE INFORMATION:**

To have an operational grapple you will need:

- 1) Grapple
- 2) Crosshead
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate

- 1) Double or combined function (Open/Close)
- 2) Medium pressure auxiliary hydraulic circuit (Rotate)
- 3) High pressure boom and stick auxiliary lines (Open/Close)
- 4) Medium pressure boom and stick line (Rotate)
- 5) Hand control or foot valve to operate open/close, rotate

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

CENTER-LOCK PIN GRABBER COUPLER "TB" FAMILY

W	292-4153	COUPLER, HYDRAULIC PIN GRABBER 1,836		\$13,206 NI
		Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services		
		CENTER-LOCK COUPLER

349 & 345 EXCAVATOR (CONT.)***DEMOLITION AND SORTING GRAPPLE***

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultation
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System
(FOPS)
Failure to do so can lead to injury or death.

Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulletin GEJH0293.
For America's South please consult Demolition and Sorting Grapple
product bulleting GEJH2293.

HYDRAULICS**345D / 345B HYDRAULIC KITS**

REFER TO WT-HYD PRICE LIST FOR 345 SERIES HYDRAULIC KITS

MULTI-PROCESSOR**MULTI PROCESSOR INFORMATION**

To have an operational demolition tool you need:

- 1) Jaws depending on purpose
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Low pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

349 & 345 EXCAVATOR (CONT.)**PULVERIZERS****PULVERIZER INFORMATION**

The Pulverizer requires connecting lines and a bracket to operate.
The Machine has to be equipped with Control Arrangement and Lines,
for opening and closing the Pulverizer.
This Pulverizer CAN NOT rotate.
The outriggers must be down during operation.

Please contact CWTS for ordering assistance at 1-800-255-2372.

P235 HYDRAULIC PULVERIZER

W	349-6030	P235 HYDRAULIC PULVERIZER 7,542	\$93,364 NI
		Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services	
		REQUIRES: Mounting bracket and connecting lines	
		FOR USE WITH: 345D/349E with heavy duty reach boom and	
		3.35m or 3.9m stick	
		FOR USE WITH: 345D/349E with heavy duty reach boom,	
		3.35m stick and Center-Lock coupler	
		FOR USE WITH: 345D with mass boom, 2.5m or 3.0m stick and	
		with or without Center-Lock coupler

DEDICATED "UB" RIPPERS***SHEARS*****HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of
the excavators. Failure to do so can lead to injury or death.

SHEARS**HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

390 EXCAVATOR (CONT.)**COUPLERS**

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

140M/160M SCARIFIERS

W	212-6232	SCARIFIER, FRONT V-TYPE (QC) 865 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services (CWTS PRODUCT) INCLUDES: 5 teeth REQUIRES: lift group		\$4,301 NI
---	----------	--	--	-------------------

W	212-6231	SCARIFIER, FRONT V-TYPE (QC) 956 Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services (CWTS PRODUCT) INCLUDES: 11 teeth REQUIRES: lift group		\$4,725 NI
---	----------	---	--	-------------------

140M/160M MID-MOUNTED

W	310-9425	SCARIFIER, MID-MOUNT V-TYPE 1,945 INCLUDES: 11 teeth REQUIRES: Bracket 256-0783 and hose assembly 309-6989 to be installed on machine at factory or 310-9451 purchased loose from CWTS. CAN NOT BE USED WITH: Front Fenders installed or front axle. Tires 17.5" and larger. These will interfere with scarifier arms when making turns. There is also contact point with the mid-mount scarifier and the A-Frame in extreme positions.		\$13,965 NI
---	----------	---	--	--------------------

MINI HYDRAULIC EXCAVATOR WORK TOOLSShip Weight
lbsLIST PRICE
AT FACTORY**Standard Equipment:**

This Price List consists of Work Tools for models 300.9 through 308 of Mini Hydraulic Excavators.

Orders for BCP products will automatically transfer from CMOPS to Antares Parts Ordering via the bridge.

Effective March 1, 2013, BCP Work Tools will be distributed using a new lane strategy. This lane strategy will ensure the quick delivery of high volume work tools while controlling inventory of work tools ordered less frequently.

For BCP Work Tool specific lanes, please visit the "Availability & Lane Information" section in Work Tool Central at dealer.cat.com.
< <https://dealer.cat.com/products/wtc> >

CWTS Product-Work Tools are FOB CWTS via LTL carrier unless otherwise noted in this Price List. For availability call 1-800-255-2372.

0P-0227 MINI HYD EXCAVATOR WORK TOOLS 0
PLEASE USE THE 0P REFERENCE NUMBER LISTED ABOVE WHEN ORDERING.

NC

All CWTS loose work tools will ship FOB from factory or work tool distribution center. For availability, pricing, shipping, general inquiries, or custom work tools, please call 1-800-255-2372.

**0P-0210 - Use this packing code for CWTS orders from this price list.
When ordering BCP products, do not use a packing code.**

307 / 308 C Series Only

To have an Operational Thumb you will need to order
one part number from each section:

- Section 1. Thumb Group (Order from Section 1)
- Section 2. Bracket Group (Order from Section 2)
- Section 3. Toolbar Group (Order from Section 3)
- Section 4. Connector Lines (Order from Section 4)

Machines REQUIRE these Hydraulic Functions to Operate the Thu

1. Double or Combined Function Hydraulics
2. High Pressure Boom Auxiliary Lines
3. High Pressure Stick Auxiliary Lines
4. Connector Lines

For ordering assistance for both Hydraulics and Thumbs contact CWTS
at 800-255-2372 or refer to Media number GEJQ0215 for Hydraulics
or GEJQ0212 for Thumbs.

COUPLERS

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

311, 312 AND 314 EXCAVATOR (CONT.)**DEMOLITION AND SORTING GRAPPLE**

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Matches are dependent upon excavator configurations. Please consult Demolition and Sorting Grapple product bulletin GEJH0293. For South America please consult Demolition and Sorting Grapple product bulletin GEJH2293.

Please contact CWTS for ordering assistance and consultation regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System (FOS)
Failure to do so can lead to injury or death.

REFER TO WT-HYD PRICE LIST FOR 311 / 312 / 314 SERIES HYDRAULIC KITS

SHEARS**HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. Medium Pressure boom and stick auxiliary lines (Open/Close)
4. Low pressure boom and stick lines (Rotate)

please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of
the excavators. Failure to do so can lead to injury or death.

THUMBS

**THUMBS, HYDRAULIC
FOR 311D, 312E/D & 314D MACHINES**

To have an operational thumb you will need to order
one part number from each section:

- Section 1. Thumb Group
- Section 2. Bracket Group (if machine does not have Thumb Ready Stick)
- Section 3. Thumb hydraulic lines

Machines REQUIRE these Hydraulic Functions to Operate the Thumb:

- 1. Double or Combined Function Hydraulics

**For ordering assistance for both hydraulics and thumbs contact CWTS at
800-255-2372 or refer to media number GEJQ0215 for hydraulics or
GEJQ0212 for thumbs.**

315 & 316 EXCAVATOR (CONT.)**COUPLERS**

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

CENTER LOCK PIN GRABBER COUPLER

W	292-4161	COUPLER, HYDRAULIC PIN GRABBER 787 (CWTS PRODUCT) CENTER-LOCK COUPLER DOES NOT INCLUDE PIN GROUP!!! REQUIRES: Hydraulic kit and Connector lines. See Hyd Kit Section below		\$6,546 NI

DEMOLITION AND SORTING GRAPPLE

360 degrees rotating

Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

1) Grapple

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	------------------------	--------------------	--------------------------

315 & 316 EXCAVATOR (CONT.)***DEMOLITION AND SORTING GRAPPLE (Cont.)***

- 2) Mounting bracket
3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultation regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing a Falling Object Protection System (FOPS)

Failure to do so can lead to injury or death.

Matches are dependent upon excavator configurations. Please consult Demolition and Sorting Grapple product bulletin GEJH0293.

For South America please consult Demolition and Sorting Grapple product bulletin GEJH2293.

---	----------	---	--	-------------------

SHEARS**HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of the excavators. Failure to do so can lead to injury or death.

315 & 316 EXCAVATOR (CONT.)**THUMBS****THUMBS, HYDRAULIC**

To have an operational thumb you will need to order
one part number from each section:

Section 1. Thumb Group

Section 2. Bracket Group (if machine does not have Thumb Ready Stick)

Section 3. Thumb hydraulic lines

Machines REQUIRE these hydraulic functions to operate the thumb:

1. Double or combined function hydraulics

For ordering assistance for both Hydraulics and Thumbs contact CWTS
at 800-255-2372 or refer to Media number GEJQ0215 for hydraulics
or GEJQ0212 for thumbs.

DEMOLITION AND SORTING GRAPPLE

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulleting GEJH0293.
For South America please consult Demolition and Sorting Grapple
product bulletin GEJH2293.

AT FACTORY

Standard Equipment:

This Price List consists of Work Tools for all models of Skid Steer Loader, Multi-Terrain Loader and Compact Track Loader.

216, 226, 228, 232, 236, 242, 246, 247, 248, 252, 256, 257, 259, 262, 267, 268, 272, 277, 279, 287, 289, 297 and 299.

Orders for BCP products will automatically transfer from CMOPS to Antares Parts Ordering via the bridge.

Effective March 1, 2013, BCP Work Tools will be distributed using a new lane strategy. This lane strategy will ensure the quick delivery of high volume work tools while controlling inventory of work tools ordered less frequently.

For BCP Work Tool specific lanes, please visit the "Availability & Lane Information" section in Work Tool Central at dealer.cat.com.
< <https://dealer.cat.com/products/wtc> >

For ordering Hammers, please use the Hammer Price List. Hammers cannot be ordered using 0P-0096.

CWTS Product- Work Tools are FOB CWTS via LTL carrier unless otherwise noted in this Price List. For availability call 1-800-255-2372.

WORK TOOL COMPATIBILITY CHART (Cont.)

COMPATIBILITY TABLE NOTES

* Work tools requiring HF/XPS can only be used on machines with HF/XPS or XHP option

* Work tools requiring XHP can only be used on machines with XHP option

* PC205B is compatible with B3 HF & D Series SF/HF machines with standard flow 1/2" quick disconnects and case drain line; designed to operate in SF or HF, not HF XPS

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY

AUGER BITS

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	------------------------	--------------------	--------------------------

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**AUGERS (Cont.)**

Standard Duty, Approx. 50" (1270mm) Length, HEX Shaft, Double Flight
Bit teeth are hardened, reversible and forged from medium carbon
alloy steel. Teeth are held in place by bolt and nut.

W	153-4083	BIT, AUGER 6" 50 (BCP Product) Includes TWO teeth and pilot point		\$317 NI
W	153-4084	BIT, AUGER 9" 75 (BCP Product) Includes FOUR teeth and pilot point		\$508 NI
W	153-4085	BIT, AUGER 12" 100 (BCP Product) Includes FOUR teeth and pilot point		\$621 NI
W	366-7752	BIT, AUGER 15" STANDARD 109 (BCP Product) Includes FIVE teeth and pilot point		\$715 NI
W	153-4086	BIT, AUGER 18" 144 (BCP Product) Includes SIX teeth and pilot point		\$824 NI
W	153-4089	BIT, AUGER 24" 200 (BCP Product) Includes EIGHT teeth and pilot point		\$1,031 NI
W	217-3194	BIT, AUGER 30" 212 (BCP Product) Includes TEN teeth and pilot point		\$1,151 NI
W	153-4091	BIT, AUGER 36" 380 (BCP Product) Includes TWELVE teeth and pilot point		\$1,600 NI

SPECIAL APPLICATION BITS

Industrial bits, approx. 48" (1219mm) length, HEX shaft, single
flight. Bit teeth are hardened and forged from medium carbon alloy
steel. Teeth held in place by press fit. Teeth are quickly changed
by soft hammer to insert or remove tooth. Ideal for ground conditions
where teeth need to be changed frequently. Multiple tooth options
below for various ground conditions.

See March 2011 Dealer Bulletin at dealer.cat.com

W	372-0260	BIT, AUGER 6" INDUSTRIAL 57 (BCP Product) Includes TWO teeth and pilot point		\$503 NI
---	----------	--	--	----------

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	------------------------	--------------------	--------------------------

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**AUGERS (Cont.)**

W	372-0261	BIT, AUGER 9" INDUSTRIAL 72 (BCP Product) Includes FOUR teeth and pilot point		\$596 NI
W	372-0262	BIT, AUGER 12" INDUSTRIAL 91 (BCP Product) Includes FOUR teeth and pilot point		\$679 NI
W	372-0263	BIT, AUGER 16" INDUSTRIAL 114 (BCP Product) Includes SIX teeth and pilot point		\$1,000 NI
W	372-0264	BIT, AUGER 18" INDUSTRIAL 107 (BCP Product) Includes SIX teeth and pilot point		\$1,029 NI
W	372-0265	BIT, AUGER 24" INDUSTRIAL 151 (BCP Product) Includes EIGHT teeth and pilot point		\$1,357 NI

Optional replacement teeth available through Parts only:

371-3694 Gage Tooth (Outer)
 371-3690 Flat Tooth (Inner)
 371-3695 HF Gage Tooth (Outer)
 371-3691 Flat Carbide Tooth (Inner)
 371-3696 Chisel Tooth (Inner)
 371-3692 Flat Hard Face Tooth HF (Inner)
 371-3697 Chisel Carbide Tooth (Inner)
 371-3693 Flat HF Tooth (HF Both Sides, Inner)
 371-3698 Chisel HF Tooth (Inner)

W	153-4092	TREE BIT, AUGER 24" 163 (BCP Product) Tapered bit, includes FIVE teeth on 24" (610mm) width, FOUR teeth on 12" (305mm) width and pilot point		\$940 NI
W	153-4095	TREE BIT, AUGER 36" 310 (BCP Product) Tapered bit, includes SEVEN teeth on 36" (914mm) width, SIX teeth on 18" (457mm) width and pilot point		\$1,474 NI

BOLT-ON ROCK HEAD

Transform standard auger bit to rock drill bit by mounting bolt-on rock head to standard bit. Rotating bits (similar to cold planer bits) extend life and provide better penetration into rocky conditions. Bolt-on rock head can be quickly installed and removed depending on ground conditions for maximum versatility.

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	------------------------	--------------------	--------------------------

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**AUGERS (Cont.)**

W	372-0230	ROCK HEAD, 6" BOLT-ON 23 (BCP Product) Includes 8 teeth and pilot point		\$286 NI
W	372-0231	ROCK HEAD, 9" BOLT-ON 33 (BCP Product) Includes 10 teeth and pilot point		\$360 NI
W	372-0232	ROCK DRILL HEAD, 12" STANDARD 41 (BCP Product) Includes 12 teeth and pilot point		\$429 NI
W	372-0233	ROCK HEAD, 15" BOLT-ON 47 (BCP Product) Includes 14 teeth and pilot point		\$503 NI
W	372-0234	ROCK DRILL HEAD, 18" STANDARD 55 (BCP Product) Includes 16 teeth and pilot point		\$572 NI
W	372-0235	ROCK DRILL HEAD, 24" STANDARD 79 (BCP Product) Includes 20 teeth and pilot point		\$750 NI

Optional replacement teeth available through Parts only:
372-0259 Standard Rock Drill Head Tooth

ADAPTERS

W	156-6329	ADAPTER, AUGER - HEX TO ROUND 15 (BCP Product) HEX output shaft 2" (50mm) to round output shaft 2 9/16" (65mm)		\$175 NI
W	217-3191	ADAPTER, AUGER - ROUND TO HEX 15 (BCP Product) Round output shaft 2.56" (65mm) to HEX output shaft 2" (50mm)		\$150 NI

EXTENSIONS

W	372-0256	EXTENSION, TELESCOPING 3' 43 (BCP Product) FOR USE WITH: All Auger Bits Three holes at 1' (0.3M) increments on extension to insert retention pin to vary depth; Insert extension inside auger bit Recommend retention pin 372-0258 for quick depth change		\$360 NI
---	----------	--	--	----------

USE	REF NO.	CATERPILLAR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-----	------------	------------------------	--------------------	--------------------------

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**AUGERS (Cont.)**

W	372-0257	EXTENSION, TELESCOPING 6' 77 (BCP Product) FOR USE WITH: All Auger Bits Six holes at 1'(0.3M) increments on extension to insert retention pin to vary depth; Insert extension inside auger bit Recommend retention pin 372-0258 for quick depth change		\$607 NI
W	156-6328	EXTENSION, AUGER 12" 20 (BCP Product) 12" (305mm) length HEX shaft FOR USE WITH: All Auger Bits		\$157 NI
W	217-3192	EXTENSION, AUGER 24" 33 (BCP Product) 24" (610mm) length HEX shaft FOR USE WITH: All Auger Bits		\$211 NI

Optional replacements available through Parts only:

Retention pin uses lynch (ring) pin to secure bit & drive unit instead of bolt & 2 nuts. Allows for quick change of flights, extensions, & drive kits.

372-0258 Retention Pin Kit

Replacement teeth & hardware for all auger bits:

153-4094 Standard Duty Tooth
174-9566 Hard Face Tooth optional
174-9567 Carbide Inserted Tooth optional
153-4093 Pilot Point

Required pilot point hardware:

7X-2549 Bolt (1)
6V-7687 Locknut (1)

Required teeth hardware:

6V-8959 Bolt (1)
6V-7687 Locknut (1)

BACKHOES

W	304-9903	BACKHOE, BH150 2,203 (BCP Product) 10ft (3.05m) dig depth 5.3ft (1615mm) sideframe width Requires Standard flow hydraulics No mounting group included - MUST ORDER one mounting group from section below or 0P1852 for a "Dealer Supplied Mounting Group" REQUIRES: 382-6182 Conversion Kit for D-Series XHP machines with serial numbers beginning with NLC & SHY		\$16,819 NI

BOLT-ON TOOTH BARS :

Series I - Toothbars for use with General Purpose and Multi Purpose buckets with bare base edges.

136-8734	For use with: 60" GP or MP Buckets Includes 7 uniteeth
136-8735	For use with: 66" GP or MP Buckets Includes 8 uniteeth
136-8736	For use with: 72" GP or MP Buckets Includes 8 uniteeth
217-4878	For use with: 78" GP or MP Buckets Includes 8 uniteeth
275-5427	For use with: 84" GP or MP Buckets Includes 8 uniteeth

Series II - Toothbars for use with General Purpose and Multi Purpose buckets fitted with bolt-n cutting edges.

159-0330	For use with: 60" GP or MP Buckets Includes 7 uniteeth
159-0340	For use with: 66" GP or MP Buckets Includes 8 uniteeth
159-0350	For use with: 72" GP or MP Buckets Includes 8 uniteeth
195-9160	For use with: 78" GP or MP Buckets Includes 8 uniteeth
264-2084	For use with: 84" HC or MP Buckets Includes 8 uniteeth

Required Mounting Hardware for Series I and
and Series II Toothbars:

2J3507-Nut 2 pcs.
3B4516-Lockwasher 2 pcs.
5P8250-Washer 2 pcs.
8S9093-Bolt 2 pcs.

COLD PLANERS

CAT Cold Planers are designed for small to medium size paving jobs in residential and commercial applications. Cold planers are used to economically restore asphalt and concrete paved surfaces to a specified grade or level. They are ideal for milling bumps or imperfections in expanded pavements, removing cracked or deteriorated pavement, removing traffic lane stripes and working on jobs where weight restrictions limit the use of dedicated planers.

Please see dealer.cat.com for the latest cold planer mktg bulletins

CONVERSION KITS

Conversion kits are available to convert work tools to function on the new B3 High Flow and D Series machines (not for C2 machines).

The secondary auxiliary circuits are moving from the machine to the work tool. The following kits provide the Bill of Material for the change. Please consult the list below for the required work tool conversion kit.

The work tool interface for B3 High Flow and D Series machines consists of two 1/2" Quick Disconnects (QD), case drain line and 14 pin electrical connector. These hydraulic lines provide flow for standard flow, high flow (HF) and High Flow XPS (HF XPS), based on the machine configuration.

The SSL/CTL D XHP work tool interface consists of two 3/4" Quick disconnects, case drain line and 14 pin electrical connector. These hydraulic lines provide standard flow, high flow XPS and XHP flow, based on the machine configuration. Please review the marketing bulletin explaining the conversion process. It is located at dealer.cat.com under the SSL/CTL machines section.

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**MULCHERS**

Mulchers are designed for high performance cutting and mulching vegetation, saplings and undergrowth from overgrown agricultural and forested terrain. The hydraulic mulcher reduces saplings, shrubs and trees into mulched material, making it ideal for environmental maintenance, such as brush clearing and creating fire lanes. Other applications include reclaiming untilled land, removing foliage from building construction sites, and shredding pruned material and waste for biomass production.

dealer.cat.com/cda/files/3386820/7/Marketing_Bulletin_Mulchers.pdf

NOTE: Engine Debris Kit and Turbo Debris Guard Kit are recommended for use in applications which create airborne debris, such as: mulching, brush cutting, paper recycling and certain agriculture practices. Please refer to the machine price pages for part numbers under: Field Installed Attachments Kit, Debris Barrier, Engine and Kit, Turbo Debris Guard.

W	247-5900	MULCHER, HM312, CARBIDE TEETH 2,315	\$23,150 NI
		(BCP Product)	
		48" (1220mm) drum width - 28 fixed teeth	
		65" (1650mm) overall width	
		8" (200mm) Max cutting diameter	
		V-belt drive	
		INCLUDES: Hydraulic lines with quick disconnect	
		Adjustable push/guard frame	
		Hydraulically operated front hood	
		REQUIRES: High Flow XPS Hydraulics	
		Door Gp-Polycarbonate	
		Guard, Manual Coupler 231-2578 (Qty two req'd)	
		REQUIRES: 382-6180 & 382-6192 Conversion Kits for D-Series XHP	
		machines with serial numbers beginning with NLC & SHY	
		REQUIRES: 382-6180 Conversion Kit for D-Series XHP machines with	
		serial numbers beginning with NLC & SHY	
		REQUIRES: 382-6180 Conversion Kit for B3-Series HF and	
		D-Series SF/HF/HF XPS

Optional replacement teeth available through Parts only:

REPLACEMENT TEETH for HM312 and HM315 (Double Bolt Retention)

NOTE: To order a complete set of teeth, please order
28 pieces for an HM312 (247-5900) and 34 pieces for an HM315
(308-0250, 327-3942)

2475913 TOOTH, CARBIDE; Recommended for hardwoods (Order 32)

2475914 TOOTH, CARBIDE, SEVERE DUTY; Recommended for hardwoods
(Order 2 for drum edges)

3080221 TOOTH, CHISEL; INCLUDES: 308-0222 Insert (Order 34)

3080222 INSERT GROUP, CHISEL; Replacement insert for 308-0221;
Recommended for vines and softwoods

REPLACEMENT TEETH for HM315B and HM415B (Single Bolt Retention)

NOTE: To order a complete set of teeth, please order

3826262 TOOTH AS., CUTTER; (Order 32)

3826263 TOOTH AS., CUTTER, SEVERE DUTY; (Order 2 for drum edges)

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)**SHEARS**

Standard S305 Equipment includes 360 degrees rotatable tool, speed valve for faster jaw closing, removable and reversible cutters, and easy cutting-tolerance adjustment.

W	441-6166	S305 HYDRAULIC SCRAP SHEAR 1,302		\$34,742 NI
		Lane 1 Work Tool - Ships loose from Caterpillar Work Tool & Services (CWTS PRODUCT)		
		INCLUDES: 171-5495 S305 HYDRAULIC SCRAP SHEAR		
		171-5558 Mounting Bracket		
		441-6167 Lines, Connecting with 1/2" quick disconnects and 14 pin electrical harness		
		REQUIRES: Standard flow hydraulics		
		REQUIRES: Left joystick to be WT Deluxe		
		No conversion required if used on B3-series high flow or any D-series machines.		
		REQUIRES: 377-1579 Conversion Kit for A/B/B2/B3/C/C2 Series standard flow machines		
		REQUIRES: 382-6188 Conversion Kit for D-Series XHP machines with serial numbers beginning with NLC & SHY		
		REQUIRES: 375-6445 Conversion Kit for D-Series XHP machines with serial numbers beginning with JST & ETL		
		REQUIRES: 375-6445 Conversion Kit for B3 Series HF and D-Series SF/HF/HF XPS		
		FOR USE WITH: All Skid Steer models except 216, 216B, 216B2, 216B3, 226, 226B2, 226B3, 228.		

SNOW BLOWERS

Hydraulic operated direct drive, reversible auger and impeller, and non-binding 180 degree rotating chute and deflector.

NOTE: Operator protection against flying objects REQUIRED. If not ordered with machine; Door, Cab, Polycarbonate should be ordered. Please see machine price list for availability.

216 THRU 299 CTL, MTL, AND SSL LOADERS (CONT.)***WORK TOOLS - AEM*****APPROVED EQUIPMENT MANUFACTURERS**

The Box Blade is available for NACD only.

Caterpillar does not warrant, service or assume responsibility for AEM work tools.

All orders, pricing confirmation and other communications for AEM work tools must be directed to the manufacturer, ATI Corporation. (See below for contact information)

At time of order, please specify the machine series (A, B or C-Series) that will be outfitted with the box blade.

Orders need to be placed directly with the manufacturer as follows:

ATI Corporation
250 Earland Drive
New Holland, Pennsylvania 17557

Please contact:

Jack Herr (sales@preseeder.com) or
Dale Sensenig (dale.s@preseeder.com)

Phone: 800-342-0905

SMALL WHEEL LOADERS WORK TOOLSShip Weight
lbsLIST PRICE
AT FACTORY

Standard Equipment:

This WT-SWL Price List consists of Work Tool offerings for the following machines:

K Series: 924K, 930K, & 938K
G & H Series: 924, 928, 930, & IT28

938G & IT38G Work Tools are located in the WT-WL Price List.

Orders for BCP products will automatically transfer from CMOPS to Antares Parts Ordering via the bridge.

Orders for CWTS product will process in CMOPS and deliver directly to CWTS.

Effective March 1, 2013, BCP Work Tools will be distributed using a new lane strategy. This lane strategy will ensure the quick delivery of high volume work tools while controlling inventory of work tools ordered less frequently.

For BCP Work Tool specific lanes, please visit the "Availability & Lane Information" section in Work Tool Central at dealer.cat.com.
< <https://dealer.cat.com/products/wtc> >

CWTS Product-Work Tools are FOB CWTS via LTL carrier unless otherwise noted in this Price List. For availability call 1-800-255-2372.

0P-0082 SMALL WHEEL LOADER WORK TOOLS 0
PLEASE USE THE 0P REFERENCE NUMBER LISTED ABOVE WHEN ORDERING.

NC

All CWTS loose work tools will ship FOB from factory or work tool distribution center. For availability, pricing, shipping, general inquiries, or custom work tools, please call 1-800-255-2372.

**0P-0210 - Use this packing code for CWTS orders from this price list;
When ordering BCP products, do not use a packing code.**

W	132-2443	CARRIAGE, FORK 681	\$2,383 NI
---	----------	---------------------------------	-------------------

(BCP PRODUCT)

Standard carriage. Does not include tines.

REQUIRES: Coupler, STANDARD or Coupler, HIGH LIFT

FORK AND CARRIAGE ASSEMBLIES (IT COUPLER)**930H / 930G**

W	300-6830	FORK, WIDE CARRIAGE 72" TINES 1,905	\$10,640 NI
---	----------	--	--------------------

(BCP PRODUCT)

Recommended for Water & Sewer applications

INCLUDES: 96" (2438mm) CARRIAGE & 72" (1830mm) tines.

W	354-1334	FORK, PIPE & POLE 3,800	\$34,243 NI
---	----------	--	--------------------

(CWTS PRODUCT)

106" (2693mm) Carriage, 72" (1829mm) Tines

INCLUDES: Jumper Lines

REQUIRES: Standard (IT) Coupler and 3rd Valve

TINE WIDTH: 7" (178mm)

TINE THICKNESS: 2.5" (65mm)

FORK AND CARRIAGE ASSEMBLIES (IT COUPLER)**930H / 930G / IT28G**

W	242-4048	FORK, PALLET (QC)-IT 1,144	\$6,150 NI

TRACK TYPE TRACTOR WORK TOOLS	Ship Weight lbs	LIST PRICE AT FACTORY
-------------------------------	--------------------	--------------------------

Standard Equipment:

This WT-TTT Price List consists of Work Tools for D3 through D11 Track-type Tractors. Please use the following 0P number when ordering loose Work Tools for Track-type Tractors:

0P-0673	TRACK TYPE TRACTOR WORK TOOLS 0	NC
	PLEASE USE THE 0P REFERENCE NUMBER LISTED ABOVE WHEN ORDERING.	

All CWTS loose work tools will ship FOB from factory or work tool distribution center.
For Availability, Pricing, Shipping, General Inquiries or Custom Work Tools, please call 1-800-255-2372.

Winches are stored and shipped from the Parts Distribution System
CMOPS orders will be transferred over the bridge into ANTARES.

0P-0210
Please use this packing code to orders from this Price List.

M313, M315 AND M316 EXCAVATORS (CONT.)***COUPLERS M316 / M315 / M313***

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

DEMOLITION AND SORTING GRAPPLE

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultation
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System
(FOS)
Failure to do so can lead to injury or death.

**Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulletin GEJH0293.
For South America please consult Demolition and Sorting Grapple
product bulletin GEJH2293.**

M313, M315 AND M316 EXCAVATORS (CONT.)**SHEARS****HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool
 Speed valve for faster jaw closing
 Removable and reversible cutters
 Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372.

COUPLERS M320 / M318

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

M318 and M322 DEMOLITION AND SORTING GRAPPLE

360 degrees rotating
Fully protected hydraulics, cylinders and lines

To have an operational tool you need:

- 1) Grapple
- 2) Mounting bracket
- 3) Connecting Lines

Tool carrying machines require these hydraulic functions to operate:

1. Tool Control (Open/Close)
2. Medium Pressure Circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand controls to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consultation
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.
Caterpillar recommends installing a Falling Object Protection System
(FOS)
Failure to do so can lead to injury or death.

**Matches are dependent upon excavator configurations. Please consult
Demolition and Sorting Grapple product bulletin GEJH0293.
For South America please consult Demolition and Sorting Grapple
product bulletin GEJH2293.**

COUPLER M322

The use of a quick coupler on a excavator with certain combinations of linkages (boom & stick) and work tool attachments has the potential for interference with the cab and or the front of the machine during operation. Always check for interference when first operating the machine with a quick coupler and a new work tool. Contact your Caterpillar dealer for additional information.

M322 EXCAVATOR (CONT.)***SHEARS M322*****HYDRAULIC SCRAP SHEAR INFORMATION**

360 degrees rotatable tool

Speed valve for faster jaw closing

Removable and reversible cutters

Easy cutting-tolerance adjustment

To have an operational demolition tool you need:

- 1) Hydraulic scrap shear
- 2) Mounting bracket
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate:

1. Double or Combined function (Open/Close)
2. Low flow Double Function circuit (Rotate)
3. High Pressure boom and stick auxiliary lines (Open/Close)
4. Medium pressure boom and stick lines (Rotate)
5. Hand control or foot valve to operate open/close, rotate functions

Please contact CWTS for ordering assistance and consulting
regarding your hydraulic requirements at 1-800-255-2372.

WARNING:

This product can create a hazard from flying objects.

Caterpillar recommends installing front guarding on the cabs of
the excavators. Failure to do so can lead to injury or death.

M322 MH EXCAVATOR**GSH GRAPPLE INFORMATION:**

To have an operational grapple you will need:

- 1) Grapple
- 2) Crosshead
- 3) Connecting lines

Tool carrying machines require these hydraulic functions to operate

- 1) Double or combined function (Open/Close)
- 2) Medium pressure auxiliary hydraulic circuit (Rotate)
- 3) High pressure boom and stick auxiliary lines (Open/Close)
- 4) Medium pressure boom and stick line (Rotate)
- 5) Hand control or foot valve to operate open/close, rotate

Please contact CWTS for ordering assistance and consulting regarding your hydraulic requirements at 1-800-255-2372

SERRATED EDGE BUCKETS

Serrated Edge Rock Buckets are based on the Standard Rock Bucket design and can be used for face loading rehandling low abrasion materials where greater penetration is required, such as limestone or coal applications. These buckets feature a serrated base edge design that does not require any additional G.E.T.
